— A number of French bishops have recently been vicitimized by letters from London, under female names, representing a young Fronch woman of good family and education, who was exposed in London, not only to attempts upon her rivitue, but upon her faith in the Catholic religion, and who needed only a small sum to enable her to return to Parls and safety. —Father Gavaszi's late speeches at Naplos were delivered from a box of the San Carlo theatre. The performance was for the benefit of the charitable asplums, and Father Gavaszi took advantage of it to address a different audience to that of the street. He spoke in the intervals between the acts, and had the curtain raised that the performers might hear him. He was greatly applauded.

CERTIFICATE OF A. HAYES, M. D., OF HOSTON.

It is well known that the medicinal effects of Protoxide of Iron are lost by even a very brife exposure to air, and that to maintain a solution of Protoxide of Iron, without further oxidation, has been deemed impressible. In the PERUVIAN SYRUP this desirable point is attained by consinxarion in A way defore inknown; and this solution may replace all the proto-carbonates, oltrates, and istrintes of the Materia Middle.
