Amount of finances forty dolars. Amount of faith inversity as the distance from New York to Paris by way of the North Pole. Resching Paris as the owner of twenty dollars, he addressed a letter to the Chamberlain of the Emperor, requesting the honor of an andience with His Majesty, or the appointment of a Commissioner to examine his theories. Of course it was not long before small ohange became more plent; than pleasant, and thereupon he wrote to the correspondent of a farm in the United States who were acquainted with his peculary affairs, and from whom he had good causes no expect assistance. The correspondent had been advised of everything excepting the payment of a little money. An " shout face' be-came accessary, and five hours star leaving Paris, a latter chame to his hotel from Golome Fare, Aid-de-Camp of the Emperor, stating that his petition had been granted. Almeet a coincidence! As soon as the summer has paased away, the young man intends returning to Paris, naturally with more experience, and if queer ideas beget queer results, we may have something considered odd.

BROAD-STREET HOSPITAL.—It has been stated by some of the soldiers that the officers in the Broad street Hospital do not pursue a proper course in regard to the government of the different branches of the hospital department. It may be well to state that the report is incorrect, and is altogether without foundation. Under the skilful guidance of the surgeon-in-chief, Dr. John Neill, and his arsistants, every branch of the hospital department undergoes daily inspection, and every patient's wants are strictly attended to. We are sorry, however, to state that this is not the case in all of the Government hospital's in this city. Delleactes which have been sent for the benefit of our sick and wounded, by our patriotic ladies, are appro-priated by the officers. Such shameful conduct should not be tolerated, and these specimens of humanity who would rob a sick or wounded soldier, who has left his home to fight our country's battles, of any delleacy that has been prepared for them, deserves a traitor's reward, and should be bed in contempt by all lovers of humanity, freedom, and benevolence.

propriety of discontinuing the relief now extended by
the city to the families of volunteers. The present fund
is nearly exhausted, and it is proposed to create a farther
loan of 280,000 remaining of the Defence Fund, and it is
proposed to devote 560,000 of this to the families of volunt
ters, in order to keep the Relief Committee in funds un-
til after the summer recess, and until the new loan bill
can be passed. In the appropriation of the Defence Fund,

about \$80,000 remaining of the Defence Fund, and it is
proposed to devote \$50,000 of this to the families of volunt
