2. An explanation of the true or Hygicalic Systems.
3. A solution of those problems which have baffled the investigations of medical men in all ages, and which are regarded by the profession as prefound mysteries, wholly without the pale of human comprehension—viz: the Essential Nature of Disease, and the Modus Operand of Medicines.

Dr. TRALL will prove by abundant and conclusive testimony and experience that the Hygienic System is incomparably mere safe, sure, prompt, and efficient is the treatment of the diseases which are the chief sources of mortality in our Camps and Hospitals than is the ordinary or drug treatment, and how very easy it is to save the lives of thousands of our officers and soldiers and millions of money. He will also treat of a hundred other things of vast importance to all, for particulars of which see large programme.

A New Theory of Disease!

A New Doctrine of Remedies!

A New System of the Healing Art!

Br. TRALL'S Philosophy of Medical Science is entirely original, its primary premises never having been recognized by medical smo, nor written in medical books, nor taught in medical schooks, nor imagined by the people. Indeed, it is in direct contradiction to each and all of the fundamental premises on which the so-called Medical Feience of the day is predicated.

THE FALSE SYSTEM AND THE TRUE.

Dr. TRALL' will demonstrate to the satisfaction of every candid person who will hear him through the utter falsity of the Drug Medical System, and the absolute truthful. Less of the Hygeine Medical System. He predges himself to show by facts, experience, testimony, logic, and by all of the data applicable to the issue, that the prevalent Medical System is, in all of its fundamental propositions and problems, untrue in philosophy, absurd in science, in opposition to nature, antagonistic to vitality, contrary to common sense, disastrous in results, and a curse to the human race; and that, on the contrary, the Hygienic Medical System is true in philosophy, correct in science, in harmony with every law of the vital organism, in agreement with nature, in accordance with com and now it is that discasses and card nave sineys in-creased as doctors and drugs have multiplied.

DR. TRALL INVITES DISCUSSION.

DR. TRALL will, after each Lecture, reply to any criticisms and answer any questions or objections which may be presented by the audience. Medical gentlemen of all schools are capacially invited—may, challenged—to hear the Lectures, and state objections, if any they have, to the positions advanced.

THE SUBJECT IS OF NATIONAL IMPOBTANCE,
DR. TRALL will be very happy, if permitted, to explain the principles and practice of the system he teaches in the Hulls of the Capitol, before the President of the Tusted States, the Cabinet, members of Congress, the Medical Faculty, and all learned Literary or Scientific gentlemen who may deem the subject worthy of their attention, and particularly in their applicability to the beatth of our armies now in the field. ealth of our armies now in the field.
