MNW. NW.by N. NNW. 188W. SSW. Sby W. Rehellion at Fort Delaware. more reached the city yesterday afternoon that rising had taken place amongst the 3,500 rebel prisoners confined at Fort Delaware. We learn, from persons connected with the boats running to Cape May and Delaware City, that it was reported there that the mutiny had been quelled only after 35 of the prisoners had been shot. No alarm need be felt, as the rebels are all lodged in barracks outside of the most surrounding the fort, and could be blown to Beauregard's horse-trough in a few minutes by the large barbette guns which bear on their quarters. The garrison at the fort at present numbers about 250 men, who would, no doubt, do their best, as they could expect no mercy if overpowered by

THE CASE OF EDWIN FORREST VS. COMLY.—This case, which has attracted considerable attention while on trial in the District Court, has finally been decided in favor of Mr. Forrest. The opinion deivered by the court is as follows:

We dismiss the exception, and confirm the report of he auditor absolutely. We entirely concur in his reaconing and conclusions, and it is unnecessary to add Soning and conclusions, and it is unnecessary to add anything.

The mortgage, as against Mr. Forrest, was only a security for notes held by the bank when his judgment was entered. It did not in terms included in the security for notes held were, in bank language, renewals, we cannot see how they could be included in the security, aupposing that, under the decision, it became fixed at the date of Mr. Forrest's judgment. But the very term ronewal, in banking legal language, is not another security for an o'd debt, but a novation or removation from time to time—a direct payment and discharge of the old debt, and an entirely new contract and advance. It may probably be different in some cases as to the parties, maker, and paye; but so far as the bank is concerned in fact and in law, the old notes are surrendered and cancelled, new not staken, and a new discount in advance charged and deducted from the face of the bill; thus gnabling the bank, on a note at sixty days, to recover four-tenths of one rer cent. over their legal interest, besides con pouncing it as they go along. The bank never has any claim except upon the notes. They do not loan the money and take the notes as collateral. They but the notes from those who offer them for discount. It was not from any doubt on this point that the issue was directed, but because we felt some difficulty as to whether this was a question of fact, the exceptant having demanded an issue upon tt—namely, whether the subsement notes were merely different securities for one and whether this was a question of fact, the exceptant having demanded an issue upon it—namely, whether the subsequent notes were merely different securities for one and the same debt, not what was the intention of the parties, which might be very well on a question at between themselves. But the rights of a third party having intervened, what was the fact? The verdict of the jury on the issue was what was to be anticipated. The notes now held could not even be shown to be the lawful issue of those originally discounted. Every one of them was illegitimated by breaks in the descent; besides which, the fact as to the manner in which all banks invariably conduct this business came out fully and without contradiction on the trial, so that even had it been shown, which it was not, that the proceeds of the discount of every note had been recifically applied to pay its predecessor, no jury could say, with any show of truth, that they were mere new securities for an old debt.

Exceptions dismissed and report confirmed.

REPUBLICAN CITY CONVENTION.—Last KEPUBLICAN CITY CONVENTION.—Last evening a meeting of the Republican City Convention was held at the County Court House, Sixth and Chestant streets, for the purpose of selecting delegates to represent the party at Harrishurg in the State Co-ventions. Immediately upon crganizing, a motion was made to adjourn, as delegates had been elected by the people at the mass meeting at Concort Hall, last week. This motion was lost. A number of members took the floor, and all attempted to speak at once. For a time great disorder prevailed. Finelly, a motion to adjourn was carried.

Another organization was then effected by the Republican wing of the Convention, the People's Party withdrawing. Dr. Gregg was called to the chair.

On motion, a committee was appointed to select deleittre was appointed to select delegates for the action of the meeting. The names of the following gentlemen were submitted, and approved by following gentlemen were submitted, and approved by

Some of the above gentlemen were also selected at the
mass meeting held at Concert Hall. It seems we now
have two sets of delegates, one selected by the People's
Party, and the other by the Republican wing. An effort
will be made to unite the two wings, which will most
likely be accomplished.

The canine was first seen in Olive street, and was pursued, but leaped a six-foot fence, and found himself in the yard attached to a house in Coates street. Fear still possessed him, however, and he made a bold dash through the house, scaring the inmates as though a small army of the robels were advancing to take possession. Finding that he could not escape that way, the canine turned to go back the way he came, and the door being locked, he made a break for the window, breaking it into tan theusand fragments. It was his last jump. His executioner was standing outside, in the shape of the master of the house, and as the dog went through the window an axe descended on his head and the canine was dead. By this time the owner of the dog appeared, in the person of an elderly female, who, in affecting language, bewalled the loss of her dear Prince. She took the body with her, and the mortal remains of Prince now repose under the peach

THE SMALL-CHANGE PANIC.—The Board of Presidents of the City Passenger Railway Companies have adopted a resolution, that any company might issue a ticket which shall be sold at five cents each, or twenty for a dollar, and which shall be good on all the roads. The companies which shall adopt this plan will not only greatly facilitate their own business, but they will do much toward accommodating the public and relieving those who ride frequently from a very great an norance in making the necessary change. The city railroad companies would find it utterly ruinous to them to make change on the cars, and they won't do it. Yet many inscible people grunble, very justly apparently, that if the railroad companies get change from every passenger, and as a dollar is got from twenty passengers, they thus get a very good percentage above their regular fare; "and Heavon knows," say the irastible individuals, "that these souliess corporations grind the poor public down for their own aggrandizement safficiently without this additional known." The principal part of the fares, however, is paid in pennies. The conductors now sometimes change your bill, and charge you the current premium on specie, and sometimes refuse to change it at all.

As a rule, nobody gives change now Occasionally a THE SMALL-CHANGE PANIC.—The change it at all.

As a rule, nobody gives change now. Occasionally a person gets a little silver, and frequently he gets a quantily of pennies. It is a relief to get even the latter now, although the bliss is not unalloyed when a person is paid a buncle of fifty and has no pocket capable of holding them. It is not uncommon to see people walkholding them. It is not uncommon to see people walking about the streets with their money in their hands. We saw a man the other day with his paim full of big coppers, who was frantically hopping into cars and stages and out of them, ricing short distances when he might have walked, to get rid of them. He bought bananas and oranges from old ladles' stauds, and was on the point of having his boots blacked, when he recalled to mind that they were patent leathers. But nickel cents are a favor. Tre shopkeeper, when he hands them our, grumbles that they cost him money. They were sold at three yer cent discount a little while ago, now they are at three or four per cent, premium.

It is marvellous where the pennies all come from. We securely used to see a big copper cent, and apple-women at three or four per cent, premium.

It is marvellous where the pennies all come from. We scarcely used to see as big copper cent, and apple-women only Incw of their existence. Now our money-boxes are full of them. One half the circulating currency of this city to-day is pennies. The rolls of twenty-five nickel cents go from hand to hand without opening. Nobody knows where the sliver '.'—The other day a man engaged in a public institution received several hundred rolls of inchels, and was foolish enough to open some of them, and found that several of them contained each a piece of lead pipe, nicely eveloped in blue paper. That it dividual opens all the rolls now as he takes them, but the saving bardly pays for the trouble of doing them up again. Assuming universal honesty, people do not wait to count whether there are twenty-five pennies or not. If this is to continue, why not join them with rivets, and let them do away with quarter dollars altogether? We do not suppose there is anybody so infatuated with specie that he would prefer to carry a roll of pennies rather than a shinplaster, if the latter would be as generally received as the pennies. Now people carry their money in the large pockets of their costs, and can make a loud jingle on small capital.

Yesterday morning the Mint was crowded with parties anxious to exchange gold and treasury notes for nickels, and at one time there was a string, waiting for their turn, of some two hundred persons, many of whom were compelled to go away disappointed, on account of the supply having become exchanged.

FINANCIAL AND COMMERCIAL. THE MONEY MARKET.

PRILADELPHIA, July 14, 1862. The various branches of Third-street business opened with great activity and firmness this morning. An improvement was perceptible in the 7.30 treasury notes, pro-bably caused by the nearing of the time for interest to be paid. Gold opened at 114%, and closed firmly at 115%. An increased demand was noticeable in silver to-day, and the price ranged from 107 to 108 buying, 109æ110 seliing. The large margin is necessary, as a fall is expected and the brokers wish to prepare themselves for it. Gold at the Stock Board brought 116, which was the highest figure paid. Transactions in "old demands" were exceedingly live

ly, and 107 was freely paid for them over the counters of the brokers; 108 was demanded and obtained for them, as MSDY anticipated a rise about the first of next month. and not a few venture to predict that the rate will then be 110. Such may be the fact, if gold continues at its resent elevation; but the supply of "demands" is still too great to so nearly approach the figure of gold. Complaints still pour in regarding the scarcity of small change and the distress caused by it For a temporary elief we suggest the following very good mode, and, w think, the best, of avoiding the necessity for notes of the ractional part of a dollar. Let the banks cut their one dollar notes into halves and quarters, and, by placing a stamp upon them, make them equal to regular bank notes. The advantage of this system would be its onvenience, as any one could tell in a moment whether o had a quarter or a half dollar, as the size of the piece would render any examination of the note unnecessary Matters at the Stock Board were rather inactive, the ifferences from Saturday's figures being so slight as to se scarcely worthy of special note. Seven-thirty United Sintes Treasury notes brought 104; the endorsed were were not much in demand, hids falling 1/4 from Saturday's figure. City sixes were more active, and steady a 102, 97 being paid for the old—no change. Lehigh Valley sixes brought 100 %; Wilmington Railroad sixes 102; Reading sixes, 1870, advanced I on last sales: 1886s de clined %; Philadelphia and Eric sixes declined %; Chesapeake and Delaware Canal sixes have declined % siace last sale; North Pennsylvania Railroad first mortgage scrip was steady at 103; Pennsylvania conpon sixes declined %; Camden and Amboy sixes, 1883, steady at 94; Reading Railroad shares were quiet at about 28%, a light decline; Harrisburg at 54%; Ponnsylvania at 47%; Long Island at 17: North Pennsylvania at 9; Beav Meadow at 54.
