Special Correspondence of The Press.] FORTRESS MONROE, May 16, P. M.

We understand that the citizens of Norfolk, laboring Mder the impression that the rebel troops will return an epossess that city within thirty days, according to Gen luger's promise, made before he evacuated the town, have refused to recognize the Federal authority in any Way, except in its temporary power. There is now no doubt but what the most stringent martial law will have to be exercised over them, and they must necessarily b eprived of receiving any supp les from the North whatever. When we take Richmond, which will be during as coming week, no doubt, their obstinacy will probably give way to discretion. In view of the shove state of alirs the following orders have been promulgated :

GENRRAL ORDERS NO. 41, HEADQUARTERS DEPARTMENT OF VIRGINIA, } FORT MONROE, May 14, 1862. \$

The mammoth steamer John Brooks, Captain Layfield, eails for Philadelphia to-night with furty-five rebal price: ers on board, and several hundrel wounded and sick Union soldiers. Take good care of our poor boys. We learn that, after a march which puts that of the French after the battle of Vittoria into the shade, our troops in General McC'ellan's army are in the best of spirits—laugh at their hardships and mishaps, and are fully prepared and determined to take Richmond very soon. Our troops are already in the rear, and flanks the Confederate position, and success for our arms there seems to be a foregone conclusion. You may positively expect to hear of the capture of Richmond early next week. Our iron-clad fleet is in position to assist, and the carnage will, no doubt, be tremendous; but the rebellion must be crushed, and that quickly, and let the sin fall where it belongs, upon the heads of the leading Southern traitors.

Everything remains quiet in Norfolk, Portsmouth, and Suffolk, and there is nothing new to roport from these places. Captain Nixon, of the Union Coast-guard, (Ninety-ninth New York S. V.,) has been appointed Provost
