HOW OUR SICK AND WOUNDED ARE CARED FOR.-Since the recent bloody buttles before Richmond the number of sick and wounded in our midst has become so great that the Government, thoug doing all it can, must necessarily depend upon private enterprise for assistance. Our city has already don butch, but when almost every funity in it has some rela-tive or friend lying sick and wounded, an appeal of this

enterprise for assistance. Our eity has already dona much, but when almost every family in it has some rela-tive or friend lying sick and wounded, an appeal of this kind cannot pass by unnoliced. Next to the success of our armise in the field, there is no subject in which the whole community should feel so much interest as in the welfare of the sick and wounded soldiars, who have an-erifaced health and riaked life and limb in the National cause; who cast themselves, maimed, scarred, feeble and prostrated, upen the sympathles of those whose gra-titude and care it is their right to claim. There are now in the various hospitals of this sity alone hundreds of poor fellows who; a few short monthe, or, it may be, weeks ego, left their homes, sound and stalwart, hopeful and reliant, to de battie for the flag under which they were born, or to which they owed allegiance. They come back to us diseased, mutilated, overwrought in mind and body, doman'ning from all in whose poyrer it may be to ald them, every attention that time, thought, and money, can bestew. Much has been done to emilo-rate the condition of the amfarcers. The flate and muni-cipal authorities are vising with each other in efforts to becure and fit up suitable places for their reception, in ap-propriating needful funds for the maintenance of those places, and the provision of overy convenience and comfort that can possibly be warted. The highest medical talent is freely volunteerod; private benevolence commos to the help of private indeavor; and, to a great extent, the duty that is weed to our conntry's bravely-unfortunate de-fenders is generously fulfilled. Much, though, even yd remains for the charitable and kind-hearted to do. Tho field is wide, the harvest addly plotcous; and for the work that bas to be porformed, the laborers are still too few. Thousands of proofe places theoselves in solfsh huxury, without a thought of what is imperatively re-quired of them in a crisis like the present. Their indiffe-remos, let it be hoped, is more the vario

NAVAL AFFAIRS .- The navy yard and A WELL KNOWN CHARACTER TURNED is sichily present a very busy appearance at the present time. The Juniats, Powhatan, Jamestown, Water Witch, Messachusetts, Mohlcan, and J. S. Ohambers are now in port, besides the Mononganiela, which was launched on Thursday. The keel of the Shenandeah has been laid, and the free works will an extended has been laid. The keel of the Shenandoah has been laid, and the frame-work will go up immediately. The Bra-zlika corvette Parasese is now on the dry dock receiving repairs. Gun carriage builders, blacksmiths, joiners, boat builders, and other mechanics are busy as bees in-side the yard. Monstrous cannon arrive daily, dray-loads of shell and shot are constantly going inside the walls, and things generally present a warlike aspect. The iron monster New Ironsides, which lies at Reed-street wharf, excites general interest, and crowds daily wa ch her from a respectful distance. No persons, ex-crpt these who have business on board, are suffered to go on the slip. Her plating will be fulshed in a few days, and her engines are already in working condition. They were started for the first time on Thuraday, and thermelves to hand her over to the Government on the lish inst, and they expect to accomplish it. On Saturday morning there were lying at the wharves, by official account, two steamslips : Suwance and New York; ning ships, viz: Western Ocean. Frank Boulf, Tata, Ocean, Chellenbam, Saransk, Emily Augusta, Acmiral, and Gray Engle ; besides nine barks, ten brigs, and thirty schoeners. As usual at this season of the year, there are not many arrivals in port from foreign ports. It is difficult at this time to procure storedores for loading or discharging vessels. The domand for labor in the harvest field has attracted a great number of men to the country. The ship Wm. Cummings cleared on Friday for Liver-pool, taking out the following cargo: 16,780 bunshols whest; in bulk i, 1/44 bushols corn, in 311 bags; 5,100 barrels four; 100 casks tallow; 12 casks shoulders, and by hos bark.

THE BERRY HOMICIDE.—The trial of this case was resumed on Saturday before Judges Allison and Thompson. From the evidence elicited on Satur-day, it seems that Mr. Berry, without any expression on his part, was beset and beaten about the head and kicked until he was rendered ineensible. He was carried bome, where hedded free days afterwards. The testimony by the Commonwealth in this case was directed towards fixing the identity of the persons who attacked as the de-fendants. The two a e identified by a number of wit-nesses as actively engaged in the attack, but, for the most part, the witnesses identify George. A number of them, however, identify discores as participant.
