THE CITY. ARMIVAL OF WOUNDED PENNSYLVA-NIANS FROM YORKTOWN.-Yesterday we obtained the names of the wounded Pennsylvanians, most of whom belong in this city, who were landed at Vine street wharf, from on board the steamer W. Whildin, on Tuesday evening, as stated in The Press. The men were brought direct from Yorktown, having been wounded during the recent engagement at Williamsburg, and upon landing at cent engagement as will amounts, and upon is mining as the what were immediately conveyed to the St. Joseph's Hospital of this city. The whole number relieved by our Pennsylvania surgeons was nearly 1,600, many of whom required the utmost care. The Sisters of Mercy of the Order of St. Joseph, taken on from this city by Surgeon-General Smith, we: successing in their kind and judicieus labors, and displayed an amount of heroism that up York river, they were undismayed, even when the tion of a fire from the batteries on the shore.

DEATH OF GALLANT PHILADELPHIANS. —Among the slain at the battle of 'West Point, Va., were Tetrence H. Murphy and John Procter, both formerly of this city. and members of the Ninoty-fifth Pennsylvania Regiment, Gosline's Zouaves. The deceased were both young men, and much respected by a large circle of friends. Upon the breaking out of the war, Mr. Muroby resigned a lucrative position and marched forth with a number of his old associates, in defence of the stars and stripes. While on the field he gave a good account of since if, and soon won the respect and esteem of the whole regiment. Both the deceased were members of ceased, and forwarded to their respective families. The funeral will be attracted by the remaining members of the Mashington Engine Company, which has supplied as many men for the army as any other organization of the hind in the city.

POLICE MATTERS .- Officer Steel, of POLICE MATTERS.—Officer Steel, of the Fifth Dietrict Police, has arrested three boys, who, for some time past, have been anspected of entering vacant houses. They were charged with having entered the one at Sixth and Locuet, one at Eighth and Pine, and another at Eighth and Syrue, and cutting off all the lead pipe about the premises. They had in their poisses, ion some ten dollars' worth when arrested.

Catharine Grant was held in \$500 bail for receiving the same, knowing it to have been stolen. She keeps a junk shop in Locuet street, above Ninth.

William Calboon was arrested, by Officers Penington and Konse, for pessing counterfeit these-dollar bills on the Martford Bank; he had \$5 about his person when streeted. He was held by Atderman Patchel in \$500 to asswer.

FLIGHT FIRE.—About half past 9 o'clock yesterday morning an alarm of fire was caused by the partial burning of the roof of a frame dwelling in Duponcean street, near Spruce. The house was occupied by several colored families.

A BETTER SUPPLY OF WATER .--Numerous complaints have recently been made by citi-zens residing north of Muster street, and west of Broad.

Numerous complaints have racefully hear made by citiyens residing north of Master street, and west of Broad,
of a great scarcity of water; that the flow ceases early
in the day in all parts excepting the ground floor, and at
times the hydrants in the yards even refuse a necessary
supply. The Chief has forwarded to Connells a communication relative to furnishing a better supply of water
to the higher localities of the Fifteenth and Twentisth
wards, and qualizing the supply to the city east of the
Schuylkill river. He states that the direct now supplied with water from the Delawars can readily be ausplied from the Schuylkill, (a.c.d the supply of water from
the Schuylkill throughout the city can be readily equalized when the new additions to the Fairmount works are
completed, and with an additional engine at Spring Garden warks.) For this purpose it would be necessary to
alevate the reservoir at the Kensington works others
darden works, and to conject the former with the twe
latter by a main of forty inches diam-tor to Tenth street,
thence by a thirty-inch main to Kensington reservoir.
This would give an auditional capacity to the Kensington
reservoir of eight millions of gallons and the greater
height would much increase its expeditive of distribution
over an area now but partially supplied in its higher
(calities and in its more distant parts, for instance, in
the late borough of Frankford, in which the supply is
deficient.

The proposed elevation of the Kensington reservoir, The proposed elevation of the Kensington reservoir, and the connection suggested, would also insure a supply of water to an extensive district, which it is now impossible to supply from any of the works, and would thus

tion of the city. It is proposed to connect the Spring Garden reservoir and that at Corinthian avenue by a 48-inch main, with the necessary branches to which may connect a 48-inoh main from Spring Garden works, and also a main of 48 name from Spring Gaudeu works; then connect the Spring Garden and Kensington reservoirs by a main.

This main would be of sufficient capacity to fully amp-ply the Kensington reservoir, with the additional ele-vation above suggested, and to allow all the distributing mains on the high parts of the district inc Spring Garden reservoir and the Teuth street to be attached, thus giving a reliable supply to the higher norsetous of the Fifteenth and Twentitth wards, which are now deficient, and frequently almost without any supply of water whatever. water whatever. The proposed cornections would effectually remedy the

The proposed connections would effectually remedy the critic's short snpply by bringing an annule atoraga into the timeciate vicinity of the demand. By opening the contections between the Kensington district and the lower portion of the district now supplied from Spring Garden reservoir, the great draught from the higher parts of the latter district would be prevented, and the Kensington district, from its increased head and an additional distributing main, would still have a better supply than at present. ditions distributing main, would still have a better supply than at present.

The Chief Engineer therefore recommends, for the purpose of supplying water to all purts of the city, from the Kairmount and Spring Garden works, the laying of a main 48 inches in diameter, from Fairmount works to Corinthian arenue reservoir. This arrangement would reader the now works, now in progress and nearly completed, at Fairmount, completely available, and during nearly the whole year, these new works could be exclusively devoted to contributing to the supply now derival from the Spring Garden, Corinthian avenue, and Kensington reservoirs. The proposed main between the Spring Garden and Kensington reservoirs would contain \$11,001 gallons, and would be a voluable addition to the storage capacity of the higher localities with which it would be connected. The capacity of the Spring Garden reservoir is 9,800,000 gallons, and the domand on it is about seven millions of gallons daily. It has, therefore, a capacity of not quite one and a half days' supply.

The suggested elevation of the Kensungton reservoir would make a total storage capacity of the three reservoire of 65 000,000 gallons, and the total daily demand on them is 13,000,000 gallons, or their united capacity would be five days' supply by connecting them.

This connection would insure fixed as, empty to the whole of the Eleventh, Twelfth, Thirteenth, Fourteenth, Iffiteenth, Sixteenth, Seventeenth, Righteenth, Nineteenth and Twentieth wards, and to paste of the Twenty-first, Twenty-tecond, Twenty-third and Twentieth more

first, Twenty-tecond, Twenty-third and Twenty fifth wards, in portions of which at present there is not more than a supply for half this time, and in some localities a amply for only a few hours.

The connection of the three reservoirs would not only give a better supply, but would so equalize the storage capacity that localities now having only a few hours' supply would be increased to five days, and some portions of the district supplied from the Fairmount works could be added so as to entirely equalize the supply to the whole city. Such an arrangement would somewhat increase city. Such an arrangement wouls comewhat increase the supply in the district water-d by the Fairmount works, and the increase and consequent advantage to the districts supplied by the Kensington and Spring Garden works are sufficiently obvious. PRESENTMENT BY THE GRAND JURY.

-Testerday afternoon, the Grand Jury came into court and made their presentment to Judge Thompson. We learn from it that the number of true bills found was 301, learn from it that the number of true bills found was 301, ignored 116.

In relation to the grade of crime, the Grand Jury express gratification that most of the cases were for the lightest class of offences.

The Grand Inquest view with increasest apprehension the large amount of counterfeit bank notes that are put into circulation almost every day. They recommend the court to proneunce the severest penalty of the laws in case of conviction of parties passing this apprehension. The County Prison is commended for its general cleanliness, and hetter ventilation is recommended in such department where it appears to be defective.

The Almsbouse is well spoken of, excepting the sleeping cells which are condemned. The general condition of the children is highly extelled.

They recommend the insane Department of the Almshouse to be appropriated to use as a House of Correction, the insane to be otherwise provided for. d of, many of them, in The magistracy are the estimation of the Grand Jury, being a set of igno ramuses.
The parsenger railways are condemned as dangered

The passenger railways are condemned as dangerous musances, and the Inquest call upon the proper authorities to apply the law, and thus protect our citizens in their legal rights to free travel over the streets. The paving, in many instances, in all parts of the city, is so cut up by the rail tracks, and from want of proper care on the part of the companies, that the musance, now increasing daily, should at once be checked.

The Grand Inquest recommend a revision of the lottery taws, so as to perfectly extinguish dealers in policies, purchasers as well as sellers.

The Inquest also calls to the attention of the Court that, as it requires twelve men to find a nue bill, whether it would be legal to establish the principle that it should take twelve men to ignore one.

The Grand Jury returned thanks to District Attorney mann and Officers abston and Smith, for promptness and courtesy in the discharge of their official duties.

Judge Thompson delivered a brief address to the jury, after which the court adjourned. ANNUAL MEETING OF THE PRESBYTE-

SLAVE EMANCIPATION IN CUBA.—A sugar planter in Cuba writes to a friend in New York that, after being a good deal around among his fellow planters, he has discovered, with some surprise, that the leading and intelligent ones are in favor of the emancipation. They reason thus: That this measure being the hobby of the day, Spain will be builled into it sooner or later, and that they had better take the lead in it and control it; in fact, the Junts of Supervision, a new sort of authority lately established, have presented a memorial to the Queen of Spain recon mending that measure.

GENERAL NEWS.

Kidnapping in Kansas.—The Leavenworth Conservative relates that "on last Tuesday night (28th ult.), between 12 and 1 o'clock, a party of bloodhounds came from Missouri into Menasha county, and committed the inhuman outrage of kidnapping twelve negroes, most of whom were children, and as they were living some distance from the town in an isolated place, no alarm was given until the devils had made their escape with their unfortunate victims. One old woman, however, succeeded in making her escape, and as soon as the fact was made known in the neighborhood, a number of citizens started in pursuit of the kidnappers; but the country being sparsely settled, and as the villains came at midnight (a fit time for such a diabolical scheme), they were enabled to carry out their hellish design."

FORT Morgan Prebably Attacked.—Fort Morgan, at the curance to Mobile hardron, has doubtless by this time been attacked by Commedore Farragut. It is the strongest fortification on the Southern coast—much more formulable, in fact, than Pulaski or Sumpter, but, fortunately for our fleet, if does not completely command the autrance. Ahother strong fort, at the other side, is necessary to render Mobile mapproachable. Fortunately for our fleet, if does not completely command the autrance, almost the mappers of late dute, were not at all confident that the city could be saved.
