"ROPING " RAILROAD CARS.

"ROPING" RAILROAD CARS. The Grand Inquest also reproduces the practice now in use of "roping" railroad cars over the footways into the coal yards and freight depots in the city. The horses being rapidly driven along the street parallel with the footway, the cars are sanddenly diverted **durd** driven across the footway, without notice and without exciting the at-tention of the people passing along. This practice has resulted in the loss of life. It should be repressed by legal enactment.

ILLEGAL ARMY VOTING.

The Grand Inquest have returned a true bill against a dafandant for illegal voting for city and county officers of Pbiladelphia, at a camp in the State of Maryland. Im-pressed with the importance of the subject, they pursued their inquirtes until they became corvinced that exten-sive frands, of a highly criminal and dangerous characer, had been perpetrated against the purity of the ballot-

The evidence submitted to them revealed facts of so startling a character that they cannot forbear especially alluding to some of them. At one election poll, held in a camp in the State of

At one election poir, held in a camp in the State of Maryland, one hundred and five persons wore returned as votes in a company which consisted only of eighty-three members. In another, sixteen minors, under the age of twenty-one years, were allowed to vote without objection, and in other companies all the wholesome checks and re-straints of law were thrown aside, and votes received

straints of haw were thrown aside, and votes received from all persons whatever who chose to present them-selves to vote. So recklessly and so criminally was the election con-ducted in the campa that the election officers seem-d to have evinced a perfect disregs d of the importance or the sencity of the duties they undertook to perform. The Grand Inquest has received conclusive evidence that upwards of four handred and forty persons in three regiments alone were allowed to vote who did not belong or were not attracted to the company of whean pulk they or were not attached to the company at whose polls they

Upwards of sixty minors under the age of twenty-one years were allowed to vote, and whole companies of men, of whon a large pertion were unnaturalized foreigners, voted to a man; the officers who conducted the election voted to a man; the officers who conducted the election saying that, in their judgment, every one had a right to vote who fought under the stars and stripes, notwith-standing they leaked all the constitutional qualifications of voters. Returns of elections thus held were taken and carried into the returns, to affect the popular will, as ex-pressed by the horest and constitutionally qualified voters of our city. Not only were abuses of this cha-racter shamelessly enacted in the camps, but wicked and designing men, either in or out of camps, propared and forwarded returns of elections in companies that never were held, and strove to dofent the will of the people, and control the municipal government of our city by forge-ries of election returns, and frauds of the most base and

ies of election returns, and frauds of the most base and us character. The Grand Inquest are fearful that the law is powerless Luc or any logures are rearring that the law is powerless to prevent these offences, or to reach and punish the of-fenders. The constituted authorities of our city have offered a reward of one thousand dollars for such in-formation as will lead to the detection and punishment of these offenders, but, as yet, no information has been rehese offenders, but, as yet, no information has been re-eived of a character sufficient to base a criminal proze-

cution upon. The Grand Inquest, in view of these practices, are so well ratisfied of the impossibility of conducting elections among soldiers in camp with fairness and impartiality, that they are forced to call public attention to the law ding for such elections as fraught with danger to th ts of the citizens, and highly injurious to pub

tions of the committee in charge of the Refreshment salons. In relation to that part of the presentment which was devoted to the law allowing volunteors to vots, he said i You refer, gentlemen, to a bill of indictment found against a defendant for illegal voting at the last general election for city and county officers, at a camp in the State of Maryland. That bill has been disposed of, so far as this court is concerned, by a jadgment sustaining the de-murrer which was filed by the defendant for the cause assigned—namely, that the law under which the volun-teer soliders claimed to exercise the elective franchas, at the October election, in camp, in the States of Virginia and Maryland. Was indirect conflict with section first of the third article of the Constitution of this Dommon-wealth, which provides that every while fracmano f the age of twenty-one years, having resided in this State one year, and in the election district, where he offers to vote, the days immediately proceding such election, and, with-in two years, paid a State or county tax, which shall have been assessed at leark ten days before the election dis-trict in which the elector. The clause of the section which makes a real-done of fen days in the election dis-trict in which the elector offers to rote, immediately pre-ceding the election, a pre-requisite to the onjoyment of the rights of an elector. The clause of the soldier remains unchanged by the fact of his having left the place of his domichic or his election district for the purpose of fighting the battles of his country. If therefore, he votes in an election district in which he reserthed a reeidence, or in no election district to the constitution is in any sense satisfied? It will pot do to say that his vote is recorded and counted in his proper election district in which he has resided ten days immediately preceding the vote, whose duty it is nunder the law, to send the vote, affor it has been retricted to the selecton off port, to belthere enumerated; but it requires that the of

The remains of Mr. Mather were taken to Lynn, Connecticut, on Friday night, and those of Lient. Budd left for Buffielo on Saturday morning. The Lieute-nant formerly resided in Buffalo, and the authorities have made arrangements for a public funeral.

UNDER FALSE PRETENCES.—On Saturday, in the Court of Quarter Sessions, an officer in a volunteer regi-ment, now in service, applied to be dismissed from a charge of obtaining money under false pretences. The man who preferred the charge had purchased from the defendant bis pay-roll of the company. The prosecutor stated the facts, from which it appeared that he had a te-nant who could not pay his rent—this was in December last—be was the lequenant in a heavy artillery company. hat who could not pay im renu-tile was in Decentory last-he was the licutenant in a heary stillery company, stationed at Camden, New Jersey; he offered to sell the pay-roll, as he desired to get some money. The prese-cutor finally bought the pay-roll, and gave him \$227 for it. Betore he bought the pay-roll he ascertained that it was good; when he went to draw the money, he found that the licutenant had made out auchter roll, on which he set the money.

This the neutran had note but about rol, on which he got the monor. It was suggested by Mr. Mann that the Government had not been sheated by the trunsaction. The prosecu-tor alone was the loser. ained here? Jude Allison replied that if the conspiracy was ontered into here, then the charge may be entertained. Mr. Earle said his witnesses were absent, and he would have them here at any time the judge might name. The court fixed Saturday two weeks for a further hearing. 🔍

When a customer would pay his bill-fay \$150—he would enter the correct amount upon the ledger, but in entering it upon the cash-book he would drop the figure "1," and enter the amount as cash \$50, reserving the one hundred for his own use. He generally chose small sums to work upon, as the chances of detection were less than it he had taken lerger amounts: but in the space of two years he

THE SHAD FISHERIES.—The supply of shaf for the present season is principally derived from the Delaware fisheries, all of which are in active opera-tion. The Susquehanna shad are few and late in coming to marker. A new dam has been erected at Columbia, which materially interferes with the labors of the fisher-men, as it prohibits the passage of shad up the stream. Meetings have been held in portions of Lancaster county, and the following resolution adopted, viz: That the sup-plement to the charter of the Susquehanna Canal Com-pany, authorizing the construction of a dam at Colum-tia, expressly provides that the same shall not impede the ascent of fish, and requires such dam to be of a given height, and slood "so as to promote the passage of fish," a subsequent enactment of the Legislature, fur-ther provides for the construction of said dam is noto-riously constructed, as yon state to up, in violation of the terms and provisions of the charter of the company, and the source of the Assembly relating throots, such as a common nuisance. appear to be effective, however; and the speaker hoped that the resolutions before the Chamber would pass unanimously. Dr. SITHS said that if the Philadelphia City Councils had passed an appropriation of six, serven, or eight thou-sand dollars and directed the Legislative Committee to expend it at Harrisburg, we would have no trouble. The Legislature, for the last two or three years, has been a disgree to this or any State II is useless to send any more committees to Harrisburg. If we appropriate ten thousand dollars, to buy those scoundreis, we can do something. Otherwise, let us appropriate money enough to buy hemp for the scanps, who are sent from the city to legislate for us at Harrisburg. We are constantly starled by the corruption of the body which sits at Har-risburg, while they rdicale us for sending people there without plenty of money. I shall vota for the resolutions, though I think it will have no effect, without an appro-priation to buy those scoundreds up. Mr. Chesswerl. also made a brief speech in favor of the protest, and against the bill now bofore the Legisla-ture in reference to street cleaning. Mr. QUN also fired into the Legislature, and declared that the persons who were to get the contract for clean-ing the streets from the Board of Health were rotten, and their scheme was a traud. Mr. Loconturs said that this special legislation was be-coming a curse to the city. This law in reference to cleansing operations would put us at the morey of a mo-monoly. The Legislature numbus at wall go one atap fur-ther, and decree that purors chosen by the courts should represent the resolutions of protest would be unani-moning a dopted. The resolutions of protest then passed unanimously, as they came from Solect Council. The ordinance for the relief of the families of Thomas McCabe and Thomas Carberry, deceased, was then taken up and passed finally. The Chamber then adjourned.

CAN A MAN ENLIST ON SUNDAY ?--On Saturday an interesting case was brought before Judge Allison, of the Court of Quarter Sessions, in regard to the cellistment of a shoemaker, named Joseph Gary, who kept a store near Nineteenth and Callowhill streets. His discharge was asked for on the ground that he enlisted on Sunday, and, therefore, the contract is not binding. The investigation of this case developed the following interesting particultars: On a certain Saturday, and long since, his wife's sister buried a child. The recruit and wife attonded the funeral, but they were put into the last carriage in the train. Mr. Gary got mad at such treat-ment, sprang out of the carriage, went away and got drunk, and on the following Sunday morning went to the camp of Golonel Frismuth's regiment and was en-listed; it he captain, remarking that it was Sunday, told him that be had better come the next day. Gary was sober at the time; ho looked as if he had heen drunk the might or day before, but insisted on the cellistment. The counsed for the relator also set up the ples of insanity from strong drink. The judge set this alde. The point raised, as to the validity of the emlistment made on Sun-day, he would carefully accultance the authorities, and give his decision on next Saturday.

DELAY IN THE PAYMENT OF CITY WARHANTS.—There is great complaint abroad of the delay in the payment of city warrants, and the brokers are realizing a handsome profit upon the paper in the hands of city creditors. The system operates with parti-cular severity upon the teachers in the public schools, who toil hard for the pay they receive (in many instan-ces but \$200 a year.) and who have no way sflorded them to realize the pittance due them, except at a shave of from eight to ten per col. If the warrants due the teachers on the first of the present month are not promptly -honored, it will be just one year since this worthy class of employees of the city have received their earnings direct from the treasury.

JUST PUBLISHED. "THE BIBLE READER." THE "WOBD METHOD" APPLIED TO THE BIBLE. This work is constructed upon the principle familiar to mentary teachers as the "Worn METHOD." Several ele-mentary bocks on this plan are in extensive use in this country and in England. By it the child or adult is in-troduced, at oxcar, to the knowledge of uords as signs of ideas, instead of argunizing a knowledge of *letters* as the elements of words. In the proper use of this method, a competent knowledge of the art of reading can be obtained by children or adult in a very few days, or weeksa. most: and the ad-vartage of it is specially obvious for adults, who have neither time nor patience to endure the tadious and seema-ingly useless process of alphabetical and monosylhable in-struction which is usually adopted. "THE BIBLE BEADER" is published in a cheap form, for general use, at 15 conts. The TABLETS, which are of use in teaching large classes, may be had in sherets for 4 conts each, or on cards for 17 conts cach. Mer A Circular, explaining and litustrating the prin-ciple, and containing the options of eminent teachers and philologists, will be forwarded upon post-paid ap-plication.
