THE RECENT STABBING CASES -Mr. THE INCOUNT STABBING UAGES—IN.

Sichard M. Berry, who was so brutally beaten at
Schuylkill Heights on Thursday last, had not improved
yesterday. He remained insensible during the day. On
Saturday Andrew Ferter, George Jeffries, and Edward
Lawrence were arrested on the charge of having been
concerned in the attack. These men all made affidavits,
in which they professed to narrate their share in the
business, and in which they gave the names of the mon
who were most active in the beating. The purties named
have made their escape, and thus far they have not been
caught.

caught.

On Saturday afternoon the persons named had a hearing before Alderman Beitler, at the Central Station. Saveral witnesses were examined. Among them was Mary Ann Steinuciz, one of the females who had been insuited by the fuffigns. The witnesses identified the defendants as persons who were present at the time of the occurrences which preceded and followed the beating of Mr. Berry, but none of them were identified directly with thet act. They were all committed, without ball, for a further hearing. The men most active in the brutal business are well known, and it is to be hoped that they may soon fall into known, and it is to be hoped that they may seen fall into the hands of justice.

On Saturday afternoon, Wm. H. Flomerfelt had a hearing before Police Magistrate Deliter, upon the charge of stabiling a man named Charles Brown, on Friday morning last, at a lager-bear saloon, in Third street, below South. There had been a raffle and dance at the heer saloen, and a fight took place among the participants. The parties left the house, and when in the street a young man who, it is alleged, had been struck up stairs by Brown, went up to blue, and after stabbing him in the back heran off. The kuife entered the back of Brown, just below the shoulder-blade, and inflicted a surious wither the last though that it would prove fatal, but yesterday the symptoms were more favorable, and

but yesterday the symptoms were more favorable, and hopes are now entertained of the recovery of the wounded man.

During Friday Detective Benjamin Levy arrested William H. Flommerfelt and took him to the house of the wound man. Brown was confronted with Flommerfelt, and the latter was identified as the man who inflicted the wound. At the hearing, on Saturday, at the Contral Station, Dr. Reed, who is attening Brown, testified that he is not yet outirely out of danger, but that the symptoms were more favorable than on Friday.

John Estart, who witnessed the affair, swore that he saw the defendant draw a knife from his pocket and inflict the stab with his right hand.

The defendant was committed to await the result of the wound.

EVENING SESSION OF THE SUNDAY EVENING RESSION OF THE CUNDAL SOHOOL CONVENTION—The Convention reassembled at eight o'clock on Friday ovening, and was opened with prayer by Rev. Pennel Coombe.

On motion of Rev. Mr. Dale, of Northumberland, it was sgreed that each minister attending the Convention should, on their return, road from their pulpits the resolutions adopted by the Convention.

Prof. John S. Hart, chairman of the Committee on Resolutions, presented the following preamble and resolutions. Intions:

Wherea, The Convention is represented by the friends
of the Sabbath schools from all portions of our noble
Commonwealth, and is composed of representations from
nearly all the evangelical churches within our borders; Whereas. Obedience to law and fidelity to government Whereas, Obedience to law and natury to govern heat are cardinal principles of our faith, to be adhered to by us, and infused and imparted to others wherever our infusence can be a sorted; and Whereas our Government, in this, the hour of her trial, domands the sympathy, the prayers and support of all loyal and Ohristian hearts, and thus every man should stoud firm in his place, and frown down all attempts to weaken or misdirect the strong arm now put forth to crush this rebellion; there-Resolved, That we hereby pledge ourselves, Mesolved, That we nerroy pleage our-eves, as Christisn men and citizens of this great Commonwealth, to sustain this Administration by our prayers, our examples, and our efforts in crushing this wicked rebellion and restoring peace to our now distract-d country.

Resolved, That we carnestly implore Almighty God to restore peace to our beloved land, and great that the blessings and the power of this good Government which Holms given to the United States, he recognized in every part of the land.

The reading of the resolutions elicited great applause.

Soveral gentlemen made remarks, but the lateness of the hour forbids their publication

The resolutions were unanimously adopted.

Besclutions were also adopted tendering the thanks of the Convention to the reporters of the newspaper press of Philadelphia, for the accurate account of the doings of the Convention. the Convention was then declared adjourned sine die by the president, and the members proceeded to the basement of the church, where they were regaled with a light collation. They then separated.

A NEW HOSPITAL .- Another new hos-A NEW HOSPITAL.—Another new hospital is about to be opened in connection with the Dispensyry of the Liomecopathic College of Pennsylvania, in Filbert street, above Eleventh. The board of managers of this jestitution have made the necessary arrangements, and already the mechanics are at work upon the tonements situated on the college property frenting Cuthbort street. When these structures are completed they will accummedate about one hundred patients. There are many soldlers in the city at present destrous of home-pathic treatment, and it is the immediate object of this charity to accommodate as many of them as possible. Those of our citzens who have always been accustomed to this mode of treatment, and so nobly responded to our country's cell, but now, in consequence thereo, are languishing on beds of sickness, should most surely be allowed to choose the kind of medical treatment in which they have the most confidence. sustained almost entirely by the physicians of the city, but in view of a necessary subargem int and the addition of a hospital, the managers feel the more assurance for calling upon the community for pecuniary ad in the accomplishment of this noble charity. The board of managers are composed of the Lillowing names goaldsmen: Henry Horner, S. Dillingham, B. R. Miller, B. F. Glenn, B. A. Lewis, J. S. Walter, by whom all contributions, &c., will be received.

How Iron Plates are Manufacminteresting:

The plates are manufactured by "piling" slabs of iron, previously rolled, and placed into a large heating furnace. After a sufficient heat has been taken, the pile is into the sufficient heat has been taken, the pile is into the sufficient heat has been taken, the pile is into the sufficient heat has been taken. The pile is into the required pattern. The finished plates are the subject of much wonderment. The beautifully even surface, the sharp edges, and their tremendous weight, fill the beholder with astoniebment, and make him doubt whether projectiles can be produced to penetrate their solid thickness. They are 4½ inches in thickness, 15 inches wide, and of various lengths. Whether they are really invulnerable remains to be seen.

EDUCATION OF THE COLORED POPUHATION.—There are near one thousand negroes in
Camden, most of whom are located in South Camden.
The Board of Education, some years since, with commendable liberality, took measures to provide the rising
generation with a good common-school education. To
this end a school was established in the rear of the colored
church building, on Spruce street, below Third. B. F.
Brown, an efficient teacher, and one in every way qualified for the position, has been selected to take charge of
the school, and under his management the scholars are
swidence of rapid advancement. The accommodations
are, however, very deficient, and but a small proportion
of the juveniles of that part of our population take advantage of the opportunities offered. This is owing, no
doubt, in part to the fact that the parents generally being
poor, are compelled to depend somewhat upon the labor
of their children for subsistence, but chiefly, we believe,
to the lack of encouragement in the way of attention by
the School Board, deficient accommodations, and the
want of sufficient force of teachers. EDUCATION OF THE COLORED POPU-

A HANDSOME TESTIMONIAL. - The pia Hose Company, of this city, have become the nis of a bandsome testimonial from the members recipients of a handsome testimonial from the members of the Niagara Engine Company, No 7, of Troy, New York. The Troy company visited Philadelphis in 1860, and were hospitably entertained by the Columbia Hose Company, and the testimonial in question records the fact. It consists of a massive frame, measuring six feet by five, surmounted by a carved engle, and bearing nunerous emblematic devices. In the centre is a record of the visit of the Niagara, surrounded by photographic portraits of the members. The whole affair is unique, and reflects great credit in the tuste of the New York company. It was brought to this city on Saturday last, by Messrs. Jas. McKeon, Muurlee Barron, and Jas. Keenan, who were appointed a committee for that purpose. Messrs. Jas. McKeen, Maurice Barron, and Jas. Acc. can, who vere appointed a committee for thet purpose. They returned to Troy on Monday, after visiting various public institutions. The frame will be exhibited, on and after Menday next, at No. 730 Chestaut street. The volunteer fire department system is an institution peculiarly American, and the exchange of visits and courtesies tend to bind the firemen into a common brotherhood.

Another Libel Suit .- On Faturday ANOTHER LIBEL SUIT.—On Saturday morning, Thomas Hawksworth and E. W. C. Greene had a hearing before Recorder Ruue on the charge of libel; the charge being preferred by Mr. B. M. Dusenberry, of the Board of Control. The charge against Mr. Hawksworth was that he had published a certain article in the Sunday Transcript—a prosecution for which was commenced against Mr. Greene, some time ago, and ignored by the Grand Jury. The offence charged upon Mr. Greene consists of a subsequent publication. Mr. Marchment, of the School Board, and one or two others, were examined for the prosecution, when the defendants were held in \$1,000 half to answer at the next torm of the court. Mr. Lewis C. Cassidy appeared for the defence, and Mr. Brightly for Mr. Dusenberry.

A SERIOUS COMPLAINT.—The residents of the neighborhood of Eleventh and Pine streets have for some time past been much annoyed by the colored Masonic Hall in that vicinity, at which balls are held almost nightly. On some of these occasions Eleventh street is kept in an uproar and clamor during the whole night, so much so that many of those residing near by complain that they are unable to sleep. This hall has long been a source of complaint, and we know of one family which was obliged to wacate a house mean it in order to get rid of the nuisance. DROWNED BODY FOUND .- A few days

DROWNED BODY FOUND.—A few days since, the body of a drowned man was found in the Dela ware, near New Castle. There was nothing to indicate his name or place of residence. The body appeared to have been in the water for several days. He had on a kult undershirt, and over it a gray flannel one, and gray cassint pants, a leather belt around his body, in which was a sheath knife nine inches long, having on the handle the letter "M." He appeared to be about 24 years of age, and had very dark hair. The body was interred in the Potter's field.

To BE ENFORCED.—On Saturday morn-Ing instructions were issued by the Mayor to the licuten-ants of police to have the ordinance for the suppression of nuisances, &c., strictly enforced hereafter. The pro-vision to which particular attention was called, is as fol-lows: "That it shall not be lawful for any person to cast any kitchen or other offal into any of the public streets, lanes, or alleys of the city of Philadelphia, under a pe-malty of two dollars for each and every offence."

COMPLIMENT TO A NEWSPAPER COR-COMPLIMENT TO A NEWSPAPER CORRESPONDENT.—The Sunday Dispatch of yesterday took occasion to mention the name of Laurence W. WRIGHTSVILLE, May 29.

Wallazz, the special correspondent of The Press at Fortress Monroe. The Dispatch characterizes Mr. Wallazz as indefatigable, honest, and reliable, and as baying eclipsed all other correspondents at that point in the receiving and disseminating of news.

THE COAL TRADE.—During the week ending May 24th, 35,110 tons of coal were transported over the Lehigh Canal, and 16,006 tons were sent over the Beaver Mesdow and Lehigh Railroad. This shows an increase over the corresponding week of last year, but a slight decrease in the full total since the beginning of the veet.

SUDDEN DEATH OF A CLERGYMAN. The Rev. James Latta, a delegate to the State Sunday-school Convention, fell dead on Friday while sitting in a chair at the residence of his nephew, John E. AN OBSTINATE ORGAN.—In a small church, at a little village near Brighton, where the congregation could not afford to pay an organist, they recently bought a self-acting organ, a compact instrument, well suited to the purpose, and constructed to play forty different times. The sexton had instructions how to set it going, and how to stop it; but, unfortunately, he forgot the latter part of his business, and, after singing the first four verses of a hymn before the sermon, the organ could not be stopped, and it continued playing two verses more; then just as the clergyman completed the words "Let us pray," the organ clicked and started a fresh tune. The minister sat it ont patiently, and then reasewed his introductory words, "Let us pray," when click went the organ again, and started off on another tune. The sexton and others continued their exertions to find out the spring, but no man could put a stop to it; so they got four of the stontest men in the church to shoulder the perverse instrument, and they carried it out down the centre aisle of the church, playing away, into the church and, where it continued elicking and playing away until the whole forty tunes were finished.

A CONDENSED AIR LOCOMOTIVE .- A cor-A CONDENSED AIR LOCOMOTIVE.—A correspondent, writing from St. Petersburg, says that, on the 16th ult, a new kind of locomotive was tried, with perfect success, on the Nicholas line. The motive power was condensed air, and the trial trip was made to ascertain the adaptability of the engine in working the line. The inventor is named Baronowski, and the machine consists of a fremework, with a reservoir for condensed air, and a number of tubes running above and below it. The trial trip was made with a carriage filed with passengers, and gave a very satisfactory result as regards speed, for the carriage was drawn at about twenty-four English miles an hour, and the inventor asserts that a greater speed can be obtained, as his engine was built for a serow steamship, and much power was lost by the intervention of cog-wheels, which would not be necessary in a properly-constructed engine.

UNITED IN DEATH.—On Sunday, the 18th instant, a properly-constructed engine.

UNITED IN DEATH.—On Sunday, the 18th instant, Mrs. Marcy Mott, aged eighty years and eight months, died; and, on Monday, the 19th, Mr. Stophen Mott, her husband, aged eighty-six years and eight months, followed her to the spirit land. They resided in Scituate, Mass., and had lived together as man and wife for sixty-three years. Mrs. Mott had been in feeble health for some time, but her husband had been able to superintend the work upon his farm. A day or two before his wife's death, he was told that she would not probably recover, and, on leaving the room, he said, "Marcy is going, and T grees I shall go, too." He survived her but a few hours, and they were both buried in one grave on Weintsday.

A PLEA FOR NEWSPAPERS.—Rev. Henry Ward Those of our citizens who have always been accustomed to this mode of treatment, and so wobly responded to our country's call, but now, in consequence thereo', are languishing on beds of sickness, should most surely be allowed to choose the kind of medical treatment in which they have the most confidence.

HORBIBLE MURDER.—On Tuesday night of last week, a horrible murder was perpetrated in the town of Beifast, Allegheny county. It appears that a young man, named Burns, was married in the forencon of that day, and in the ovening a party of young men collected and went to his house to "born" him. The discordant sounds incensed Burns, and he rushed from the house, and plunged a long knife blade through the body of one of the horning party, named Bock. Burns then seized the body and threw it into a stream running near the house. Rock was taken out and carried to his home, where he lingered in great agony until Friday evening, when death put an end to his senferings. Burns was arrested, and is now in sail.—Rochester Union. her own house, and it was supposed that she had com-mitted suicide, but suspicious circumstances were dis-covered, he husband George H. THE GOLD-DIGGER From 1851 to 1860 the ex the GOLD-DIGGER.—From 1851 to 1860 the extent of land which had been wholly or partially used by the gold diggers in the colony of Victoria was six hundred and fifty square miles, for which they paid the Victoria Government £3,975,027, or £10 per acro. If the pastoral tenants had paid the Government the same proportion for the land they occupied during the same period, the Government would have received from them the sum of £450,000,000. WASH-DAY IN GOLLAND.—In the ancient city of Amsterdam a curious contrivance is extant, worthy of mention. From the tep story of dwellings there is a tackle and fall by which furniture, &c. is drawn up. But the principal use to which it is put is the discharging and receiving of baskets of linen going to and returning from the wash. Washing is all done in the vicinity once in three months by the moderately well-off citizens, and once in six months by the wealthy.

once in six months by the wealthy.

VALUE OF A LIFE ANNUTY—An old lady recently died in Boston at the age of ninety-six, who, in the year 1828, purchased an annuity of two hundred dollars a year, by depositing in the Hospital Life Insurance Company \$1,853.32, for which she was to receive \$200 a year. She lived to draw from the company six thousand and seven hundred dollars. O'CONNELL'S PISTOLS.—The pistols of Daniel O'Connell were recently sold at auction in London. With one of these in 1855, O'Connell shot Colonel D'Estere. An inscription inside the pistol-case stated that D'Estere was premised £1,000 down and £1,000 a year for life, by the Dublin Orangemen, if he killed O'Connell. The pistol brought only £1 18s.

THE THUNDERER.—The London Times gravely informs its readers that New Orleans was taken by Gen Grant, who conveyed his troops across Lake Pontchartrain in transporte, and thus achieved an easy victory.

TREASURY NOTES.—The National and American Bank Note Companies run pight and day upon Government work, and as great is the pressure upon them that notes are sent to Boston and Philadelphia to have their backs printed there. The printing of the ninety millions legal-tender notes will be completed within a week. FOR THE SUMMER. The President's family will pass the summer months at the Soldiers' Home, President Buchanan's summer residence, which is being refitted for their reception. THERE is cheering news of the growing crops in Maryland. In the vicinity of Baltimore there is every prospect of an abundant harvest, while the country papers bring similar gratifying intelligence.

UNPRECEDENTED.—The grand jury at Galena, after a three days session, failed to a find a bill of indictmentagainst anybody. The case is without a precedent in that region.

MEDICINAL. TARRANT'S EFFERVESCENT SELTZER APERIENT.

This valuable and popular Medicine has universally re-oeived the most favorable recommendations of the Medical Profession and the Public as the most epytogent and agreeable SALINE APERIENT. It may be used with the best effect in Bilious and Febrile Diseases, Costiveness, Sick Headache, Nausea, Loss of Appetite, Indiges-tion, Acidity of the Stomach, Torpidity of the Liver, Gout, Rheumatic Affections, Gravel, Piles,

AND ALL COMPLAINTS WHERE GENTLE AND COOLING APERIENT OR PUR-GATIVE IS BEQUIRED. It is particularly adapted to the wants of Travellers by See and Land, Residents in Hot Climates, Persons of Sedentary Habits, Invalids, and Convalescents; Captains of Vessels and Planters will find it a valuable addition to their Medicine Chests. It is in the form of a Powder, carefully put up in bottles to keep in any climate, and merely requires water poured upon it to produce a de-lightful effervescing beverage. Numerous testimonials, from professional and other gentlemen of the highest standing throughout the country, and its steadily increasing popularity for a series of years, strongly guaranty its efficacy and valuable character, and commend it to the favorable notice of an intelligent public.

Character, and comment is to the layout the intelligent public.

PURE COD-LIVER OIL. The repugnance of most patients to COD-LIVER OIL.

Oth, and the inability of many to take it, at all, has induced various forms jof disguise for its administration that are familiar to the Medical Profession. Some of them answer in special cases, but more often the yeelide neutralizes the usual effect of the Oil, proving quite as unpalatatic and of less therapentic value. The repugnance, naises, &c., to invalids, induced by disgust of the Oil, is entrely obviated by the use of our CAPSULES. OOD-LIVER OIL CAPSULES have been much used lately in Europe, the experience there of the goodwiesuits from their use in both hospital and private practice, saide from the naturally suggested advantages, are sufaside from the naturally suggested advantages, are sufficient to warrant our claiming the virtues we de for them, foeling assured their use will result in benefit and deserved favor. MANUFACTURED BY THE
UNITED STATES BIOTINA ROOFING COMPANY,
No. 9 GORE BLOCK,
Corner GREEN and FITTS Streets, Boston, Mass.
This Portable Roofing is the only article ever offered
to the public which is ready prepared to go on the roof
without any finishing operation. It is light, handcome,
and actily applied, and can be safely and cheaply transported to any part of the world. It will not taint or
discolor water running over, or lying out, and is, in all
respects, a very desirable article. Its non-conducting
properties adapt it especially to covering manufactories
of various kinds; and it is confidently offered to the
public after a test of four years in all varieties of climate
and temperature, for covering all kinds of roofs, flat or
pitched, together with care, steamboats, &c.
It is both cheap and durable. Agents wanted, to
whom liberal inducements are offered. Send for sample,
circular, &o., with particulars, to "U. S. BOOFING
