Interesting Statement of Refugees from Richmond.

The Herald publishes a statement of two of the prisoners who were recently released at Richmond : They state that the number of troops at New They state that the humber of troops at New Kent, Williamsburg, Charles City, and Richmond was very small, the main body of Magruder's army (consisting in the aggregate of 27,000 men) having been withdrawn to King's mill, Young's mill, and Lee's store, on the Warwick side of the river. Ma been withdrawn to King's mill, Young's mill, and Lee's store, on the Warwick side of the river. Ma-gruder has, in addition to his 27,000 infantry, about 11,000 envalry. These troops are well clothed and comfortable for this season of the year, but will need warmer apprel as winter approaches. While they are comparatively well off in this respect, and also as regards breadstuff, the army, as a whole, is very sickly. On the seventh of the present month six hundred sick soldiers were brought from the camps on the Greenbrier river, and there were a number in the ranks who were inefficient on ac-count of their want of physical vigor. They say that there are very few troops in Richmond at the present time, and it was supposed that a week ago last Sunday four thousand rebel troops left Rich-mond to go farther north. It is said by these men that the rebel fortifications are very strong at Wit-liamsburg and other places, especially at York-town, which they consider impregnable, and one of our informants is strongly of the opinion that an attempt to take Yorktown by the Union troops would occasion an immense loss of life. According to his statement, Yorktown is the Sebastopol of America. During their imprisonment they could not, of course, learn very much as to the state of feeling among the rebels; but, from what conver-sation they heard at intervals in the presen, the Southerners are bound to fight it out. They say they will fight as long as there is a man alive, and then, when the Yankces succeed in exterminating them, the women and children will carry on the war. war.

NAVAL AFFAIRS .- The schooner Stars and NAVAL AFFAIRS.—The schooner Stars and Stripes has been taken from the navy yard to Simpson & Neill's dry dork, where she will be completely fitted up and rigged for the Government service. She is to carry nine guns, and will be ready in about two weeks. The Tascarora will be commanded by Captain T. Au-gustus Craver. The yard now presents a most ani-mated appearance-quantities of lumber, ordnance, shell and shot, spars, maste, launches, etc., littering the whole of the wast interior of the yard. The place is filled with workmen, and in every department the utmost system and industry prevail. The new commandant and com-mander are generally esteemed by workmen and fore-men.

The keels of two iron propollers, for merchant service, are being laid at the Penn Treaty Works. The ressels will be 450 tons burden, and, when finished, one of them will run be-tween Philadelphia and New York, and the other from the latter port to Baltimore. At the same place are building the engines for the Constitution, which is being con-structed at the yard of John Lynn, below the navy yard. Although the ship will not be lanched for nearly a month, the engines are so far completed that they are now ready to be placed aboard of her. -

THE PRIZE BRIG HERALD.—Yesterday in the U. S. Circuit Gourt, before Judge Cadvalader, the argument in the case of the United States vs. Its prize brig Herold was commenced by J. Hubly Ashton, Esu, assistant United States district attorney. The brig is claimed by British owners. The grounds on which the Government asks for a condemnation of the vessel are, that she started from Boston in June hast, after the pro-clamation of the President, declaring the ports of Vir-ginia and North Carolina under blockado, hud been issued, ostensibly bound for Turks Island, to bad with salt. She never went to her port of destination, but was afterwards captured by one of the United States block-ading vessels, as she was coming out of the port of Beauatterwards captured by one of the United States block-ading vessels, as she was coming out of the port of Bean-fort, South Carolina, loaded with a cargo of pitch, tur-pentine, &c. A UNIFORM COAT FOR GEN. MCCLELLAN .-A magnificent military dress coat, to be presented to Major General McCiellan, has just been finished by Henry Stevenson, tailor, Chestnut street, below Fourth. The garment is a most beautiful piece of workmasship, though in strict coatomity with the military regulation. It is made of the finest and best materials in the market, lined with rich silk, and not unworthy to adorn the per-son of any crowned head or conqueror.

A resolution of thanks to James Swaim, Esi, for the presentation by lim of two steel rillel cannon, was agreed to. The ortinance, from Select Conneil, providing for the widening of Delaware avenue from Spruce to South street, was taken up. A motion to postpone the consideration of the ordinance was not agreed to; and the question being stated on the first section, the yeas and nays were called, and resulted as follows—yeas 39, nays 7. The ordinance was its fung passed finally. Mr. HARPER, from the Consultee on Finance, reported an ordinance making an appropriation of \$7,500, being a bulance remaining unpaid for the erection of the bridge over the River Schuylkill, at the Falls. After the addition of a proviso relative to the manner of expending the money, the ordinance was adopted. Mr. FUTTRI Offered a resolution authorizing the Highway Department to issue proposals for cleansing the streage of artillery belonging to the Home Guard, and cannon presented to the city, came up in order. Mr. CRESSWELL stated that if the market stalls in these houses were destroyed, the loss in the value of property, which can only be used for a specific purpose, would probably exceed \$3,000. Mr. HAFFE urged the necessity of immediate action in the matter. The places elacted by the committee were the only eligible ones which could be used for the purpose in question. Although the city was paying a groond rent of \$1,800 a year for the State Arsenal, no benefit was being received from it, as the State reserved its use to itself. If any of the public halls throughout the city were to be rented for this object, it would be at an concurrence.

WOOD: Thee wilt please accept a lib to in-form thee that the hair on my head all fell off over twenty years ago, caused by a complexited chiphic dis-esse, attended with an eruption on the head. A con-tinual course of suffering through life having reduced me to a state of dependence. I have not been able to obtain stuff for sups, neither have I been able to do them up, in consequence of which my head hassuffered extremely from cold. This induced me to pay briggs & Holges almost the last cent I had on earth for a two-dollar bottle of thy Hair Restorative about the first of August last. I have fuithfully followed the directions, and the buld spot is now covered with hair, tlick and black, though short; it is also coming in all ever my head. Feeling contident that another large bottle would restore it entirely and permanently, I feel auxicus to persovere in its use, and being destitute of means to par-chase any more, I would ask thee if thee wouldst not be willing to send me an order on thine agents for a bottle, and receive to thy self the Scripture declaration—" The reward is to those that are kind to the widow and the fatherless."
