TRANSFORTATION OF COTTON.—Thirty theu- sand bales ef cotton passed through Worcester last week, on its way to Lowell and Lawrence, most of which came from Memphis, by railroad. The Grand Trunk Company are making extensive arrangements for the transhipment of cotton di- rent from the Mississipi to the East. The Michi- gan Central road is doing an immense business in connection with the Illinois Central in the trans- portation of products from Kentucky, Tenneszee and Micsouri. COMPLETION OF THE MORILE AND OHIO RAIL- ROAD —Mississipi has added another iron band that binds her to her sizer States, Tennessee and Kentucky, and the originators of the grand scheme of internal improvements in the grand scheme of meday. A St. Johnsbury, 't., on Thursday morning, it was snowing, with the thormometor at twenty A little to the north of Worcester, the dronching rain which fell in that region on Wed- nesday, came in the form of snow, which caused some delay to the trains. ORSENVANCE OF THE SCOTTISH TEN-CENTENARY. —Our foreign papers contain interesting accounts of the recent celebration of the Scottish Ter-Cen- tenary in Great Britain and Iteland. Services commemorative of the cocasion were held in almost every town and village in Scotland, clergymen of all denominations taking part in the proceedings. In Edinburgh, the magistrate issued a recom- mendation to the public that there chould be a general suspension of business. In Glasgow, the day seems to have been generally observed as a half-holiday by the merchants of the city, many offices having been closed at one o'clock. In Lon- don, a public commemorative meeting was held in the evening, in Freemason's Hall, which was crowded. Among the speakers participating, were Rev. Drs. Lorimer, Cumming, King, Chalmers, Hamilton, Edmond, and others. Dr. Gumming expressed a hope that the three branches of the Presbyterian Church of Scotland - the Establa- ment, the United Presbyterians, and the Free Church-would be ere long thoroughly united. The day was also celebrated in Ireland, among other places, at Carriokfergus, where the first Reformed Church was organized, and where Wil- lism III first landed on that island. ORSENVANCE OF THE SCOTTISH TER-CENTENARY. —Our foreign papers contain interesting accounts of the recent celebration of the Scottish Ter-Cen- tenary in Great Britain and Iteland. Services commemorative of the cocasion were held in almost every town and village in Scotland, clergymen of all denominations taking part in the proceedings. In Edinburgh, the magistrate issued a recom- mendation to the public that there should be a general susponsion of business. In Giasgow, the day seems to have been generally observed as a half-holiday by the merchanis of the city, many offices having been closed at one o'clock. In Lon- don, a public commemorative meeting was held in the evening, in Freemator's Hall, which was crowded. Among the speakers participating, were Rev. Drs. Lorimer, Cunming, King, Chalmers, Hamilton, Edmond, and others. Dr. Cumming expressed a hope that the three branches of the Presbyterian Church of Scotland- the Estable- ment, the United Presbyterians, and the Free Church-would be ere long thoroughly united. The day was also celebrated in Ireland, among other places, at Carrickfergus, where the first Reformed. Church was organized, and where Wil- lism III first landed on that island. MORE LECTURES DY JOHN B. GJUGH, BEFORE THE YOUNG MEN'S CHEISTIAN ASSOCIATION.—A letter has just been received by Mr. Wannamaker, from John B. Gough, dated Chicago, stating that he will deliver the first in locitares of his remain- ing course in this city, before the Young Men's Christian Association, during the week commencing Monday, February 18th. Apropos of this, Mr. Gough's two written lectures on London IIfe, en- titled, "Lights and Shadows of Life in London," which will be included in the above siz, have elicited the most, flattering notices wherever they have been delivered, proving that he is not merely " <i>wur decasar, aut nullus</i> ," but that he can be a	freighté, nothing doing. GINERNG.—There have been no sales of either Orde or clarified, and prices are nominal. GUANO is out of season, and there is nothing doing. HEMT.—There is no American in first hands, and no sales of foreign have been reported. HIDES are dull; a tale of Caracas, however, is reported, on torms kept private, said to be at 1910, on time. Hors —New Eastern and Western are rather season, and held at 28a320; old Hops are not wanted, and prices are entirely nominal. LUMER.—The stocks of all kinds are moderate for the season, but fully equal to the demand, and there is no change to notice in prices. In the ab- sence of sales we quote Sacquehanna white pine Boards at \$14a17, as in quanty; Scuthern yellow sap at \$13a15; Laths range from \$1.76a1.874, and Plokets from \$6a7 per M. MOLASESS.—The market is firm, and there has been very little doing. Sales of Cuba at 200, and 200 bbls New Orleans at 364; 370, four months. NAVAL STORES.—Ther Market is firm, and Pitch there is no demand, and nothing doing. The market is a bara of Spirite of Turponine, and it sells, in a small way, at 400, each. OLS.—There has been more doing in Linseed, and prices at the close are better. Sales sti 51a53, oash, in casks and barrels. Fish Oils sell in arenall way, from store, at previous rates. Lard Oil is dull; we quote White at 93a59, four months. Imports of Sperm and Whale Oils and whelebone into the United States for the week ending January 14, 1861: Bus, Fp. Bbls, Wh. he Bone. BANK OF THE STATE OF INDIANAThe Indianapolis correspondent of the Exansville Journal says that the Board of Directors of the State State Board. 	thirteen occurred in that month last year, ten in January, ten in May, and ten in July. In the great majority of cases the cause was bodily discase. A private meeting of one hundred of the most prominent mercantile and professional gentlemen of New York, not politicians, was hold night be- fore last, in accordance with suggestions received from persons in high place at Washington, to take measures for holding a great public meeting in be- half of the Union. No politicians—that, is to say, none who are complications of the community as each—were present, nor will they be invited to take a leading part or speak at the moeting. It is intended to be a demonstration of the commercial and industrial classes, and will come off at Cooper Institute on Monday evening. I have not heard who the men are that have the matter in charge, for, curiously concupt, the preliminaries for all great public demonstrations in New York are ar- ranged with the utmost secrety. The publics are simply invited to assemble in large numbers and cee the thing touched off. This meeting, however, is understood to be in the hauds of good and capa- ble men, and will be a success cqual to the good cause for which it is to be held. Greeley, despairing of success for the United States Senatorship, disgusted with the Cabinet- making of Lincoin, indignant at the approaching back-down of Republicans in Congress on the ze- cession question, or from some other cause, has cleared out of town and gone to foreign countries— Iowa, Minnesota, or nome of the bast. It is supposed that Mr. Greeley has gone among them to deliver leatures; why, is a mystory. The country is so far off, that it really don't seem necessary that Mr. Greeley is a queer man and a good man, and may have started out as a philanthropist. The Brooklyn people inaugurated their spacious new opera hease on Thesely oroning with high ceremonial. There is a por- trait of their ancestors, painted by Reubens, in existence, and on it this singular malformation may be seen. TRANSFORTATION OF COTTON.—Thirty theu- sand bales of cotton passed through Worcester last week, on its way to Lowell and Lawrence, most of which came from Memphis, by rairoad. The Grand Trunk Company are making extensive arrangements for the transhipment of cotton di- rect from the Mississipi to the East. The Michi- gan Central road is doing an immense business in connection with the Illinois Central in the trans- portation of products from Kentucky, Tennessee and Missouri. The Hyans- ville branch is of this number. A resolution was passed unanimously that the bank word maintain specie payment under all circumstances.	thirteen occurred in that month last year, ten in January, ten in May, and ten in July. In the great majority of cases the cause was holdly discass. A private meeting of one hundred of the most promhent mercantile and professional gentlemen of New York, not politicians, was hold night be- fore last, in accordance with suggestions received from persons in high place at Washington, to take measures for holding a great public meeting in be- half of the Union. No politicians-that, is to say, none who are complications before the community as each-were present, nor will they be invited to take a leading part or speak at the moeting. It is intended to be a demonstration of the commercial and industrial classed, and will come off at Cooper Institute on Monday evening. I have net heard who the men are tak have the matter in charge, for, curiously enough, the preliminaries for all great public domonstrations in New York are ar- ranged with the utmost scoreoy. The public are simply invited to assemble in large numbers and cee the thing touched off This meeting, however, is understood to be in the hands of good and capa- ble men, and will be a success equal to the good cause for which it is to be held. Greeley, despairing of success for the United States Secandorship, disgusted with the Cabluct- making of Lincein, indignant at the approaching baok down of Reopublicans in Congress on the ze- cession question, or from some other cause, has aleared out of own and gone to foreign countries- lowa, Minnesota, or some of these wild, legendary pleces, that ato marked down on the map, and from whoch now and then you see the mane of a man registered at a hotel. I never saw any of those people, though I have been told that their man- ners and outcoms resemble, in many respects, those of us more over inger the substruct. The southry is so far off, that it really don't seem nocescary that they should be taught much of anything. But may have started out as a philanthropist. The Brooklyn people inaugurated their spacious new opera hoase	recent sitting of the College of Surgeons in Paris, Dr. Broca interested the faculty by relating the case of a family in Belgium, that, from time immemorial, have enjoyed the singular privi- lege of possessing is fingers instead of five. The little finger of each haud is formed into two per- fect ones, without putting the limb out of shape. And the same is true of the toes. These exits toes are as supple as the others. There is a pot- trait of their ancestors, painted by Reubens, in existence, and on it this singular malformation may be seen. TRANSFORTATION OF COTTON.—Thirty then- sand bales of cotton passed through Worcester last week, on its way to Lowell and Lawrence, most of which came from Memphis, by rairoad, The Grand Trunk Company are making extensive arrangements for the transhipment of cotton di- rect from the Mississipi to the Esst. The Michi- gan Central road is doing an immense business in connection with the Illinois Central in the trans- portation of products from Kentucky, Tennessee and Mitesouri. Courtizition or THE MORILE AND OHIO RAIL- road - Mississipi has added another iron band that binds her to her sister States, Tennessee and Kentucky, and the originators of the great Cotton States, in the full realization of their hopes, now see a line of railway completed that places them in direct communication with the principal cities of the South. THE WEATHER AT THE NORTH.—Fourteen inches of snow fell at Burlington, Vt., on Wed- nesday. At St. Johnsbury, Vt. on Thursday morning, it was snowing, with the thermometer at twenty A little to the north of Worcester, the dronohing rain which fell in that region on Wed- nesday, came in the form of snow, which caused some delay to the trains. WINTER FISHING ON GRAND BANKS.—The experiment recouly trid by some of the fishermen of Martblehead of where fraing on Grand Banks has proved a perfect failure. The schooner Alad- dia, which sailed from that perform of the orders, has since for that purpose, has returned, with only 500 fish, and suffering a loss of four	in dootrine, it is impossible for it to be vicious in acts." ONSERVANCE OF THE SCOTTISH TEN-CENTENARY. —Our foreign papers contain interesting accounts of the recent celebration of the Scottish Ter-Cen- tenary in Great Britain and Iteland. Services commemorative of the cocasion were held in almost every town and village in Scotland, clergymen of all denominations taking part in the proceedings. In Edinburgh, the magistrate issued a recom- mendation to the public that there chould be a general suspension of business. In Glasgow, the day seems to have been generally observed as a half-holiday by the merchants of the city, many offices having been closed at one c'olock. In Lon- don, a public commemorative meeting was held in the evening, in Freemason's Hall, which was orowded. Among the speakers participating, were Rev. Drs. Lorimer, Cumming, King, Chalmers, Hamilton, Edmond, and others. Dr. Cumming expressed a hope that the three branches of the Presbyterian Church of Scotland - the Establa- ment, the United Presbyterians, and the Free Churchwould be ere long thoroughly united. The day was also celebrated in Ireland, among other places, at Cerrickfergus, where the first Reformed Church was organized, and where Wil- liam III first landed on that island. ONSERVANCE OF THE SCOTTISH TEN-CENTENARY. —Our foreign papers contain interesting accounts of the recent celebration of the Scottish Ter-Cen- tenary in Great Britain and Iteland. Services commemorative of the cocasion were held in almost every town and village in Scotland, clergymen of all denominations taking part in the proceedings. In Edinburgh, the magistrate issued a recom- mendation to the public that there chold be a general suspension of business. In Glasgow, the day seems to have been generally observed as a half-holiday by the merchants of the city, many offices having been closed at one c'olock. In Lon- don, a public commemorative meeting was held in the evening, in Freemason's Hall, which was crowded. Among the speakers participating, were Rev. Drs. Lorimer, Cumming, King, Chalmers, Hamilton, Edmond, and others. Dr. Cumming expressed a hope that the three branches of the Presbyterian Church of Scotland - the Estableh- ment, the United Presbyterians, and the Free Churchwould be ere long thoroughly united. The day was also celebrated in Ireland, among other places, at Carriokfergus, where the first Reformed Church was organized, and where Wil- liam III first landed on that island.
