THE CITY. The Thermometer. JULY 16, 1861.
6 A. M. 12 M. 3 P. M 6 A. M. 12 M. 3 68 81 85 78 90 SW by S. S by W. S. I SW. SW. SW by S. How RECRUITING SHOULD BE CON-DUCTED.—Although recruiting under the new call of the President progresses finely, yet the business is not as brisk as it should be. This we are assured is in great measure the fault of the recruiting officers. They do not seem to display that energy they should. At the present time, on nearly every square may be seen a recruiting station, and at some of these places, were it not for a few straggling mon around, or the presence of a poster here and there, one might pass and repass and yet remain ignorant of the nature of the business conducted within. At very few of these stations is the sound of the drum and fife to be heard. As for a squad of men with martial music parading the streets in search of recruits. that is a sight seldom met with now a days. This good and old habit seems to have fallen entirely into disuse, and yet all sensible military men admit that this is the only proper way for promptly obtaining volunteers. When the first call for 75,000 men was made, flags and streamers were seen flying from every recruiting station, and the sounds of the drum and fife were heard in every street and corner. People flocked in thousands to enroll their names, and it is a well-known fact, had all been accepted that applied, nearly the whole of the number called for could have been furnished in a few days from this city alone. Our c tizens are still filled with the same patriotism and love for their country as then; but, judging from the appearances of things around them, it seems as if their services are not needed. They must be aroused from the lethargy into which they have been allowed to fall-If officers want recruits, let them evert themselves properly, and they will have no cause to complain. Let the sound of the drum and fife again be heard in the streets and at all the military headquarters, and the effect produced will be noticeable in a day. Some have intimated that, in order to secure the number of volunteers called for, drafting will have to be resorted to. This, we feel confident, will not be the case, as, if proper means are employed, it will be fuond unnecessary—at least, in the city of Philadelphia. Besides this, there is a great difference between the volunteer and the drafted soldier. A volunteer receives the full bounty, being \$27 advance bounty, one month's advance ray, \$13, and \$75 at the end of his term of service, and i he chooses he can have the 160 acres of bounty land. His family, also, receives pecuniary assistance during his absence. Those that have not the moral courage to volunteer, but who want and are drafted, receive no bounty money, no advance, and only get \$13 per month, and the stigma of being compelled to Herve in the army of the country that protected them. No one, however, should deceive himself with the idea that drafted soldiers will serve only three months: for er the militia are drafted, Congress can very easily hold them to serve during the war. We publish to day an important bulletin from the War Department, regulating the recruiting for the new levy, which will, no doubt, prove very advantageous, if the recruiting officers conform to the above suggestions. New York city has pledged herself good for 10,000 men,

that City Councils will give each recruit a premium of \$25, as well as to make some arrangements to take care THE SHERIFF'S CONTESTED-ELECTION OASE.—This case was resumed yesterday morning before Judges Thompson and Ludlow. The following evidence was elicited:
John Duffy sworn.—I live in Manayunk, Fourth pre-cinct, Twenty first ward; know William Spear; known him about six year; he lives beside me; remember him yoting at the last election; was present when he vated; challenged his yote; Jos. Molleneaux brought him np; headstanged him because he told me balf an hour before challenged his vote; Jos. Molleneaux brought him up; I challenged him because he told me half an hour before that he had no vote, because he had paid no tax and was not assersed; when he voted I told him he had no vote; Molleneaux pushed him up and told him to put in his wote; then I told Molleneaux that he was no voter, as he had paid no tax, and then somebody made answer that somebody olse had naid his taxes; told them not to pass his vote, because he was not assessed; Saunders, who was inside, told me to go and look at the list, and I would see, and then I said, "Don't you take the vote," and he said, "You are too late;" he had distributed the ticket; don't know who gare him the ticket.

George W. Galloway sworn.—I live in the Twenty-first ward, Sixth precinct; know Wm. Spear; was at the polls on election day; saw Spear there; saw him offer to vote; he offered to vote on age, and Saunders asked him if he head paid a tax, and he said no, and asked him if he had paid a tax, and he said no, and Saunders told him he could not vote; he went away; came back and went away the second time, and when he came back he voted; was not presentjust at the time he yoted.

George Hefiner sworn — I live in Manayunk; Levering and Wood streets; don't know the precinct; lived there since New Year; lived before that at Roxborough, Graham's avenue; did not keep house there; lived with Fred. Weaver; went to live with him in February, 1861; slept there every night; never lived in Levering street; I voted in the Eighth precinct; I am assessed in the Bighth precinct; lam assessed in the Bighth precinct; some old man said I had no right to vote; produced my tax bill and other names.

and Philadelphia must not be benton. The probability

is, that the term of service will be only one year, and

to vote; produced my tax bill and other papers; my name was on the list at the window.

Charles Andersou sworn.—I live at the Falls of Schuyl-kill; voted at last election; I was not born in this country; lave got my rapers; (papers produced dated April 10, 1360); I came to this country in 1850 or 1851; (tax receipt produced, April, 1860).

Bernard McGrand sworn.—I live in Baker street, between Sixth and Seventh; at the last election lived in Federal street, below Broad and voted at Broad and South; have not paid a tax within three years or more; voted for Thompson. George Getz sworn .- At the last election lived in the

James C. Smith sworn.—I live in Bedford street, below Seventh; I voted by the last election in Shippon street below Seventh; I don't know the names of the election officers that were serving; I voted for John Thompson; it it was about two o'clock when I voted; I was born in Ireland; I have not been naturalized; I was working in ersey that day; I came over, and as I was at the polls friend gave me the ticket and I voted. The witness was subjected to a long cross-examina-tion, but nothing of importance was elicited, and the court adjourned until this morning.

INTERESTING CASE—STREET PAVERS INTERESTING OASE—STREET FAYERS
INTROUBLE—yesterday morning, before Judge Altison, application was made by Messrs O.P. & S.A. Cornman
for an attachment against Patrick McIntee, whom they
charge with contempt of court in paving Corinthian avenue, in deflance of an injunction which had been granted
by the court, restraining work upon the street by the
city of Philadelphia or its agent
L. O. Oassidy denied that any injunction had ever been
granted in receard to the naving of said sayana. L. O. Ossand denice that any injunction had ever been granted in regard to the paving of said avenue.

Judge Allison replied that he remembered very well that the injunction was granted.

George Wise was called, who testified that on July 10th he served a notice directed to Patrick Lafferty & Co, to stop paving Corinthian avenue. This was signed by J. Landy, Ohief of the Highway Department.

Mr. Leary testified that he was engaged in ramming Landy, Chief of the Highway Department.

Mr. Leary testified that he was engaged in ramming
the paving; the work was finished by three c'clock in the

ISSUING OF SHINPLASTERS.—The Finance Committee of Councils have had under consideration the recent proposition for the issue of corporation notes of the fractional parts of a dollar. The committee entirely disapprove of this movement. The law on this subject says:

"No incorporated body, public officer, association or partnership, or private individual, other than such as have been expressly incorporated or established for the purpose of banking, shall make, issue, re-issue or circulate any premissory note, ticket or engagement or credit in the nature of a bank note, of any denomination or smouth thatsoever, other than such as have been issued by banks lawfully and expressly established; and from and after the 1st day of May noxt (act of 22d March, 1817) no such incorporated body, public officer, association, or partnership, shall receive any such note, ticket or engagement of credit other than those above excepted, or those made and issued by it or himself, or under it or his immediate authority, and that for the mere purpose of cancelling or destroying the same, under the penalty, in the case of a corporation, association, or partnership, lifty dollars for each and every note so made, issued, re-issued, pald, or received, to be recovered by any person or persons using for the same, before any alderman or justice of the peace of this Commonwalth, as debts under one hundred dollars are by law recoverable."

Another law, passed in 1849, prohibits the issue of shinplasters by municipal corporations, in the following section:

"That if any officer or officer's agent or agents of any with Mr. Painter.

Judge Allison repited that it was not necessary.

Mr. Cassidy said that he had looked in vain over the records for the order of court, in regard to the restraint said to have been imposed. The court careety suppose for a moment that any icjunction had been granted to prevent the paving of the intersection of the streets. The work, it seems, had be a given to a sub-contractor, who was stopped by Mr. McLutee, as soon as the notice was served upon him. It is true that at that time the paving of the intersection was nearly flushed, and Mr. McIntee only had it finished because to leave it in the condition that it then was would be rather dangerous to the public travel.

After some argument in regard to this subject, the Judge said that the paving of the intersections is exclusively within the control of the Highway Department. The injunction refers to that part of the avenue in front of a private propersy. Mr. Cassidy finally made the case clear by stating that the owners of property on Corinthian avenue had already made a contract with parties to do the paving, and that other parties claimed the right to do the work under a contract made with Joseph Shantz, Chief of the Highway Department. Mr. Cassidy claimed that as a certain portion of Cerinthian avenue, from Coates to Brown street, had never been defloated to the citry, therefore the injunction granted by the court did not order any restraint on this part of the sireet.

Judge Allieon deci'ed that it would seem that Corinthian avenue, from Coates to Brown street, was practically exempted from the higherton, and that the contract made by Shantz with Painter for the paving, of the rest of the avenue to Girad street was good.

Mr. Cassidy claimed the right to pave the intersection at Coates and Brown attreets.

Judge Allieon directed Mr. Cassidy to call his ovidence.

Dr. Halfridge was called, who testified as follows: On

dence.

Identify the second of the second of

RAILROAD MATTERS.—The Railroad Committee of City Councils have determined to recommend a dissent from the proposition of the North Pennsylvania Bailroad Company, to lay their rails upon Columbia avenue, to form a connection with the Philadelphia, Germantown, and Norristown Bailroad. The report will probably be presented to-day.

The railway track on Front street, from Vine to Callowilli, which has been put down without authority of law, has recently claimed the attention of the Railroad Committee of Councils. The probabilities are, that the track will have to be removed.

In 1853 the old city proper of Philadelphia sold to the Pennsylvania Bailroad Company a tract of land on the west side of the Market-street bridge, on a ground rent of 55,700 per annum. The company have, and are still, improving this property, with a view of creeting a pasenger depot thereon, and they have now proposed to the commissioners of the sinking fund to transfer to the city \$95,000 in certificates of city debt, for the purpose of purchasing this land. The Finance Committee of Councils have resolved to report an ordinance accepting the offer, and asplying the amount thus received to the reduction of the city debt.

The Ven Nust Gap Tunnel, on the Warron Bailroad, near Oxford Furnace, commenced May 17, 1854, is now finished, except the closing of the east shaft by an arch, which will be done by the 17th instant. The tunnel is 3,002 feet in length. It was worked at oach end and from three rhafts, the deepest of which was the middle one, being 167 feet; the west shaft was 110, and the east about 50. The west end required arching for 1311 feet the less keystone of which was placed in position on the 28th ultimo. The western approach is through the cut 1,600 fee long; at the deepest place is 57 feet. The tunnal and its approaches cost nearly \$500,000. It will sare about 150. The west end required arching for 1311 feet the less keystone of travel, and an elevation of 105 feet. The track through the tunnel is being laid as rapidly as possible Intee in the matter.

Mr. O. P. Cornman contended that Mr. Welsh was a sub-contractor, and that, although Mr. McIntee had said, on Friday last, that the work must stop, yet he per-FOUL PLAY.—A rather mysterious affair has recently taken place near Conshohooken, and has excited a great deal of indignation. A man named Robert Brown is supposed to have been brutally murdered. He resided in Conshohocken, and his business was supplying the

supposed to have been fortisty mindered. The resides in Conshohocken, and his business was supplying the people of that place with regetables, &c., from the city. On Tuesday morning he loaded his wagon at Twentieth and Market streets, in this city, and at half past seven o'clock started for Conshohocken, taking the road upon the other side of the Schuylkill.

About one o'clock in the sfternoon he was found, about a mile this side of U subohocken in a dying condition, and expired in a few minutes after being discovered. He had a cut, about an inch in length, behind the right ear and another upon the leg. The latter wound had severed the artery, from which he doubtless bled to death. The horse and wagon belonging to the deceased were found upon the road a short distance off. The horse was about half detached from the wagon.

Mr. Brown was found down the embankment, and the ground in the vicinty is represented as having borne evidence of a strugle. The shirt of the deceased was and the pround in the vicinity is represented as having borne, evidence of a struggle. The shirt of the deceased was much torn, and there was also blood in the wagon. The coroner of Montg: mery county held an inquest in the case, and the jury rendered a verdict of accidental death, but the relatives of the deceased are not satisfied with the investigation. From the nature of the wounds, they believe that Mr. Brown has been brutal y mardered, and, yesterday morning, determined upon having a post-

and, yesterday morning, determined upon having a post-mortem examination finale. The deceased was 25 years of age, and leaves a wife and two children, the youngest being about five or six months old. THE RELIEF LOAN.—The bill for the creation of a loan of \$300.000 in aid of the families of volunteers will lie over until after the recess of Councils, the amount now at the disposal of the commission being doomed sufficient to lest until October.

OUR SICK AND WOUNDED AT ANNAPOLIS.—We give some extracts from a letter of Rev. W. E. Boardman, who generously volunteered to visit the hospitals about Annapolis and Bättimore, to minister to our sick and wounded soldiers under the directions of the Christian Commission. This, we believe, is the only organization which combines ministrations to the eoul with the relief of the bodily wants of our suffering soldiers; and whose ageints, volunteers, are laboring gratuitously, push up to the advance, and visit the men in the trenches and field hospitals. Two of our city clergy, and several other gentlemen, are new in General McClellan's camps. Three left yesterday, in the John Brooks, to reinforce them. Rev.—Robinson, of St. Geerge's Church, with four other rentlemen, and a large supply of stores, is ready to leave the first opportunity. Donations of hospital stores and money should be promptly forwarded to Mr. George H. Sturt, No. 13 Bank street, Philadelphia. What is to be done for the sick and wounded must be done quickly:

BALTIMORE, July 9, 1862

George H. Stuart, Req.—Dear Str. My visits under your commission, both in Annapolis and Baltimore, have been short, but exceedingly interesting.

At Annapolis, there are about fifteen hundred sick and wounded soldiers with room for more, and more expected. The naval-school buildings, including the fine dwellings erected for the professors, are all used for hospital purposes. They are large, airy, and commodious, and the situation breezy, comfortable and healily. A better place could not be asked for the suffering heroes—and heroes they are in fish bopsjial, as they were on the battle-field. They bear their pain as they met the rebels—bravely. They are consoled for the loss of limbs and borne up through suffering by the consciousness that their losses and pains are bonorable and noble sacrifices in their country's cause. They have in the Rev. Mr. Henries has secured for it, to grace its the ves and feed the hungry soldiers, a fine cell collon of bocks, and also a hundred OUR SICK AND WOUNDED AT AN-

ight place.

Many would give and labor if they were in Richmond

THE FIRST REGIMENT UNDER THE NEW JALL—ARBIVAL OF THE NINTH VER. MONT—The first regiment organized under the new call of the President for 300,000 men, left Brattleboro', Verment, on Tuesday morning, and reached New York at an early hour yesterday morning. At 6 o'clock last evening they embarked for this city. The 9th is 1,000 strong, fully farmed and equipped. The material of the regiment could not be better—fine, stalwart men, inured to hardship and toil, fresh from the mountains. No doubt can be for a moment entertained that this regiment, which promises so much, will but add to the laurels already won by the Vermont troops. The regiment were recruited in the northern part of the State chiefly. They were but 24 days filling up the ranks, and were but 10 days in camp before receiving marching orders. They were encamped at Brattleboro, where they received all the attentions possible from their fellow-cilizons. Before leaving, Governor Holbrook; of Vermont, presented the regiment with a very landsome State banner and ensign. The regiment met with quite an ovation along the route, the

giment met with quite an ovation along the route, the people gathering at several places, and cheering lustily. At Springfield they had quite a reception. The found a teautiful repast prepared for them, and the citizens turned out en masse to meet them.

Although this is the first regiment to march under the new call, yet it is fully prepared for the field; baggage wagons, ambulances, more than one hundred tents, and all necessary camp (quipage, have been furnished it, and it will go into the service in every respect ready for the camp and the battle-field. The arms to be used are Belgion rifles.

The men—like those who have heretofore marched from the Green Mountain State—as a class, are exceedingly tall. Lurge numbers average six feet in height. Their physique is even superior to that of the men of most of the regiments that have preceded them. A great majority are sons of formers. It is especially worthy of remark, however, that a considerable number of deserters from British regiments that considerable number of deserters

from British regiments stationed in Canada, have come over the lines and joined this first regiment of the new levy of Green Mountain boys. They were gamine sympathizers with our cause, and propose to show their faith by their works

The officers are an unusually fine class of men. Cot. Sannard was, until recently, lieutenant colonel of the dd Regiment of volunteers from that State, and was with tat the battle of Bull Run, and also at the siege of York

com.

C. Holman. Company H—Captain, A. H. Slatin; first lientenant, G. H. Dwyer; second lieutenant, C. J. Loveland.

Company I—Captain, A. J. Mower; first lieutenant, J. O. Livingston; second lieutenant, C. O. Campbell.

Company K—Captain, David W. Lewis; first lientenant, Joseph C. Brooks; second lieutenant, Henry H. Rice.

Issuing of Shinplasters.—The Fi

rimpisseers by municipal corporations, in the ionowing section:

"That if any officer or officer's agent or agents of any municipal corporation within this Commonwealth, shall be instrumental in, or consent to, or connive at, the making, issuing of any note, bill, check, ticket, certificate, or order, in the nature or similitude of a bank note, or intended to be used as a currency, he shall be deemed to be puilty of a misdemeanor, and upon conviction thereof in any court having jurisdiction of the offence, shall be fined in any sum not exceeding one thousand dollars for each offence, for the use of the county, and be liable to imprisonment in the county jail for a term not exceeding six months, at the discretion of the

and us hade to imprisonment in the county jain for a form not exceeding six months, at the discretion of the court.'

The law of necessity may override both these enactments, but it will be well enough for the people to know exactly what the law is under any circumstances.

Completed.—The enlargements and

COMPLETED.—Ine enlargements and additions to the Union Refreshment Saloons have been completed, and the appearance it now presents is very rest and tidy. The addition just finished is intended for the use of the sick and wounded soldiers who pass through the city; and in view of a large number of these unfortunates arriving, a hundred litters have been obtained for their us. It is thought that the amount obtained by the fair lately held will reach the sum of five thousand dellars, clear of all expenses.

ARTICLES THAT ARE NEEDED FOR OUR

ARTICLES THAT ARE NEEDED FOR OUR SOLDIERS.—Miss D. L. Dix, writing from Washington, rays: "To friends who want to give, an indefinite quality of oil cloth or oiled slik would be invaluable at this time; also, if they will make little pillows or curtifors of all sizes, from four to sixteen inches, covered with some substance not penetrable by water. They are greatly reeded. "Also, cotton, or calleo, or gingham bluers or half gowns for the wounded and invalids; we have not one:" Adams & Co. will express free it celivered at their office in Philadelphia.

THE FIRST REGIMENT UNDER THE

ceived with such attentions from the city authorities as befit his station.

London, June 28, 1862.

Mr Dear Sir: Last evening, the magnificent banquet to President Benson came off at Willis' rooms, presided over by Lord Brougham, and assisted by Samuel Gurney, Dr. Hodgkin, and a number of other kind friends of Liberia Nothing could exceed the success and the entire triumph of this festive occasion, and its utility to Africa will be great, as it will show to Americans that the first people of England are favored in doing honor and paying respect to the first real negro President of Liberia.—for Mr Roberts, his predecessor, has much more of white man's blood in his veius than of black man's. The friendly feeting manifested to President Benson and his black nation are certainly of the most gratifying kind, and all of us any way connected with Liberia ought to be gratoful. How rejoiced I would be if my countrymen, laying aside the prejudices.—in which they have been born, and therefore, I fear, inviscible—sagainst color, could treat Mr Roberts and —in which they have been born, and therefore, I tear-invincible—sgainst color, could treat Mr. Roberts and Mr. Benson with a tenth part of the consideration and respect to which they are entitled, and which they receive everywhere they move in England. Mr. Roberts goes to America in the Great Eastern on the 21 July, and Freeident Benson will probably follow in a few days say five or six days—later.

Most fsithfully jours, GERARD BALSTON.

FAIRMOUNT PARK.—Arrangements are now being made by the Commissioner of City Property for the immediate improvement of the buildings included within the limits of Fairmount Park. The mansion house is te have a two-story balcony erected round it, while its rooms are to be fitted up for the accommodation of ladies. The cost of these improvements is estimated at \$6,000. The old cottage upon the northern rart of the Park is to be entirely refitted at a cost of \$1.500. An iron arbor is to be placed over the mineral spring, at a cost of \$000, while some \$200 or \$300 additional will be expended in fitting up the other springs and the walks and stairways upon the terraces and about the premises. These improvements will greatly increase the attractions of Fairmount Park.

Another improvement is contemplated, which, if properly carried out, would make the park dear to every citizen of Philadelphia. We hear that Mr. Wolbert, of Common Council, will introduce a resolution this afternoon, directing the Committee on City Property to report upon the propricty of appropriating a portion of Fairmount Park, or some of the other city property, as a cemetery for the burial of such soldiers as may die in the hospitals in this city, and not be claimed by their relatives and friends. FAIRMOUNT PARK .- Arrangements are the suffering there. These are the wants in this chap-leincy department.

The cuisine, under the ladies—as true and noble a band as ever toiled in any hospital—are as urgent, to say the least of it. I found there Mrs. Governor Brudford and Mrs. Judge Brower, with their families, taking their turns regularly in the market and in the kitchen, pur-chasing and cooking delicacies and substantials for the sick and wounded. They give money, time, and toil freely for the relief of the suffering heroes from all parts of our loyal States. The burden falls on them more heavily, because they and their equally noble associates are the few amongst the wealthy whose hearts are in the right place.

BANQUET TO PRESIDENT BENSON .-

NEW SCHOOL House.—The erection NEW SCHOOL HOUSE.—The erection of a new school-house, near Broad and Thompson streets, in Twentieth ward, has been suspended. It is alleged that the city has been greatly imposed upon in the purchase of the lot. The cellar has been dug, but it appears that the ground is of such a character that a large expenditure will be required for pilings, in order to secure a proper foundation. The architect estimates the smount necessary at \$3,000. There is no appropriation for such purpose; but the old Board of Controllers, as one of their last acts, entered into a contract for piles, and they are now upon the ground, having been delivered about two weeks since. The subject, it is expected, will be fully ventilated in City Councils, and will probably not be disposed of without much difficulty.

right place.

Many would give and labor if they were in Richmond or Monigomery, who give only the cold shoulder in Annapolis. The ladies, therefore, greatly need supplies for the sick and the wounded, and also money to meet their daily expenses. You cannot think how gladly they receive the few articles—ielly, crackers, iam, bay rum, brandy, wine, sone, handkerchiefs, &c., &c.—kindly furnished me as I started away by a faw excellent Philadelphia halies. The gentlemen, such as Governor Bradford and Judge Brewer, not only give freely, but solicit, also, which is harder to do; but Southern ice does not give way easily, even under the warmest appeals of patriotiem. Happily for us in Philadelphia we have little to contend with in comparison, and, therefore, let us the more freely help them.

You may remember that Judge Brewer was one of the noble sons of Maryland who stemmed the early rising tide of rebellion there. It is said that his influence was strong to keep Governor Hicks from faltering. And when troops were ordered on to Washington, through Annapolis, for the defence of the threatend capital, and certain of the chivalry gathered to prevent their landing, Judge Brewer took his stand between the troops about to land and the chivalry gathered to prevent them, and said, among other things, that "the United States armics have the right to march anywhere over United States scil for the nation's defence, and these troops shall pass onward for the defence of the national capital, and the first man that molests them"—there he stood, pistol in hanc—"I will shoot down." So the troops landed and passed onward to Washington—no man daving to molest them. CONTEMPLATED HOSPITALS AT CAM-DEN.—At a recent meeting of the citizens of Camden it was resolved to solicit the Government to establish a ospital in Camden for sick and wounded soldiers. A hospital in Camden for sick and wounded soldiers. An executive committee for each ward was appointed to carry out the views of the meeting, and are now in correspondence with the Government on the subject, and its looped that the project may prove successful. There are few places better adapted for hospital purposes than Camden. We learn that the congregation of the First Baptist Church has offered the audience room of their building, which is unfirished, for a hospital. The building is pleasantly located, and in every way calculated for a hospital.

CORNER-STONE LAYING .- On Friday CORNER STONE LIAYING.—Ch FIGURY
afternoon next the corner stone of St. Timothy's Protestant Eriscopal Church will be laid at Roxborough, in
the Twenty first ward. Bishop Alonzo Potter is to perform the ceremony. The church will be erected on a
large and eligible lot on Ridge avenue or turnplice, uear
the sixth mile stone; a chort distance from Shurr's lane.
The building will be a solid stone structure, of Gothic architecture, the doors and windows being faced with
pressed brick.

RESIGNED.—Casper M. Berry, major, and Rev. Charles N. Bock, chaplain, of the 26th Regi-ment P. V., have resigned and returned to the city. In the absence of Colonel Small, who is at home suffering from a wound, the regiment is temporarily commanded by Lieutenant Colonel Wells, of the 1st Massachusetts

CITY-ITEMS.

CONCERT IN AID OF THE SICK AND WOUNDED SOLDIERS .- We invite attention to a Conart to be given at Commissioner's Hall Wast Philadel phia, on next Monday evening, July 21st, in aid of the tick and wounded soldiers, the proceeds of which are to be placed in the hands of "The Ladies" Aid Society of West Philadelphia," for purchashing such articles as they may deem necessary to alleviate the sufferings of the patients in the General Hospitals in the Twenty-fourth ward. From the programme published, we may promise a rich treat to all who attend it, as some of the first amateurs and professional vocal and instrumental performers in this city are to assist. The cause itself, more

Superior Teas and Coffres can always be had at the store of Mr. C. H. Matteon, dealer in fine family groceries, Arch and Tenth streets. His celebrated Colong and other superior qualities of Teas, and his tine, pure Old Government Java Coffees are used by the best families in this city in preference to any others. Mns. Philips, in New Orleans, laughed and rocked at the funeral of Lieutenant De Kay. On Gen. Butler asking her the reason, she replied that she felt in good spirits on that day."-N. O. paper.

2d Regiment of volunteers from that State, and was with it at the battle of Bull Run, and also at the siege of Yorktown. He is universally respected and trusted. Lieut. Col. Androse was a captain in the let Vermont Regiment, which merched in response to the President's call for seventy-five thousand troops. He returned home with the regiment at the end of its term of service, and now re-enters the field.

Major Stowell was a captain of the 2d Vermont Regiment. Adjutent Stearns has seen service in the 1st and 4th Vermont regiments. Of the line officers, a considerabile number (at least one of each company) are experienced. Idiers.

The following is a correct list of the officers of this regiment.

Colorel, Geo. J. Stannard; Hent. colonel, Budley K. Androse; major, Edwin R. Stowell; adjutant, John C. Stearns; quartermaster, Francis O. Sowyer; surgeon, Walter B. Carpenter; assistant surgeon, — Hall; obsplain, Rev. L. C. Dickinson.

Company A.—Captain, V. G. Barney; 1st Hentenant, L. E. Sherman; 2d Hentenant, E. W. Jewett.

Company B.—Captain, Edward H. Ripley, absent; first lieutenant, Samuel H. Relly, commanding; second lieuterant, Alfred O. Ballard.

Company C.—Captain, A. R. Sabin; first lieutenant, Fermen Selegoon; second lieutenant, E. B. Sherman.

Company D.—Captain, A. R. Sabin; first lieutenant, Asa F. Clark; second lieutenant, Justis Dart.

Company B.—Captain, Annasa Bartlett, first lieutenant, R. M. Quimby; second lieutenant, C. A. Hibbard.

Company F.—Captain, George A. Beebe; first lieutenant, Eugene Viele; second lieutenant, John T. Bascom. At funerals Mrs. Philips got in good spirits, By sending the lady (?) where she may keep shady, And not mock at a funeral processions. And her mirthfulness can have its full sway But when she gets out she'll have just cause to shout Now, we have good to see that day."

SPECIAL NOTICES.

SELF-ADJUSTING PATENT CLOTHES-WRINGER.—Sole Agency for the State of Pennsylvania. 922 CHESTNUT Street, Philadelphia. SINGER & Co.'s LETTER "A" FA-MILY SEWING MACHINE, WITH ALL THE RE-OENT IMPROVEMENTS, is the BEST, and CHEAPEST, and MOST BEAUTIFUL. of all Sewing Machines. This Machine will sew anything, from the running of a tuck in Tarletan to the making of an Overcoat-snything from Pilot or Beaver Cloth down to the softest Gauze of Gossamer Tissue, and is ever ready to do its work to per fection. It can fell, hem, bind, gather, tuck, quilt, and has capacity for a great variety of ornamental work. This is not the only Machine that can fell, hem. bind. and so forth, but it will do so better than any other Machine. The Letter "A! Family Sewing Machine may be had in a great variety of cabinet cases. The Folding Case which is now becoming so popular, is, as its name implies, one that can be folded into a box or case which, when opened, makes a beautiful, substantial, and spacious table for the work to rest upon. The cases are of every imaginable design—plain as the wood grew in its native forest, or as elaborately finished as art can make them. The Branch Offices are well supplied with silk

BANQUET TO PRESIDENT BENSON.—
The American Colonization Society continue to receive intelligence that this distinguished man is welcomed everywhere in London—at dinners, evening as well as morning parties, and is received with a kindness and courtesy most pleasing and grateful to him and to his numerous friends and those of Liboria. Subjoined is an interesting letter from Gerard Ralston, Esr., giving the particulars of a public banquet tendered him at Willis' rooms, King street, at which Lord Brougham presided. Two hundred and forty of the best people of England were present as guests.

President Benson is delly expected to arrive in this country, and will doubtless be welcomed with as much real pleasure and satisfaction as he has been abroad. In New York, we learn, it is expected that he will be received with such attentions from the city authorities as befit his station.

WASHINGTON, July 16, 1861.

MEDICINAL PEAD THE FOLLOWING:

The opinious of medical men, after having been instructed by Prof. BOLLES, 1220 WALNUT Street, Philadelphia, in the application of Electricity as a therapeutic agent.

Extracts of Letters from medical men, after having fully tested the discovery of Prof. BOLLES:

W.R. WELLS, M. D., Buffalo, N. Y., after a year's practice, writes to Prof. B. as follows:

I think my faith fully comprehends the fact that Electricity, correctly applied, according to your discovery, is abundantly competent to cure all curable diseases. My experience and success, after extensive practice, fully warrant this assertion. Were I sick with a fatal disease, I would far sooner trust my life in the hands of a skilful Electrician than all the "pathies" on earth besides.

BUFFALO, N. Y.

W. R. WELLS, M. D.

D. McCarthy, M. D.:

I am fully satisfied that Electricity, when understood according to its polarities and their relations to the fixed laws of the vital economy, as taught by you, is the most powerful, manageable, and efficient agent known to man for the roller of pain and cure of disease. I would further state that I have for the past few weeks used Electricity in my practice, to the exclusion of nearly all other remedies, and have been eminently successful, and consider it a universal therapeutic.

Dayton, Ohio.

D. McCarthy, M. D.

P. W. MANSFIELD, M. D.: For the last nine months I have made Electricity aspe-cialty, and my faith is daily increasing in its therapeutic effects, and I believ, when applied according to your discovery, it will cure all curable diseases, among which Buffalo, N. Y. P. W. MANSFIELD, M. D.

AMOS GRAY, M. D.:

I would recommend my brethren in the medical profession to avail themselves of an opportunity of becoming acquainted with Prof. Bolles' new method of applying Electricity, which I think is not known to medical men, except three who have availed themselves of his instruction, for I am very confident that much injury must be the result of a wrong, unskilful application of so powerful an agent.

Detroit, Michigan.

DETROIT, Michigan.

H. G. KIRBY, M. D.:

What I have now to say is from actual observation, as I have spent most of my time for the last two months with Prof. Bolles, and have witnessed the effects of the Electrical agent on from fifteen to twenty-five patients a day, suffering from almost every form of chronic disease; and, as strange as it may appear, in a majority of cases, a perfect cure was effected in from five to fifteen days. And I will bere remark that most of his patients were afflicted with long standing complaints, considered incurable by all other known remedies.

Cincinnati, Ohio.

Dabid Thereses

DADID THURSTON, M. D.:

I believe your discovery to be a reliable therapeutic agent, and feel it my duty to recommend it. Since I have received instruction from you I have applied it in cases of Aphony, Bronchitis, Chorea, Amenorrhea, Asthma, and Congestion, and find that I have the same success that you had when I was under your instruction. I invertably recommend medical mun to avail themselves of an opportunity of becoming acquainted with your new method of applying Electricity.

DETROIT, Michigan

MARVIN GODDARD, M. D.:

Prof. Bolles: A great revolution in my miad and practice has taken place since I became acquainted with your new discovery of applying Galvanism; Magnetism, and other modifications of Electricity as a curative agent. I have found by many experiments that Electricity is a safe therapeutic agent in all acute and chronic cases when applied according to your discovery. I desire that medial men should become conversant with your discovery. CLEVELAND, Ohio.

ROCHESTER, N. Y., Sept. 10, 1889.
Prof. Bolles—Drar Sir: The more I investigate this system of practice, the more confident I am that it is all-powerful to meet the ten thousand diseases to which fissh is heir.

You, who first discovered Electricity to be a reliable therapeutic agent, should be considered a great benefactor of the race, for it is the only reliable system of cure for the woes and ills of suffering humanity. It is strange that physicians have become so wedded to their several systems, brought up from the darkness of past ages, that they will close their eyes against the light now beaming forth through this system of practice. All other systems I regard as the morning star to the rising sun.

P. SHEDD, M. D.

Prof. BOLLES:

Prof. BOLLES:
The nearer I conform to your system of application, the more successful I am, and as I have examined all the guides and works published upon the subject, and seen nothing in reference to your theory. I do not hesitate to say I believe it to be original with you, and the only reliable system extant for curing disease.

Respectfully yours,
TORONTO.
UHAS. RANDALL, M. D.

The opinion of a medical man, after thirty years' practice, fifteen in Allopathy and fifteen in Homeopathy: Prof. Bolles—Dear Sir: I never have, since you gave Frot. BOLLES—DEAR SIR: I never have, since you gave meinstruction in your new discovery of applying Electricity, and God forgive me if I in the future ever do, practice either Homeenpathy or Allopathy. I have been stricity governed by the philosophy you laid down, and for the best of reasons—namely: That I am generally successful, and I frankly say to you that I am done with medicine forever. My autcees has been great since I have been in Newark, N. J.

OFFICE LIGHT-HOUSE BOARD,
WASHINGTON OITY, June 25, 1862
Separate Sealed Proposals will be received at this office until 12 M., on SATURDAY, the 9th of August, 1862, for building and equipping two first-class light vessels of the following dimensions:
Length from after side of stern post to the fore side of main stern, 98 feet; breadth of beam, moulded, 23 feet 6 inches; depth of hold from top of limber strake to top of beam, 11 feet; tomage about 232.

The Board will also receive proposals until 12 M., on MONDAY, the 28th of July, 1862, for building and equipping three second-class light vessels of the following dimensions: N. B —In addition to the above extracts, Prof. B. could furnish over one thousand, fully showing that he is well known to the medical and scientific world as the discoverer of all that is reliable in the therapeutic administration of Electricity, and that all other operators now in the different cities (except those qualified by him) are using Electricity at hexard, and Prof. B. takes this occesion to caution the community against charlatans. Office 1520 WALNUT Street, Philadelphia N. B —Medical men and others who desire a knowledge of my discovery can enter for a full course of lectures at any time.

follows:

THE NAVY DEPARTMENT will, until the 20th day of JULY, receive Sealed Proposals for the construction of steam machinery for vessels, two pairs of orgines of the same construction and detail as those built for the U.S. S. screw gunboats, with the exception of the length of streke, which will be twenty-one inches instead of eighteen inches, the diamet r of the cylinder remaining thirty inches, as before. The valve will be Waddell's slide. These, and some trilling modifications in the detail, as considered as the cylinder remaining thirty inches, as before. The valve will be Waddell's slide. These, and some trilling modifications in the detail, are all the engines will vary from the specifications of those of the gunboats above referred to.

Each pair of engines will be entirely distinct, and operate its shaft independently of the other. The screws will be of brass, fourteen feet pitch, and of not less than ten fort dismeter; they will be sustained from the counter of the vessel by a brass hanger, and the shaft will revolve in a brass pipe, connecting the hanger with the hull.

The boilers will be of the vertical water-tube type, with the tubes above the furnaces. The grate surface will be about 309 square feet, and the heating surface not less than 7,500 square feet. The specifications for the gunboat boilers are to apply to these, so far as quality and kind of workmanship, thickness of metal, etc., are concerned; all appendages to be the same, regard being had to the increased dimensions of the boilers.

Two blowers of the largest size, with suitable blowing enginer, will be required.

The machinery is to be erected in the vessels at the different navy yards of Kittery, Maine; Oharlestowa, Marsachuectts; New York, and Philadelphie. The proposal will state the name or names of the navy yards at which the parties in full, and of their sureties; the gross sum for which they propose to furnish the machinery; the names of the parties in the later in which the machinery; the names of the parties in the content of the p FOR CAPE MAY.—The steamboat WM. KENT, Capt. Brett, leaves AROH-street wharf every TUESDAY, THURSDAY, and SATURDAY at 9 o'clock A. M., for CAPE

MAY, returning alternate days, touching each way at New Castle. jyll-lm* V . LATING LIBBARY.—All the NEW English and American Books, including ALL CLASES of Literature. This is the ONLY Library in the country that includes all the NEW ENGLISE BOOKS that are not BEPRINTED here.
Terms \$5 per year; 6 months \$3; three months \$1.50, or 3 cents per day. 218 South EIGHTH street. jy7-2m*

chinery in the vessel complete and ready for stoaming, with a pre rata amount of duplicate pieces, tools, instrumente, etc., stipulated in the gunboat specifications; and the time from date of contract in which they will guaranty to complete the work.

The proposals are to be endoried "Proposals for Steam Machinery of Vessels with Two Screws," to distinguish them from other business letters. The contract will embrace the usual conditions, and payments will be made in the usual manner as the work progresses.

Any parties preferring to make propositions based on other kinds of machinery than that above described, but of not less power, they will receive consideration.

The Department reserves the right to reject any or all of the proposals that may be made under this advertisement, if, in its opinion, the public interest requires. EDUCATIONAL. BRANCH.

HOR A BATH! DELICIOUS, beatthful, and refreshing, at FOURTH and iyl6-if the mys-sm TWENTY-SEVENTH and GOATES Son.

The Board will also receive preposals until 12 M., on MONDAT, the 28th of July, 1862, for building and equipping three second class light vessels of the following dimensions:

Length between perpendiculars, S1 fact 6 inches; breadth of beam, moulded, 21 feet 6 inches; depth of hold from top of limber strake to top of beam, 10 feet 6 inches; tonnage about 150.

The white oak to be of the best sea-coast timber, and the yellow pine of the finest grain untapped southern timber. The printed specifications by which the vessels are to be constgueted, and which will, with the drawings and plans, be attached to and form a part of the contracts, can be had on application to the Light-house Board, or to the Light-house Inspector at Portland, Boston. New York, or Philadelphia, at which places, also, the plans and drawings may be seen and examined.

The Board reserves the right to reject any proposal, or to refuse to receive any vessel not built in strict conformity to the terms of the contract; and no contract will be considered binding until it shall have been approved by the Hon. Secretary of the Treasury. No proposal will be received or considered, unless from persons engaged in ship-building, and each offer must be accompanied by the signatures of two responsible persons as surries for the faithful fulfilment of the contract.

Each vessel must be distinctly specified, with the sum for which the bidder proposes to build and equip her according to the drawings and specifications, and a copy of the printed specifications must be enclosed by each bidder as evidence that there is no mistake as to the object of his proposal.

A drawing of the vessel contracted for will be furnished to the contractor, to which he will be required to adhere strictly; to this send the mould lott lines will be taken off and the mould examined by the superintending officer, who will be assigned to the duty by this Board, with the approval of the Secretary of the Treasury, and who will be received to see that the work executed, and the materials u Washington, D. C. No bid will be considered that does not conform to the
