Mr. Clendenning offers to forfeit either the sum of two hun-dred dollars or a case of the goods in question, to any one who will prove that Damasks, which will compare with these, can be *imported* " for less than 15 per cent. more than his are offered for." We did this, of course, more with a view of satisfying curiosity, than with the hope of "wunning" the forfest, although Mr. C. is not the man "winning" the forfeit, although Mr. C. is not the man to retract a proposition. To effect our object, we visit-ed three well known firms in this city, Messre. WIR. Watson & Co., Bangs & Maxwell, and Stuart & Bro---houces which sell largely of the goods referred to-and found that the effer of the American manufacturer is an exceedingly "safe" one. At each of these houses we examined a splendid line of patterns; of Mr. Clen-denning's goods, and had an opportunity of comparing them with the *invested* article. In point of siyle and

We were shown pieces of the Foreign Damask. 10-4, that cost 56 cents, which were not in any respect superior to Clendenning's of the same width, which are sold at 25 cents per yard, a difference in favor of the latter of more than there per cent. Mr. C, has been for several years sugged in per crat. Mir. U. has been for several years observed in manufacturing these goods, and gradually improving them, until he has attained a degree of perfection in their production which we believe will very sconex-clude has foreign competitors from the market. So far as their finish and general appearance are concerned, there are probably few persons in the trade who, unless they were told, could distinguish one from the other.
