PHILADELPHIA COLORED FOLK IN HATTI .--The oldigens will romember a recent departure of a Colonization vessel for hayd, taking out free lacks to that island, under the patronage of a Northern organization. In that colony were in-oluded a number of Philadelphians, from whom we have obtained intelligence by late mails.

One of these letters we have now in our posses sion, dated St. Marks, Hayti, abcut the middle of May. The health of all the cole of residents has been good, if we except some who bave taken fa-vers, induced by nuwholesome fruits and Haytien wines. The charge of dist operated unfavorably with a few, but those who abstained or exactioned prudence in the choice of food, speak highly of the

beauty, selubrity, and letility of the leiard. The settlers from Philadelphia are located on the plains, near the Attibunie river, and their dis-

the plains, near the Arithonic river, and their dis-triet is penetrated by most excellent roads. Our informant had cleaterd a "caushar" of land and leased a part of the adjoining same of a Louisi-ans settler; the latter had 1400 acres of land in onlivation. Both settlers were dwelling in hope of a large yield of cotton; corn, and rice. The Pennsylvanians who were out of finals found the settler in the settlers were the set on the found stand of a large yield of cotton; corn and rice.

of a large yield of cotton, corn, and rice. The Pennsylvanians who were out of funds found no diffiul'y in negotiating loans, and our informant had borrowed fitteen hundred dollar from the Presi-dent's son in law All the settlers and purchased live stock, and had sent on to Now York and Phila-delphia for wagons and tools If our merchants soon be driven with the people of that island. Our informant closes has letter with the following man-ly language: Some of the emigran's—those who double.

Some of the emigran's-those who don't like to work-are dissatisfied, and wish to give the country a bad name.
