The Recognition of Liberia. PHILADELPHIA, April 22, 1862. To the Editor of "The Press": As the subject of the recognition of the Republics of Hayti and Liberia, in accordance with the suggestion of President Lincoln, in his last annual message, is about to be brought before Congress, I have thought that the views of one of our greatest statesmen-Henry Clay-who took a deep interest in the subject, would be very opportune at this time. I therefore enclose you two letters from him on the subject, addressed to myself more than ten years since, which have never before been published. The perusal of these letters will no doubt be interesting to the many warm friends of the great statesman of the West in all parts of the country, and especially to his friends and co-laborers who are yet living, and who represent the loyal State of Kentucky. It will be recollected that many of the most prominent and influential men of Virginia and Kentucky have been among the warmest friends of Liberia, and have also advocated the gradual emarcipation of the slave population in those States. Such nen as Jefferson, Madison, Monroe, Chief Justice Marshall, Chas. Fenton Mercer, Gov. McDowell, and others of the best men of Virginia; and of Henry Clay, Rev. Robert J. Breckinridge, Rev. Wm. L. Breckinridge, President Young of Danville College, Judge Underwood, and others of the same class in Kentucky. The influence of such men can never be lost, and now, when loyalty and patriotism is about gaining the ascendency in both these States, the views of such statesmen as Henry Clay will be more appreciated than ever, as time, and especially the events of the past year have fully established the wisdom of his efforts for the gradual abolition of slavery in Kentucky, and his great desire to see this great evil removed entirely from the whole land that he so much loved. And will not every loyal representative of the States of Virginia and Kentucky gladly see this Government recognize the young Republic of Liberia, which was planted and fostered by the wisdom and benevolence of the land? The opportunity is now given to do justice to ourselves, in recognizing the just rights of others. COTY OF A LETTER FROM HENRY CLAY TO BENJA-

ASHLAND. Oct. 18, 1851.

DEAR SIR: * * * * I have thought for years that the independence of Liberia ought to be recognized by our Government, and I have frequently urged it upon persons connected with the Administration, and I shall continue to do so if I have suitable opportunities. The best form of accomplishing the object would be by the conclusion of a littly 01 dominited with the Departure.

What has hitherto dissuaded the executive branch. MIN COATES, OF PHILADELPHIA. Sion of a trany of commerce with the continuous of the Govern ment from acting. I apprehend, is the repugnance which is felt at having a black man in a diplomatic character at Washington. But the recognition of the invependence of the Republic does not necessarily imply the reception of a diplomatic representative. Nations not unfrequently recognize each other without the mutual exchange of diplomatic representation. For the present, I believe the Rev. Mr. McLain is empowered to present himself as the diplomatic representative of Liberia, and he being a white man, the objection on account of color would not exist.

I am afraid that you are too sanguine in anticipating the possibility of establishing a system of gra-I am arrana that you are too sangumen in anticipa-ting the possibility of establishing a system of gra-dual emancipation of the slaves of the United States. After the failure of the experiment in Kentucky two years ago. I confess I despair of ot-taining the object by legal enautment. I neverthe-less confidently believe that slavery will ultimate-ly be extinguished when there shall be a great in-terest of our amplication, and a great disminution rease of our population, and a great diminution in the woges of labor.

I am, with great respect,
Your obedient servant.
H. CLAY.

Mr. BENJAMIN COATES. ASHLAND, Oct. 20, 1851. ASHLAND, Oct. 20, 185t.

DEAR SIR: I received your favor of the 14th instant, transmitting some letters from President Roberts, for my perusal. I have taken great pleasure in reading them, and they show him to be a man of exorient sense and good capacity. I return them herewith, according to your request. I had previously written to you expressing my regret that I did not feel at liberty to sign the address to the Legislature of Liberia, on the subject of the testimony which you suggested to the memory of Governor Buchanan. ry of Governor Buchanan.

I am extremely desirous as stated in that letter. that the independence of the Republic of Liberia should be recognized by our Government, and I will do all m my power to promote that object.
But I am only an individual, possessed of no authority to decide the question, which can only be determined by our own Government.

I am, with great respect.

Your obedient servant,

The Late Skirmish at Wilmington Island, Georgia.

OFFICIAL ACCOUNT OF THE AFFAIR.

The following is an official account of the skirmish at Wilmington Island, Georgia, briefly noticed in our telelegraphic columns yesterday : Our telelegraphic columns yesterday:

On Board Steamer Honduras,
Off Wilmington Island, Georgia,
April 17, 1862.

Licut. W. L. M. Burger, Acting Assistant
Adjutant General, Headquarters United States
forces, Tyles Island. Ga.:
Sir: I have the honor to submit the following
for the information of the general commanding: Sin: I have the honor to submit the following for the information of the general commanding:

Escorted by seven companies of the Eighth Michigan volunteers, commanded by Col. Fenton, and a small detachment of the Rhode Island Artillery, I embarked on the steamer Honduras, at Goat's Point, about eight o'clock yesterday morning. for the purpose of making a reconnoissance of Wilmington Island. mington Island.

Proceeding through Lazaretto creek, Tybee river, and Wilmington narrows, to Scriven's plantation, two companies (4 and B), about 115 men, under the command of Captain Pratt, were landed, with orders to march at ence to the southwest end of the island, tkirting Turner's creek on the right, so as to cover the boat party which was to follow that stream to Wilmington river. Ascending to the junction of Oatland and Turner's creeks, the balance of the command, in all about 300 men, was landed at Gibson's plantation. landed at Gibson's plantation.

landed at Gibson's plantation.

The first company ashore was directed to move at once to the southwest end of Whitemarsh island, skirting Turner's creek, and with instructions to leave a small picket at the intersection of the roads leading from Gibson's and Oatland's to Turner's, till snother company should arrive at that point. A third company was to be thrown out on the road to the ferry at Carston's Binffs, to protect the boat party up Oatland creek. The two remaining companies were to be held in reserve at Gibson's plantation.

Lieut. Caldwell and sixteen men, of the Rhode Island Volunteers, with one lights is pounder, were Island Volunteers, with one lights is pounder, were left in charge of the steamer. The gun could not be landed on account of the inability of the boat to lie close side of the landing.

be Isnded on account of the inability of the boat to lie alongside of the landing

Having proceeded through Turner's creek to Wilmington river, I returned by the same route, and landed at Gibson's. Directly after arriving there, I was informed that our patrols had discovered the enemy in force at or near Fleetwood's, and had seen traces of them all the way to Turner's. Col. Fenton had already given orders for the advance companies to fall back to Gibson's, and made his disposition for repelling an attack and covering our embarkation.

After an examination of the ground, at my suggestion, one company was thrown farther forward to take shelter behind the hedge and fence surrounding one of the houses. The colonel had already designated this position, and stationed another in the woods lining the marsh on the left, and the balance behind the houses and trees nearer the landing. After these dispositions were completed, and between 4 and 5 P. M., the rebels, Subsequently assertained to be the Thirteanth Cooring a Volunteers, about 800 strong, armed with Enfield rifles, preceded by a heavy line of skirmishers, made an attack upon our position. After our advance line had delivered its fire from the hedge, the bugler sounded "the charge" for the main bedy; this was confounded with "the retreat."

the bugler sounded "the charge" for the main body; this was confounded with "the retreat," body; this was confounded with "the retreat," the advanced line abandoned its cover, and fell back through an open space towards the reserve. While in this somewhat confused condition, the enemy advanced rapidly, pouring in upon us a steady and destructive fire. Our men replied with spirit, from such cover as could be obtained. Order was soon re-established, and the rebels held in check for an hour or more. After the ineffectual efforts of Col. Fenton and myself to form eneugh men to charge their lines and drive them from the hadre efforts of Col. Fenton and myself to form eneugh mon to charge their lines and drive them from the hedge, a portion of one company was carried to the right, and under cover of the timber skirting that side, the left flank of the enemy was met and frustrated in an attempt to move in that direction; an advance on the left, and along the whole line, disledged the enemy and put him in full flight. He fell back rapidly, leaving several dead and wounded on the field, and was closely pressed for half or three-quarters of a mile. As it was now almost night, it was not deemed advisable to continue the pursuit further. Our skirmishers were gradually drawn in, strong advanced guards were posted well out to both rads, and two companies again posted on the line of the hedge and the fence to the right. After having made these admirable dispositions of After having made these admirable dispositions of his force to secure our position, Col. Fenton then directed the removal of our killed and wounded to the steamer; and after holding the ground for three hours, he entire force was quietly embarked without further see dent; though it must be confessed had the enemy renewed his attack while we

were embarking, we should have suffered great Our five small boats could not remove more than our nve small coars could not remove more than fifty men every thirty minutes, and the steamer lay in such a position that the six pounder could not be brought to bear without jeopardizing the lives of our own people.

Our loss is ten killed and thirty-five wounded Our 1058 is ten kined and thirty-five wounded.
Among the former is Lieutenant and Adjutant Pratt,
who fell while gallantly cheering on the mon.

hurry of their retreat, he succeeded in effecting his

The loss of the enemy cannot be accordanced.
Two of their dead were left in our hands; one, mortally wounded, died before we disembarked; the balance were carried off.

THE CITY.

The Great Staples—Business and TRADE.—We learn that at the present time there is but very little cotton at this port, the whole amount not exceeding 250 bales. It is selling at from 18 cents for inferior to 32 cents for middling fair, with a poor demand. The amount of prize cotton that has arrived at this port sine the breaking out of the rebelike has been quite limited. A recent sale of prize-cotton in New York brought very high prices, and on this account there is no demand for it here. Besides, nearly all the manufacturing establishments are closed.

Tar and pitch are also very scarce, the former selling at from nine to ten dollars per barrel, and the latter at ten. Spirits of turpschife is bringing from \$1.35 to \$1.40 per gallon. The supply of rosin is limited and prices high, the common article selling at from \$9 to \$9, and fine from \$11 to \$1.50 per barrel.

Rice is worth from \$2 to 7 cents per pound, and would be selling higher but for the importations from the East Indis. Baltyche is declining, enough being stored away in storehouses to hast for several years. We learn that there is about a quarter of a million dollars' worth stored away in the old Pennsylvania Bank building, in Second street, below Chestnut. If it has been decided that saltpetra will explede, the old institution, it is thought. May go up again Supplies of tobacco have commenced to come to this city from Tennesse-and Kontricky, although the quantitice as yet have been mail. The probability is that this will cause a decline of prices.

The spring demand for dry goods up to this time has been extremely limited. Before the breaking out of the war the dry goods and hardware houses of this city were generally kept open at this sens m of the year until midnight engaged in packing articles to be sent off. At present they nearly all clees at an early hour. The principal dealers have, however, confined themselves to the exigencies of the times, and have purchased but little, and have small stocks on hand. It is the opinion among business men generally that when trade takes a start, which it is thought will be soon, affairs will assume a more flourishing aspect than they have at any previous time. The revival of business, however, goes hand in hand with the progress made by our tecops in the field, and as at the present lines we have every indication of achieving several important victories over the rebel strms, it is to be hoped that here will soon be a speedy increase of trade in all branches.

In the different mechanical departments great activity prevaits at the present time. New buildings are going up to all distorting and the present time.

New buildings are going up in all directions, and it is the opinion generally among ons, and it is the opinion generally amon in all directions, and it is the opinion generally among builders that the season will be an unusually brick one. Each day the demand for mechanics increases, and sithough there are many of this class yet out of embloyment, it is said, however, that soon it will be a difficult tack to obtain as many as will be required. This great demand, will, of course, came an increase of wages. Most of the buildings now being constructed are small dwelling houses, which are in great demand, and bring fair rents. Large houses are a drug, and the rents have been decreased. Real celute agents bliow that it is almost a matter of impossibility to eccure a small dwelling in a a matter of impossibility to eccure a small dwelling in a desirable locality, while large houses can easily be ob-tained, many of them having been variant for months. NOTORIOUS CHARACTERS —We mentioned in The Press, a few days cloce, the circumstances attending the arriet and commitment for trial of two well-knuwn shoplifters named Mary Cory, and Mary Fagundus. The arrest was made by Detective Sam Renderson, a shread and indefatigable officer, who repaired at once to the residence of Mrs. Fagundus, at Bristol, procured a warrant from Justice J. P. Penning-land the procured a warrant from Justice J. P. Penning-land and season of the strict of the stric It dis cashmere scard. These goods were brought to this city,
The prisoners have both resided in Bristol since April,
1859. They moved thence from Camden, New Jersey,
where one of the women had been arrested for theft.
This is the one whom the detective found in the house at
Bristol, sister to the Mrs. Faguncus who was arrested in
Philadelphia. Some time ago Mrs. Corry, who reprerented herself as a nince of the other parties, pretended
to leave her home at Bristol, with the alleged intention
of removing to Philadelphia. This step was taken by
ber, as was then stated, owing to some difference that
la alisen between herself and aants. Their quarral is
helieved now to have been a sham, and the removal to
the city a mere feint, in order to get a parcel of stolen
goods conveyed thither. It is known that a number of
well-packed trunks were taken to this city on that occasion. Mrs. C. has two children, why lawy lived with her well-packed trunks were taken to this city on that occasion. Mrs. C. has two children, why have lived with her
or Bristel, and a husband, who resides in the city, where
he las long been known by the police as a very suspicious character. He represents houself as a sleguer dealer, but the detective remarked that this business is limitea to his individual incibing of the article. Occasionally he goes to Bristel, and is evidently in Isague with
the guilty parties living there, although he pretends to be
at variance with his wife.

In addition to the variety of articles found stored away
in the bouse at Bristel, several parcels of money were
discovered, and a number of port-monnaies, some of
them containing cash. This seems to indicate that they
were successful pickpockets, as well as snoplifters. The
money found is believed to have amounted to about \$500.

THE NEW ARMY HOSPITAL IN THE TWENTY-FOURTH WARD.—The new army hospital in the Twenty-fourth ward has been commenced, and will soon be finished. It is situated between Mill creek, near the Baltimore turnpike, and Spruce street. The situature will consist of twenty-one one-story lautern-roofed wooden buildings, arranged in four groups, and n form of a parallelogram, 450 by 560 feet, about a central building to be used for offices, coctors, &c. Grass plots, 50 feet wide, will separate the groups, and pets, 25 feet wide, the individual sheds; yet, by means of two pavilion corridors and the central building, there will be a covered come ection between them all. Each ward will be 150 feet long, 25 feet wide, and 14 feet high, and will cortain fifty beds. As the buildings will run north and south, there will be no grea er exposure to the sun on one side than on the other. The hospital will be studied and south of the buildings, which, with a descent of over fifty feet toward Mill creek, will furnish a drier foundation than can be generally obtained in town. The hospital will be about a mile from Gray's Ferry, so that wounded solviers arriving from the South can be taken from the cars at that point and removed at once over a soft road to their beds. A QUEER CASE OF SUICIDE.—David sowers, residing at Fo 1318 Heath street, who committed suicide on Tuesday as stated, has been laboring under an aberration of the mind for two or three months part. On Tuesday morning, he told his wife tast he desired his lot in one of the cemeteries fitted up nicely, and she went to the cemetery for that purpose, leaving her husband and his sister at home. In the afternoon, Mr. Sowers went up to one of the third-story rooms, and was soon afterwards heard to fall heavily to the foor. His sister at once proceeded to the room and found him weltering in blood. He had cut his throat with a pocket kulfe, inflicting three frightful gashes and completely severing the hugular vein. He died in a few minutes.

The cereased was about 45 years of age. He was formerly a constable of the Fifth ward, of the District of Spring Garden, attached to the office of Alderman Conrow, and afterwards served upon the police force under Lieut. Jacoby, during the administration of Mayor Conrad. More recently he has been engaged in the custom house stores, but for upwards of a year has been out of employment. Corontr Corrad held an inquest in the case yesterday morning, and the jury rendered a verdict of suicide. A QUEER CASE OF SUICIDE. - David

AN ADVENTURE AND NARROW ES-AN ADVENTURE AND NARROW ESCAPE OF A PHILADELPHIAN.—We make the following extract from a private letter, received in this
city: "Lieutenant Thomas G, Orwig, on the staff of the
chief of artiflery in the army of the Potemac, was ordered to make a sketch of some rebel works, and with
that object in view ventured within fifty yards of a rebul
fort, and, with glass and pencil in hand, commenced his
work. He supposed himself sufficiently corcessed, and
work. He supposed himself sufficiently corcessed and
safe, but soon a voltey from three rebel rities and the
music of their balls revealed to him his perifous position.
Fortunately, the rebels were not of the order of sharpnorth actely, the receis were not of the order of sharp-shooters, and missed their aim, and with remarkable cooness and self-possession, their target reported himself hit, and their work finished, by dropping over, as if killed. A stream of water between him and his assailants prevented their advance for the recovery of the supposed corpse, and the brave Union officer soon made his escape under the cove. of Union gurs, which were attracted to the place by the report of the volley fired upon bin."

FIRES YESTERDAY MORNING.—About four o'clock yesterday morning a tre broke out in a two-story frame building, located in the rear of Mariborough streat, below Belgrade, in the Eighteenth ward. The structure was owned and occupied by William and Lafa; etch Anderson, manufacturers of combs. The building contained some valuable machinery, a quantity of ready made combs, and a lot of material, all of which were destroyed. The building is also a total wreck. The loss is estimated at \$1,500, upon which there is no insurance. Some of the surrounding property suffered elightly. The origin of the fire is unknown.

About 11 o'clock at other hre occurred in the Twenty-fourth ward, caused by the burning of a fra as stable, on Thirty-sixth street, above Haverford. About two tons of hay and a har-pressing machine were also consumed. The building belonged to Dr. Gallacher, and was occupied by Trayilla Hoffman. Loss about \$300. FIRES YESTERDAY MORNING.—About

MEETING OF PHYSICIANS -Some forty physicians recently held a meeting at the Charity Hospital, for the purpose of renewing the offer of their profesional service to the Government, formerly madejand accepted by General McClellan; the offer now made is f r Youktown. Dr. H. St. Clair Ash was called to the chair, Youktown. Dr. H. St. Clair Ash was called to the chair, and Dr. Updegrove was appointed secretary. A committee of five, of which Dr. Wilson Jewell is chairman, was appointed to communicate with Secretary Stanton, who has accepted the benevolent offer thus made, and requisted the gentlemen to hold themselves in readiness. Physiciens not yet enrolled will please send their names to the chairman, or any member of the committee, as it may suit their convenience. The following are the committee: Dr. W. Jewell, chairman; Drs. Ash, Wilcocks, J. B. Patterson, and Updegrove.

BOOT BLACK BRIGADE.—The second meeting of the B. B Brigade was held at the rooms of the Y. M. C. A. No. 1005 Chestant street. The Rev. Dr. Nevin oper ed the meeting with prayer, and addressed the hoys in a very intereating manner. Messrs. Blies and Simmons also took part in the exercises, making appropriate, remarks to the lads. A number of burevotent ladies were present, and supplied the B. B. Brigade with an abundance of cakes, &c. This enterprise is very promising, having greatly increased from the provious meeting. The brigade elected their captain, with the other officers, and will doubtless be great y increased next Tuesday evening, as they rotired much pleased, to meet again at the same place. Some of these lads may eventually become very useful men.

MALICIOUS MISCHIEF. — Yesterday MALICIOUS MISCHIEF. — Yesterday merning Michael Lafferty, the keoper of a tavern at Columbia avenue and America street, was before Ald. Shoemaker charged with malicious mischief. It appears that the accused, while intoxicated, threatened his wife until she was obliged to take refuge in the house of a neighbor, after which Lafferty amused himself by firing a zun out of his window. Officer Supplee, who heard the shot, remonstrated with Lafferty, and was told that if he did not retire fifteen paces from the sidewalk, a bullet would be put through his heart! Lafferty was an waquently arrested, and upon the officers going into his house they found two muskets, two shot guns, and a mintol, all but the latter beinge heavile loaded. MATTERS AT THE NAVY YARD.

Affairs are quite dull at present at the nevy yard, although considerable work is being performed daily, there being about 1,800 hands employed in all the different departments. The work on the new wessels building and of the old ones being repaired, is progressing satiafactorily. The new master laborer, Mr. John Sailor, has succeeded in getting his department thoroughly organized, and has already introduced many destrable changes by which labor is more readily performed. All the various departments of the yard are conducted with comomy and with a view to promote the best interests of the Covernment. The twenty iron-clad gunboats recently authorized by Congress will be constructed by contractors, and not at the navy yards, as is supposed by many.

FAD PHASE OF LIFE.—A few weeks since, a young girl, named Josephine Risty, left this city in contains with a actior in the Ninety-first Punnsylvania Volunteer Regiment, who hold out every inducement for her to accompany him, stating that he would see that she was properly cared for. She was taken to Washington, and a few days ago was deserted by her false friend, who praviously stole from her what fitt'e money she had in her possession. Finding both her reputation and money gone, and deserted by him she thought her best frierd, she plunged into a course of crime. On Monday she was arrested charged with prostitution, and was sent to the workhouse for ninety days.

TENTS D'ABRI.-The above phase, TENTS D'ABRI.—The above phase, s'gnifying literally "shelter tents," is the name given by the French to the portable tents carried by their infantry, and which are used to shelter the men against sudden showers of rain, and which are about to be introduced into our army. As the French never lock the stable door after the horse is stolen, they take care not to create a necessity for large hospitals and armice of wagons by securing their soldiers against the causes which induce sickness. A morning contemporary makes a sad blunder out of the aforesaid tents by stating that they are called "tents d'Aubray," after an officer of that name in the French service. ATTEMPTED SUICIDE.—Robert Mor-

row, residing at Frankford, attempted to commit anicide on Tuesday afternoon by taking a quantity of araenic. The act was committed in the presence of some of the members of his family, who at once summoned a physician, and thus saved the life of the unfortunate man.

Association of Milkmen.-We learn ASSOCIATION OF MILKMEN.—We learn that a number of the dairy men of Bucks and Montgomery counties, re, ding on or near the line of the North Pent salvania Railroad, have formed an association, the chief being to protect themselves from fraud an tha part of those who supply the milk to Philadelphiaus. No less than seventy producers, sending thousands of gallons annoally, have signed articles binding themselves not to gell at less than three cents per quart during the coming summer. At a meeting held on April 12 a book was opened, wherein are to be inscribed the names of all persons who are default in payment.

TAVERN LICENSES.—Up to yesterday TAVERN LICENSES.— Op to yestertus; the Clerk of the Court of Quarter Sessions had issued 2-3 licenses to tavern keepers, &c. The number of bonds fited is 1,700 for which no iteenees have been taken out. The time expires on the first of May, and as there has been much delay shown by those whose duty it is to take out licenses, the probability is that numerous warrants will have to be issued and these parties brought into court, where they will be subjected to the penalties of the law.

THE WEST PHILADELPHIA MARKET.the and-iron foundry of Messrs. Keen Brothers, on Anricet street, near Thirty-fourth, in West Philidalphis, is now undergoing alterations for the purpose of rendering it suitable for use as a public market. When finished, it will contain over one hundred stalls, which will be similar in form to those in the city markets.
The upper portion of the building will be used as a school

THE NEW POST OFFICE.—The proposals for the erection of a new post office, upon the Government property on Chestnut street, below Fifth, have been opened at Washlagton, and the contract has bases signed and awarded by the Postmaster General. The Government buildings are now used as a deput for Government stores, and can be vacated within a short time, so that the commencement of the work will net be long delayed.

DROWNING CASE.—A boy named Tay-PROWNING CASE.—A boy hamed Tay-lor, about sight years of age, while playing upon the os-nal heats below the cocks, at Fairwonat, on Tuesday evening, fell overhoard and was drowned. His body was recovered in about a haif hour by a citizen named Charles Vogel, and conveyed by the Fark police to the residence of his parents, on Thirty-third street, near Haverford, in the Twenty-fourth ward.

GRAND CONCERT .- We call the attention of our readers to the advertisement, in another column, concerning the grand concert to be given this evening, at Musical Fund Hall, for the benefit of the poor. The best professional and amateur talent in the city will take part, and the affair will no doubt be both entertaining and successful

SAVAGE ASSAULT.—John Fry was yesterday held by Alderman Shoemaker to answer the charge of assaulting a taven keeper at Second and Thempson streets. Fry princed to pay for a drink he had taken in the taven, and on being remonstrated with, seized a large knife and attempted to kill the proprietor. SLIGHT FIRE .- About half past eight o'clock, yesterday morning, a slight fire occurred at the coluet-ware cetablishment of Joseph Gerspaher, No. 1312 Poplar street.

Mrs. Gen. Marcy arrived at the Continental Hotel, or Fugglay evening, from Washington city. BASE BALL.—The Athletic Club will play to-day, at three o'clock, weather permitting, o

GLUTEN CAPSULES PURE COD-LIVER OIL. The ropugnance of most patients to COD-LIVER OIL.

The ropugnance of most patients to COD-LIVER OIL, and the inability of many to take it at all, has induced various forms lof disguise for its administration that are familiar to the Medical Profession. Some of them answer in special cases, but more often the vahicle neutralizes the usual effect of the Oil, proving quite as unpulatable and of less therspentic value. The repugnance, nauses, &c., to invalids, induced by disgust of the Oil, is entirely obviated by the use of our OAPSULES. GOD-LIVER OIL OAPSULES have been much used lately in Europe, the experience there of the good results from their use in both hospital and private practice, aside from the naturally suggested advantages, are sufficient to warrant our claiming the virtues we do for them, feeling assured their use will result in benefit and decerved force.
