RELIGIOUS INTELLIGENCE. Effects of the Rebellion upon Religion. It is not surprising that the simoom of rebellion, which Is now sweeping over the slaveholding States of this Union, leaving a Sahara in its track, and blighting everything it touches with a curse more terrible than was ever pronounced from the summit of Mount Ebal upon the rebellious Israelites, should lay its hand with peculiar malignity upon all that is Christian, either in factor form. Its inception found those who had stood high in the Church ready to doff their ministerial robes, and become the profane and perficious champions of treason, and, under their leadership, deluded thousands (professors of religion) have turned their backs upon the Cross, and are now wallowing in the mire of such crimes as only incarnate fiends could perpetrate. Their pretended public prayers to Heaven, announced for no other purpose, doubtless, than to gain the favor of pious, lucre loving England, have been, like the shouts of Baal's priests belonging to Jezebel's court, unanswered, and the whole tenor of Recession seems rapidly tending to the utter ex tinction, not only of all that is Christ-like but all that is human in its devotees. The black god of slavery, long grounded in the vitals of their section, is now like the deadly Upas, throwing out its branches, darkening the sky, and hiding from their view everything that is worth seeking on earth, or possessing in Heaven. To uproof this monstrous fungus upon the body politic. and scatter its ashes to the winds, would seem to be one of God's great purposes in permitting the present contest. The long-tolerated, nursed, and even idolized fabric which now threatens to overwhelm the republic in rains. must give way before the rising Sun of Righted The establishment of a Government at this stage of the Providence as "a refuge and home for the oppressed," having slavery for its foundation and crowning-stone, would involve a turning back of the wheels of the Almighty's universal law of progress, and a return to Chaos. It cannot be. The uprising of the loyal thousands in the North at this moment, a large proportion of whom enter the field from convictions that they are performing an act of religious duty to God in fighting for their Govern ment, becomes, therefore, such a spectacle of mora grandeur as the world has seldem seen, and its triumphant success is as certain as that the storms of winter precede the genial spring. The following, from one of our army chaplains, at New Ocleans, is a fair specimen of the accounts we are daily receiving of the decay and death into which religion and all its interests and appliances are rapidly falling through out the seceded States "Yesterday I visited the office of the New Orieans Advocate and Southern Methodist Book Depository, situated on Camp street, a few squares south of Canal street, and found the whole establishment closed, and as

street, and found the whole establishment closed, and as desolate in appearance as though a pestilence had passed ovenit. A business man in the next door, and a member of their church, told me the Advocate suspended for wantiof paper, and the Depositry for want of purchasers; and that all the business men of the establishment. From the highest to the lowest, were in Beauregard's army at Shiloh, in some official capacity, the last he knew of them. So that in New Orleans, no less than in Nashville, the Methodist Episcopal Church South has left its moral, intellectual, and religious operations to languish and die. Their churches are, most of them, without pastors or preschers, except what the local ministry supply, and prayer and class meetings are generally suspended.<sup>17</sup> NEW ATTITUDE OF THE SCOTCH PRESBYTERIAN CHURCH TOWARDS THE BRITISH GOVERNMENT —The synod of the Scotch Church recently adopted a series of resolutions, which contemplate an important change in the attitude of that Churchicowards the British Constitution and Government, and which, if acted upon, may lead to an old-feshioned religious feud and collision with the established powers of the British realm. The Reformed Presbyterian Church of Scotland, it will be borne in mind, has always held what it designates "the Headship of Christ over the nations." and that it is consequently the duty of the people to avow their allegiance to Chris as their reigning Mediator, and to constitute His law their rule of national policy. In their recent manifesto this respectable religious body emphatically declares that tried by this principle, the British Constitution is deem wanting, and more especially so in consequence of the vested over the Church. In view of this, they hold it to be the duty of the members of the Church to refrain from any acts that "homologate by direct and express approval" the British Constitution, and that it is incompatible with the maintenance of Beformed Presbyterian principles to swear the oath of allegiance or exercise the elective franchise, especially as the former (required to be taken hy every member of Parliament before taking his seathing understood to imply a "complete homologation of the evils of the British Constitution." While, however, these views are honestly held and solemnly avowed, the Synod decided that a violation of them should not inwoke the infliction of any ecclesiastical penalty. It may be interesting to our readers, in this connec ion, to give the present position of the different religious

bodies in Scotland in reference to the civil magistrate an admirable statement of which we find in the Nova Scotia Presbuterian Witness, to wit: On the supposition that the State offers to ally itself with Church:
1. The Established Church accepts its status and emoluments from the State, just as they are offered. The State dictates the terms of the alliance and the Establishment accepts them

2. The Free Church would accept the aid of the State, on condition that the Church should be left perfectly free and self-regulating. on condition that the Church should be left perfectly free and self-regulating.

3. The United Presbyterians would not accept an alliance with the State on any terms, believing such an alliance to be wrong and mischievous.

4. The Reformed Presbyterians would not accept an alliance with the State, unless the character of the State were pure and blameless, and also the Church were left perfectly free.

THE CANONIZATION OF JAPANESE MARTYRS, to which reference has already been made in this department of The Press, was the occasion of assembling such a con-vocation of ecclesiastical dignitaries as Rome has seldom een equalled in all her magnificent history, and which is no doubt destined to occupy a conspicuous place in the history of the Catholic Church. Nearly four hundred bishops, and thousands of priests were present. From France alone came sixty of the former, and five tnousand of the latter. All the English bishops were there, with a single exception, and this country was represent Archbishop Hughes, and other clergymen. The Ame rican prelate, by the way, is said to have had no small rican prelate, by the way, is said to have had no small share in the preparation of the address on the Tempora Power, adopted by the Council. St. Peter's was illumi-nated with five thousand candis on the exterior, and fifteen thousand in the interior. Of the twenty-seven new saints then and there added to the calendar, twenty three were the Japanese martyrs. Two addresses were prepared; the first one being too violent in tone, a second Archbishop Hughes, and adopted. Of this address an

exchange says:

"The remarkable address by Archbishop Hughes, of
New York, in behalf of the Catholic world, and signed
by three hundred cardinals and bishops now congregated
at Rome, has made a deep sensation all over Europe, and
more particularly in Italy, affected more than any other nore particularly in Italy, anected more than any other country upon earth by the temporal power of the Pops. In this address, Archbishop Hughes asserts that the temporal power of his Holiness, being granted to him by a peculiar desire of Divine Providence, all the nations of the earth combined are poweriess against it; that Rome and the Papal domain do not belong to Italy, but to the Catholic world, and that they can never cease to be its property."

A LAUDABLE EXAMPLE —The chaplain of the 1st Maine Cavalry, the Rev. Mr. Teffe, thus writes respecting he colonel of that regiment, Col. Samuel H. Allen:

"Not many nights since, the writer's tent was made minhabitable by reason of a powerful rain; his colonel invited him, therefore, to spend the night with him; and when the evening had been devede to a general conversation, just as we were about to lie down upon our blankets, the colonel took out his Bible, and after reading a beautiful portion of Scripture, fell upon his kness and made such a prayer for his command; for the principle in a success four countrymen in defending authority in the final success four countrymen in defending authority of the country, and maintaining the Camp."

Bark Floresta, Welsh, was at 1810 de Janeiro 2021 une, for Philadelphia 24th.

Bask Imperador, Power, was loading at Pernambuco 3d inst. for Philadelphia.

Bark Volant, Allen, from Newcastle, Eng, for Philadelphia, has put into Sherbourne, NS, in distress.

Brig Cereal, McDonaid, hence, arrived at Queenstown 10th inst.

Weekly Review of the Philadelphia Markets. Business generally has been more active this week. and the markets for most of the leading articles of Produce are better. Bark has declined. Breadstuffs move off more freely, and command full prices. Coal and Iron are firm, but not very active. Cotton is quiet at the advance. Fish and Fruit are dull, and prices about the same. Groceries—there is more doing and prices are better. Provisions move off slowly, and quotations are unchanged. Naval Stores are scarce and on the a lyance. Oils are looking up. Rice has improved. Salt continues firm. Seeds are more active. Tobacco is firm, but inactive. Wool is in request and prices tending upward. The Dry Goods trade is active, and the prices of Gotton fabrics have advanced considerably this week, but the

high views of holders limits operations. Woolen s are also better, with a good business doing in the way of also better, with a good business doing in the way of sales.

The Breadstuffs market is better, and the demand for most kinds more active this week at an improvement on last week's prices. The sales of Flour comprise about 25,000 bbls, mostly taken for shipment, at \$4.75.65.12 ½ for superfine, \$5.12 ½ 65 50 for extra family, the latter for fancy brends, including about 4,000 bbls city mills on terms kept private. The sales to the trade have been to a fair extent at the above figures for superfines and extras, and \$5.50.57 \( \frac{1}{2} \) bit for high grade fancies as to quality. The repugnance of most patients to COD-LIVER OIL.

The repugnance of most patients to COD-LIVER OIL, and the inability of many to take it at all, has induced various forms of disguise for its administration that are familiar to the Medical Profossion. Some of them answer in special cases, but more often the vehicle neutralizes the usual effect of the Oil, proving quite as unpalatable and of less therapentic value. The repugnance, nausea, &c., to invalide, induced by disgust of the Oil, is entirely obviated by the use of our CAPSULES. COD-LIVER OIL CAPSULES have been much used lately in Europe, the experience there of the good results from their use in both hospital and private practice, saids from the naturally suggested advantages, are sufficient to warrant our claiming the virtues we do for them, feeling assured their use will result in benefit and deserved favor. Prepared by them, feeling assured their u deserved favor. Prepared by

EFFERVESORNT

This valuable and popular Medicine has universally re-ceived the most favorable recommendations of the

MEDICAL PROFESSION and the Public as the most refficient AND AGREEABLE

SALINE APERIENT.

It may be used with the best effect in Hesdache, Nauses, Loss of Appetite, Indiges-tion, Acidity of the Stomach, Torpidity of the Liver, Gout, Rheumatic Affections, Gravel, Piles,

AND ALL COMPLAINTS WHERE

A GENTLE AND COOLING APERIENT OR PUR-GATIVE IS BEQUIRED.

It is particularly adapted to the wants of Trayellers by Sea and Land, Residents in Hot Climates, Persons of Sedentary Habits, Invalids, and Convalescents; Captains of Vessels and Planters will find it a valuable addition to their Medicine Chests.

It is in the form of a Powder, carefully put up in bottles to keep in any climate, and merely requires water poured upon it to produce a de-lightful effervescing beverage,

Extracts of Letters from medical men, after having fully tested the discovery of Prof. BOLLES:

W. B. WELLS, M. D., Bullalo, N. Y., after a year's practice, writes to Prof. B. as follows:

I think my faith fully comprehends the fact that Electricity, correctly applied, according to your discovery. Is abundantly competent to cure all curable diseases. My experience and success, after extensive practice, fully warrant this assertion. Were I sick with a fatal disease, I would far sooner trust my life in the hands of a skilful Electrician than all the "pathies" on earth besides BUSFALO, N. Y.

D. MOCARTHY, M. D.:

I am fully satisfied that Electricity, when understood according to its polarities and their relations to the fixed laws of the vital economy. as taught by you, is the most powerful, manageable, and efficient agent known to man for the relief of pain and cure of disease. I would further state that I have for the past few weeks used Electricity in my practice, to the exclusion of nearly all other remedies, and have been eminently successful, and consider it a universal therapeutic.

H. G. KIRBY, M. D.:
What I have now to say is from actual observation, as
I have spent most of my time for the last two months with
Prof. Bolles, and have witnessed the effects of the Electrical agent on from filteen to twenty-five patients a day,
suffering from almost every form of chronic disease; and,
as strange as it may appear, in a majority of cases, a perfect cure was effected in from five to fifteen days. And
I will here remark that most of his patients were afflicted
with long standing complaints, considered incurable by
all other known remedies.

I believe your discovery to be a reliable therapoutic agent, and feel it my duty to recommend it. Since I have received instruction from you I have applied it in cases of Aphony, Bronchitis, Chorea, Amenorrhea, Asthma, and Congestion, and find that I have the same success that you had when I was under your instruction. You, who first discovered Electricity to be a reliable therapeutic agent, should be considered a great benefactor of the race, for it is the only reliable system of cure for the woes and ills of suffering humanity. It is strenge that physicians have become so wedded to their several systems, brought up from the darkness of past ages, that they will close their eyes against the light now beaming forth through this system of practice.
