To the free States the action of South Carolina is no less important. It is an unconscious invitation to them to yield at the earliest moment to the domands of the Border States, and to do everything in their power to render the position of the Dis unionists as unenviable and disgraceful as possible What a rebuke the action of South Carolina is to tended from the start to discard everything like a reconstruction of the Government, to repudiate all offers of compromise and concession on the part of the North, and to set up for themselves.
