I at once made application to the most skilful physicians in the country, but, receiving no assurance from them that my hair could aram be restored. Documents, beeflessly read, and long since lost or misiad, are quoted from with fluency and confidence, as though with industrials accuracy, when the citations to made do gross. FROM DR. ATLEE.

I have used the Hartell All glass Jar in my fami y for the preservation of Fruit, and in comparing it with others previously employed for the purpose, I consider thighly prelevable, and particularly so to metal Jars or lars with metal tops. It is perfectly air tight, and free from all possibility of taint, as is the case with metal. It is secured with more ease, rapidity, and certainty than by cement or solder, and opened readity, while the fruit is kept in the most admirable manner. Having tested the Jar well, consider that it meets all the indications that can be desired.
