VIRGINIA NOT WANTED. The Charleston Mercury scotts at the idea of a Southern Confederacy, such as will probably be proposed by the Virginia Legislature. The Mer- licury says that other Southern States won't have Virginia at any price. Political matters are very dull hore. A GEORGIA TROGRAMME. The Savannah Kepublican proposes this com- promise: The following programme of action has the ap- proval of many of our best citizens and soundest thinkers: Lot the convention of the people be called, as provided for in the Senate bill, which we print in another column. Every delegate to that convention, under that bill, will stand sledged to some manner of resistance. They advocate re- ments of the several Blatform, with alteration of the words "General Government or Govern- ments of the several States," instead of Congress, in speaking of resistance to approhended aggress- sion. Put in a new plank in the platform, de- manding indemnity for the path of Congress, in sheaking of resistance to prohended aggress- sion.
