NEW CHURCHES.—The North Broadstreet Presbyterian Church, the corner-stone of which was laid on Monday, as stated, will have a front on Broad street of 70 feet, and on Green street of 715 feet, and is to have a basement, for lecture-room, school-room, etc., entirely above ground, with a twelve-feet cailing, the audience-room over it to be fifty feet high, with an ornamental send circular celling, formed in panels. Trenton brown stone is to be used in facing the ontire building, which is to be in the Norman style of architecture, with square towers on the Broad-street front, to be surmonuted by a spire, the whole 215 feet high. The cost of construction, when completed, will be out \$50,000. From the size of the structure it is be-The Broad-street front is to be handsomely ornamented. There will be a rose window above the main doorway, and side windows with semi-circular heads. For the speedy exit of a large assemblage, ample provision has been made by means of spacious staircases front and been made by means of spacious staircases front and back.

The rebuilding and fitting up of St. Paul's Catholic Church, Christian street, below Teath, is progressing, and in a short time the edifice will be ready for worshipping in. The moulding, arching, and capping of the pillars and the large arch of the altar, is nearly completed. Assocn as this part is finished the freecoing and painting will follow. The work on the outside and inside is being done at a rate that will insure its being opened at an early day. The congregation, under father O'Haran, temporarily wership now in the school building belonging to the parish.

The new Roman Catholic Church of the Amunciation, Tonth and Dickerson, is now nearly finished in its interior. The middle block of pews are also placed in position, and the side blocks are now being put in. The work of pissiering and painting the editice will c mmence in a few days, and when this is done the altars will be put up, and the entire editice will be ready for dedication about the latter end of summer. Services have been held in the church for some time, in its rough state, to a large congregation. Last Sunday, the Rev. Mr. McCanany, prior to the sermon, paid a fitting tribute to the late Pev. Mr. McCosker, chaplain of the Fifty-fifth Pennsylvania Regimont. He said Mr. alcC. was the first priest to enter the army in this State. He was at Port Royal, where he had hundreds under his care, end was for alx mouths at that point alone discharging his duty, and in that time he never met a fellow-priest. for all months at that point alone discharging his duty, and in that time he never net a fellow-priest. Mr. McCosker gave up his charge at Elizabethtown, in this State, to enter the aimy. The late Rev. gentleman and Father dicknamy were students together, and this gave an additional interest to the passing tribute to the partning of the decayed. ANOTHER FATAL RAILWAY ACOIDENT.—About 11 o'clock, yesterday morning, a lad named Addiph Shibbey attempts to jump off the front platform of a pass nger railway car, on Gira d avonue, near Twenty-second street, when he fell upon his face, and the wheel of the car broks his back. The unfortunite youth died in a few minutes. He was an apprentice to Joseph Maior, a baker, residing at 617 Poplar street. Cot oner Conrad held an inquest in the case, and the jury red red a verdict of accidental dath, exonerating the or nductor and driver from all blame.

In the case of the boy named Samuel Goodyear, aged 13 years, who was killed at the Kensington depot, as mentioned in The Press, the coroner will hold an investigation this evening. It seems that he, in company with other boys, had been in the habit of jumping on the cars at the train enters the depet. This practice is an exceedingly dangerous one, and the police, as well as the officers of the Railroad Company, have used every effort to break it up. On Monday evening, after the arrival of the eight o'clock train, the boys were driven from the depot by the back gate, but they soon returned, and got upon the cars which were being shifted from one track to another. Several of the youths soon after either jumped or fell off. Young Goodyear got under the train. The wheels passed over his head and one arm, mutilating him in a borrible manner, and causing instant death. The body was taken to the residence of the parents of he deceased, on Blair street, above Harris. ANOTHER FATAL RAILWAY ACOI-

THE FRESHET .- We learn that the Reacing Railroad and its Lebanon Valley branch have secaped uninjured from the effects of the late freshet, so lisastrous to other lines of railways and causis. Its now, with its vast equipment of rolling stock of every de scription, ready to meet all demands upon it from ever scription, ready to meet all demands upon it from every quarter
Since Thursday last, a steady stream of Pennsylvania
Railroad passonger, freight, and cattle trains have passed
Reading each way, between Harrisburg and Philadelphia, to accommodate the laster company, whose Middletown bridge was damaged by the freshet, and thus the
communication between Philade phia and the West, so
important to the Government at this juncture, was, forrunately, kept up without an hour's interruption. Arrangements are already making to supply the large iron,
works on the Lebigh with Schupikill county coal, and,
from present appearances, the Rending Railroad will be
taxed to its utmost capacity in accommodating an immones and remunerating trade is coal and merchandisa.

IN OUR ARTICLE OF YESTERDAY, alinding to the Deputy Quartermaster General's Department, we inadvertently stated the total disbursoments of that department at forty willons of dollars, when it should have read thirty. We also should have stated that the purchase of irregular kinds of cloths and korseys was by order of Quartermaster General Meigs, those articles being very scarce at that time, and this being the best that could possibly be done under the circumstances. ticles being very scarce at that time, and this being the best hat could possibly be done under the circumstances. Instead of the number of blankets being 16, which were condemned on re-inspection, it should have been 10,000. The inspectors who received this lot of condemned articles were dismissed, as it is only the certificate of inspection which passes the goods for payment, and consequently is the only check against frand. We omitted to state that as late as May 31, there were also 17,222 trowsers, foot, rejected on re-inspection at 3t. Louis, which were passed by these same ex-inspectors in this city.

THE WHITSUNTIDE FESTIVAL.—The THE WHITSUNTIDE L'ESTIVAL.—The Monday fo'lowing Whit or White Sunday was in years ago: a slways observed as a holiday, but of late it has a most ceased to be known except among the children at the German port in of the population. With the Germans it still continues to be one of the most important festival ceasions of the year, and there are but few of that people who do not lay as ide all business affairs to join in the general pleasure of the day. Monday was duly celebrated in this city. The German retreats near the suburbs were filled with men, women, and children, and on every countenance were to be seen emotions of pleasurabl: hope.

Books FOR THE SOLDIERS .- One of BOOKS FOR THE SOLDIERS.—()ne of the most ungent demands of our sick and wounded solders now in the military hospitels is for enitable reading matter. It has been suggested that if each family would lay saids a few books for the purpose, and send them to the nearest hospital, or to the general hospital, just completed in West Philadelphia, the tax would be a light one, and gratefully paid. The result would be a very satisfactory and useful collection of books. Our volunteers are of every nationality, but especially English or German books would be almost everywhere equally useful. French newspapers, too, are a constant source of interest and pleasure to the men.

FAIR .- The Union Volunteer Refreshment 'alnon will present quite a lively scene for a we'rk from the 16th. The committee hold their strawberry fair at the saloon in their new extension, which opens in their present saloon. Regiments arriving in the city will be fed as usual at the tables while the fair is in progress in the adjoining room. The citizens will have a fine oprortunity of aiding this good work, and seeing how much the soldiers enjoy their meals.

THE SAUNDERS CADETS.—The Cadets of Sarnders' Institute, by the request of the ladies of West Philadelphia, wil drill this siternoon, at the straw-berry testival in sid of the Chitdren's Home, at the corner of Vorty-second and Locusts streets, commencing at five o'clock. The cadets so uniformly meet with the appliance of all who witness their exercises, that we have no doubt every visitor will be more than satisfied with their professioners.

BODY ARRIVED .- The body of Lieut.

A FoundLing. - A female infant was found about 10 o'clock on Monday night upon the steps of a house on Vine street, year Fifteenth. Attached to the clothing was a paper containing the following: "Take me in and treat me well. I have no home. I am three weeks old last Thursday." The founding was temporarily cared for at the Northern Home for Friendless Children.

PRIZES TO THE PHILADELPHIA YACHT3.—Prizes have been awarded to the first-class sloop Foud, and the third-class sloop Glengarry, of this city, both of which were winners at the regatta which recently came off at New York. The other winning boats ware the second-class sloop Mallory, first-class schooner Favorita, and second-class schooner Restless.

The show York Post of to-day says:

The stock market was less buoyant this forenoon than at the close of business on Monday, but prices are generally steady, and leave off firm on Governments and railway bonds. The amount of actual business done is less then yesterday. The firmness on New York Central at the advanced price is the feature of the railroad share list. Thore is also increased attention directed to Illinois Central, on account of the reopening of the blockade of the Missusippi river

The market for gold and exchange is less excited than yesterday. Goldis 104½ 104½. Bills on London 115% 115½. United States notes, custom-house issue, are 101½ 2013/2 per cent.

The weekly back averages, which we published last evening, show no important variation from the previous statement. The deposits, having attained the large figure of \$125,500 000, are steadily maintained, while no additional employment is found by the brokers in the way of loans or discounts. Some of them have reverted to four per cent. deposits with the Sub-Treasury, and others to the conversion of United States notes into five-year six per cent. United States stock, under the act of February 28. The specie line is steady. The circulation, as usual at the beginning of the month, is partially increased.

CONTINUATION OF DR. LEIDY'S LECTURES

T THE UNIVERSITY OF PENNSYLVANIA.—The lecture of the course of lectures now in progress by Professor Joseph Leidy, M. D., at the University, on General Natural History, delivered yesterday, was largely at-tended, and listened to with deep interest. Having concluded the Protozoa and the Radiata, his lecture yeserday was devoted to the third grand division of the Animal Kingdom-viz: the Articulata, which may be and insects. This division was sub-divided into three Charges, denominated respectively, Vermes, Arthopoda, and Arachnida, which, for greater convenience, were still farther divided into a number of orders. The two first of the classes named above monopolized the hour, in the course of which Dr. Leidy imparted, in his own instructive vay, an immense amount of scientific information relative to these commonly overlooked and despised classes of the animal kingdom, but which, when subjected to microscopic investigation, are instinct with what may be of value to persons desirous of making When about eighteen years of age, Dr. Leidy said he had purchased a microscope from a pedior at two dol-lars, in using which he discovered that the self-contraction of a grasshopper's wing, when it had been stretched out like a fan, was by means of fine spiral springs, or nerve cords, with which they were transversely supplied. Having mentioned this fact, subsequently, at the Academy of Natural Sciences, he found that it had been heretofore unknown. The Academy used it, and since then the discovery had been referred to by various En ropean writers. He mentioned this fact, he said, in order to show what could be accomplished with very trifling expenditure, and to inform his audience the these of them who took an interest in these investigation need not be deterred from it by the mere cost of an in strument. For all the investigations which he had used

in this present course of lectures, (which is by far the most thorough and complete ever given in this city upon the subjects treated,) a microscope, costing from ten to twenty-five dollars, was amply sufficient. These instruments, he knew, were sold from two dollars to six bundred dollars, and many physicians, under the mis-taken idea that it was necessary to their purpose, paid from one bundred to two hundred dollars for instruments fourth the price. Erenberg, for example, one of the had made all his observations with a microscope costing twenty dollars. In his next lecture, which will be de-livered on next Tuesday, at 1.20 P. M., he will enter more fully upon the *structure* and peculiarities of the various orders of insects. EXQUISITE SPECIMENS OF THE PHOTOGRAPHIC

Arr.—Our readers of the Lutheran Church will be glad to learn that Mr. F. Gutekunst, the celebrated photographer, No. 704 Arch street, has just published, at his gallery, a very beautiful card photograph (from the finest portrait extant) of the Rev. Dr. Henry Melchior Muhlenburg, the founder and apostle of Lutheranism in America, and the honored sire of the distinguished family of that name in this country. He has also made admirable cartes, within the last few days, of the Rev. Dr. D. W. Bartine, Rev. Dr. Greene, of Princeton Semi-nary; Rev. Thomas H. Stockton, D. D., Rev. Dr Edgar, and a fine vignette picture of the Rev. Albert Barnes all of which can be had at Mr. Gutekunst's

counters, together with a superior assortment of Photo graph Albums of all sizes and styles. OAKFORD & Son's Display .- It is worth a ride from any part of the city to see the tasteful and thoroughly metropolitan display of Hats, Caps, Gents' Furnishing Goods, et cetera, made by Messrs. Charles Oakford & Son, the popular Hawers of this city, in the immense windows of their great establishment under the Continental Hotel. Their sales, this season, of these articles, which are all either of their own importation manufacture, have been unprecedented. The fact is, this store is a universal favorite, where everybody is

FINE GROCERIES FOR SUMMER RESORTS.—We fird that a number of proprietors of fashionable summer their groceries, for the season, from Mr. C. H. Mattson of this city. His store, corner of Arch and Tenth stree has presented a perfect bustle of business during the past few days, in getting up orders of this class for shipmen to various inland and sesboard places. We may state, in this connection, that all goods bought at this store are delivered in any part of the city, or carefully packed and sent to any of the depots, free of charge. OUR CORRESPONDENT says "that the ill

health of the soldiers before Richmond is owing to their having such a forward Spring." We would ask whether a Backward Fall is not equally injurious to the health? If " Outters" that bring in a revenue, like "Powers" and "Seynave," the celebrated cutters at Charles Stokes Clothing Store, could not be properly called revenue cut-Would it not be proper for a gentleman who has purchas-

ed a coat at the "one price" Clothing Store of Mr. Charles Stokes, under the Continental, to speak of it as his "one priceless coat ?" AN EXTRAVAGANT WARDROBE.—The wardrobe of a lady of fashion was sold in London last week The saleroom glittered with rich and gay colors, Genoa velvets, brocaded silks, sables, cashmeres, laces, min gled together in strange variety. There were in all two hundred dresses of every variety of material and value and they realized between £500 and £600. One of the lois was a moire antique dress with torquoise buttons Amid all this display of finery, there was not a single gar

ment to compare, in respect to real good taste, with the elegant suits, for gentlemen and youths, made at the Brown Stone Clothing Hall of Bockhill & Wilson, Nos. 608 and 605 Chestnut street, above Sixth. NEW ISSUE OF TREASURY NOTES .- A Washington correspondent says that Secretary Chase will ask Congress to authorize a further issue of \$150,-000,000 of demand tressury notes, probably \$25,000 of them of denominations under five dollars. He will also propose for prudential and economical reasons, to have all notes engraved, executed, and printed in the Treasury building, under the direct anspices of officers of the department. These notes, like those previously issued, will be freely received in the purchase of summer ciothing, at the pala-tial establishment of Granville Stokes, No. 509 Chestnut street, where the chespest garments in the country are manufactured.

SPECIAL NOTICES. MOONSHINE.

BY THE BARD OF TOWER HALL, Through window of my lodging place, The moon beam falls upon my face. Fair Luna seems inclined to spark This drowsy poet in the dark, As once, on such a night as this She "waked Endymion with a kiss;" But if she means such tricks for me he wrongs my bashful modesty; And I with candor will declare And yet it is a kind of stuff That has admirers quite enough. How many folks of this great nation How many tradesmen are beguiled By moon-struck fancies-visions wild On "credit, system" still proceeding, Nor common sense nor conscience heeding— Compelled to fix their prices high Still driving on the rapid tide To ruin's gulf, expanding wide. But Tower Hall has never made

An offer of such moonshine trade-Cash purchases and prices low Our plans and principles will show : And these are all the tricks we know. Buying and selling for cash exclusively, enables u to sell at the lowest prices; the large trade we have thereby secured enables us to buy large lots in first hands bus obtaining advantages in styles and prices which

others do not possess, and allows us to keep a larger stock and better assortment than can be found elsewhere in Philadelphia. .We have goods adapted to all sizes; tastes, and pockets, unsurpassed in style and workmanship.

It is almost unnecessary for the publisher of this magnificent work to say anything in its favor.

The French feuilletonists and critics have exhausted every adjective in its praise.

The fabricum amount of \$80,000 is reported as having been paid to the author for the copyright. Machinery of the most gigantic character has been set at work in Europe to enhance its sale there.

Its appearance was followed by a furore unparalleled in the literary world. Two enormous editions, of ten thousand copies each, were swept of within the week of its publication, and telegraphic orders arriving from all parts of Europe remained unfilled. It is the acknowledged literary event of the century. In the way of a novel, there's nothing grander in all litera-

PROPOSALS. A NTHRACITE COAL FOR THE

NAVY DEPARTMENT

BUREAU OF CONSTRUCTION, EQUIPMENT AND REPAIRS,
SEALED PROPOSALS for furnishing Authracite
Cosl for the Navy, to be delivered during the fiscal year
ending 30th June, 1863, will be received at this Bureau
until 4 o'clock, the 10th day of July, 1862.
These proposals must be endorsed "Proposals for
Anthracite Coal," that they may be distinguished from
other business letters. Anthracite Coal," that they may be distinguished from other business letters.

The offer must be for the delivery of 50,000 tons, of 2,240 Bs.; and, if an additional quantity of 50,000 is demanded, it is to be furnished on like terms and conditions. The coal must of the best Buck Mountain, or Black Heath, or of a kind equal to them in all respects for the purpose intended, which equality will be determined by a board appointed by the Secretary of the Navy, after the reception of the bids.

purpose intended, which equality will be determined by a board appointed by the Secretary of the Navy, after the reception of the bids.

The name of the coal proposed to be furnished must be stated in the offer.

It is to be delivered in lumps of suitable size for naval steamers—clean; of uniform quality; selected free from impurities; unmixed; of which the contractor will be required to turnish such evidence as will be satisfactory; and be suited to turnish such evidence as will be satisfactory; and be suited to turnish such evidence as will be satisfactory; and be suited to turnish such evidence as will be satisfactory; to be appointed by the Department, as to make the right of peremptory rejection.

The coal is to be delivered on board vessels at such place in the port of Philad-lphia as may be designated by the Department; and in such quantities, and at such times, as, in the opinion of the Department, the exigencies of the service may lequire; commencing when the vessel is reported ready to receive cargo, furnishing, when required, not less than 600 tone per day, to be distributed to each vessel, as may be directed, until the loading is completed. Proposals will likewise be received for the activery of fifteen thousand tons, and an additional quantity of 15,000 tons if demanded, of the same quality, under the same terms and conditions, in the part of New York.

In the case of failure to deliver the coal of the proper quality and at the proper time and place, the Department will reserve, in the contracter's risk and expense, that which may be necessary to supply the deficiency.

Any demurrage or other charge to which the Navy Department may be ambiected from delay, in the prompt delivery of the coal by the contractor, will be deducted from their bills.

Any demurrage or ether charge to which the Navy Department may be subjected from delay, in the prompt delivery of the coal by the contractor, will be deducted from their bills.

The price must be for the coal delivered on board vessels, stating the price if delivered on board at Richmond, and that if delivered on board at any other place in the port, on the terms and conditions above stated, at the contractor's risk and expense, and without extra charge of any kind.

The offer, as required by law, must be accompanied by a written guarantee, signed by one or more responsible persons, to the effect that they undertake that the bidder or bidders will, if his or their bid be accepted, enter into chligation in such time as may be prescribed by the the Secretary of the Navy, with good and sufficient sureties, to furnish the supplies proposed.

No proposition will be considered unless accompanied by auch guarantee.

Two or more sureties, in a sum equal to the amount specified to be paid, will be required to sign the contract, and their responsibility will be certified by a United States District Autorney, Collector, or Navy Agent.

As additional and collateral security, twenty per cent. will be withheld from the amount of all payments, not to be paid except by authority of the Secretary of the Navy, until the contracte hall have been in all respects complied with; and the remaining eighty per sent, or other amount that may be due on each bill, will, whon a proper certificate is immished by the Inspector, and the bill approved by the Navy Department, be paid by such Navy Agent as the contractor may name within thirty days after its precessation to him.

It will be estipulated in the contract that if default be made in delivering the coal of the quality and at the place and time directed by the Department, then, and in that case, the contractor and his sarcties will forfeit and pays to the United States, as liquidated damages, a sum of more and time directed by the Department, then, and in that case, the contractor and
