(For The Frees.) BTROUDSBURG, MODICE CO., Pa., September 3d, 1860. MR. EDITOR : We are true and devoted friends of Stephen A. Douglas and Herschel V. Johnson and therefore sincerely desire a pure Douglas and Johnson electoral ticket for the State of Pennsylvania. We can give some 1,500 Democratic ma jority for it in this the "banner" county.

Right should triumph over all despotio power influence, and imposition. Justice should prevail over wrong, deception, and political trickery.

TROUBLE WITH THE ORANGEMEN. A despatch from Kingston, Tuesday, September , published in the Times of yesterday, says :

4, published in the Times of yesterday, says: The Frince of Waies left Brockville in the King-ston at 9 o'slock this morning He was attended for some distance up the river by a fleet of small yachts, and artived off the city aborty after 3 o'slock. Five or six river and lake steamers and orowds of passengers and bands of music had goes of to meet and come back with him. The Volu-tor Rifles were drawn up in line to receive him; also a battery of volunteer artillery. A number of gentlemen and ladies, having paid their half-dollars, were gethered together on the market bat-terr, flifform, where the ornamental arch was erosted, inside which the city address was to be presented.

tracted, indust which the variable of the bat-presented as the Kingston came into the herbor the bat-teries salued, but the Prince disapolnished those-who expected to see bim, for he has not landed yet. Although it is difficult to narrate the exact facts which have led to this untoward event without making some errors, the following infor-mation is given with a desire to be serupulously arant: A novel political demonstration is to take place in this city on the 12th instant-something altogether unlike any previous meeting of that

tant. By day, should the weather be hazy and the whitewashed mark and beacon for the Whittle rock indistinct, there is a dark peak over the southern side of Hout Bay, which being brought on with Elsey peak, on a N. by W. bearing, will lead clear (but close) to the westward of the Whit-tie rock. ile rook. It is to be observed that there is no buoy at pre-sent on the Whittle rook. [The bearings are magnetic. Variation, 29 deg. 40 min. west in 1860.] This notice will affect the following Admiralty charts: Cape of Good Hope, No. 638; Africa, West Coast, Saint Helens Bay to Cape of Good Hope, No. 2,091; Africa, Sheet 4, No. 596; and Indian Cosan, Nos. 2,483 and 7482. Also, South Africa Lights, List No. 4.
