WHAT SHALL WE DO FOR COFFEE?—It appears from statistics recently published that the consumption of coffee is increasing much more rapidly than the production. Last year the total consumption of Europe and the United States alone was 330,000 tons, while the production of all other countries was but 312,000 tons. The probable consumption of the present year is estimated at 337,000 tons, and the probable production at 274,000; and of next year the former at 313,000 tons, and the latter at 345,000. The New York Post hopes that it will become so costly that none but those who can afford without inconvenience to pay Isige doctors' bills can afford to use it.

The Woman who was Tarred and Fea-THE WOMAN WHO WAS TARRED AND FEATHERED.—The aggravated case which courred near Detroit, Michigan, a short time since, whereby a woman received the and feathers and a ride on a rail, has terminated less tragically than was expected. The woman, who was taken from the bed of one Ganung and mercilessly abused, has compromised by marrying the said Ganung, thus legalizing the existence of two or three children. Two daughters by a former wife, who were aiders and abettors in the outrage, took her in hand as ahe came home from the wedding, and according to a all accounts, nearly pounded her to death.

BLAOKS AND MULATTOES.—According to the census of 1850; 2,957,657 of the slaves of the United States were black, or of African descent, and 246,656 were mulattoes. The mulattoes in the United States are about one sighth as numerous as the blacks—the free mulattoes are more than half the number of the free blacks, whilst he slave blacks, whilst pearly half of the colored people in the non-slaveholding States are mulattoes. In Ohio and the Territories there are more mulatoes than blacks.

A LARGE number of letters were found THE WOMAN WHO WAS TARRED AND FEA-

mulatioes than blacks.

A LARGE number of letters were found broken open and scattered about the streets in Galveston, Toxas, a few mornings since, and rule more of a robbery were immediately in circulation, but an investigation revealed that two little girls were the authors of the mischief. They daw the boxes full, and took out as many as they could conveniently carry, to see what was in them. When found one of the girls was admiring, a draft for \$1,000. The postmaster who has that office in charge deserves an increase of salary.

NEAR GRASSHOPPER FALLS, Kansas, a famous drove of wild horses is seen; but so fleet are they that all altempts to capture the full-grown horses are failures. The patriarch of the tribe is a chesimat horse, somewhat larger than the Morgan stock, is a mark for all pursuers, but has never been overtaken, although a reward of five hundred dollars is offered for the capture of this "Chestmut King."
