and stocks in that city to-day ; The stock market has a very steady appearance In the flock market has a very steady appearance to-day, new buyers having come forward at the re-duced prices. In some descriptions nearly all the decline of Monday and Tuesday is recovered, though there is still great lack of speculative acti-vity. All eyes are turned to Washington and the line of the Potomac, and the speculators of the Street more very eautiously.

line of the Potomac, and the speculators of the street more very cautiously. Government Stocks are firm, and kal per cent. better. The six per cent two year notes are in do-mand at 98% a08%. The five per cents of 1874 are stready at 80, the sixes of 1891 at 90. There was a much better demand for the bonds of the Southern States and prices are kal per cent higher. Virginias sold at 53, North Carolinas at 613. Tennessces are very quiet at about 43. New York Contral closes firm at 723, Galena 694 a694, Toledo 293, Rock Island 43, Erie 253a255. Pacific Mail is 14 per cent higher, touching 82. Of Penama there were no sales. 109 bid, 1093

First-class paper is 6a7 per cent, inside rate for very prime bills. Exchange on London is very quiet to-day, the mail by the Boston steamer closing last evening. The rate for first-class bankers' bills is 109. The demand notes of the Government continue in active request. There are several orders for lots

which cannot be filled at present. The city banks, which receive parcels from the country, are imme-diately relieved of them by the public. There is a brisk demand for 7.30 treasury notes at the Sub-Treasury to-day, over a quarter of a million of dollars being subscribed for up to one o'clock. The subscriptions run up rapidly at the close of the day. Yesterday they finally footed up S200 000 the lurge amounts coming in after husi-\$300,000, the large amounts coming in after busi-ness hours. We understand that the directors of the Panama

Railroad Company voted yesterday to invest their surplus funds in these notes. They have already taken \$100,000, and propose to also call home their balances in London, which, together with what has remained idle here, reach nearly a half million ollars.

Mr. W. B. Astor has subscribed for \$50,000 of the **7.30** notes.

3.30 notes. None of the new 7-30 treasury notes have yet reached Wall street. It is quite probable that Mr. Chase has before this supplied the early buyers direct from the Department. There were some \$500,000 to \$600,000 taken by various individuals and the province of the province of the strength and corporations, principally outside of the street, previous to August 19, and these, of course, will receive the first notes that are ready.
