The tonic properties of pure St. Oroix Rum are well known, and it has long been recommended by Physicians. It is distilled from the Sugar Gane Plant, and that we use is selected with great care from the estates of a few planters in the interior of that island. CALISAYA. OB KING'S BARK. The natives of Peru are generally supposed to have long previously been acquainted with its most wonderful qualities. Humboldt makes favora-ble mention of the febrifuge qualities of this article as an antidole to Fever and Ague, Intermittent and Malarious Fevers, in his extension South American travels. The Countess, will of the Vicercy of Peru, having in her own person experienced the Sensicial effect of the bark, is said, on her return to Spain, in the year 1640, to have first introduced this remedy into Europe. After its introduction it was distributed and sold by the Jesuits, who are said to have obtained for it the enormous sum of its weight in silver From this circumstance it was called the JESUIT POWDER, a tille which it retained for many years. In 1658, we are told that an Englishman, by the name of Sir John Talbot, employed it with great suo-cess in France, in the treatment of Fever and Ague, Dyspepsia, Nervous Affections, Loss of Appetite, Weal-ness and Debility, Palpitation of the Heart, Diarrheen, &c., Ac., under the same of English powder. At length, in the year 1679, he sold the socret of its origin and pre-paration to Lonis XIV., by whom it was divulged. It is now a standard remedy, and is employed in the prepara-tion of the Plantation Bilters. (Hee U.S. Micdical Dia-pensatory.)
