THE MONEY MARKET,

PRILADELPHIA, Jan. 31, 1862. The importance of the proposition to make all the de-mand notes issued by the United States a legal tender, Bo that those payable at one city shall be equally at par with those payable at any other, becomes more and more apparent every day. The banks of New York city set a bad example, which is being followed, we are sorry to gay, by these in other places, and among them by some in this city. They pursued a course calculated, as one of our Western cotemporaries justly observes, to make the United States demand notes a new kind of who have used the stove in question; and, what is "stump-tail." They refused to receive them on deposit, and when they were sent forward from other cities to the banks in New York, they were Only taken as a special deposit, on which drafts were to he naid in the same funds. This was not objectionable, perhaps, except in so far that every such special arrangement tends to discredit the paper which is made the sub-ject of it; but it was followed by a refusal to receive them on deposit, except in trilling sums, from regular depositors, and a refusal to take them in payment of debts due the hanks

We are credibly informed that the Bank of North America refuses to receive the Government notes in pay-ment of notes, when said notes are of the denomination of twenty dollars, and that it imposes other restrictions apon its cierks in the conduct of the business, tending to discredit the Government notes. How much better the slemand note of a bank which has suspended specie payments is than the demand note of the Government, these officials are not able to inform us, and we think it will anuzzle the nublic to tell.

The remedy for this attempt on the part of the New York banks and their satellites to discredit the Government is clearly to be found in the proposed legislation, making them everywhere a legal tender. Then they would pass as well at bank counters as among private dealers, their value would be known and fixed, the circulation of the banks between five and twenty dollars would be gradually retired, and the national cause would be helped to the extent that the notes in circulation formed a loan to the Government without interest. The stock market continues firm. City loans sold at

The Postmaster would direct the special attention of the community to the use of the U.S. Penny Mail Boxes, located throughout the city, sa a source of great con-venience to all, especially to such as may happen to reside at a distance from the post office, or who do not at all times find it convenient to deliver their own let-ters, either for the city or for the mails. There are five collections made daily of all matter deposited in said Boxes, except Sundary, when one collection is made at 5 o'clock P.M. There are four deliverics made daily, except Sundar, two in the forenoon and two in the after-noon. These collections and deliveries are made by competent carriers specially detailed, sworn, and under bonds, for the faithful performance of their duties, and, through the kindness of the MAYOB of the city, ALL these boxes have been placed under the surveillance of the police, so that those 'using the Penny Mail Boxes may implicitly rely upon the safety as well as the prompt collection and delivery of their matter. All letters deposited and intended oither for the mails or for delivery in the city, require to be invariably pre-

MR. EDITOR : In The Press, of the 28th instant, there appeared a review of the "Report on the Physics and Hydraulics of the Mississippi River," in which an error is made by stating that the hydrographical party was under the charge of Mr. J. O'Rourke. By referring to page 18 of the report, yon will perceive that " the hydrographical party was placed in charge of Mr. G. Castor Smith, aided by Mr. James O'Rourke and Mr. Otto Sackersdorff, and subsequently by Mr. Joseph Gorlinski." Mr. Smith is a native of this city, and has been a civil engineer over twenty years, but is now engaged in the bureau of Topographical Engineers, at Washington. THE LONDON TIMES ON MASON AND SLI-DELL.-The "Thunderer" is out on Mason and Slidell. It calls them "these fellows," says that England would ave done as much to secure the return of two of their own negroes, and advises the Britishers not to bother beniselves about two such unimportant personages. We ncline to the opinion that the bogue ministers Will 800 begin to conclude that they had better have kept in the path of mystry and concerty in the second from stealing forts, custom houses, guns, and India onds, and continued in the enjoyment of a good Government, and the privilege of obtaining their wearing apparel at the Brown Stone Clothing Hall of Rockhill & Wilson, Nos. 603 and 605 Chestnut street, above Sixth.
