THE CITY.

FILTHY STREETS. - Numerous complaints are made of the filthy condition of the streets in most parts of the city. In consequence of the neglect of the authorities to remove the coal ashes during a good part of the winter, the contents of sah-barrels were cap-sized into the streets, to add to the universal dirt; and, at this time, collections are made so irregularly that the boxes and barrels standing on the curbstones a e heaps to overflowing, for the wind to scatter the dust in ever Yesterday afternoon the members of the Democratic party of City Councils held a cancus for the purpose of considering the bill recently introduced for creating a new department for cleaning the streets of the city. The different points of the bill were discussed, but a majority of the members were opposed to creating a new department, thinking that the matter should, as heretofore, rest in the hands of the Chief Commissioner of Highways. The bill, therefore, is virtually killed. The streets, at the present time, are in a most shocking condition, and unless our City Fathers take some action in the matter at an early day, Philadelphia will lose her fair fame for clesnilness. Last year the work of cleaning the streets and removing the ashes were swarded to contractors, and how the contracts were fulfilled our readers are well acquainted. Each contractor gave security for the faithful performance of his work, and in the many cases of neglect not one of the Yesterday afternoon the members of the Democrat work, and in the many cases of neglect not one of the surctics have been made to suffer. Whether the contract surrence have need made to sumer. Whether the contract system will be adopted this year or not is uncortain, as Councils have not yet taken any action in the matter except that of yesterday, refusing to agree to the new bill. When the ordinance making the annual appropriation to the Department of Highways was passed the item for cleaning the streets was stricken out as it was then said this work would be confined to a separate department to be created. As this department is not likely ever to come into existence, and as no appropriation has been made.

Noy was charged with the larceny of thirteen parrels of lubricacharged with the larcent of thirteen barrels of lubricating oil, the property of Honry Boreau. Amos Briggs appeared as counsel for the defence.

Mr. Boreau testified that he had placed thirty barrels of oil in the yard of Mr. Nov, on Market street, above Eighth: had taken all away but threen barrels; on or about the 10th of January, he went there and tound his oil all gone; he spoke to Mr. Noy about it, and he roplied that he thought witness had taken it all away; on the following day the witness found five barrels of his oil at the store of E. S. Jones, on Market street, near Savonth; witness had stored the oil in Mr. Noy's yard as a favor.

Mr. Sbyder, a yönug man, formerly a farmer in Virginia, testified that he lives at Bevorly and Philadelphia;
became acquainted with Mr. Noy through a Mr. Warner,
of Beverly, N.,J., and that Noy sold him the oil in trade
for a wagon and some whisky, and he in turn sold some
of it to Warner, Kline, and others; he gave some twenty
cents per gallon for it, and traded it for some whisky;
gave the whisky to Noy; told Mr. Kline that the oil
came from Pittsburg. The jury rendered a verdict of guilty.

NAVAL ITEMS,—The United States MAVAL ITEMS,—The United States frigate Fermont having been spoken south of Cape Henlopen, the steamship Sazon left yesterday to afford relief to the disabled frigate. The Sazon took with her from the Philadelphin navy yard the rudder and chains belonging to the Powchatan for the use of the Fermont.

He drank number of times, treating his friends, and being in tur a namer of uses, treams his triends, and being in turn treated by them.

In paying for the drinks up stairs and down stairs, he passed the four gold dollars, which were subsequently found to be counterfeit. The Commissioner held him to answer at the next term of the U. S. District Court.

The presentation was made by Capt. Sickles of the Scott Legion. Capt. Keffer responded happily. The following is the inscription upon the sword:

"Presented to Captain Francis J. Keffer. Company N. Seventy-first Regiment, P. V., Tormerly First Odifornia Regiment, by his friends, March 11th, 1852.

"Taken prisoner at Ball's Bluff October 24, 1861; sent to Richmond (Va.) Jail as a hostage, November 13, 1861; released and exchanged, February 224, 1862."

ESTABLISHMENT OF A BRANCH AR-MORY.—We learn that efforts are being made to secure the establishment of a branch U. S. Armory at Kaighn's Point, New Jerssy. This point is accessible in overy di-rection by river and railroad communicatiou, with a depth of water sufficient to admit to wharfage vessels of the largest class. At low tide, at the end of the long wharf the water is twenty-two feet. This depth will give a security for any vessel that can ascend the Delaware to Philadelphia, and, being directly opposite the navy yard, co umunication between the two points would be easy, and liable to very little interruption, even in winters of havy too.

LARGENY OF WATCHES -Yesterday LARGENY OF WATCHES — Yester(lay alternoon Robert Johnson, an old gray-haired mu, was charged before Alderman Ogle with the larceny of a silver watch, valued at \$30, the property of John Shiver. Johnson is a watchmaker, doug business at 250 South Front street It is alleged by Shiver that he left the watch for repairs, and that sub-sequently Johnson refused to return it to him. The defendant was held in the sum of \$400 to answer the charge It seems to have been Jelusson's habit to pawn the watches left with him for repairs. He had in this way received \$1,309 from the pawnbroker alone. Subsequent to his arrest a well known pawnbroker gave the police three gold watches that had hen pledged with him by Johnson.

THE FEMALE MISSIONARY SOCIETY .-The Forty-fourth annual meeting of the Fe-able Domestic Missionary Society was held resterday afternoon, in the lecture room of the First Presbyterian Church, on Washington Square. The expenses of the society for the past year have been \$404, leaving a balance of \$101.55 After an address by Mr. Brown, the meeting &ionured.

PROFESSIONAL THIEVES AND PICK-PROFESSIONAL THIEVES AND PICK-POCKETS.—Yesterday the bill authorizing the arrest of professional thieves and burglars, which passed the House of Representatives, at Harrisburg, was concurred in by the Senate. The bill empowers policenen to arrest all persons who are known to the community as professional theves, when seen in crowdeyr behaving in a suspicious manner. It also gives power to the mayor to commit them for ninety days, as vagrants, instead of thirty. The bill is a good one, and the next thing that is needed is a house of correction to place these scamps in, where they may have an opportunity of making an housest living.

EMPLOYMENT FOR THE PUPILS AT GI-

THE DINNER AT THE CONTINENTAL. The warrants drawn to day for the dinner at the Con-tinestel on the 22d have not yet been presented by the committee of City Councils to the City Controller countersign. F. C. Brewster, Esq., the legal adviser of countersign. F.C. Brewster, Esq., the legal adviser of the Controller, is of the opinion that the latter should refuse to countersign the warrant. Mr. B. thinks the Councils of Philadelphia base no more right to vote a dinner for themselvasior friends out of the public monags than they have to vote a suit of clothes or a direct sum of money to each member of their body or the Legisla-ture.

DISORDERLY CONDUCT. — Gustavus Kentzing was yesterday sent to Moyamensing for having indulged in the pastime of breaking a window in South Second street while slightly under the influence of liquor. For his defence he said that the proprietor of the store was a Secessionist and that the right of a traitor madelhis blood boil, so that he could not take time to enter the store through the door but plunged at once through the bulk window. Gustavus was taken to a call calling on the American eagle for assistance.

cross, the keeper of a restaurant at No. 232 North Second street, was yesterday charged by his wife, Josephine Norcrose, with beating and abusing her in a shameful manner. Hugh was held by a Iderman Ogle in \$500 to keep the peace. From certain remarks that were dropped, it was divined by the officers present at the hearing, that the "green-eyed monster" had something to do with the matter.

A HEARTLESS MOTHER -Margaret Conner was resterday committed to prison for habitual dumhenness and neglect of her four children. She re-sided in a court rushing off of Hurst street, which touches some part of St. Mary street. No more explicit address could be given, as the houses in that locality are not runshered. The denizens being unable to read, to place numbers on the doors would be a waste of money.

LECTURE ON WATER.—Last evening, Professor Balton dolivered a lecture on "Water," at the Eductic Medical College. The discourse was principally confined to a description of the action of water on leaf and iron pipes. He says that where the water contains phosphiates it has no deleterious action on lead pipes. He recommends the use, however, of galvanized iron pipes as perfectly harmless, and spoke of rainwater as being the most wholesome for drinking purposes. In this climate, on a roof 20x40 feet, you may collect 19,000 gallons of water annually, or nearly fifty gallons weekly, which would be sufficient for the use of almost any family. In a couple of weeks, the Professor will detail the re-

ults of his analysis of some of the water taken from the Kensington basin. GOVERNMENT GOODS .- The arsenal GOVERNMENT GOODS.—The arsenal on Gray's Ferry road is at the present time completely filled with Government goods. The contracts are fast expiring, and the clothing, i.e., as fast as made up is being delivered in quantities to the various buildings rented by the Government. The branch arsenals, at Twenty-first and Spruce and Beach and Chestnut stroots, are well stocked. The Government buildings, at Fifth and Chestnut streets, are used generally for atoring unmade goods. The only ready-made clothing taken here are thirds and drawers. But comparatively few workmen are now employed at either of these places.

A BEAUTIFUL AND RARE PHENOME-A BEAUTIFUL AND KARE PHENOMENON—Last evening a spectacle, rare in this latitude,
was presented by the appearance of what is known as a
limnr bow. It was seen about 9 o'clock, and presented a
sight as beautiful as it is rare. It was composed of all
the varied hues of the rainbow, and formed a complete
circle around the moon. The colors were arranged in the
natural order of the spectrum, the violet being inside
of the circle, and the red on the outside. The singular
sight continued for some time, and attracted considerable
aftention from the numerous promenaders who were
brought out by the beauty of the night. This phenomenen is frequently seen in the trovical latitudes, but it
seldom pays a visit to our climate, at least in such magnitude and beauty as that of lost hight.

A Lancaster-county critic, in describing the singing of a lady, says; "When she sings one of those exquisite ballads, the entire atmosphere changes; the ceilings, walls, and air rain richest melodies; harmony springs from the floor and benches, and the audience is held spell-bound in harmonious enchantment while music, with its voluptuous swell, rolls from the artist's lips naturally and scemingly with as little effort as limpid waters bubble from the bosom of the earth." Suppose that the gifted lady were to ring the praises of the garments made at the Brown Stone Clothing Hall of Rockhill & Wilson, Nos. 603 and

> NEARLY THREE YEARS AGO, Professor BOILES, with his Assistants, arrived in this city, and established hin self at 1220 WALNUT Street, and announced that he had made as important discovery in the application of Galvanian, Magnetism, Electro-Magnetism, and other meditications of Electricity, for the cure of all acute and chronic diseases, and at first we were not much excited, as we had heard others proclaiming to have made new discoveries in applying this mighty agent for the cure of discase; but since we have turned our at-tention more directly to the multitude of cures performed at 1220 WALNUT Street, by Professor B., and have examined the philosophy of his new discovery, we are ready to give our opinion for the benefit of the diseased of body or mind. The discoverer is a man of original thought and independent cast of mind, and a keen power of analysis. There seems to be no confusion or guess-work it his treatment. He proceeds on simple principles, and have watched his success carefully for a long time. What manity, is his discovery of the proper use of the different ditions of the human organism, in harmony with its gaugitonic relations. We do not undertake to define the science of his discovery, but mostly to notice his almost incredible cures, some of which are performed in a few minutes; and so certain are his plans of diagnosis that he can warrant, with unerring certainty, and never fails (as we learn). We feel most thankful to him for having been able to lift the veil which has covered with darkness and obscurity the most powerful and subtle agent in fied in this new discovery of Prof. B. We have been so much pleased in finding a doctrine which is connected in all its parts, which in reality undertakes to explain the nature, action, and polarities of electricity in the nervous system, that we have penned this testimonial to Professor

The information for this map was recently obtained by A PERSONAL TOUR THROUGH THE SOUTH, as well as by the information given by THE PIRSIDENT OF MYERY BAILROAD; the corrections make to OMLPLETE OTHE PRESENT HOUR; and it gives so recent and such valuable facts concerning all the Railroad, that the Was Department immediately authorized its publication, and distributed ONE THOUS AND COPIES among the Generals and Colorels of the Army; that order having now been supplied, no further delay in issuing the map will occur, and subscribers can now be supplied at the following prices:

Several weighty reasons for purchasing "HAZARD'S R/ILROAD AND MILITARY MAP OF THE SOUTH-ERN STATES:"

1st. It is the official map; and therefore must be the best and most reliable, which is everything in a map, particularly at this time when a good map is of such universal interest. This is the ONLY MAP that has been officially adopted for Government purposes.

2d. The Coast is so distinct and accurate; it shows every little island and inlet, and is sea accurate as the large maps issued by the Coast Survey Office.

3d. It is very cheap. It is 32 by 55 inches, and is one of the best especimens of map engraving ever done in this country.

4th. It presents the whole Southern 3tates at one view, on the desirement of the whole Southern States at one view, and the railroads are so distinctly marked as to show at a glance the most important strategical points.
