The slow collection of the county tax, arising from cause known to all accounts for the failure to meet this debt. But the failure will be temporary. A special tax was levied to pay it, and from the avails of that and the general taxes, there will, it is presumed, be, in no long time, Chough in the trackury to make good the deficit. The demand for coal has caused an increase shipment The demand for coal has caused an increase shipping it from nearly alt the regions, and this work's shiphing considerably exceeds the quantity for the corresponding week last year. The season by the canals is rapidly drawing to a close. We learn that it is the intention of the Schnylkill Navigation Company to close their canal about the 11th or 18th of December, whether closed by ice or not. This, however, we presume, will depend upon the state of the weather. They are determined to have as few boars as possible frozen up on the line, which is attended with great trouble and annoyance to the company. The rates of tell and transportation on coal on the Lenigh Valley Railroad, will be, on and after December 1, 1861, increased as tollows, until further notice:

The New York Evening Post of to-day says: Stocks are lower and weak to-day. The foreign news published in the a wrining papers seems to have been that immediate cause of the decline, though perhaps the re-action is more the result of a desire to realize the profits of the rise of the past three days.

New York Central opened with sales at 79, and feli off to 76k or 785, anniar 1914 yesterday. Eriz dropped to 31k against 32k last evening. one of 14 per cent. The fiscal year of the company closes to the downward tendency of the market was Cleveland and Pittsburg, which seemed to derive fresh vitality from some quarter. Succeeding the 132 per cent. The fiscal year of the company closes to day. closes to-day.

Pacific Mail dropped 2 per cent., selling at 87, influenced by the mysterious movements of rebel steamers on

the Atlantic, and anxiety in regard to our foreign relations.

Ohicago, Burlington, and Quincy sold at 60, and was afterwards offered at 50. Milwaukee and Prairie du Chien is 19% 200.

Government stocks are firm, and held rather higher. The coupen sixes of 1881 are 93% bid. The various issues of fives are held at 83% 284.

Missouri sixes continue week, and are now lower than at any time-since the Bull Run decline, when they fell to 49. Nearly all the sales to-day were at 41.241%, closing with sellers at the inside price.

The money market is very easy to-day. Early in the week there was an increased inquiry, but the supply on call at 6 per cent. is now in excess of the demand.

Exchange on London closed extremely dull at 103% 20. 109, though some effort was made before the sailing of the steamer to stitlen rates.

The president set firm is in New York, and will be at the Bank of Commerce during next week to arrange with holders of the county bonds, the principal of which matures on lat the emiler.

Philadelphia Markets. NOVEMBER 30-Evening There is very little demand for Flour to-day, either for export or home use, and prices favor the buyers, the sales being confined to a few small lots, mostly to supply the trade, at \$5.37 % @5.50 for superfine, which is very scarce at these rates; \$5.62% \$5.75 for extras; and from \$5.85 up to \$6 for family Flour.
