THE PRESS.—PHULADELPHIA, SATURDAY. OCTOBER 12, 1861.

A Russian line-of-battle ship, the Swelland, of one nundred guns and eight hundred men, hat been lost on he coast of Japan. All the crew are reported to have the coast

periabed. Dotails of the night attack on the residence of the Bri-tish Legation in Japan are published. It is believed the rufilans were suborned by some of the powerful opposi-tic a nobles who intely refired from power upon the foreign question. The Japanese Government affected great Buxiety on the subject. The London Times calls for a strong naval demon-

stration against Japan, in preference to a simple remon-THE LATEST, VIA QUEENSTOWN.

FINANCIAL AND COMMERCIAL.

THE MONEY MARKET.

PHILADELPHIA, October 11, 1861. City sixes of the new issue sold to-day at 91, and State fives at 763-the same prices as on yesterday. Reading Railroad stock was heavier, falling from 18¹/₄ to 17-81. Catawissa preferred gained $\frac{1}{8}$, selling at 5: Pennsylvania Railroad shares advanced from 39 to 393, and Camden and Amboy Railroad shares from 1123 to 113.

After the First Board State fives sold at 1 less. The annual cotton statement for the year 1860-61. which ended on 31st August last, was issued on Monday morning, at the office of the New York Shipping List, and presents some important sta-tistics. By the annexed figures it will be seen that the cotton crop of the past year amounted to 3,656,086 bales, against 4,669,770 bales last year, being a deficiency of over one million of bales, or equal to fifty millions of dollars.

The distribution to foreign countries has been in the following proportion : Great Britain has taken 57 per cent. : France 15 per cent. ; other foreign ports 10 per cent. ; while our home trade has used 18 per cent. The great falling off in exports has been to Great Britain, the total shipments hither this year only reaching 2,175,000 bales, against 2,669,000 last year-a decrease of nearly half a million of bales. France has received only 11,000 bales short of last year, but to other foreign ports there is a decreuse of 141,000 bales from last year. The takings of our Eastern mills have been larger than might have been expected during such a disturbed condition of trade, and falling short only 136,000 bales of the large consumption of last year. The present stock on hand in all the ports is very small-83.000 bales against 221,000 last year.

It is a curious fact that, notwithstanding all the patriotic resolutions of planters and factors not to send forward any cotton to the ports where the blockade exists, but to retain it on the plantations, still three hundred bales of new crop were received up to 1st of September

Planters must be anxious to realize on their crops, or why send it to market where it is merely of nominal value, and where the insurance offices have refused to afford it any protection ? Only let opened by the U ed States f

A Great Home Improvement. At this season of the year, it is a matter of importance o our readers, to be informed of the various improvements in stoves and other house heating articles, that are offered to the public. The article we are now about

CITY ITEMS.

to notice we are sure will attract general attentionnamely : a stove which we examined at the warerooms of Mr. J. S. Clark, No. 1008 Market street, yesterday. The stove is intended for either parlor, chamber, dining-room, or office, and may be described as the celebrated Silver's Air-tight Gas-consuming Coal Stove, with Clark's several improvements. The latter render the stove in question a great economizer of fucl, and by an ingenious avention of Mr. Clark, now for the first time offered to R Y;Kanaga, Boston the public, it is perfectly dust-proof; that is to say, the operation of raking or poking is entirely avoided by

means of a patent vibrating provision introduced into the grate, which is operated with the slightest touch, by a

Deal 27th ult.

Mr. Clark directly from the importure, In addition to the great improvement above specified,

the stove embraces several others; as, for example, its self-adjusting door, which is so arranged as to open itself whenever the heat within becomes too great, thus obviating both excessive heat in the room and the possi hility of explosion. The handsome fender with which this stove is also

upplied adds much to its appearance, and is of decided advantage in removing the ashes. This stove, upon the whole, besides being most convenient, is a beautiful ornament to a room, and we commend it to the inspection the public. We may state, in conclusion, that Mr. Clark manufactures and sells the genuine "Silver's' Stove, made after the *original model*, and the stove here spoken of cannot but reflect new lustre upon Mr.

Clark's wide and descryed reputation in his line of isiness. FASHIONABLE TAILORING ESTABLISHMENT .-

in another column of our paper to-day will be found the card and circular of Mr. E. O. Thompson, merchant tailor, corner of Wahnut and Seventh streets, to which we would call the attention of all our readers who are desirous of obtaining suits of clothing got up in the best style, and of superior workmanship. Mr. Thompson, by a thorough devotion to his business, and by securing every facility to place himself at the head of his profession, has succeeded in enlisting a large share of first-class putronage, and it is no unmeaning compliment that those who call on him once, almost invariably become his permanent

customers. FALL OPENING AT OAKFORD'S.-Passing the superb establishment of Messrs. Charles Oakford & Sons, under the Continental Hotel, yesterday, we found the stocks in their various departments all open ; their ele-gant furs for ladies, beautiful goods for children, ladies' shoes, hats for gentlemen, and a splondid line of military goods, in the way of swords, sashes, military hats, &c. The usual good taste of this famous old house is fully stained this season.

INSTRUMENTS FOR SCHOOLS .--- We direct atntion to the advertisements of Messrs. J. W. Queen & Co., No. 924 Chestnut street, which will be found in another column_one of Philosophical Instruments, School Apparatus for class illustration, such as globes drawing instruments, et cetera, and the other of Magic Lantern Pictures of the Rebellion, representing all the prominent scenes, engagements, and incidents of the war to this date. The stock of this firm in the goods here designated, and all kinds of optical instruments, is one of the largest and most complete in the country. KEROSENE OIL LAMPS, of all sizes, de-

signs, colors, materials, prices, and descriptions, can be had, either wholesale or retail, at the great Light Emporium of Messrs, Witters & Co., No. 35 North Eighth street, corner of Filbert. These lamps are rapidly taking the place of all others in the market, and Witters & Co.'s is unquestionably the place to buy them-FALL AND WINTER CONFECTIONERY .- Our readers will be glad to hear that Messes. E. G. Whitman & Co., Second street, below Chestnut, the best and most

popular confectionery house in this country, have brought out their delicious new fall and winter preparations for the palate. We notice that they embrace some very choice things. Everybody is captivated by their stock. A uniformly crowded store is the consequence.
