Without interféring with, there will be added to the Exhibition, A Grand National Test of Fire Arms, and display of military goods.

All trials of fire arms will be conducted at stated hours each day, under the superintendence of Colonel Samuel A. Buckmaster, so as not to interrupt or interfere with the Exhibition in the Rings, and may be safely witnessed by the entire mass of visitors in attendance, and from an immense covered amphitheatre, capable of seating thirty thousand persons. An elegant stand of colors will be awarded to the best drilled company of Infantry.

Sixty Rings of horsee, and Fifty Rings of cattle, will compete for the premiums. Sixty Rings of horses, and Fifty Rings of cattle, will compete for the premiums.

The large means employed, and the talents and energy put in requisition to make the best use of these, abundantly warrants the assertion, that this will not only prove the most useful, but most magnificent Agricultural Fair ever held in the United States, and if so, the best ever held in the world.

It will have visitors from the great Atlantic cities, and from Europe. And it will have a class of visitors to whom it will afford equal pleasure from the Farms and Workshops of the Great West.

THE ENEMY OF HUMANITY AT

LAST SURROUNDED!—At 1220 WALNUT Street, Philadelphia, the most astonishing victories are daily performed over diseases which have preved a terror to the Medical Profession in all ages of the world. As evidence of the above conquest over the common enemy of humanity, we beg leave to refer the intelligent reader to the names of the following Honorable Gentlemen of this city:

The undersigned take pleasure in recommending to the public the important discovery of Professors Bolles & Chamberlin in the use of Electricity for the cure of disease, and more particularly that class soldom benefits by medicine.

Judging from what we have seen of their operations on ourselves, and others, in the cure of obstinate diseases that had for years resisted medical remedies, we do not hesitate to say that their mode of treatment is safe, reliable, and efficient, and in every respect adapted to the wants and relief of the diseased.
