THE KENSINGTON WATER WORKS .-Yesterday afternoon, the Committee on Water of Councils held a meeting for the purpose of taking action on sundry suggestions from the Chief Engineer of the Water Department in reference to supplying Schuylkill water to the district watered by the Kelsington or Delaware works, and on furnishing a better supply to the higher localities of the Fifteenth and Twentieth words, and equalizing the supply to the city east of the Schuylkill river. It has been accertained that the soft mud in the Ken-

sington reservoirs is deposited at the rate of nearly one inch per month It is said to be impossible to contrive any plan by which pure water can be obtained from the Delaware with the present facilities of the works. The scanty and impute supply of water in the northern dis-tricts has long been the cause of much complaint. The citizens of Kensington have been suffering for a long time is consequence of the impure and numbolesomo character of the water with which they have been sup-plied. Some of the inholtants of the district have asserted their beilef that, unless they were supplied with purer water, there would not, in a short time, be enough of them left to bury the dead. The citizens of Kensing-ton are in earnest about the matter, and have appointed a committee of nine citizens to urge upon the proper authorities to remedy this great evel. We understand that an ordinance to this effect will be immediately brought before Councils. Delaware with the present facilities of the works. The

## GENERAL NEWS.

GENERAL NEWS. SKIRMISH AT WASHINGTON, N. C.—About 3 o'clock on Friday morning a company of re-bel cavary, about one hundred strong, under the com-mond of Capt. Walker, made an attack iijon the twonys stationed at Washington, N. C. One company of the Twenty-fourth Massachusetts occupy flue town as a guard. Resides these there is an attempt being nude at this place, as previously reported, to organize a North Carolina re-giment for the Union service, of which, if successful, the son of Mayor Resepess is to be Lieutenaut-Colouel. Their design is supposed to have been the capture of our officers in the town, which they hoped to do and escape before the gunboats should huve an opportunity to open fire upon them. Our pickets heard them approaching and fired upon them, and they were finally repulsed, it is thought with some loss. While the skinnish was in pro-gress two of the North Carolina recuits were shot and their lowing barbarously besten out with the butt end of armusket. The rebels finally retired disconfited. None a musket. The rebels finally retired discomfited. Not of the Massachusetts men were injured.
