DEPARTMENT OF STATE. Washington, October 14, 1861.

My Lond: I have the honor to acknowledge your lordship's note of the present date.

In that paper you inform me that the British Government is much concerned to find that two British subjects, Mr. Patrick and Mr. Rahming, have been brought under arbitrary arrest, and that, although her Majesty's Ministers have been advised by you of the release of Mr. Patrick yet they cannot but regard the matter as requiring the they cannot but regard the matter as requiring the very serious consideration of this Government. You add, that her Majesty's Government conceive that this practice is directly opposed to the maxim of the Constitution of the United States, that no person shall be deprived of life, liberty, or property, without due process of law. You remark further, that so far as appears to her Majesty's Government, the Secretary of State for the United States examines, upon the report of spics, and assumes the power of depriving British subjects of their liberty or liberating them by his own will and pleasure; and you inform me that her Majesty's Government cannot but regard this despotic and arbitrary power as inconsistent with the Majesty's Government cannot but regard this despotic and arbitrary power as inconsistent with the Constitution of the United States, as at variance with the treaties of amity subsisting between the two nations, as tending to prevent the resort of British subjects to the United States for the purposes of trade and industry. remonstrate against such irregular proceedings, and to say that, in their opinion, the authority of Congress is necessary in order to justify the arbitrary arrest and imprisonment of British subjects. The facts in regard to the two persons named in your note are as follows:

Communications from the regular police of the country to the Executive at Washington showed that disloyal persons in the State of Alabama were conducting treasonable correspondence with Confe-derates, British subjects and American citizens, in derates, British subjects and American citizens, in Burope, aimed at the overthrow of the Federal Union by armed forces actually in the field and besieging the capital of the United States. A portion of this correspondence which was intercepted was addressed to the firm of Smith & Patrick, brokers, long established and doing business in the city of New York. It appeared that this firm had a branch at Mobile; that the partner, Smith, is a disloyal efficient of the United States, and that he was in Europe when the treasonable papers were sent urope when the treasonable papers were sont on Mobile, addressed through the house of Smith & Patrick, in New York. On receiving this info ion, William Patrick was arrested and com ted into military custody, at Fort Lafayette, by an order of the Secretary of war of the United States addressed to the police of the city of New York.

These proceedings took place on the 28th of August Representations were thereupon made to the Secretary of State by friends of Mr. Patrick to the effect that notwithstanding his associations he was personally loyal to this Government, and that he was ignorant of the treasonable nature of the cor-respondence which was being carried on through the mercantile house of which he was a member. the mercantile house of which he was a member. Directions were thereupon given by the Secretary of State to a proper agent to inquire into the correctness of the facts thus presented, and this inquiry resulted in the establishment of their truth. Mr. William Patrick was thereupon promptly released from custody by direction of the Secretary of State. This release occurred on the thirteenth day of September last.

on the second day of September the Superintendent of Police in the city of New York informed the Secretary of State, by telegraph, that he had under arrest J. C. Rahming, who had just arrived from Nassau, where he had attempted to induce the owners of the schooner Arctic to take cannon to Wilmington, in North Carolina, for the use of the prisoner. J. C. Rahming was thereupon committed into military custody at Fort Lafayette, under a mandate from the Secretary of State. This commitment was made on the second day of September.
