The Morning Post publishes some interesting details concerning the maritime custom dues of Morocco, one-half of which have just been mort-gaged to the British Government, in trust for the new bondholders of that country. A very exten-sive trade is maintained hetween Morocco and tho West of Europe, from Mogador, Tangier, and some other ports. According to the most authentic state-ment we have been able to collect, the commerce of the port of Mogador reaches the value of not less than 40,000,0000, or £1,600,000 per annum. This is by much the most considerable port of the Mo-rocco Empire, and the aggregate trade of all the others is about equal to that of Mogador. The articles of commerce are very numerous. The im-port consists chiefly of cotton, wools, silks, raw and manufactured, raw and refined sugar, sicel, iron, in, copper, cullery, tea, earthenware, specie, and bullion. The exports consist' of fruits, fresh and dried, tools, olive oil, hides, grain, oxen, wax, leeches, bark, gum, bullion, and specie.

THE CHARSES LINEINSTR. -IN September, 1830, the allied army advanced into the interior, and after some fighting, in which the Armstrong gaps did nearly all the work, the Chinese authorities pretended that they desired to be upon friendly but hearly an the with, the chinese atherites pretended that they desired to be upon friendly terms, a camping-ground was arranged for our forces, and it was agreed that this ground should be surveyed by our officers. Accordingly, Mr. Parkes, the interpreter, Mr. Loch, Lord Elgin's secretary, Mr. Bowlby, the *Times'* correspondent, Captain Brabazon, of the Royal Artillery, Lieuts. de Norman and Anderson, of Fane's Horse, an or-derly from the First Dragoon Guards, and several Sikhs eventually found themselves, with about an equal number of French officers, the Abbe de Luc and orderlies, in the power of the Chinese. After some little attempt at disguise, the real intentions of the Chinese were unmasked, and the whole party were seized and subjacted to the most dis-gusting cruelty and indignity. Each man was bound and dragged about with remorseless oru-elty, and the little party was speedily sepa-rated. Messrs. Parkes and Loch were impri-soped at Pekin and Boron Gros announced to the Chi-nese commander that Pekin would be stormed un-less the prisoners were instantly given up. An at-teak was then commenced Messrs. Parkes and nese commander that Pekin would be stormed un-less the prisoners were instantly given up. An at-tack was then commenced. Messrs Parkes and Loch and the other living prisoners were restored; several of their companions had been butchered. Two hundred thousand pounds was demanded as a fine for the murder and ill-treatment of the prison-ers, in addition to a much larger sum to be devoted to defraying some portion of the expenses of the war. This sum, having been handed over in Sycce silver, was realized at Canton, and the English share—some ±03,000—is now being distributed in the following proportions: To the legal representa-tive of Captain Brabazon, of the Royal Artillery, ±15,000; to the legal representatives of Mesers. tive of Captain Brabszon, of the Röyal Artillery. £15,000; to the legal representatives of Mesers. de Norman and Anderson, £15,000 each; to the legal representative of Mr. Bowlby, the *Times'* correspondent, £15,000; to the legal representatives of private Phipps, First Dragoon Guards, £2,400; to the families of the eight Sikhs who were mur-dered, £12,000; to Messrs. Parkes and Loch, £3,000 each; the Sikhs who were subjected to ill-treatment, but who were returned alive, will also receive a handsome portion of the indemnity. MR. MR. S. The Emperor, who was present, perceiving the au-thor of the 'Barbière' sitting at the back of a pri-vate box, sent an aid-de-camp to invite him to the imperial one. Rossini presented himself in a frock coat, as he usually is, and made an excuse for his undress, 'Bah!' said the Emperor, 'is there any constraint between two sovereigns?' And his Ma-jesty conversed with Rossini, with the greatest fa-miliarity, for a length of time." 'The cantons of Bale (country), the Grisons, Zurich, and Argun, have at length decided on inin Finance. THE cantons of Bale (country), the Grisons, Zurich, and Argan, have at length decided on in-troducing into their codes serious modifisations relative to the Jews. Up to the present time they have been almost out of the pale of the laws in several of the Swiss cantons. This is a great step in advance, and the local governments must be congratulated.

Arrest of an Extensive Forger.

Arrest of an Extensive Forger. The Chicago Post states that one of the most ex-tensive forgeries that have of late been detected was quashed on Saturday last, in Cleveland. The principal in the nefarious business is E S. Piper, who has had association with a man named C. B. Bruce. Both are now imprisoned. Their opera-tions commenced in Wisconsin, during the month of November last, by selling to different bankers a number of drafts, purporting to have been drawn by the Bank of Toledo on the Ocean Bank, of New York, in favor of C. B. Bruce. The Ocean Bank discovered the fraud, and notified the Wisconsin brakers. bankers.

benkers, The forgeries already discovered amount in the aggregate to over \$25,000, extending over a period of three months, and embracing in operations the States of Wisconsin, Illinois, Missouri, and Iowa. The modus operandi was to get a genuine draft of some Western bank on a New York eity bank, for a small amount, and then, by the use of acid, obli-terating the original sum, and filling in the blank with a larger amount, leaving the signatures and all the other parts of the draft intact. The nature of the acid was such that only the writing fluid was affected by it, the printed portion remaining un-touched. One of the drafts had been raised from \$475 to \$1,500, and it is impossible for the most ex-perienced expert to discover the alteration, and even the strongest magnifying glass failed to detect anything wrong. On December 12th, several of the Wisconsin bankers, who had been victimized to the amount of about \$6,000, placed the matter in the hands of ex-Chief of Police Beck, of Milwaukee, with ample means to prosecute a search for the exist draft inmediately took hold of the case, and visited the principal points in Wisconsin. A correspondence with Chief C. P. Bradley, of Chicago, resulted in the discovery of similar frands in Illinois and Lowa, which Mr. Bradley was then engaged in tracing out on balaft of tha Illinois bankers. Subsequently, it was ascertained that the police of St. Louis were on the track of the rascals. The combined efforts of the officers were successful. Piper was traced to Cleveland, and was supposed to have in his possession \$12,000, but when arrested at Hinkley he had only ten cents. The forgeries already discovered amount in the

THE POPE'S HEALTH.—The recent rumor of the Pope's death probably arose from an illness, of which an account is given in a letter from Rome, of January 25, which says: "The Holy Father has been rather unwell for the last few days. It was on Monday morning that he first felt poorly, and his physicians then recommended him to go to bed, see measure of precention. On that excention his prysiciants then recommended him to go to bed, as a measure of precation. On that evening a slight fever came on, caused by the irritation of the erysipelas in his leg. The fever continued through-out Thursday, but on Friday morning the Pope was better, and at noon he got up. This morning he gave audiences to ministers and others just as usual. The Pope is 70 years of age, and his health requires areat care : the little sore in his leg is frequently great care; the little sore in his leg is frequently irritating."

THE Assembly of the Nobles, at Moscow, has decided upon proposing to the Emperor of Russia the application of the principle of election to the ad-ministration of justice, and that the taxes should be collected in the provinces by persons elected for the purpose, instead of by the functionaries appointed purpose, instead by the State.

The Russian Despatch Respecting the Trent Affair.

The Nord is the first paper to publish Prince Gortchakoff's despatch to M. De Stoeckl, the Russian minister at Washington on the subject of the American apology for the *Trent* affair. It will be seen that the despatch reiterates the friendly sentiments entertained by the Government of Russia towards our own Government, and so often made public in the interchange of diplomatic views bo-tween the two countries. The letter is dated January 9th, and is as follows :

ary 9th, and is as follows: Monsitum: The Federal Government will not doubt the keen interest with which we have fol-lowed the various phases of the recent incident which has held in anxious suspense the attention of the two worlds. His Majesty the Emperor has not presumed too much on the wisdom of the Cabinet of Washington in being convinced that, at this serious juncture, it will only consult its sentiments of justice and con-ciliation, and the interests of the country It is with the most profound satisfaction that His Imperial Mojecty has seen his anticipations con-

It is with the most protound satisfaction that His Imperial Majesty has seen his anticipations con-firmed by the determination which has just been taken by the Federal Government. Although it has only reached our knowledge at present through the medium of the journals, our august master has been unwilling to delay the transmission to the President of the sentiments with which he Majesty unpresident of the sentiments with which his Majesty appreciates this manifestation of moderation and equitable spirit—all the more meritorious in that it was rendered difficult by

meritorious in that it was rendered difficult by popular impetuosity. I need not add, Monsieur, that, in remaining faithful to the political principles which she has always defended, even when these principles were turned against herself, and in abstaining from taking advantage, in her turn, of doctrines which she had always repudiated, the American nation has given a proof of political honesty which will acquire for it an incontestible claim to the esteem and gratitude of all Governments interested in seeing the peace of the seas maintained, and the principles of right proval over force, in international relations, in the repose of the world, the progress of civilization, and the well being of humanity. His Majes'y the Emperor is pleased to hope that the same wisdom and moderation which dictated to the Federal Government its latest resolutions will also direct its conduct during the continuance of those internal difficulties with which it finds itself engaged.

those internal difficulties with which it nots itself engaged. The event has proved to him how much these dffi-culties are capable of altering its political position, how much they are of a nature to encourage the hopes connected with the diminution in the power of the United States, and how much, consequently, it is its interest to terminate them as soon as possible. The Emperor is persunded that the statesmen who have shown themselves able to take such an ele-vated view of the foreign interests of their country will also know how to make their internal policy superior to popular passion.

will also know how to make their internal policy superior to popular passion. Be pleased, Monsieur, to express to the Federal Government these feelings of our august master, and to reiterate the assurance of the satisfaction with which his Imperial Majesty would see the Ameri-can Union consolidated by measures of conciliation which might regulate the present, without esta-blishing germs of discord for the future, and so re-store these conditions of strength and prosperity which we desire, not only because of the cordial sympathy which unites the two countries, but be-cause the maintenance of its power is important in the highest degree to the general political equili-brium.
