He says: "The parmater—that ev-r-welcome visitor of the soldier—made his appearance at last, and cheered our boys with the needful, and we are now only anxing for a chance to distinguish ourselves, for under the good dis-cipline and drill of eur Ganstain (Jones, of Philudelphia,) we feel confident that we will he able to consete with the best drilled hatteries now in the field. There have here cases here of nen's wires and children cying, and when they have applied for a fow hours' fuelough to go to their funcals, it has been re-reason why we cannot have the same privileges as all other volunteers in the service." Having enjoyed a good night's rest, they, on the next morning, visited the fort, and were received with all the honors by Captain Gibson and the other officers. BFFECT IN CANADA OF OUR FEDERAL VIC-TORIES.—Canadians are beginning to get possession of an idea og dwo about the progress of the national arms. The Montreal Herald, which has been unserupulous in its mirepresentations of our affairs, in its Tursday's issue ridicules the false prophets of London, and says: "For our own part, we have never seen the advantage of allowing curselves to be deceived, or of deceiving others, as to the course of events. CLASBIC NAMES OF OUB BATTLES.—The French editors are considerably confused with the classic and an-clent nemes of our Western towns—our "Memplises." and "Cairos," and "Athensee," and "Corintos." Thus, it may be hoped, is terminated the insurrection, which for a m ath meaned the throne of King Otho." GAS RXPLOSION.—A gas explosion occurred on the 16th ultimo in Bigh Holborn, one of the most frequented thoroughfares of London. Workmen were laying new pires, when the escepting gas became ignited. When the mail-boat ap-proached the wharf, and 'no war' was called from the quarter deck, from the wharf, which was crowded with people, went up a tremendous shout.
