RAILROAD INTELLIGENCE.-The Pennsylva-Ceal Company have it in contemplation to extend ir railroad, from its intersection with the Delaware their railroad, from its intersection with the Delaware and Hudson canal, at Hawley, Wayne county, to the New York and Erie Railroad, at Lackawaxen. The road, if thus extended for twenty miles down the Lackawaxen river, would doubtless be a locomotive road, and afford facilities for passenger travel. This would be a great accommodation to the citizens of that county. It would also probably revive the effort to get an extension of the improvement to Honesdale,

WE LEARN that arrangements have been made to construct a plank-road from Titusville to Union Station, on the Sunbury and Eric Railroad. The proposed improvement will be thirty-seven miles long, and will cost \$100,000. A charter was obtained from the last

THE WEST CHESTER REGIMENT .- The Ninety-seventh, under the command of Col. Henry R. Gass, will arrive here to day, and be entertained at the Volunteer Refreshment Saloon. They number one thousand men of the yeomanry of Chester county, many of them Quakers.

WE ANNOUNCE with regret the sudden death of David Gratz, Esq., a highly-esteemed gentleman of this city. While out gunning, Mr. Gratz, whose health has been delicate for some time, broke a blood *ressel, which caused his death. PERSONAL.—Commander Charles Stedman

U.S. N., who commanded the Bienville in the gallant attack at Port Royal, and brought the official reports of the victory 4. Washington, reached this city yesterday on a brief visit to his family. He proceeds hence to New York to join his ship, which will return immediately to Port Royal. CONTRACT FOR A FERRY BOAT,-Mr. Marick one of the directors of the Camden and Amboy Railroad, and now a resident of Camden, has entered into a contract with the Government to furnish inunediately a powerful steam ferry-hoat, to be used on the Potomac, at Georgetown. It will supersede the old-fashioned rope

FINANCIAL AND COMMERCIAL. THE MONEY MARKET.

PHILADELPHIA, November 15, 1861. A partial reaction in the stock market to-day followed the recent rise. Reading Railroad fell off a fraction, and the fancy stocks were heavy and dull. Pennsylvania fives receded to 78%. For other investment securities prices are well maintained. In the money market there is no variation from the cenditions shown for months past, excepting, perhaps, a slightly increased disposition to operate on the part of capitalists since the reported successes at Beaufort and

ded to the Ball's Bluff disaster seizes on our generals, the figures will probably erach again the same aggregates that were daily reported previous to that blunder.

The subscriptions to the 7.30 per cent. loan in Battlnore are reported at one million of dollars. There is much comment in moneyed circles upon the proposed loan to be made by the city to meet the interes upon the loans falling due on the first of next January, at there can be no worse system than the compou ing of interest by the municipal government, is uniloan is defended as an exceptional case growing out of the war, and to be looked upon as a part of the sacrifices incident thereto. It is feared that if the necessary loan is made a permanent one, the price of city loans, both old

THE NAVAL SIGNAL SYSTEM.—The system of naval signals, by means of thags by day and lights by night, was carried to perfection in the recent expedition to Beaufort. Words, sentences, ideas were conveyed as to Beaufort. Words, sentences, ideas were conveyed as readily as in print, and no difficulty whatever was experienced. It is said that, by way of experiment, one of the freet signalled a question to the Wabash. The flagship at once signalled back that the best garments for either soldiers or civilians were those made at the Brown Stone Clothing Hall of Rockhill & Wilson, Nos. 603 and 805 Chestnut street, above Sixth Street, above Market.

truer sentiment was ever uttered. THE ARMY VOTE COUNTED .- Yesterday the return judges finished their labors of counting up the strmy vote. At times great excitement and confusion prevailed during the proceedings; but finally matters were peacefully settled, and, when the hour of adjournment arrived, they passed a resolution unanimously declaring that the best-made and most superior fall and winter garments in the city are sold at the Fashionable Clothing Emporium of Granville Stokes, 609 Chestnut, which establishment each of the return indges de-termined to visit and purchase for themselves complete suits. We might add, that all the choice stock of clothing at 609 Chestnut is being sold at greatly reduced prices,

and is warranted in every particular.

More About the Stove Trade. The extraordinary sale of the celebrated economizing Gas-burning Cook Stove, of Mr. J. S. Clark, at his warerooms, No. 1008 Market street, will warrant another brief allusion to its merits. It will be remembered that this is the stove which has the advantageous peculiarity of consuming only one ton of coal in six months. We earn that the statement of this fact on a former occasion was received with some surprise; but we are now able to ate that still more surprise has been excited in person who have realized by actual experiment that this estinate, small as it is, is rather above than below the mark. onsidering, also, that the capacity of these stoves for cocking is ample for the largest families, it is no wonder but, notwithstanding the times, their sale should be very extensive. So great, in fact, has been the demand for hem that Mr. Clark has been obliged within the last few vecks to employ an extra force of hands in their manufacture. As his capacity for making this stove alone has hitherto been at the rate of about one hundred per week, some idea may be formed of the rapidity with which they are selling. As this is really one of the genuine improve nents of the day, and its durability and comparative cheapness are no less in its favor than its remarkab fucl-saring qualities, we advise our readers to call and anine it by all means before purchasing any other. Nor must we conclude this subject without a passing

allusion to Mr. Clark's world-renowned S.lver's Airight Gas-consuming Parlor Stove, with his celebrated Patent Raker. Before this last named addition, this stove, improved as it was by Mr. Clark in several other important particulars, was a great favorite with the public: but the Patent Raker has made it the ne plus ultra article in its line. The "Raker" referred to is sertainly a most ingenious affair, and has achieved the very thin that has long been wanted, namely, the outire avoidance of dust. By the use of this admirable new patent of Mr Clark's invention, not one particle of dust can possibly escape into the room. The fact, also, that fire will last in this store forty-eight hours, if necessary, without replenishing coal, is an evidence that its coal-consumin power is very small, not exceeding one ton per winter Besides the improvement above named, there are other points about this Parlor Stove of Mr. Clark's manufacture that recommend it to popular favor. It is neat and ornamental in appearance. The handsome bronzed Fenders with which it is supplied adds much to its richness, finish, and convenience. Several other points intelligent readers will discover and appreciate in ex-

amining for themselves.

We may add, in conclusion, that only the best quality of Russia sheet-iron is used by Mr. Clark in manufac-turing—warranted to be such—and hence his stoves have obtained an enviable reputation for strength and durability. One thing Mr. Clark's patrons may especially rely upon: They are sure to get full value for their money. Misrepresentation is not tolerated in his estab-lishment. No better proof of this need be required than the fact that, although Mr. Clark's is one of the oldest stove houses in Philadelphia, his trade is larger to-day by a very large per centage, than it has ever been here tofore. This fact is, of course, largely attributable t the reputation for probity and honor in business achieved by his straightforward mode of dealing with his cu tomers.

TRACTS FOR SOLDIERS .- An interesting meeting under the auspices of the Tract Society of the M. E. Church will be held to-morrow afternoon in National Hall. Perhaps no denomination of Christians have more men in the field than the Methodist. A large proportion of the army chaplains are also of this denomination. As consequence, the demand on her Tract Society is heavy. From the character of the speakers and the object, there will no doubt be a large meeting at National Hall to-morrow afternoon. FINE ARTISTIC CONFECTIONERY,-Messrs

E. A. Whitman & Co., the well-known confectioners, Socond street below Chestnut, have given to this department of our manufactures a dignity unknown to it before. These gentlemen are already bringing out their first instalments of Holiday preparations, and they are the finest, purest, richest, and most beautiful that we nave ever examined. Nearly all the confectioners of note throughout the country are supplied by this firm Our citizens should bear this in mind in making their purchases and go to headquarters. Their courteous and zenflemanly manner towards their customers is remarked by everybody. WITTERS & Co.'s CELEBRATED KEROSENE

Oil Lames are rapidly taking the place of every other description of portable light. They have them in every style, from the plainest to the most gorgeous and ornamental. Their depot for the sale of these beautiful lamps, No. 35 north Eighth street, corner of Filbert, is daily thronged with customers. In our judgment, no other portable lights should be used than those here referred to. As Messrs, Witters & Co. sell at retail as well as wholesale, persons can save money in buying from first hands. Ladies' Shoes .- An establishment for th

sale of Ladies' Shoes of a fine quality has long been needed in Philadelphia. Messrs. Charles Oakford & Sons. under the Continental Hotel, have supplied the want in the most princely manner. No lady should ported by this firm. Their stock of Ladies' Furs, Chillren's Hats, and Gentlemen's Furnishing Goods is als very superior, and they are selling at prices astonishingly

DESIRABLE IMPROVEMENT .- We invite attention to the advertisement of Mr. R. H. Weeks, in another column, of "Coal Oil Lamps without Chimneys." The inventor of this new lamp is Mr. Emil Trittin, of this city. The necessity existing in ordinary coat lamps for the attachment of a chimney is in this entirely obviated, naking the lamp more simple, safe, less liable to break and of course, less expensive. Mr. Weeks has the burners and lamps in all sizes, wholesale and retail, at his warerooms. No. 16 North Second street. GOOD BUTTER .- Mr. C. H. Mattson, dealer

n fine groceries, Arch and Tenth streets, has now on and the celebrated "Trout Spring" Butter, which his patrons have prized so much at other seasons. He sells t in forty-pound firkins. It is fully equal to the bes pound butter, and is sold at a much less price. LAMBS wool and Merino shirts and drawers. VINCHESTER & Co., 706 Chestnut street. CARDIGAN JACKETS in large variety. Hose Kone, Sept 12—Since 22d ult, we have had numerous arrivals from all ports, but as the departures have been on a large scale, the amount of tonninge in harbor is not greater than it was at that date. The scarcity of British tonninge is a very remarkable feature, there not being twenty ships under that flag in harbor, and of these it is doubtful if there be more than four or five disengaged. Of United States ships are there about as many; but in consequence of a report of a Confederate privateer actually fitting out at Shanghae, there is an indisposition to ship under that flag, although it has been placed beyond doubt that the report in question was utterly un true.
