MEETING OF THE BOARD OF CONTROL-LERS-THE HIGH-SCHOOL TROUBLES-A MI-NORITY REPORT ADOPTED .- An adjourned meeting of the Board of School Controllers was held, yesterday af ernoen, for the purpose of considering the report of the committee appointed to investigate certain charges made against Nicholse H. Maguire, Principal of the Central High School, by Professors Vogdes and Gerard, re-The meeting was called to order, and the reports of the

committees read by the secretary. A synopsis of the reports has already been published in The Press. It will be remembered that a minority and a majority report were presented by the committee. The majority report, after giving the evidence submitted before the committee, with their remarks, concludes with a resolution asking that Professor Maguire a ight be removed from the prin that Professor Maguire a ight be removed from the prin-cipalehip of the High School. The minority report also reviews the evidence, with remarks by the committee, and concludes with a resolution asking that the charges against Professor Maguire be diemissed, and the commit-tee discharged from any further consideration of the

Mr. Roed presented a communication from Professor Magnire, in reply to the charges made against him, which he requested might be read.

Mr. Fletcher was opposed to reading the communication. He said it was lengtly and embraced about sixtyone pages. He did not think the members were willing to sit here and hear the report read and act on it immediately. He thought they should have time to consider, and suggested an adjournment.

Mr. Riche then moved to adjourn until next Friday. This was leaf by a vote of 15 to 10.

A motion to read the communication of Prof. Magnire then prevailed. He states that it is not merely to yindicate himself from the charges preferred by Messys. Gerard and Vogdes, and from the strained and unjust conclusions of the majority of the special committee, but to place before you the true condition of the school, that to place before you the true condition of the school, that he makes this reply. He thinks that Messrs. Gerard and Negdes, feeling keenly their dismissal, were stung to re-talistion upon some one. The members of the Board were beyond their reach; the geutlemen composing the

th-school Committee could not be assailed, and vin-avenuss sought, in the principal of the school, an ob-The first ovject to which his efforts were directed upon The first object to which his efforts were directed upon entering the school was the course of study which he alleges was certainly below that of any similar institution in the country. The pupils, resorted to the bold and novel method of issuing printed papers containing, articles reflecting upon the discipline, conduct, and manners of the professors. Appeals from errors or injustice of the professors were not listeness to; averages at the end of the terms were clanged at will. The report further says that failures in conduct should be made to affect the pupils right of attendance, while his right of progress should be based on proficiency in his studies the practice of forcing intellect to pay the penalty due to progress should be based on proficiency in his studies the practice of forcing intellect to pay the penalty due to conduct must awaken a sense of injustice in those the keepest to perceive and the quickess to resent, and save's petither of windom nor justice, however much policy or neither of widom nor instice, however much policy or expediency may advocate its adoption.

Is states that he called the attention of the committee to the case of a upil, whose average for scholarship entitled him to a promotion, but, with demerit marks deducted, was forced to remain in the same division, pursuing studies in which he had proved himself proficient. The committee, after discussing the question at several meetings, unanimously resorted that the plan was unjust, and that it should be abolished

It e Professor states that matters totally disconnected with the charges, and which the committee were not authorized to investigate, were forced upon them. The chairman of the committee and one of the accusers are lawyers, familier with the examination of witnesses, quick to perceive an advantage, and ready to object, while the respondent had no experience in the practices by which the worse is made to appear the better part. He thicks it singular that Professors Rand, McMuttrie, Angele, and Mr. Ring, were not summoned as witnesses; that Professor Bregy, who had been connected with the school for sixteen years, and who had returned a month before the investigation coased, was excluded; that Mr. Coulston, the janitor, whose duties bring the order in the halls and on the stairs under his observation, was not cited. Of the seven profe-sors examined, two were applicants for the position which he now holds.

Mr. Maguire then treats separately all the charges made against him. He says that the occasional employment of pupils to perform certain duties, as set forth, is a constant pactice of the present principal. To which a regly is given that no one has asserted that pupils were ever employed for any other than school purposss, and all aftest that this employment was rendered necessary by the neglect of professors to perform the duties incumbent upon them.

He says he never withdrew a pupil from any department without the written request of the parent, nor from Mr. Gran's classes without the consent of that gentlemen, who never protested against it. He charges that the gent comen signing the majority report never visites the High School, during the eight weeks the investigation lasted, to see the practical workings of the institution.

Mr. Flotcher objected. He said Mr. Marchment came there as a witness for Professor Magnire. The speaker taid Mr. M. appeared as a witness, and not a controller. Be knew that from what he heard the minority repert would be adopted, and that anything against Professor Magnire could, in the same manner, also be voted down or struck from the report. or struck from the report.

Mr. Holland said he wanted this evidence stricken out, as Mr. Marchament had been lerced before the committee against bis will, he being a member of the High School Committee.

Committee.

Mr. Fletcher again arose. He contended that a majority of the committee has agreed to hear this testimony, and he was now opposed to syriking it out. Even the gentleman himself, who now objects, was willing that it should be heard.

Mr. Holland enid he would at all times rote to strike out anything which reflected against any member of the Board. After some further discussion, the motion to strike out this part of the report was carried by a vote of 20 to 4. Mr. Reed then moved that the minority report be adouted. adopted.

M.H. Fletcher said he did not propose to make a speech in this matter—he would consider that a wayte of time. He had understood that the minority report was to be adopted; the matter had all been seitled. He would, however, pas a word relative to the report. They say that Proposer gave more notes and special offences than any other man in the school. To such in this, they have not one word of evidence. When two question came to be inquired, as to who noted the most, an objection was made sgainst it. The minority report attributed things to Prof. Boward which, the speaker sileged, that gentleman did not say. He said that a guinc this any further was altogether universary, as a verdict had already been made in the case, and the noes had been counted.

Mr. Fitzgerald defended ur. Magnire, whom he had known for many years. He considered that the High School never had a more active or energedic principal—yet there was still room for reform. The reforms so leausgura'd have been attended with the most happy, results, Mr. Beed favored the minority report. He thought the whole difficulty in the High School was a want of harmons more the models.

whole difficulty in the Bigh School was a want of harmony among the professors, some of whom do not treat euch (ther as becomes gentlemen.

A short discussion here ensued, in which the characters of several of the professors of the Bigh School were assilled in the most malignant and outrageous manner.

Br. Biché said, by the report, there were great defects in this school, some of which, he thought, rested with the principal; yet he should vote for the minority report. He thought the principal a man who would adopt any suggestions that might be made by the Board. Fig. stood there not to vicilicate Mr. Maguire, or make charges against any professor. He did not think there were sufficient reasons for dismissing Mr. Maguire; yet he was of the opinion that there I ad been a neglect effully by him. He thought the principal did not visit the different rooms as often as he should, and he hoped the detect would be remedied. He believed that the school, to day, was in a better conduction that it was three ments defect would be remedien. He believed that in solvon, to-day, was in a better condition that it was three ments since, and that the institution would not lose by giving the professor a further trial.

The vote was finelly taken on the minority report, which was adopted by the following vote:

Mr. Spangler effered a resolution, asking for an address embodying the suggestions and recommendations of this Convention, in regard to the collection of County Sabbath-school Associations, and the collection of reilable statistics of interest throughout the State.

The address is to be distributed far and wide. It is to contain Sunday-school statistics of the entire State, with the several organizations, names of officers, &c. The address is to be submitted to the next Convention.

The Convention at 12 o'clock adjourned, and proceeded to the Sansom-street Church for prayer meeting.

In the afternoon, a meeting of the children of the Evangelical Sunday-schools of the city was held. The Academy of Music had been secured for the purpose, but it was found that it would not contain all the children. it was found that it would not contain all the chil

The exercises were varied by the singing of harms by the children.

-PROBABLE HOMICIDE.—About seven o'clock on Thursday evening an affair of a serious character oc-curred near the Schuylkill Fedghts, in the Twenty-fourth ward. At that place a dance is given every Monday and Thursday. After noon; and people of all descriptions congregate there, and fights are of frequent occurrence. Thursday being the inauguration of the season, quite crowd was present. Mr. Bichard M. Berry and a frien James Fally, who had been spending the afternoon at the Heights, started upon their road home about seven the Heights, started upon their road home about seven o'clock in the evening. As they were passing along the road leading to Egglesfield, they observed a party of rowdies brutslly matreating a woman. Mr Borry stopped up and began to remoustrate, when he was immediately knocked down. He was then set upon by the scoundrels, and was beaten and kicked in a terrible manuer, about the head. Mr. Falby attempted to interfere upon behalf of his friend, when he was struck a violent blow and was also failed to the ground in an inventible conditier. Then also feliad to the ground and in the the assaliants had fied.

Mr. Berry was then senseless, and as soon as a carriage could be obtained he was placed in it and conveyed to his residence, on Greenwich street, near Second. His injuries are of such a character that his recovery is considered almost impossible. Mr Berry is a quiet and inoffensive man, and is well known in the lower part of the city. He was formerly a member of Councils from the First ward. He is about forty years of age, and has quite a large family.

NEW IRON-CLAD FLOATING BATTERY. NEW IRON-CLAD FLOATING BATTERY.

—Preparations are now being made in Jersey City for the construction of an iron-clad shot-proof floating battery of the Monitor model, by Mr. Joseph Colwell, proprietor of the Fulton Foundry. The vessel is the constructed with steam machinery and turret complete and ready for service. The side-axmor will be composed of five courses of plates measuring five inches in thickness, extending 3½ feet below the water line, backed by a series of vertical blocks of oak 17 inches by 12 inches, securely fastened by angle from. The turret is intended for two 15-inch Dabigren suns. The price received from the Government for building the vessel is \$400,000, and five mouths is the time specified in which it is to be completed.

Yesterday morning Henry Rudd, Esq., on behalf of the committee appoint d by the Corn Exchange as ociation to distributored in the Union army, submitted a report to the association. The committee consisted of the president of the committeer, in the Union army, submitted a report to the association. The committee consisted of the president of the committee, Henry Budh; secretary, L. G. Mytinger; treasurer, Saavel L. Ward; committee, Christian Hoffman, Ilugh Craig, R. Ervein, Sanuel Hartranft, and Ches. Ruccht. The committee were appointed on the 19th of April. At that time they had placed in their hands the tum of \$8,625, all of whitch has been distributed, and the committee have new closed their labors. The records of the fund exhibit the issue of 3,720 orders, to an aggregate of 2,000 families.

In the prosecution of their duties, the committee witnessed many sad cases of want and destitution. Few, says the report living in this great city, it is believed, know angle of its contents, beyond its halls of learning and temples at worship, and its numerous palatial dwellings and comforts. It is not intended to attempt a description of any particular scene or district, nor to present more than an allusion to the variety of cases that were encountered. Sufficient it is to say, that the liberal pay provided by the General Government, together with the generous appropriation of our City Councils, insures the conforts of all guident families spared the visitation of rerious sciences. HOSPITAL OF THE HOMGOPATHIC COLLEGE. The Homgopathic College of this city have secured three dwellings belonging to the college and fronting on Cuthbert street, which are to be fitted up with everything requisite for the purpose of a hospital, and will be conducted on the same plan as the large hospitals of the country. Diseases will be treated and surgical operations performed. Patients admitted on the general plan governing these institutions. One hundred patients can be accommodated in the new building, when finished, at one time. The hospital is to be connected with the college building; in the last-maned place, all surgical operations will be performed, thus giving students to this college advantages possessed by very few institutions outside of the city. The surgical department will be under the charge of Professor G. R. Starkey. The Faculty, assisted by a number of the profession, will slow it ent all patients who may enter the hospital. The homeopa hie plus scians have long been laboring under the disadvantage of not having a hospital of this character for the benefit of this branch of the medical science, but they have now the satisfaction of knowing that a new field of operation for their cause is open for them. The kospital will be completed in about two months. At the dispensar; connected with the college nearly 8,000 patients were prescribed for and treated, and among whom Dr. Starkey, the surgeon, performed some very difficult operations.

The college building hes been underging extensive repairs and improvements for the next course of lectures. The lecture-rooms have been redicted, and many changes for the benefit of students have been made. The prastical anatomy department is remarkably valuable, the facilities offered are such as to entitle it to rank a one of the first places in Philadelphia for anatomical studie; every thing being full and complete. The entire improvements to both buildings will be completed before September. HOSPITAL OF THE HOMEOPATHIC

GLUTEN CAPSULES PURE COD-LIVER OIL. The reprenance of most patients to COD-LIVER OIL, and the inability of many to take it at all, has induced various forms lof disguise for its administration that are familiar to the Medical Profession. Some of them answer in special cases, but more eften the vehicle neutralizes the usual effect of the Oil, proving quite as unpalatable and of less therapeutic value. The resugnance, nauses, &c., to invalids, induced by diagnet of the Oil, is entirely obvinted by the use of our CAPSULES. OOD-LIVER OIL CAPSULES have been such used lately in Europe, the experience there of the geod results from their use in both hospital and private practice, aside from the naturally suggested advantages, are sufficient to warrant our claiming the virtues we de for them, feeling assured their use will result in benefit and deserved favor. This Portable Roofing is the only article ever offered
to the public which is ready prepared to go on the roof
without any finishing operation. It is light, handsome,
and easily applied, and can be safely and cheaply transported to any, part of the world. It will not taint or
discolor water running over, or lying on it, and is, in all
respects, a very desirable article. Its non-conducting
properties adopt it especially to covering manufactories
of various kinds; and it is confidently, offered to the
public after a test of four years in all varieties of climate
and temperature, for covering all kinds of: roofs, flat or
pitched, together with cars, steamboats, de. and temperature, for covering all kinds of roots, flat or pitched, together with cars, steamboats, &c.

It is both cheap and durable. Agents wanted, to whom liberal inducements are offered. Send for sample, circular, &c., with particulars, to "U. S. BOOFING OO., No. 9 GORE BLOOK. Boston." CYRUS HORNE, UNDERTAKER, No. 23 North ELEVENTH

CANITARY COMMISSION.

The U.S. Sauitary Commission will open an office for the transaction of its local business at 498 Broadway, second floor, on MONDAY, the 26th instant. second floor, on MONDAY, the f6th instant.

It proposes to centralize at this office all information that can be obtained from governmental and other sources, concerning the departure and arrival of transports having sick and wounded troops aboard; to keep a record of sick and wounded soldiers arriving at this port, and of the disposition made of them. To set as a medium of communication among the local associations for the relief of the sick in transit, and to co-operate with the U. S. military and medical authorities here, in the transportation, reception, and distribution of patients from the army.

the U. S. military and medical authorities here, in the transportation, reception, and distribution of patients from the army.

Medical students, desirous of acting as dressers on the transports in zervice of the Commission, will please report at this office, enter their names and address, reforences to their medical preceptors, and the notice they require when called to serve.

Male nurses, volunteering their services on the transports, will register their names at this office, with address and reference, and notice required by them.

Surgeons and physicians secking information in regard to the public service, or wishing to volunteer in emergencies, will apply at this office

All persons having business with the Commission will apply in person to the Superintendent in charge, between 8 A.M. and 11 P.M. The Executive Committee of the Sanitary Commission will usually meet at the office, between 8 and 4 P.M. daily.

The expenses of the Commission are very heavy. The present month has cost it not less than \$22,000, mostly in the purchase of hospital supplies for the army in Virginia and the Southwest. It is believed that this expenditure has saved a thousand lives, at least, in Virginia alone.

The various hospitals and soldiers' relief associations of this city are invited to report before noon of every day what aumber of beds are vacant in their several establishments.

The following articles of hospital clothing and supplies are urgently wanted by the Commission, and may be sent to the "Women's Central Association of Relief," No. 10, These arean are constructed with the constructed with the constructed Surgerienced Surgerience Surgeri

The prodigious demand of the last month, during which more than a hundred thousand articles of clothing (besides other supplies) have been issued by the Commission to lithe sick and wounded, in the army of the Potomac alone, (and probably a much larger amount to the Western and other Departments,) has reduced our stock, and although 686 cases have been received at the Washington depot since April 23d, the demand is much greater than the supply. A special regard to the specified list in this advertisement is besought on the part of those sonding supplies. To this is to be added a new and unexpected want—that of cast off outer clothing—coats, panisloons, vests to clothe soldiers who have lost or so fould their uniforms as to be unable to leave the hospitals on shore without fresh clothing.
