The house of Robert Stewart, near Columbia, S. C., having been closed long energin to excite suspicion, was entered, and Stewart found lying on a bed by the side of the dead body of his wife, which was horribly multisted. The head was se-veroly out in several piaces, and the body had been punched and disfured with a piece of iron, which the fiend must have heated for the purpose. He had been on a drukten frolie, and was still in that condition when he committed the horrible deed.

The trial in the mysterious murder of a wealthy old lady at Stepeny, London, resulted in the conviction of Mullins, the man who came forward as an informer, and charged an innocent man with the commission of the deed. Sentence of death has been passed upon Multins.
