On motion of Mr. FOSTER (Bep.), the General Pension bill was taken up Several amendments of the committee were concurred in. Adjourned to Monday. HOUSE OF REPRESENTATIVES. Mr. WIOKLIFFE (U.), of Kentucky, moved to reconsider the vote by which Gen. Huuter's reply to inquirles, as to the organization of negro regiments, was ordered to be printed.

Mr. WIOKLIFFE addressed the Hause on the subject. Instead of organizing and parading negroes Gen.
Hunter ought to have prepared his troups to prevent the
retreat from James Island. It was a miserable policy to
anuater runaway blacks into service.

If twenty millions of freemen were not able to supmoss a rebellion of six millions of white men, let the acknowledgment be st once made. knowledgment be st once made.

The recommendation to the Border Slave States to emancipale their negroes, and the design to pass confiscation bills, have not scared the South. One hundred emancipate their negroes, and the oesign to pass confiscation bills, have not scared the South. One hundred and ninety-six thousand more troops than the law prescribes have been emissed. He fusisted that the number should be limited, and the military arm restrained from going beyond the State. He wished, however, that we had more troops, duly authorized, to be placed where they ought to be. The Secretary of War ought to have rebuked General Runter for his sancy and imputent letter, and removed him for having undertaken to enlist an egro enditers without sanction of law. To-day be (air. Wickliffe) received an auonymous letter from some secondrel, enclosing a copy of Hanter's letter, telling him to "tread this and smoke it in your pipe." He wanted his brother member to take a whiff. It was the outly of every head of the department to r buke a sub-ordinate who, with reference to any legitimate inquirty, takes obcasion, to indulge in unjust and insulting criticisms. This was the grout of his come little having furteduced the resolution to which General Hunter's letter was a roply. The negroes were naturally afraid of gues. Give them John Brown pikes and bowie-knives if you intend to carry on the war to murder and devastation in the South. He had intended to bring one of John Brown's pikes here, thinking the House might adopt it as a fit instrument for the South Carolina blacks. Mr. McKNIGHT (Rep.), of Pennsylvania, regretted that Mr. Wickliffs had just agitated this segroq question, the MALLORY (U.), of Kentucky, said ro man conmr. MALLORY (U.), of Kentucky, said ro man condemend more than he did the letter of Gen. Hunter, and the system inaugurated by that general, of arming negroes. It was an outrage on humanity. He surunk from it. The House ought to be forever ashamed of the conduct the other day, when Bunter's letter, was read; the demonstrations on the part of certain members and the demonstrations on the part of certain members ap-peared to be buffdoners, and was disgraciful to the American Geogress.

Mr. BIDDLE (Rep.), of Ohio, and Mr. COLFAX
(Rep.), of Indiana, called the gentleman to order.

The SPLAKER reminded the gentleman that he was The SPEAKER reminded the gentleman that he was transcending the rules.

Mr. MALLORY saked pardon. He differed from his collesque (Mr. Wickliffe) as to the Secretary of War. He had abiting confidence in that offlier, and that the conduct of Hunter would be repudiated for the following reason: Two or three weeks ago he had business with the Secretary; when he was about leaving he Den'artment the Secretary called him back, and, after folding over the date and the signature of a latter, showed him hat so offlier had asked authority to raise a regiment of blacks. The Secretary inquired what answer ought to be given, and to which Mr. Mallory replied: "It your allow me to dictate an answer, I would say, emphatically, no!" allow me to dictate an answer, I would say, empastically, no!?

The Secretary rejoined that he had not only done that, but ornered the officer's arrest. He (Mr. Mallor.) therefore repeated to many gentlemen that the charges that the Secretary had sanctioned the recruiting of blacks were false.

Mr. KRILLOGG (Rep.), of Illinois. Was the arrest of that officer ordered for making that suggestion 1 received. Hi there-were other reasons, they were not estated.

Mr. ILIOHARDSON (Dem.) inquired whether, in Ir. Mallor, 's jadgment, the Secretary, to be consistent, ought not to dismiss Hunter?

Mr. Mallody 's jadgment, the Secretary, the Secretary that the conduct of this war. There were many things which the conduct of this war. There were many things which did not meet with his approbation. He could not approve of setting generals, in sympathy, with slaveholders, at the head of our srmies, and of their conduct of the fer conduct of the property of ceair. MALDORY. Instead was the impression I received. If there were other reasons, they were not stailed.

Mr. BICHA BDSON (Dem.) inquired whether, in Ir. Mailory's judgment, the Secretary, to be consistent, ought not to dismiss Huinter?

Mr. MALDORY said he would wait till the Secretary and time to consider the question.

Mr. ETEVENS (Bpc.), of Pennsylvania, remarked that he agreed with Mr. Wickliffs, in finding fault with the conduct of this war. There were many things which did not meet with his approbation. He could not approve of setting generals, in sympathy with alveholders, at the head of our armies, and of their conduct under express orders in pursuing and returning the fugitives of traitors. He could not consent to that pursuin of conduct of the war which tent Gur armies to watch the property of rebel soldiers rather than to allow it to be occupied by oncount trops, while the sick and wounded are placed in swamps filled with a deadly missma, weakening and thus unfitting them to meet the enemy.

Mr. KELLOGQ (Rep.), of lillions. Does the gentlemma make the charge about the conduct of the war against the President or Secretary of War, or only against the generals in the file?

Mr. StELVENS, I intend to place the blame exactly where it blongs; I same sycophant and parasite. What I think I sap. As these things have been perpetrated over and over again, without rebuke from the appointing power, I leave the House and world to understand where two responsibility resis.

Mr. KELLOGG, Does the gentleman charge this on

bere the responsibility reals.

Mr. K K L L OGG. Does the gentleman charge this on the Administration?

Mr. STEVENS. I charge it on the management of Mr. STEVENS. the war, and the different branches of the administra-tion. I do not mean to flatter. I believe the President honest, but heing of a yielding disposition, has fallen un-der the malian influence of K-utnoky councils, and therefore has adopted the policy I rebuck. Mr. MALLORY. Does the gentleman attempt to ridi-culat he Kennyky delegation? le the Kentucky delegation? Mr. STEYELS. I don't say so; nor do I mean any Mr. SIEV.MS. 1 don't hay bo; nor do I mean any gentlemen of this House.

Mr. MALLORY. Then the gentlemen intended to perpetrate a joke. There are powers behind the throne greater than the throne itself.

Mr. STEVENS remarked, in reply to Mr. Mallory, that, from a communication he had with the Secretary of War, he, Mr. Stevens) did not think the Secretary held any such doctrine as that attributed by the gentlemen from Kentucky.

Mr. LOVEJOY (Rep.), by permission of Mr Stevens, occupied the floor a short time, and read from the pra-clamation of Washington and Jackson, in support of Mr. Stevens' position, and to show the noble enthusiasm Mr. Stevens' position, and to show the noble enthusinam of the colored soldiors, impelling to great needs
Mr. SEDGWIOK. (Rep.), of New York, also read from a paper intriched him by the librarian of the State of New York, to the effect that Spain, Portugal, Brazil, Creat Britain, Turkey, etc., had employed soldiers without regard to color, including his as.
Mr. DIWEN (Rep.), of New York, regarded the muster of blacks into the service as highly important and desirable. He had been enceavoring for weeks past to introduce a hill for this purpose. In reply to Mr. Bingham he said he provided in the bill for the liberty of all thus employed. thus employed.

Mr. STEVENS was thankful to Mr Sedgwick for the Mr. STEVENS was thankful to Mr Sedgwick for the portion of history he had produced. He had been told by a ventrable Senator from Vermont, who had seen them, that a regiment of colored soldiers were employed on the Northern frontiers outing the late war with Great Britain. It was the duty of the Government to follow the polloy insugarated by Hunter, a gallant and sagacious soldier who sow commands our armies in South Carolina. You cannot put down insurrection till you remove the cause. You cannot conquer the South as long as you permit the slaves to cultivate Southern soil during the hot summer months. He was for arming the slave population South, in the war of freedom, against traitors and ebels. He would not resort to this as an immanipation or abolition measure, but as the means of putting down the rebelliou. He referred to the Methodists, Bapasis, Old and New School. referred to the Methodists, Baptans, 016 and New School.

Presbyterious, &c., as having c on scientionally and solemmly expressed their belt I that slavery is the cause of
the rehelicon and its continuance.

Mr. MALLORY: I am as an ious as the gentleman
can be, and, I think, from a stronger motive of self-inrest, to put down the rebeilion.
Mr. STEVENS. I don't doubt it. We only differ

opinion as to the means.

Mr. MALLORY 1 think the slaves of the Southern In opinion set of the means.

Mr. MALLORY Ithink the slaves of the Southern trebule shou'd be used, as our armies advance, in all members are not set of the shou'd be used, as our armies advance, in all members are not set of the shou'd be used, as our armies advance, in all members are not set of the shou'd be used, as our armies advance, in all members are not set of the shou'd be used, as our armies advance, in all members are not set of the shou'd be used as our armies them are—Firstly. That, when armed, they would be urned loose against those who had been their would not for your lives make of slaves an aims whose services in the field will pay the expense of organizing them. One shot from a cannon would disperse thirty thousand of them.

Mr. STEVINS, quickly responding. Then they'll do injury to the rebels who fight them I am for employing them against their masters. I suppose the gentlemment wants to employ slaves in a medial service, and after the war return them to their masters under the for mutting them in the front, of battle. He would traise a hundred thousand to morrow. They are not barbariaus, and are as much culculated to be humans as any other class of people. It raise a hundred thousand to morrow. They are not bebariaus, and are as much calculated to be humane as any other class of people. It was false to say that they would not make go d soldiers. He would selze every foot of land and dollar of property, and apply them to the use of the war as our sarnles go along. He would plant in the South military colonies, and sell the land to the soldiers of freedom, holding the berttage of traitors, and building up in thations without the reor guition of elever.

THE CALL OF THE PRESIDENT FOR MORE TROOPS-RECRUITING .- The recent call of the President for three hundred thousand more volun-teers to reinforce our armies has had the effect of elfeiting an increased determination to support the Government with all the men and means necessary to crush ou the rebellion. On Saturday evening, Hon. Elishs W. Davis was elected, by the old 22d Regiment P. V., Philadelphia Light Guard, as its colonel. Mr. Davis belongs to Venango county, Pennsylvania, and was Speaker of the Hense of Representatives at the time the vote for the organization of the Pennsylvania, and was Speaker of the Leyislature, and it was certainly through his efforts that it parsed. It is understood that several companies of Western Pennsylvania are already organized, of the material characteristic of the world renowned Buckttalis, and there are companies of like power a d skill already forming. The spirit of patrionism is flaring ue in Philadelphia, so much so that it will not take long to fill several regiments. A sub-committee of the Coaper Shop Volunteer Refreshment Salcor, on Saturday evening, extended the hospitalities of the place to the Colonel and his regiment, if they shall reach Philadelphia previous to acoing to the war.

Captain C. H. T. Collis has received authority from Governor Curtin to raise a regiment immediately. The regiment will be uniformed similar to the old company of Zouaves d'Afrique, and officered by men who have seen service. The Zonaves d'Afrique have acted as Goneral Banks' body guard all through the war, and distinguished themselves during the eterest of that division, by keepine a large body of the enemy in check at Middletown, Ya. We have no doubt that Colonel Collis will organize a fine regiment, that will be a credit to himself and this city, where he intends to begin recruiting immediately.

The careful nursing and able medical attendance beng immediately.

The careful nursing and able medical attendance be The careful nursing and able medical attendance bestowed upon our wounded and rick soldiers is now being found advantageous to the service at this time of need. The large number of soldiers from the various battlefields of the pentaula are, with the exception of the more serious cases, now sufficiently improved to rejoin their regiments. The coming week a large number of these soldiers will be sent forward to take their places in the regiments to which they belong. The Adjutant General of the Unit of States has issued circulars directing all officers and soldiers, absent from the army, whether cick, wounded, or well, to rejoin their regiments, or to report to the Adjutant General without delay I they fail, they will be reported "absent without leave," will lose their pay, and be liable to be treated as deserters.

Colonel Heenan's regiment, the 116th, commenced furing the excitement caused by Jackson's raid, is in an encouraging state of forwardness. Other regiments will at once proceed to organize. REBEL PRISONERS PASS THROUGH PHILADELPHIA.—Early on Saturday morning a train of care, containing over three hundred traitor-prisoners, reached this city from Baltimore. The prisoners were reached this city from Baltimore. The prisoners were entured in the Shenandoah Valley, and among them were several officers. They came accompanied by a goal of Julied Stotes troops. The party were taken in the cars direct fo Washington-street wharf, where they were cultarked upon a steamboat and left about five o'clock for Foit Deleware. The traitors gave signs of insubordir ation, and in order to preserve the peace, an armed detachment of the police under command of Lieutenaut Hampton, with a number of the Southwark Home Guards, were called into requisition. The traitors pressed shore very quietly, walking from the depot to the landing. They were placed on hoard the boat in waiting, and were soon on their way down the river, accompanied by the guard as above detailed. Lieutenaut Hampton had been delegated by Obief Ruggles to take as many men as he desired. The demand was made by telegraph to several of the nearest stations, and the manner in which all responded, after continuous labor on the Fourth of July, was very gratifying to every patriot. Chief Ruggles has so systematically arranged the details of the department which the present Mayor Henry entrusted to his care that everything works at all times and in all emergencies with the precision of clock machinery.

When the rebet prisoners were about embarking, at Washington-street where, one of them very ungallarily applied a groesly opprobrious epithet to a female who happer ed to be standing by. The word had scarcely left the lips of Secesh before a "Madsill," who had heard him, knocked him down.

The stramer Swau returned on Saturday afternoon from the fort. They arrived safely with the prisoners' Among the crowd was one of the Black Horse Cavalry of S. C. He was an intelligent man, and acted something like a geotlemun. The rest made blackguards of the meetves, and their conversation betwayed their ignorance. They were very saucy. Messrs E. G. Simpoun and J. Sass, of the Cooper-shop committee, accompanied eaptured in the thenandosh Valley, and among th

It is said the provest marshal had notice of the coming of the robels, but made no arrangement for their reception. HOMICIDE CASE.—Coroner Conrad

A large stuffed "game-cock" was mounted prominently in front of the engine, and upon it and the cars no less than twenty-five beautiful wreaths of flowers were tastefully disposed, and flags innumerable waved. The irain attracted great attention here before it left the depot, and draw crowds of admiring spectators at the several stations on the line. It also created quite as susation as it passed from the Schuylkill viaduct into Bread street. FINANCIAL AND COMMERCIAL. THE MONEY MARKET.

PHILADELPHIA, July 5, 1832. The money and stock-circles of to-day regained much of the confidence lost on Thursday, by the deplorably paragraphed news which came to us on that day. Not-withstanding the great feeling of security which rule I all classes of people in the North when they brought to mind the then coming contest before Richmond, no sooner was a whitper uttered that McClellan had suffered a reverse than a wide-spread gloom overspread the minds o the masses. A terrible fear operating so suddenly show bow deeply contred are their hearts in the cause. The gloom lasted but for a day, and now the fact is to be re-corded that the buoyancy of the American heart is again shewn in the recovery of the prices at the stock board from the sickening effects of a too-gloomy-colored picture of reportorial terror. Business was somewhat larger than Thursday's, with an advance in most of the secu-rities. Reading opened at 28%, an advance of 1%, and continued firm. Holders were stiff in their demands, and but 300 shares changed bands. U. S. coupon sixes, 1831, rose 1% over the bighest figure of Thursday. Penusylvania fives advanced 21/4, and continued firm at 85. City sixes, new, advanced I on closing price of Thursday; the old 3 Pennsylvania Bailroad shares advanced 1/4; 1st mortgage bonds, 1/2; 2d do. 1/2; Little Schuylkill Ballroad declined to 19%; Susquehanna Canal brought 4% Catawissa common advanced 1%; Lebigh Navigation firm at 50; scrip at 30; 25 shares Girard Bank sold at 40%. There was but little call for passenger railways and no sales to record. There was no second board to day. On the street, one to think that the late battles were as much victorios a

CITY ITEMS. A NOVEL MODE OF ADVERTISING. Messrs. P. H. Drake & Co., proprietors of "Drake's Plantation Bitters "-which, by the way, is winning golden opinions upon a novel mede of advertising. Heretofore pyrotech-

nic displays have been almost wholly confined to aballities of patriotism, but on the late National Holiday, Messre. Drake & Co. made a novel innovation upon this old usage of freworks by introducing, as the grand finale of their splendid private exhibition—gives in a public way—at Fairmount, a piece emblazoning the name of their celebrated Plantation Bitters, the merits of which the reader will find set forto in an advertisement in another column of our paper this morning. FINE GROSERIES AT REASONABLE PRICES. Mr. C. H. Mattson, dealer in fine family groceries, Arch and Tenth streets, has at all times the most complete as sortment of everything in his line, embracing many choice things not kept elsewhere, and his prices are reasonable. Allegoods bought at his store are delivered in eny part of the city, or nearly packed and sent to any of the railroad depots, free of charge. THE GREAT BATTLES AT RICHMOND .- Aus

ter itz, Waterico, and Marengo, have been thrown in the skade by the tremendous conflicts before Richmond. Hundreds of thousands of men have been engaged, and the fighting has been the greatest ever witnessed on the continent. The sa warlike doings leave us but little appetite for the discussion of peaceful topics; but we cannot avoid making mention of the fact that Rockhill & Wilson continue to turn out elegant suits for gentlemen and youth, at their Brown Stone Clothing Hall, Nos. 803 and 605 Chestnut street, above Sixth. Good Breeding.—There is nothing more difficult to attain, or necessary to possess, than perfect good breeding, which is consliv inconsistent with a stiff. mality, an impertinent forwardness, and awkward bast fulners. A little ceremony is sometimes necessary a certain degree of firmness is absolutely so, and an awk-ward modesty is extremely unbecoming. Let our possessions be what they may—marble palaces, broad lands, magnificent plate, or caskets of precious atones—they all sink in the balance as against Heaven's great boon, health, and they cannot be enjoyed without it. The language of Nature attests that whoever would only the pleasures of food, the beauties of flowers and laudgupes, the joys of companionality, the richness of literature, or the honors of station and renown, must preserve their health.

ture, or the honors of station and renown, must proserve their health.

Night-revelry, luxurious living, irregularity of meals, and a disordered appetite, will gradual y lay the foundation for disease. How many tadies and sentlemen eat and drink disease at late suppers, and arise in the morning with headache, less of appetite, feeling languid, unrefreshed, feverish, low spirited, weak and incapacitated to perform any mental or physical duly, and dream not this is the beginning of that horrid disease,

OALISAYA BARK AND ST. OROIX RUM.
But still components were wanting, and regularity could not be obtained. An invalid Physician, sojourning in the tropical island of St. Oroix, observed the habits of the natives, and gathered from them the receipt for the final accomplishment of this most important end. Its component part, largely incorporated in the vegetable diet, of that island, produced effects without a prosper knowledge of the cause. The article was first made as a private medicine. Its effects were so salutary that it is now being produced and consumed in immense quantities, under the name of Acidity of the Stomach, Diarrheen, &c. A perfect ap petizer and tonic. They invigorate the body, without stimulating the brain. They are compounded of pure St. Croix Rum, Boots, and Herbs, and are recom-

uiring for them a reputation which no other Toute Bit ir in the United States or, the world has yet attained nd, from the active ingredients (several of them never efore employed in similar preparations) which enter into their composition, will continue to retain an ascendancy which has been so liberally and so justly conferred upon them. Such are their rare and peculiar properties that while they operate as an active and efficient medicine while they operate as an active and efficient medicine, they possess the properties of an agreeable and delightful heverage, and are daily sought after and drank by all classes of toople. The sale of these Bitters was at first confined to our extreme Southern cities, but they are now becoming well known at the North, and throughout the world, and are recommended, with the most unbounded coundence, for all complaints originating from a DISORGANIZED OR DISEASED STOMACH, Such as Dyspersia, Liver Complaint, Nervous Affections, Internittent Fever, Sour Stomach, Headache, Fever and Ague, &c., &c.

[From the Richmond Whig, April 16.] The Charleston Courier makes a timely suggestion when it says the Tomato should receive particular attention from our farmers. Its extensive cultivation is ne cersary for the preservation of the health of our soldier The Tomato seems to have a direct and peculiar action on the liver, producing all the beneficial effects of mercurisl preparations without any of the injurious. It is enid that the great success of the celebrated Plactation Bitters of Dr. Drake, which, previous to the present unhappy condition of our country, was to be found upon the sideboard of thousands of Southern families, was owing to its principal ingredient being the active princi ple of this plant. In confirmation of its value, we have heard one of our most distinguished physicians remark that when he felt unwell in the spring of the year, or during the warm months of summer and fall, he knew that it arose from the torper of his liver, and he invariably relieved himself by partaking freely of these Bit ters at his meals. We trust that our troops will be supplied with the above Bitters, if they can be procured, or if , let them have an abundant supply of the Tomato, as it is both bygienic and nourishing.

Humbo di makes favorable mention of the febrifuge qualities of this article as an ontidote to Fever and Ague. Intermittent and Matarious Fevers, in his extensive South American travels.

The countess wife of the Viceroy of Peru, having in her own person experienced the beneficial effect of the bulk, is said, on her return to Spain, in the year 1840, to have first introduction it was distributed and sold by the Jasuits, who are seid to have obtained for it the enormous sum of its aveight in silver. From this circumstance it was called the Jeeur Powders, a fille which it reasted for many years. In 1868, we are told that an Englishmao, by the name of Fir John Tallott, employed it with great encress in France, in the treatment of Fever and Aque, Dysprysia. Nervous Affections, Loss of Appetite, Weakness and Debitty, Patpitation of the Heart, Diarrhoen, &c., &c., under the name of English powder. At length, in the year 1679, he sold the secret of its origin and preparation to Louis XIV., by whom it was divulged. It is now a standard remedy, and is employed in the preparation of the Plantation Bitters. (See U. S. Medical Dispensatory.)
