n, all the railroads in this State, at Milwaukee, on Tuos-er, the Z2d day of A pril. 1862, at 4 0'clock P. M. Im-witani business will come before the meeting. All pringators, whether members of leagues or not, are in-ed to attend said meeting. "By order of committee."

The New York Tribune of this morning comments upon the above as follows:

In saying that "this law requires the railroads of the State to pay off the old farm mortgages, by the appropriation of 12 per cent, of the gross receipts annually," the writer in the *Post* makes two mistakes:
This law contemplates the payment of 12 per cent. Then say and this 12 per cent, on the Milwaukee and Prairie of the Read would around to something leas than the Contemplate the payment of says the state of the Contemplate the says and this 12 per cent.

du Chien Boad would amount to something less than

Children and a second to be anound to something less than \$80,000.
2. This law is not obligatory upon the several railroad companies, but it is left to their option whether they will sccept it or not. There is no dauger that the Milwaikee and Frairiedu Chica Railroad will accept it, for even if a majority of the stockholders (a very small frazion of whem reside in Wisconsin) were inclined to do so, any single stockholder would have the power to prevent it by injunction, as the Legislature of Wisconsin can have no power to anthona which the area. Lass of the road to the payment of claims which the gre-sent Company is under no logal, conitable, or moral obli-gation to pay. The mass meeting of farm mortgagors called to be held in Milwankee on the 22d inat, has no significance, as it is only one of a series of meetings of the same character that have been frequently held in Wisconsin during the past two years.

The New York Times of to-day says:

The New York Times of to-day gays: There has been some mederate additions to the ordi-nary line of hous and disconnes; but the great imancial feature of the week is the rapid accumulation of private deposits and country bank balances, caused by the influx of remittances, from the West and other quarters, of the proceeds of recent Treasury disbursements. This move-ment, toward the clease of the week, counted by this mil-lion per day, and di Saturday the balances amounted to \$\\$35,680,000, although this will be somewhat above the average of the week. The banks being un the to employ these heavy ba-lances, even on cheap terms, in good merchant paper or on the Stork Exchange, have made further large deposits with the United States Treastry in New York at an in-terest of 5 pec cent. per anom. The deposits altogether in the treasury during the week exceed five million of dollars. Cf which \$1.531,000 was deposited on Saturday alone. The TAX BitL. --The large majority, in the House of Representatives, in favor of the tax bill, indicates a pro-bability that the measure will become the law of the land, With only thirteen discentions in the House, it is Representatives, in favor of the tax bill, indicates a pro-bability that the measure will become the law of the land. With only thriteen dissentions in the House, it is hyrdly likely the Smale will attempt anything like a rediceal alteration in the bill, and still less its substitution by a messure of a different character. A few modi-fications in the details may be male by the Senate; but beyond that the House bill will most probably be the tax law of the coun-try. This prospect is anything but assuring to the commercial interests of the ration. The final enact-ment of the law will east a shadow over our trade that will cause many a strong merchant to quail. But there is no occasith for disputdency over the prospect O ar laws, most fortunately, are not Medo-Persian. One year's trial, although it may criptle, yet cannot ruin to any serious extent. The experience of twelve months will render our legislators much more susceptible of conviction than they now are; and the lessons of the bill of 1862 will probably give us a more perfect mesaure in 1863 than we should have without such experience. The people are willing to be freely taxed. The great mass of the loyal population are enxious to give some tangible expression of their readi-ness to sacrifice for the emport of the Government. This beattime thas provented a more generall expression of disestifications will prosent for a powerful protest, not at will equally t nd to make tax_payers patient under the operation of the measure. In splie of this, however, it will be impossible for the bill to escape a fatal assault after it has leen put on public trial. Commer-cial organizations will present a powerful protest, not aganizations will present a power that printi-ple of taxation that underlies this measure. The suggestion presented hy mercantile corporations to the House during the last nonthare generally based or bound fiscal and trading axions, and must ultimately prevail as the basis of une that one tay of the commen-mercial classes, they may rely on th

helf compelled to surgamb, A protracted discussion, however, is very undesirable, and that consideration may induce the Scoate to acquiesce in the House measure, with some slight modifications. - United States Econo-

HEARING OF SHOP-LIFTERS .---- Yester-Day afternoon the Central Police Station presented very much the appearance of a fancy fair, the desks and tables much the appearance of a rancy rair, the desce and taking being covered with an assortment of dry goods, Ac., re-covered by the detectives from the residence of Mrs. Fagundue, in Bristola, and which were displayed for iden-tification. The two prisoners, Mary Fagundus and Mary Correy, whose arrest, on the charge of shop-lift-ing, has been reported, were committed for trial in de-fault of two thousand five hundred dollars each. Jscob and Jonitas Seultz were alan committed in answer the fails of two thousand five hundred dollars each. Jacob and Louisa Sentz were also committed to answer the Charge of shoplifting. They were arrested in the vici-nity of Eighth and Chestnut streets, while plying their trade.

CITY ITEMS. INSERESTING SUNDAY-SCHOOL ANNIVERSARY.

-The forty-eighth anniversary of the Sandey schools attached to the tarond Baptist Church, Newmarket street, above Poplar, of which the Rev. Wm. Cathcart is paster, was held in that edifice on Sunday afternoon, in the presence of a large congregation, although the woather was rainy and unfavorable. The services wore opened by the main school singing the hymns " Marching along" and " Come and welcome," after which there was a prayer offered by the Rev. Emerson Andrews, of

New York. Another hymn was then sung-" The golden shore." The next thing in order was the reading of the annual report, by the secretary, Mr. John S. Stovens, from which we learned that the condition of these schools was never more flourishing than at present, in all their departments; and, what is not a little remarkable, there are more male than female teachers, by three majority.

In the main school there are three hundred and soveaty children, and eighty in the infant school, making a total of four hundred and fifty, the former being in charge of a superintendent, assistant superintendent, and forty-three teachers, and the latter by a superintendent and lady assistant. The total amount of missionary contributiers by the school for the year was \$253 93, a greater

part of which was devoted to the support of A colporteur in Sweden, also, to the Baptist Bethel, and elsewhere Allusion was also made in the report to the legacy made to the school by the late Deacon Frankin Lee. After the reading of the report interesting addresses were delivered by Rev. P. S. Henson and Rev. J. S. Willis, illustrating the utility of Sunday-school work, the importance of im-

pressing lessons of benevolence early upon the miads of children, and the encouragement which every teacher should feel in his labors. At the close of the addresses there was a beautiful hymn song by the children of the infant school, entitled "We love to sing together." Folcalled "Gather them in." The singlag was admirable, slowing a complete success of proper training. The benediction was pronounced by the rastor.

MEN AND BOYS' CLOTHING .- Charles Stokes, nder the Continental Hotel, has prepared for the Spring and Summer seasons one of the choicest assortments of endy-made Clothing ever before offered in the city of Philadelphia. The goods are from the best markets at ome and abroad, and are of the most desirable patterns. None but first-class workmen are employed at this establishment The satisfaction to patrons, and the increased patronage given to this house for the past two years, are m evidence of the superiority of their garments and the lowness of their prices.

This spring has been added to this establishment an extensive Boys' Clothing Department, superintended by experienced persons. Citizens and strangers are invited o call before purchasing elsewhere.

THE ACE OF IRON AND CLOTH .-- Good-byc to the wooden walls of America. Good-bys to the fight. ing " Constitutions," and " saucy Macedonians" of the sea, with their wings of while canvas and their ribs of oak ! Never Again will their dainty prows plough the blue water to fight the battles of Uucle Sam. They and their fellows are as much out of date as a Greek trireme or a Roman galley. It is the age of iron! We must hang a coat of mail upon our wooden men of war, and icthe our soldiers in uniforms made at the Brown-Stone Clothing Hall of Rockhill & Wilson, Nos. 603 and 695 Chestunt street, above Sixth, if we would have both men and ships effective.

VARIETY IN THE ANIMAL CREATION-There save actually been ascertained in the animal kingdom about 60,000 species of living creatures. There are 600 species of mammalia. Of birds, there are 4,000 species ; of lishes, 3,000 species; of reptiles, 700; and of insects, 44,000 species. Besides these, there are 3,000 species of shell fish, and not less than 80 or 100 species of animalules invisible to the naked eye. There is, however, but

one establishment in the country like that kept by Granville Stokes, the fashionar and clothier, at No 609 Chestbut street, where the best and finest spring and summer garments can be obtained at greatly reduced prices. MARINE INTELLIGENCE.

COMMISSION MEBCHANTS FOR THE SALE OF PHILADELPHIA-MADE GOODS. mh28 6m SAFES. A NEW VICTORY. THE LATEST. Romasierno, Columbia co., Par, April 16, 1862. Messre. Evans & Watson, Philadelphia : GENTLEMES-At my earliest opportunity. I hasten to inform you of one of the most destructive fires that has occurred in our town. On the morning of March 20 last our three-and-a-half-story brick and frame store and dwelling was entirely destroyed by fire. It burned with such violence and intensity of heat that it was ten or twelve hours before we could reach the Safe. In the meantime, it could be seen glowing with a red heat, but, after securing the Safe from the ruins, on opening it, in the presence of a great many people, all our books, bank notes, and valuable papers, with which it was closely filled, were discovered in a perfect condition, and, considering the long and severe exposure, every one admitted, with glad surprise, the value and triumph of your improved Salamander. This evidence again of the merit of your Safes will secure for you thousands of friends in our section. I shall very soon require another of your Safes, as my confidence in them is stronger than ever. 1 remain, very truly, yours, WILSON AGER. EVANS & WATSON Have always on hand, at their Store, No. 16 South FOURTH Street, below Market, A large assortment of FIRE AND BUBGLAR. PROOF SAFES, warranted to stand the most severe test. ap22 tf AND STILL ANOTHER VICTORY. BETHEREN, March 26, 1862. Messrs. EVANS & WATSON, GENTLEMEN: On SATURDAY MORNING last, the 22d inst., the entire Woollen Manufactory belonging to the Estate of LEWIS DOSTER, deceased, was burnt to the ground. Sometime ago they purchased one of your SAFES, at a Sheriff's Sale, somewhere in your city, and placed it in the second story of the factory, where it was exposed to an intense heat ; so much so that it melted the knob and plate off of it. After the SAFE was in the firs for a number of hours, it was taken from the ruins, cooled off and opened, when the Books, Deeds, Bank Notes, and other Papers-in short everything the SAFE contained-was found in a perfect state of preservation Yours respectfully, ap19. stutl.6t **J.E.KNAUSS.
