A STATEN ISLAND MYSTERY .- Yesterday morning a man, apparently about 27 years old. was found hanging from the limb of a tree in a thicket in the rear of Mr. Dayton's residence, near the Fin-ger-board road leading from New York avenue to Camp Scott, Staten Island. He was dead when Camp Scott, Staten Island. He was dead when found, and, to all appearance, had been hanging there for two or three days. He was an entire stranger in the place, and nothing was found upon his body to indicate his name or residence. On Tuesday night last, a servant girl living in the neighborhood says that she heard some soldiers running along the road, near where the body was found, crying "Hang him, hang him!" and, from the peculiar manner in which the body was found suspended to the tree, it is believed that the de-ceased could not have hung himself. Instead of censed could not have hung himself. Instead of being suspended by a rope, a twig of the lree was found twisted around his neck, from which the body depended. No marks of violence were dis-covered upon the person of the deceased, and it is certain that he must have been strangled in this manner, whether by his own act or that of others. There are rumors that a stranger made his appearance at Camp Scott on Tuesday, and was bolterous in proclaiming himself a Secessionist, and de-nouncing the Government soldiers, and it is thought that a party of volunteers were finally induced to apply to him the argument so generally applied to Union men in the section of country where his sen-timents prevail.—N.
