FINANCIAL AND COMMERCIAL. THE MONEY MARKET.

PHILADELPHIA, December 31, 1861. There were but few transactions at the Stock Board this morning, and very little fluctuation in prices. There was a slight advance in the prices of State fives, and o Olly loans of the new issues. The better class of rail-road securities were firm, but there is little demand flor investment. Reading Railroad closed about the issues as yesterday. The demand for money on the intreets has increased, and the capitalists obtain higher wates of interest. A large sum has been absorbed in the Several of our city banks have determined to issue small notes, a measure which will be popular with some of our small dealers and manufacturers, and which, if there is to be a protracted suspension of specio payments, will probably be adopted by some other city banks. The close of the year, together with the increasing com-dications in the financial world, hold in check the anseted rise of stocks on the adjustment of the Trent

difficulty; consequently, the published list shows but very few transactions at the Board to-day. We understand the North Ponnsylvania Ballroad Company pay the interest for the past six months on their The New York Erening Post of to-day says: The steek market opened somewhat unsettled, and prices gave way. The demand for the speculative shares is very active on time, especially buyers' options, for which large difference are paid, amounting to Kell & cent. for thirty days, and Kok & cent. for three and ten days.

three and ten days.

The feature of the list of State stocks was the purchase of \$120,000, Missouri sixes, on buyers' option, at a difference of \$2,50,000, Missouri sixes, on buyers' option, at a difference of \$1,50,400 cm. for thirty days' time.

Most of the vales of New York Contral were at 80, closing at 80,450 cm. Evic was firm at 32%; Rock Essand, 43%.

Maney is close and hard to-day at 7 per cent. on call. We have of a few asks of prime short-paper at 7 per cent. Exchange on London is very firm to-day at 112. At this rabe there has been considerable dusiness for the mail to-morrow; Gold is seeiing quite freely to-day he 1 wit, a per con-promium. Transactions of lots of \$50,000 and \$100,000 have taken place at 1/g.

The difficulties among the banks, growing out of the disaffection of ten or twelve banks, who refuse to wheel into the line of suspension, are still unadusted, and seem likely to greatly aggravate the stringency of the money market. The Bank of New York resolved this morning to pay specie, so that there are now nine banks which repudiate (the action of Saturday evaning—namely, the America, Broadway, Chemical, City, Fution, Green-wich, New York, Park, and seventh Ward. These banks, however, oven currency accounts, and their spebanks, however, open currency accounts, and their spe-cle payments, in the main, are confined to past engage-It has been stated that Mr. Chase is about to visit this

stand, is incorrect, Mr. Chase finding it impossible to deaye Washington at present. The pressure of public fundiness, together with the filiness of his assistant, will keep him there for some time yet. It is probable that a committee of the benks will visit him in a few days. The banks are paying into the Sub-Treasury, to-day, the necessary funds to pay the interest on the public debt in gold. This, together with the \$1,250,000 pledged the creditors of the State of New York, to be disbursed by the Manhattan Company, amounts to \$4,750,000. Philadelphia Stock Exchange Sales.
