We have now on hand, and are manufacturing to order, at the Mount Holly Paper Mills, every description of WRITING AND LEDGER FAFERS, which, for color and quality, are not excelled by any other Mills in the United States.
We would call attention to a new article of Paper manufactured by us, and now for sale, called Business Letter, which has been gotten up to meet the wants of basiness men and others, who object to Commercial Note as being too narrow, and do not wish to use part of usual letter sheet.
This overcomes both the above objections; is a perfect sheet, pure wove; plate finish; ruled on one side; stamped in centre pear the top; made from best material, free from adulteration, and put up in neat boxes, convenient for use.
We also have a paper called Bank Letter, similar to the above, except it has but half the number of lines on, so as to allow a printed blank or heading above.
