A Rich Scene in the House of Representatives.

THE SECESSION MARTYRS IN DELAWARE!

Hon. George P. Fisher, the Representative in Gongress from Delaware, created a grand sensation in the House on Friday last, in his terrible exposure of the sympathizers with Secession in that State. We condense the following account from

State. We condense the following account from the Congressional Globe of Saturday: Mr. FISHER I wigh to submit to this House a few remarks in vindication of the truth of the history of my country, such in vindication of my native State. I will waive ad allesion to the Senator from Delaware, (Mr. Saulsi ur). In some remarks published in the Sun this morning purporting to have been made by a would be detinguished gentlemen from Delaware, charging that arrests have been in the State of Delaware, which I have the honor to represent on this floor, of loyal citizens of arreads investigation in the state of Documents, which a mark the bonor to represent on this floor, of logal citizens of the United States, and the names of some of those 'logal' sitizens, and among them I had the name of John B. Penning'on, a citizen of my own town. My remarks are Pennington, a citizen of my own town. My remarks are in vindication of the loyalty of my State, and I trust that in her behalf I may be heard. I know there are tonder-footed gentlemen on this floor whom my remarks may touch upen the other side of the Houss, and I know they do not with the matter to which I desire to advert should be wentilated here, but I hope the opportunity may be af-forded me of discharging my duty to my logal constitu-ents, and of making this explanation here, that I may

parate between the sheep and the goats. Mr. VOORHEES. 1 rise to a point of order. It is that he gentleman makes a personal application of his re-narks. Mr. FISHER. If the gentleman will permit me to ex-plain what I think should be explained, he may then make any renarks the pleases. I am going to speak of facts which I know, and facts in reference to which I hall produce the evidence here and now. Let the gentleman, or let any other gentleman in this House, or in the country, galaxsy them if he can. All I ask is to be heard. Now, in regard to this man McWhorter, it has been said by the gentifman to whom I have referred, that at this time McWhorter is-""A most highly respectable citizen of my fits home shull carried into the State of Maryland by the military autho-rities, there detained for a week or more, and then dis-charged—no foult found in bim."

charged—no fault found in him." Mr. FISHER. I was saying what has been said about this man McWhotter. It has been said that this Me-

this man Bit Whoiter. It has been sum time this and Whoiter-"Was one of that unfortunate class of people of this country who, at the present day, seem not to awaken inch interest, and to whose interests not much attention is said. He, t.o. was valid." Yee, sir, be is unlife, but I assert here, and I assert it upon my responsibility as a man and as the Representative of a loyal State-the State of Delaware, though small she may be-that he is a distoyal white man, and that as such he is not of as much consideration as a loyal nigzer. [Laughter.] That is my sentiment, and I hold myself bound to answer, here or elsewhere, for my expression of it.

bonna to answer, here or ensewhere, for my expression of it. And now for the testimony. I have it here is writing. This same Charles H. McWhorter, about the latter part of October, 1861, procured matorials and made a Secos-sion flag, and, in company with others, attempted to hoist it about midnight upon a flag-pole which had been orected for the they of the Union. These, sir, are some loyat while me of the State of Delaware, are they ' I flag-are, I claim no fellowship with them, and I scorn to be regarded here as the I spresentative of such loyal men. Being the owner of a fast horse, which he called "J eff Davis," after the so-called President of the Confederate States, [laughter,] and after exhibiting said horse at the agricultural fair in Dover at a trotting match, he called for a Union flag which was floating near by, and assin, "Take that damned old rag and wipe out the horse's-month; it is all it is fit for."

This is one of the local value of the order of the state of month; it is all its fat for." This is one of the loyal value citizens of the State of Delaware, ha is i During the automu of 1801 he said, in reply to a remark addressed to him by a gentleman in Dover and i will here say that the gontleman in Dover to whom allusin is made is my law partner—expressive of a desire to have but one Government from the St. Law-rence to the Guit of Mexico, "that me, too, wanted one Government, and that the yourd the Confederate day to Government, and that he wanted the Confederate flag t

Government, and that he wanted the Confederate flag to flow over every State in this Union." Sir, I claim no fellowship with that man, Mc Whorter, nor with any man who staadd tij herd of alawhare to deferd him. In another conversation he said that he would make the privilege of killing President Lincoln the only atomement for the sins of his life. Further than that, at a party given at his house Mc Whorter, about the 7th day of March, 1802, immediately before his arcest, -to which allusion was made by the gentleman whose re-marks are now printed in the Baltimore Sun of this morn-ing -were a secession badge. And yet, this Mr. Mc Whor-ter is a loyat achieve.

Now, sit, a remark has been made elsewhere in regard to other genticmen, and, among others, in regard to the arrest of John B Pennington, of my own town, whose law effice is next door to my own, the captain of that company of the the finalite durads. As captain of that company, he was arrested by Colonel Wallace, under or-ders of General Lockwood, because of the disloyalty of that company, and their reinsal to give up the arms in their procession to the United States authorities. The evidence is that this neghaw of the Senator from Dela-ware, Gove Saulsbury, Jr., in drilling, as a member of the Haziltt Guards, wore the letters U. S. upside down, and drilled to publicly, stating that in that form the let-

She regards the Union of the States in the same light as the Jows regarded the ark of the covenant--as something which no man might dare to touch with profane han is and live. Sir, the majority of my people are loyal, and I hope and trust in God that they will ever continue to be loyal to the Union, the Censtitution, and the enforcement of the laws.

Extracts from the Speech of the Hon. Benjamin F. Wade. DELIVERED IN THE SENATE OF THE UNITED STATES.

FRIDAY, MAY 2. This speech was one of the most trenchant and

earnest that have yet been made on the confiscation bill, and was pronounced with the fire and vigor so characteristic of the indomitable Senator Wade. The following extracts will be read with eager interest :

WHO VIOLATES THE FEDERAL CONSTITUTION ? Talk to me, sir, about violating the Constitution ! I do not like to hear it. I have negat too much of it. Every not like to hear it. I have heard too much of it. Every man who was here a year or two ago knows that this same idea was inculcated then by those who are now open traitors. They rough to the and fetter our limits by the cry of a violated Constitution, that its ensemble might stab it 10 death. There is not a man now in what are called the Confederate States, levying arms, coercing men into this accursed rebellion to overthrow this glorious Constithis accurst recently to be a set of the set implored foreign nations, yea, and agreed to become the vasents of foreign despote, if they would only aid and as-sist them in Overthlowing this Constitution of ours, First they claimed that we had no constitutional power First they claimed that we had no constitutional power to defend the Constitution—a very cheap way, if they could succeed in it, to get along with their rebellion. We must lie right down in our tracks, because, if we under-took to form an army to go forth to conquer therebellion, we were acting without constitutional attitudity. Wat not that what they harped upon? Did they not say of the Administration what Senators on the other side of the Chamber are saying every morning now? Did not the former colleague of the Senator from Kentucky [Mr. 19, 50]

the former colleague of the Senator from Kentucky [Mr. Powell] accuse the Administration of tyranny and des-potien? It is the old tune that was harped upon by every traitor who is now an open enemy to the Constitu-tion of the United States. They undertook to show that the Constitution was somehow. *felo de se*; that it did not contain any power, er it restricted us from using any power for its preservation. Siz, these arguments will net do.

WHAT SHALL BE DONE WITH THE SLAVES ?

WHAT SHALL BE DONE WITH THE SLAVES? Why, sit, the South consider slaves just as other pro-tronceded was, that in times of peace, when they let our institutions alone. I would let them alone in the States: that I would not touch a hair of their head. Abhorrent es slavery is to man and God, I had arr cet that in their States they might have it, provided they would keep it there, and let us alone; but when they repudiated the Constitution of the United States, when they waged vio-lect war against it, when they made use of hose very slaves as the following by when they venerated the verse states for lower bad any veneration for slaver; I repudiate the idea; but it absolved me from all my cense of duty in that regard, and allowed ne to give full scope to my sense of instice in dealing with slaves and their masters. They have repudiated me; they have re-pudiated you; they have need thas very slavey slave form behalf, law to every traiter that the start and the start

the gallows; your slave is remitted to his rights." SLAVERY AND FROGRESS. I have said that in the progress of nations, after a cor-tain advance in civilization and the arts, slavery be-comes impossible. Direpty rooted as this institution or slavery was, every invention of a useful character for a thousand years has tended to make it impossi-ble. Once you might work the galley slaver with profit. Warlike nations formerly put liaves abourd of their armed ships to row them to the energy, and made them labor in that way. Could that system be continued now! Slavery might then be useful in war when nobody knew any better, and when the na-tion having the most slaves to man its galleys was the strongest and most slaves to man its galleys was the strongest and most powerful. How is it when you put the galley slave against the steam engle o! Was it any Abolitionist that rose up and argued down the institution? Can you work a naked savage or a negro against a steam engine ! If you cannot, your system is at sen end. Every labor-saving machins is an abolition sermon, more potent and more effec-tive than was ever preached by mouth of abolitionist. Can you work a slave, carrying his bundle on his back, against the tremendous power and anergy of your rail-read ? Can you put the one againet the other? How is it with the reaper we have introduced in our fields to har-vet our grain, the tremendous power of our moving-machines, power-locms, and spining-jamles? I might count over from now till to morrow the instrumentalities that have rendered your system abolutely impossible; fud yet against the laws of God and nature, you are haveging on with power and anerge of your and that have rendered your system that has passed away, and can never be renewed SLAVES USED TO MURDER WHITE VREEMEN. SLAVES USED TO MURDER WHITE FREEMEN. SLAVES USED TO MURDER: WHITE FRESHEN. Sir, if yon are not able to make head against us in the field, it is not because you are not equally brave and en-terprising; it is not even for the lack of numbers; but it is b(Cause slavery has impoverished you, emasculated you, and now without our appealing to the force you feel would be most potent to put you down, you are still on the declining side. I do not invoke it; but when I see black regiments put forward to shoot down up sons who are in the war, and your relatives; when I see these black chattels thrust forth in front of the chivalrous owners to shoot down, nurder and destroy our men who have gone. to the fields only in defence of our glorious institutions, I

EPECIAL MEETING OF SELECT COUN-CIL .--- Yesterday afternoou, at one o'clock, a special meeting of Select Council was held for the purpose of taking action in regard to the late Daniet S. Beide Mr. Cuyler, President, in the chair. After the reading of the call for the meeting, Mr. Davis offered the following.

lowing. Resolved, That Solvet Council have heard with pro-found regret of the docease of Mr. Daniel S. Beideman, who was for many years a most able and efficient mem-ber of this lody, and whose qualities of heart andeared him to all who knew bim, while his many and varied services to the enty of Philalelphia, in the numerous public relations which he has sustained, have given him a lasting claim to the grafi ude of our citizons. *Resolved*, That in testimony of respect tor his memory this chamber of councils will attend his luceral in a body, and will wear the usual badge of mourning for thirty days, and that the members of the Commission for the spiel of the families of volunteers, of which body he was a member by appointment of the president of the chamber, be invited to attend the functal in company with us.

Mr. Davus said: Mr. President, I vise to perform the solemn duty of announcing to this Chamber the decease of Dennet 3. Beideman, examender of Belest Council of the Eleventh ward, which position he filled for six long years, nearly from the first organization of the consoli-dated city to the beginning of the present year. Mr. B. died at his late residence, Vine street, above Second, on Standay morning, May 3d, in the 48th year of his aga. In the price of life, he gently passed away with a clear and unclouded mind. The hand of disease had been upon him for a number of years; friends and associates had marked its steady progress upon his feelole and succlear frame day by grogress upon his feelole and succlear his work, and Death embraced him for his own. But, sir, during the progress of disease, nutree, with in-d, mitable will, struggled hard and manfully to overcome it, but was unequal to the tasks, and the spirit of Daniel Beideman returned to his God who gave it: " Like a shedow thrown

Mr. MEGARY made a few remarks, as follows : When Mr. MECARY made a few remarks, as follows: When men, ordinary men, die, we pass it by with a sigh of re-gret; but when men of eminent ability pass from this earth to "that bourne frem whence no traveller re-turns," we feel there is a vacancy in the community which cannot be illed with ordinary minds. Such a vacancy now exists, through the death of the lamented Danif 18. Mr. WETHERLL spoke as follows, after which the Chamber adjourned: It is fitting, Mr. President, that we should be called to-gether to-day to show our respect for one whose matiring and self-sacrificing services for the good of his native city are so well known to us all. I know that I but echo the fellings of those here to-day, when I say that, by the death of Mr. Beideman, our city has lost a most valued citizen. Ever since consolidation, except but for a few months he has been connected with ma. His large expe-rience, his untiring industry, his strict integrity, ren-dered him pre-tembert as a faithful guardian of the inte-rests of the city. Fiver careful in legislation, over watchful terist of the city. Ever careful in legislation, over watchful in expenditure, he felt it to be his day to guard with jealous care and protect with an unfaitering zoal the nu-ncipal affairs of the city government Having relived from active business, his entire time was devoted to the nities which devolved upon him while a member of this body. Though a sufferer from disease and enfechled in ealth, he was seldom absent from his seat; and, fr health, he was seldom absent from his seat; and, from his howledge and experience, he was locked up to with confidence and respect. Our city, for whose interests so much of his time was given up, will miss him; the families of our volunteers, to whose kird attentions they owe so much, will miss him; we miss him in our delibera-tions, and the void created by his death will be difficult to fill. How peculiarly impressive are the circumstances ünder which was meet to day ! We are here to offer to one a suitable tribute of respect, so eminently dne, so one a suitable tribute of respect, so eminently due, a richly deserved, and in a little while we will be called upon to pay the last honors we can render to a noble and gallatt efficer. While mourning the death and yenera-ting the memory of one who died in the defence of his country, we are also called upon to pass a like tribute of respect to another, whose many via him to us all. conded by such scenes as these, let us remember

the bright examples set before us, let us learn a saluta lesson, and while honoring the remains of a galla officer let us strive to emulate the good deeds of a di tinguished citizen.

> BROAD TOP COAL TRADE.-One of DRUAD IOF COAL TRADE.—One of the reporters has visited the Broad Top coal region, and publishes some facts of moment as to the extent of that coal field, and of the means of mining the coal. The Broad Top contain a series of coal verse covering a grographical surface of about eighty square miles; as large in superficial area as the far-famed anthracice coal Broad Top contain a series of coal vertex covering a grographical surface of about eighty square miles; as large in superficial area as the far-famed anthracite coal field of Shamokin and Mahanoy. It is twice as large as the Lebigh portion of the second anthracite coal field from which abipments are made down the Lebigh valley to the magnitude of thirty thousand tons a week. In fact, the Broad Top coal field is one-fifth the size of the joint anthracite coal fields of Reansylvania; and when it is considered that from the anthracite coal sign of the joint anthracite coal fields of Reansylvania; and when it is considered that from the anthracite mines of Pennsylva-nie there are sent down to market would the Broad Top region has great capacity. A noticeable feature in the Broad Top coal region is, that from the marking the coal study and the sense line at its western margin, three streams running in nearly parallel courses stretch across the coal field in val-ley bottoms cut down through the coal measures, afford-ing remarkable facilities for mining coal above water le-vel in the different vains Thirteen collicrites are worked in the region. As to the carboniferous contents of the Broad Top ba-sinw e might, without extrawgart exaggeration, say that, to designate the probable number of tons of coal within it, would be next to estimating the grains of sand in a mile of New Jersey coal! There is an average of about eighteen vertical fact of coal in the several veite, three of which, containing twete feet of coal, exclusive of state, are workable at low cost and upon small outlay. Eighteen feet of work-able coal will jtell by measure about 25,000 marketable from the Gunberland region there was sent down to market in 1860 the handsome sggregate of 785,909 tons of coal, it is thought that in a few years the to mange from the Broad Top region will exceed 500,000 tons, and, finally, reach the magnitude of a miltion of yon sper mount. The coal series are in the field, the market is along tidewater, and the way for it

THE RECENT STABBING AFFAIR.— Yesternlay morning, Lowis Albortson had a hearing retore Alderman Swift upon the charge of having stabled John B. Smith, Jr., on Monday evening, as already stated. Albertson was held in \$1,000 for a further hearing next Wednesday. It appears that, Mr. Smith was attacked whilst defending one of his frieads who had been assailed by Albertson, and that he had no quarrel with the latter before the occurrence. After Mr. Smith was taken to his residence. It was discovered that his doltness were cut in eight different places, and his right thumb nearly bitten off. The wound in his throat is a psinful, but not necessarily a dangerous one. During the stack, a man named James Moulton was stabled under the arm and had his forchead cut. Yes-today morning, he precured a warrout for the arrest of Alberron, but the latter could not be found. Ifs probably thought it good policy to force himself hid. He is well known to the police as a desperate character, and he seen twice scenenced, at lupprisoned in Moyamen-sing, once for an aggravated assault and battery, and es-condy for backing lottery-policy dealers. For the last offence he served one year in pricen. THE RECENT STABBING AFFAIR.

It would only be a rightcous retribution to those who have held the magainst common right. Suppose we should do it, what would become of you, my friends ! Whire would you be? Tak to us of prosecuting the war in a violicitive spirit! Yet may thank your God that we have been as forbearing as we have. TUE WAR NOT PROSECUTED TO ABOLISH SLAVERY.

TUE WAR NOT PROSECUTED TO ABOLISH SLAVERY. Liss war, you say, should not be prosecuted for the purpose of abolishing slavery. I grant it. After we got into it—per aps it is not very honorable to make the ad-mission, but it is so-we did pass a resolution here that we would not present this war with the idea of ab-lish-ing slavery. I believe I volce for that resolution. I did not care with what view you prosecuted the war; I knew slavery was gone, whatever your views might be. I warned gentlemen of it in that famous committee of thinteen. I was a member of inta committee, which con-tained almost every high officer of the so-called Southern Confedersey, with Mr. Davis at their head. Month after moth we discussed this principle. I told those gentle-neen, "I rely infinitely more upon you to abolish slavery than upon all the Garrisons and Fosters and Phillipses on carth. They are theorists; they are right in theory, but they pover will harm a half of your head; but you attempt this Secession, and the first blast of civil war is the dealt warrant of your institution." It was so. BUT THE REDELS FIGHT POR ETERNAL SLAVERY.

the death warrant of your institution." It was so. BUT THE REDELS FIGHT FOR ETRENAL SLAVERY. Sir, if there was invthing wrong in our position, the whole tenor of this argument would be changed; but there is not. What have we done '. What have those of us who stand here for the Constitution and the law done that should provoke these scoundrels to this position of r.b.010.1 They have maid it incombant mon us to de-fend curselves or die. For what purpose? For no other or better purpose than to establish a Government found-ed on eternal slavery. Sir, we have indices by which we hnow what the traitors sought. It was despotian against freedom. Mr. Stephens, who is the very brain of the Ecuthern rebellion, in his inaugural address, undertook to est forth the wrinciples on which this Southern Confede-racy was to be founded ; and he went on, philosophil-cally, to state that the purpose of it was to make slavery the basis of their institutions, which would be eternal. He believed it was the will of God atd the carder of Providence that some men were for the rule, and some men to be their slaves and their reversants. He took great credit to themelyes that they of the South had made this grand discovery, which had creared all men up to that period. This, sir, is the prin-ciple on which his war is prosecuted. If you want to hrow the organization of that Government, and the trinciple on which it is founded, read that exposition of it as laid down by their chief expositor. And see for what purpose they sought to erect, upon the rules of our glo-tous institutions, this Southern Confederacy. They fight for eternal slavery, and I fight for eternal freedom That is the difference. Knowing my cause to be just, knowing that I stand where the fathers stood when they framed the Government, I will shand here with a strong hand, ard, with every instrumentality thes: God Almight has given me, I will labor to put down this accursed rebellion and defend free institutions, not only for ourselves, but for all mankind. coastwise. There has been no increase in the capital stock of the company. The funded debt of the company has been decreased \$628,689.33; the floating debts were \$53,321 27, and the general debt reduced \$76,369.60. The total liabilities of the company are \$5 631,860.97, which is considerable leas than they were in 1860. This year the water was let into the canal on the 15th. of March, and or: the 20th the lower section was opened. The upper section was delayed until the 8th of Åjeil by the ice. The first shipments were unde the first week in April, but the boats were then considerably interfered with by high water. The reports of the general manager and treasurer were then read.

The meeting adjourned soon afterward.

STILL ANOTHER PRIZE.-The prize

STILL ANOTHER PRIZE.—The prize schooner Guide, loaded with cotion and rice, has arrived at this port in charge of Prizemaster Samuel Delano The Guide is about 75 tons. She was captured off Charloston on the 10th of April by the guaboat Harow. Her carge consists of 100 bales of cotion, a quantity of rice, and a few hoxes of tobacco. On the night she at-tempted to run the blockade eight other vessels of light draught ran out of the harbor at the same time, four of which were taptured. When the Guide was taken her captain, Alexander Emith, now in the county prison here witness, used the most violent language, denouncing the schooner has been two weeks coming herefrom the block-
