THE AMALGAMATION OF LAN-GUAGES.-There is a growing tendency in this age to appropriate the most expressive works of other languages, and after a while to incorporate them into our own; thus the word Cephalo, which us from the Greek, signifying "for the head," is now becoming popularized in connection with Mr. Spalding's great headache remedy, but it will soon be used in a more general way, and the word Cephalio will become as common as Electrotype and many others whose dis-tinction as foreign words has been worn away by common usage, until they seem "native and to the manor born."

Finding that the workman were immovable in their resolve not to participate in any context with the forces of South Carolina, the officers thought that the next best thing was to get men who could evince no sympathy for Federal tyranny out of the way as soon as possible. The boats were accord-ingly manned aborthy after algehtfill, and the larger portion of the workmen were quietly taken over to Fort Johnson. The workmen say that this was done by order of Captain Foster, who, it will be remembered; was in Charleston that same morning (Theirsday).

On demanding their pay, they received drafts on the North, instead of the specie in which the Gevernment usually pays its employees, and, glad to get away, they embarked at four of clock on Saturday morning on a cohooner for Charleston. No one of the "many ills fiesh is heir to" is so pre-valent, so little understood, and so much negleoted as Costivences, often originating in carelessness, or se-dentary habits. It is regarded as a alight disorder, of too little consequence to exoite axulety, while in reali-ty it is the precursor and companion of many of the most fatal and dangerous diseases, and unless early eradioated, it will bring the sufferer to an untimely grave. Among the lighter evils of which Costiveness is the usual attendant are Headhohe, Colte, Rheuma-tism, Foul Breath, Flies, and others of like nature, while a long train of frightful diseases, such as Malig-nant Fevers, Abcesses, Dysentery, Diarrhee, Dysper-sia, Apoplexy, Epilepsy, Paralysis, Hysteria, Hypo-chondrisis, Melancholy, and Insenity, first indicate heir presence in the system by this alarming symptom. Not unfrequently the diseases named originate in Con-stipation, but take on an independent existence unless the cause is eradicated in an early stage. From all these considerations, it follows that the disorder should receive immediate attenton whenever it occurs, and Girs than heretofore, and guarantied to give satisfaction. REMEMBER, That every purchaser of a Book, to the amount of Si or upwards, will receive a handsome Present, whereby they have the advantage of obtaining. TWO GIFTS FOR THE PRICE OF ONE. The rumor current in the city that a number of

The Charleston names of Saturday assessed

the excitement there, growing out of the evacuation of Port Moultrie, as somewhat abated, but there was still great anxiety to hear from Washington as so the decision of the President concerning Major Anderson's course. From the Courser, of Satur-day, we take the following :

Many apprehended difficulties, of a nature we need not name, have been removed, and the volunteer companies con-stituting the garrison are making merry over the hardshipe of the coldier. Home of the guns are, it is supposed, badly injured by the burning of the car-riages. Activity prevails at the garrison, and its vigilant officers are determined on the course that guides their action.
