THE PROGRESS OF RECRUITING.

ANOTHER WAR MEETING IN HUMMELSTOWN. Another large war meeting of the citizens of Hum-melstown and Derry township was held in the public melstown and Perry township was seed in the pumpe square of the former place late evening, which was pre-sided over by H. W. Kittering. Eloquent and impres-sive epieches were made by Colonel F. K. Boas and A. J. Herr, Esqu. of this city. Captain Henderson's com-pany, recruiting at Hummelstown, is getting along finely, and will soon have the full complement of men.—Har-risburg Telegraph, 30th inst.

RECRUITING IN HARRISBURG. The success of the different recruiting officers in Harrisburg has already been greater than was anticipated, and there is little or no doubt but that the several companics under beadway will have their full complement of men at an early day. A gratifying feature in connection with this movement is that a large number of recruits are from the rural districts, many of whom have come in and offered themselves voluntarily, without any direct effort having been made in their localities. LIBERALITY.

At a meeting in Hummelstown, on Friday last, Dr. Jacob Shope emberribed \$100 cash to the bounty fund for volunteers, under the recent requisition of the 'resident, and offered to throw open his granaries to the free and gratnitous use of all the families of men from Derry town ship who would enlist. ANOTHER TWELVE-MONTHS REGIMENT FROM KEN-Colorel James M. Shackel ord and Lieutenant Colo Benj. H. MASS MEETING IN CINCINNATI. The Commercial, of the 29th, says: We learn that arrangements are about completed for a grand mass meeting of the people, on Thursday next, in this city. The little villege of Lockland, Ohio, with a voting population of less than one hundred, has already fifty-one in the field, and is prepared to do something more under GENERAL BANKS ON RECRUITING.

GENERAL BANKS ON RECRUITING.

A few days since, General Banks visited the camp of a Massachusetts regiment in Virginia, and made a speech. Said he: "I have been invited to speak in Faneuil Hall, before a large meeting to be held there. But oh! how much more effectual than all I cau do would it be to have you there, and let them hear from your own experience, and look upon you, the beroes of a year's service. Don't let a mail, or a letter in a mail, go out from this camp without an appeal from every true son of Massachusets to come out here and reinforce the Army of the Potomac, that every fallen comrade and brother may be avenued. INDIANA-SCHUTLER COLFAX WORKING.

We copy the following characteristic article from the South Bend Register, the Hon. Schuyler Colfax's paper. South Bend Register, the Hon. Schuyler Colfax's paper. It is addressed to his partner:

Mr. WHERLER: You asked me to write an editorial for this week's Register on the war. It will be mr first one after right months absence, and probably the last one for mouths to come. It will be brief, for time is precious, and the armies of the Union are longing to hear the tramp of hundreds of thousands of armed men, not only for their reinforcement, but to aid them in crushing the hydra heads of Secession'before the forests are filled with the falling leaves of autumn. And here it is:

To the first 50 volunteers who, after this date, are onrolled in the companies raising in St. Joseph county, I will give \$10 each, to be paid on their being mustared into the cervice, in addition to the \$25 bounty paid by the Government on enlistment, the month's advance pay (\$15), and the \$2 paid for each recruit. This addition to the smount prefered by the Government will make the cash received on being mustared \$50. the cash received on being mu SCHUYLER COLFAX.

THE PRODUCE EXCHANGE REGIMENT OF NEW YORK.

A highly influential meeting of the New York Produce Merchants was held at the Produce Exchange on Tuesday, at I o'clock P. M., with a view to aid the cause of recruiting. After the reading of the resolutions, General Walbridge maid an effective speech. He said:
What the loyal North is now engaged with, is in quelling an attempted overthrow of the General Government, and the coatest in every seuse becomes a war of sell-preservation. This fact imposes great responsibilities on each citizen who feels for the honor and welfare of his country; but no other equal body of men can exercise greater power toward achieving a victorious result than the highly influential, intelligent, and patriotic class of merchants and citizens who daily congregate here. A moment will demonstrate their relation to this struggle. The bitterness of the contest is aggravated by the national and commercial importance attached to the two great staples of human necessity—food and clothing—[ap-plause]—respectively represented by the two geographical sections engaged in this monstrous civil strife. No body of citizens in the Republic have a larger interest in the re-establishment of the Federal authority than the members of this Board. Commerce, being a mere exchange of commodities, is destroyed by violence and war, and is favered and prospered by peace. [Ap-plause]—Every consideration of patriotism and self-infrest impels us to urge the Government to put forth its overwhelming strength, and crush out this wicked and THE PRODUCE EXCHANGE REGIMENT OF NEW YORK. frest impels us to urge the Government to put forth its overwhelming strength, and crush out this wicked and unholy rebellion.

SPEECH OF GENERAL MEAGHER. On Tuesday evening General Meagher and staff visited On Tuesday evening General Meagher and staff visited Niblo's Theatre, New York. The General, being called on for a speech, said:

Wherever it may be the fortune of the Irish soldier to be summoned—in whatever cause he may be called to prove the fire and metal he is made of—throughout every tempest, the fiercest and blackest even, into which he may be whirled—[applause]—bis heart, with a vehement instinct, reverts to the land of his birth, and on the battle-field, in the midst of the clouds and the lightnings of the conflict, it is not death, nor victory, nor glory itself that he beholds. It is Ireland—[vohement applause]—Ireland alone—at such a moment, revealing herself in all the beauty of her wysterious lakes, and all the calm, rugged grandeur of her mountains, that animates and ennobles him. [Cheers] Though she be stripped of her political consequence—reduced to a province, she who was once a crowned mistress among the nations of the earth, falsified and covered with opprobrium by those who are guilty of her wreck and downfall—[cheers]—the Irish soldier. fighting abroad, fighting here under his own green flag, feels that he has the opportunity and the power to illuminate the darkest picture which stateman or patriot has been ever called upon to contemplate. [Applause] I his is the secret of the courage and imperiously which you, ladies and genitemen, recognize ro gratefully in the Irish Brigade, and on the resistless current of which I have myself been borne so swiftly slong, that an illusion seems to have taken possession of the public mind, and while I but obeyed what was not to be resisted, I am hailed as the power which evoked and impelled the torrent. [Applause] I feel justified, ladies and gentiemen, in entreating your generous and earnest services in behalf of the Irish Brigace, to the end that the ranks, which have been so reduced, may be rapicly filled up. I must speak frankly to you. The recruiting in this city is going on too lazily. There is also too much red tape and circum-locution about it. Th Niblo's Theatre, New York. The General, being called

GOV. ANDREW ON IBISH ENLISTMENTS.—
Governor Andrew, of Massachusetts, in a letter to a chizen of Cambridge, says:

"In the note of this day's date which I have the pleasure to acknowledge, you remark that 'it is generally understood among our Irish citizens that you have refused to commission any more Irish field officers, and that they therefore are disinclined to enlist. feeling quite naturally that their services are not fully appreciated and akknowledged as adopted citizens.' This 'understanding' which appeared, with appropriate comments, several weeks ago, in a Maryland newspaper. But I caunot imweeks ago, in a Maryland newspaper. But I caunot imweeks ago, in a Maryland newspaper. But I caunot imwhich appeared, with appropriate comments, several weeks ago, in a Maryland newspaper. But I cannot imagine the origin of such perverse untrult. If any man can be found who pretends to have any proofs on which to base the assertion, I pray you to bring him face to face with me instantly.

"The fact is that we have raised two Irish regments, the 9th and the 28th, now in the field; that for commissions in those regiments the utmost pains were taken to secure gentlemen of Irish origin, both in field and line. I with 10 add, however, that the only reason which has operated on my own mind as valid for attempting to raise regiments having such distinctive character was this regiments having such distinctive character was this raising prefer to enlist where the consolations of their own Church. The chaplains of those two regiments are, in sickness and in danger, the consolations of their own Church, or the vicar-general.

DROPOSALS FOR REVENUE

TREASURY DEPARTMENT,

Office of Internal Revenue, July 26, 1862 5

PROPOSALS will be received until WEDDREDDAY,
the 6th of August next, for furnishing Revenue stamps,
under the recent act of Congress imposing stamp duties.
Bidders will state the price per thousand stamps, deliverable in packages of ten thousand each, at the freasury Department in JW sahington.
Also, the price per thousand in sinilar packages, deliverable to the agent of the Department at the place of
manufacture ages, as required, either at ineighboariment or place of manufacture.

Also, the price per thousand, separated in such quantitice as may be daily or leved for the use of collectors and others, never less than two hundred stamps, and securely packed in tin cases, suitable binders' board boxes, with muslin or other equally strong covers, or lined envelopes, according to the quantity and distance to be conveyed, as may be required by the Department, stating the difference, if any, between the cost of delivery to an agent at the place of manufacture and at Washington.

All such packages, before mailing, to be re-examined, and the stamps recounted by an agent of this Department. All such packages, before maning, to see re-examined, and the stamps recounted by an agent of this Department.

Bidders will also give the additional cost for directing packages for the mails and preparing blank receipts, under the direction of an agent of the Department, either at the Department or manufactory.

Proposals must be made for the stamps in sheets, perfectly gummed, and perforated in such manner that each separate stamp can be readily detached and used.

On and after WEDNESDAY, the 30th of July instant, designs for the proposed stamps may be seen at the office of the Commissioner of Internal Bevenue.

Each bid is to be accompanied with a specimen of the style of engraving and the quality of paper to be furnished, which will be submitted to a board of disinterested experts or artists for examination; and the accepted bidder, before the final consummation of a contract, will be required to furnish proof impressions of the engravings of the several denominations of stamps.

Specimens of board and tin boxes and lined envelopes must also be submitted with each bid. It is necessary to protect the boxes by muslin, or other covers, in the most effectual manuer, against wet and abrasion. The contract will require all dies and plates to be prepared and kept in repsir, and that new dies and plates shall be made, either for the present decominations of stamps or ethers, without charge, at the pleasure of the Department.

No bids will be considered except from parties who have been actually engaged in the business of copper plate or steel engraving and printing, and who are thus No bids will be considered except from parties who have been actually engaged in the business of copper plate or steel engraving and printing, and who are thus engaged at the time of bidding, and provided with all the necessary facilities to execute the work premptly, and give the requisite protection to the stamps, dies, and plates in their possession.

Parties not known to the Department will furnish proof as to these points.

In awarding the contract the Commissioner of Internal Revenue reserves the right of deciding which bid, in its practical results, may be most to the interest of the Department, having reference to the style of the work, security, mode of packing, &c.

Proposals should be carefully sealed, and marked "Proposals for Revenue Stamps," and addressed to the Gummissioner of Internal Revenue, jy 29-tuth:31 Commissioner of Internal Revenue, jy 29-tuth:32 Commissioner of Internal Revenue, je 3-time from Englands and Printing and Printing

Was unknown to civilization until the middle of the Se Was unknown to civilization until the middle of the Seventeenth century. The natives of Peru are generally supposed to have long previously been acquainted with its most wonderful qualities. Humboldt makes favorable mention of the febrifuge qualities of this article as an antidote to Fever and Ague, Intermittent and Malarious Fevers, in his extensive South American travels.

The Countess, wife of the Viceroy of Peru, having in her own person experienced the beneficial effect of the bark, is said, on her return to Spain, in the year 1640, to have first introduced this remedy into Europe. After its introduction it was distributed and sold by the Jesuits, who are said to have obtained for it the enormous sum of its weight in sileer From this circumstance it was called the Jesuit Powder, a title which it retained for many years. In 1658, we are told that an Englishman, by the name of Sri John Talbot, employed it witt great success in France, in the treatment of Fever and Ague, Dyspepsia, Nervoux Affections, Loss of Appetite, Weakness and Debility, Palpitation of the Heart, Diarrhæa, &c., &c., under the name of English powder. At length in the year 1679, he sold the secret of its origin and preparation to Louis XIV., by whom it was divulged. It is now a standard remedy, and is employed in the preparation of the Plantation Bitters. (See U. S. Medical Dispensatory.)

OASCARILLA BARK OASCARILLA BARK CABOARILLA BARK Is another important ingredient. It was known in Germany as early as 1790, and much used as a substitute for PERVYIAN SYRUP. W. E. WELLS, M. D., Buffalo, N. V., after a year's practice, writes to Prof. B. as follows:

I think my faith fully comprehends the fact that Electricity, correctly applied, according to your discovery, is abundantly component to cure all curable discasses. My experience and success, after axtensive practice, fully warrant this assertion. Were I sick with a fatal disease, I would for sooner trust my life in the hands of a skilful Electrician than all the unatheracy on surphy heides.

I would far sooner trust my life in the hands of a skilling life than all the "pathies" on earth besides Buffalo, N. Y.

D. McCABTHY, M. D.:

I am fully satisfied that Electricity, when understood according to its polarities and their relations to the fixed laws of the vital conformy. as taught by you, is the most powerful, manageable, and officient agent known to man tay the relief of main and care of disasso. I would furfor the relief of pain and core of disease. I would fur-ther state that I have for the past few weeks used Elec-tricity in my practice, to the exclusion of nearly all other remedies, and have been eminently successful, and consider it a universal therapeutic. D. McCARTHY, M. D. P. W. MANSFIELD, M. D.: F. W. MANSE IELD, and D.:

For the last him omnths I have made Electricity a specialty, and my faith is deily increasing in its therapeutic effects, and I believ., when applied according to your discovery, it will cure all curable diseases, among which are numerous cases never benefited by medicine.

BUFFALO, N. Y. P. W. MANSFIELD, M. D.

AMOS GRAY, M. D.:
I would recommend my brethren in the medical profession to avail themselves of an opportunity of becoming acquainted with Prof. Bolles' new method of applying Electricity, which I think is not known to medical men, except these who have availed themselves of his instruc-tion, for I am very confident that much injury must be the result of a wrong, unskilful application of so powerful an agent.

H. G. KIRBY, M. D.: H. G. KIRBY, M. D.:

What I have now to say is from actual observation, as I have spent most of my time for the last two months with Prof. Boiles, and have witnessed the effects of the Electrical agent on from fifteen to twenty-five patients a day, suffering from almost every form of chronic disease; and, as strange as it may appear, in a majority of cases, a perfect cure was effected in from five to fifteen days. And I will here remark that most of his patients were afflicted with long standing complaints, considered incurable by all other known remedies.

DAVID THURSTON, M. D.:

I believe your discovery to be a reliable therapentic agent, and feel it my duty to recommend it. Since I have received instruction from you I have applied it in cases of Aphony, Bronchitis, Chores, Amenorrhea, Asthma, and Congestion, and find that I have the same success that you had when I was under your instruction. I invariably recommend medical men to avail themselves of an opportunity of becoming acquainted with your new method of applying Electricity. DETROIT, Michigan. DAVID THURSTON, M. D. Prof. Bolles: A great revolution in my misd and practice has taken place since I became acquainted with your new discovery of applying Galvanism, Magnetism, and other modifications of Electricity as a curative agent. I have found by many experiments that Electricity is a safe therapeutic agent in all acute and chronic cases when applied according to your discovery. I desire that medical men should become conversant with your discovery. CLEVELAND, Ohlo. MARVIN GODDARD, M. D.

You, who first discovered Electricity to be a reliable You, who first discovered Electricity to be a reliable therapeutic agent, should be considered a great benefactor of the race, for it is the only reliable system of cure for the woes and ills of suffering humanity. It is strange that physicians have become so wedded to their several systems, blought up from the darkness of past ages, that they will close their eyes against the light now beaming forth through this system of practice. All other systems I regard as the morning star to the rising sun!

P. SHEDD, M. D.

Prof. BOLLES:
The nearer I conform to your system of application, the more successful I am, and as I have examined all the guides and works published upon the subject and seen nothing in reference to your theory. I do not he sitate to say I believe it to be original with you, and the only repable system extant for curing disease.

DOCTOR A. H. STEVENS, late of New York, is now curing all kinds of Acute and Chronic Biseases, both of Ladies and Gentlemen, by the various modes in which he applies RLECTRO-MAGNETISM. He has located himself permanently at 1418 South PENN Square, Philadelphia. The location is a very central one to the car, as well as pleasant to those who choose to take board in the Doctor's family while under treatment.

References and certificates of cures, from many of the first classes in this city and disewhere, may be examined at the office. camined at the office.

DILES, FISTULA, AND LIVER DISEASE.—A certain and permanent cure, from one to fifty years standing, without the aid of the knife. Satisfactory reference given. DB. PICKING, No. 1921 MARKET Street.

GLUTEN CAPSULES PURE COD-LIVER OIL. The repugnance of most patients to COD-LIVER OIL, and the inability of many to take it at all, has induced various forms of diaguise for its administration that are familiar to the Medical Profession. Some of them answer in special cases, but m me often the walled neutralizes the usual effect of the Oil, proving quite as unpalatable and of less therapentic value. The repugnance, nausea, &c., to invalids, induced by diaguat of the Oil, is entirely obviated by the use of our CAPSULES. COD-LIVER OIL CAPSULES have been much used lately in Europe, the experience there of the good results from their use in both hospital and private practice, aside from the naturally suggested advantages, are sufficient to warrant our claiming the virtues we do for them, feeling assured their use will result in benefit and deserved favor.
