FINANCIAL AND COMMERCIAL The Money Market. PHILADELPHIA, Nov. 7, 1860. A light business was done to-day in stocks, but there was nothing like the excitement that has been so freely predicted, and by some anticipated, as the consequence of Mr. Lincoln's election. That event has, in fact, been foreseen, and, so to speak, discounted by political stockjobbers and bears, and all the effect that the election is likely to have has been recorded in the past few weeks. Now that the veiling is done, we may reasonably expect a season of more quiet and regular business in stocks. There is a tair demand for money, and transseason of more quiet and regular business in stocks. There is a tair demand for money, and trausseison of more quiet and regular business in stocks. There is a tair demand for money, and transactions in good commercial paper are quoted at from six to seven per cent. In New York, according to the Evaning Post, the stock market is lower to-day. Early in the day large sales were made at an advance of last per cent. on New York Central and Erig, but to-wards the close prices gave wey laif per cent. The bears were very setive, and seem to have fixed uponto-day as the best opportunity for break. Their opporations for the few days previous were small, but everything on the list today receives attentien at their hands. The State stocks were firm, and, in most cases, better. The sales of New York Central were about 6,000 shares, commencing at 51 and losing at 52? Erie was among the firmest of the list, and sold freely at 34? A board of eight directors was elected, consisting of the following-named gentlemen: Henry, P. Haven, Robert Ceit, Acors Barns, Francis Allyn, and Wanton A. Weaver, of New London; William G. "The loading features of this traffic are very distinct, and not a little striking. Out of £22,000,000 and upwards of gold which we received in 1859, more than eight millions and a half came from Australia, and nearly eight millions from the United States,—z.e. California; while Russia still furnished two millions, and South America almost as much more, leaving but a very small balance to be supplied by the rest of the world And what does the reader suppose we did with all these precious consignments? We sent bearly three-quarters of the whole £14 902 469) to France, and received from France in roturn more silver than we got from all the mines of Mexico and Peru together—in fact, nearly twice as much; for, whereas the latter countries sent us andly £3, for, whereas the latter countries sent us andly £3, for, whereas the latter countries sent us andly £3, for, whereas the latter countries sent us andly £3, for, whereas the latter countries sent us andly £3, for, whereas the latter countries sent us andly £3, for, whereas the latter countries sent us andly £3, for, whereas the latter countries sent us andly £3, for, whereas the latter countries sent us andly £3, for, whereas the latter countries sent us andly £3, for, whereas the latter countries sent us andly £3, for, whereas the latter countries sent us andly £3, for, whereas the latter countries sent us andly £3, for, whereas the latter countries sent us andly £3, for, whereas the latter countries sent us andly £3, for, whereas the latter countries sent us andly £3, for, whereas the latter countries sent us andly £3, for, while the current of gold runs from Oalifornia and Australia, through England, to France, through England, to the ancient realms of the East. SHIP M WHITMONE—St Johns Port, Oct 21—About 5000
bigs of wheat and 100 bbis of flour have been landed on
the beach. The water has been kept out of the ship, so
that we had not more thann foot for the last day or two,
and sometimes the pumps sucked. The spring tides
come on to-day, ard we expect the ship will soon float
in her bed; if the weather should be moderate she will
then come off; if not, she will then go higher up, and no
anchors can hold her. SPECIAL NOTICES. " HROAT AND LUNG DISEASES -Any form of disease of the Breathing Organs are at once relieved and permanently oured by the use of DR. J. R.
