FORGING APPLICATIONS FOR BOUNTY THE CITY. The Thermometer. arraigned before Als. Patten upon the charge of baving forged applications for bounty land warrants. The arrest was made by Detectives Uarlin and Henderson at the instance of Jas. P. Tustin, examiner of pensions at Washington. Chas. Gibbons. Eeq., appeared for the Common sealth in the absence of the United states District Attorney, and Mr. McIntyre for the defendant. The examination elicited the following evidence:

Alderman Charles Welding sworn.—Am an alderman of this city; have been commissioned for two years; there is no other alderman in the city by that name that I know of; (the witness was shown the application;) the name of Charles Welding signed to that paper is not in my handwriting; this paper was brought to me by Mr. AUGUST 5, 1861. THE DRAFT-ITS EFFECT UPON RE-CRUITING .- The proclamation of the President, calling for a draft for 300,000 militia, has caused a marked I know of; (the witness was shown the application;) the name of Charles Welding signed to that paper is not in my handwriting; this paper was brought to me by Mr. 7 untin, exeminer of pensions who asked me if it was my handwriting; I said it was not; I am certain this is the paper that was shown to me.

James P. Tustin sworn.—Am an examiner in the Pension Office at Washington; it is my duty to receive and examine applications for bounty lands; I received an application for bounty laud on the 4th day of June, 1862, purporting to be signed by George B. Anderson, and to come from George W. Moneypenny, as his attorney to prosecute the claim on receipt of the warrant to be issued thereon; I had suspicion as to the genulaneess of the claim; I wrote a confidential note, addressed and mailed it to the postmaster at Philadelphia, informing him that I would send a communication, signed by the Commissioner of Peusions, addressed to George W. Moneypenny, Philadelphia, Pa., and directed him to notice the party who called at the window for the letter, and have him arreated. Another application was received at the Pension Office on the 8th of May, 1862; it purported to be an application for bourty land, purporting to be tigned by Jacob Helmer, and sworn to before Ald. Patchell; I have shown this application to Ald. Patchell, who said he had never seen it before to-day; when this application came I sent a circuiar, addressed to Jacob Helmer, 1317 South street, Philadelphia; I sent it to the address given in the letter signed Jacob Helmer, and deted May 6, 1862. The circuitar was returned by improvement in the recruiting business. The recruits, however, do not come forward quite as rapidly as might have been expected, but there is no doubt that the quota of Philadelphia under the first call will be ready at the time required. Recruiting for the old regiments is not as brisk as heretofore. There were but few enlistments yesterday. The prevailing opinion among army officers is, that the regiments in the field should be filled first, and that it is preferable to join those who have already the names of numerous successful achievements inscribed upon their banners. The order for drafting has agitated various emotions in the breasts of different persons. The great mass of the people are rejoiced at the energetic method adopted by the President to meet the emergency. A large class of men who have hesitated to leave lucrative situations, and shoulder arms in defence of their country, will not be sorry that the responsibility is lifted from off their own irresolute shoulders, and that by the force of circumstances they are constrained to be patriotic. Their presence will inspire new spirit and vitality among the army in the field, who have to Jacob Heimer, 1317 Southstre't, Philadelphia; I sent it to the address given in the letter signed Jacob Heimer, and dated May 6, 1362. The circular was returned by mail to the office, with the blank affidavits filled up as now, purporting to be made before George Patchell, aldorman. After I received paper C, accompanied by the letter written on the same sheet, I addressed a letter to Jacob Helmer, informing him that a warrant for forty acres of land, No. 76,855, had been sent for him on the 9th of December, 1862, to Joy Hathaway, Esq., at Rome, New Nork, which conflicted with the affidavit, and, requiring further information on that point, to borne, thus far, all the burden of the war. The lukewarm and thoughtlessly indifferent, when once disciplined in the ranks of the Union forces, will learn to he satisfied with the destiny which has made them of come use in the present day and generation. With the exception of the masked traitors in our midst, who are filled with great consternation at the idea of being obliged to take up arms against their "friends" of the South, whom Rome, New York, which conflicted with the affidavit, and requiring further information on that point, to which he made this answer: "Philadelphia, July 2, 1862. Jacob Helmer, being duly sworn on his oath, says he made application for bounty land; that he never autherized Mr. Hathaway to apply for bounty land; never made any other application; saveral years since a traveling agent called on him." This was signed Jacob Helmer, and purported to be signed by Ald. Patchell, who said he had never before seen it. Supposing it to be a fraudulent claim, I addressed a letter to the postmactea at Philadelphia, stating to him that on the lat of August, 1862, I would mail a letter addressed to Jacob Helmer, 1317 South street, Philadelphia, Penn, requesting him to have some officer at the window to arrest any party who called for it. This letter written to postmaster was 31st July, 1862. they pity and admire, the universal sentiment displayed was one of relief. at the fact that the Covernment had realized the nature of the struggle in which we are engaged, and has called the necessary power to crush it. In The Press, of yesterday, we gave the main points of the laws relative to drafting as they exist at the present time in this Stete. We now present the regulations of the United States in regard to the organization of the militia. The laws of the United States state that each and every free, able bodied white male citizen who is or shall be of the age of eighteen years, and under the age of forty-five years, shall be enrolled in the militia by the called for it. This letter written to postmaster was 31st July, 1862.

Cross examined —None of the applications were signed by Moneypenny; I did not receive more than one application from Geo. B. Anderson purporting to be his application; there have been other communications sent, signed by Ald. Welding on behalf of other parties; this application is made out in the usual way, nothing peculiar in it; I supposed it was not genuine; by examinations of this class for a number of years I have become familiar with the various styles of writing; the lox appeared to be all of one color; the letters in different parts were all done alike; I ascertained no such man as Geo. W. Moneypenny lived in Philadelphia by examining the directory for a number of years past; the second application, purporting to be signed by Jacob Helmer; I believe to be in the same handwriting as the other one; in answer to the circular, the filling up of the blanks is in the same handwriting; have no question in believing that all the papers were written by the same party; paper D is slightly changed.

Mr. Walborn, postmaster, sworn.—I have seen the defendant; in the early part of July I had correspondence with the Pension Office in relation to applications that were made there that were believed to be fraudulent; captain or commanding officer of the company within whose bounds such citizen may reside. If any person, whether officer or soldier, belonging to the militia of any State, and called out into the service of the United States. be wounded or disabled while in actual service he shall be taken care of and provided for at the public expense. The militia employed in the service of the United State, shall be subject to the same rules and articles of war as the troops of the United States. Courts martial for the trial of militia can only be composed of militia officers. The allowance for clothing to each non-sommissioned officer, musician, and private of volunteers shall be three dollars and fifty cents per month during the time he shall be in the service of the United States

When the draft required to be made shall be a number equal to one or more companies to each brigade, such draft shall be made by company, to be determined by lot, to be drawn by the commandant of the brigade, in the presence of the commanding officers of the regiment comprising such brigade, from the military forces of the were made there that were believed to be fraudulent; they informed me that papers would come through the post office directed to George W. Moneypenny; in con-sequence of the request I directed my chief clerk to make State in his brigade, organized, uniformed, &c. In case such draft shall require a number equal to one regiment, (to a brigade,) it is to be determined in the sequence of the requests threatise my crief and respect to make such arrangements as would bring Mr. George W. Moneypenny to my office that I might see him; it so happened that on the 7th of July Christopher Armstrong called at the office and asked for a letter in the name of George W. Moneypenny; hearing this name mentioned by the delivery clerk to the chief clerk, stating that he had requested Mr. Moneypenny to call around at his deak. I was struck with the In case such draft shall require a larger number than the whole number composing the military force of such brigade, such additional draft shall be made of an equal number from the military roll of the ununiformed militia of each town or ward, filed with the city, village, or town penny to call around at his deak, I was struck with the name, and immediately locked for the face, and, finding name, and immediately locked for the face, and, finding that the man was slow to come, I quickly put on my hat, slipped out of the office, and followed the man to see where he would go to; he went up Dock street to. Third, up Third to Carter's alley, and suddenly turned down Carter's alley; I then called an officer's attention, and requested him to follow the man, which he did; I have not the slightest doubt that the defendant is the person who called for the letter for Mr. Moneypenny; there was such a letter then in the office; he was told that if he would walk to the chief clerk's desk he would receive the letter, but he did not go; the letter remains in the office yet, unless it has been returned to the parties from whom it came; (witness shown paper marked F;) this was handed to me by that young man that sits there (Wm. John Armstrong;) information had been given to me by the department that another letter would come addressed to Jacob Helmer, and that I should notice the party; I made the usual arrangements When such a draft is ordered, all males residing in regimental districts are compelled to enroll themselves; the enrollment is then to be flied (in cities) in the county clerk's office. On the day appointed the Mayor or superviser of the ward, in presence of the regimental commander of the district, draws by lot from this list a number of names, in accordance with the number called for by the draft. Any male thus drawn may provide an ablebodied man as a substitute, who is then taken in his stead. No persons of the required age are exempt from this draiting, except olergymen and those incapacitated Physical disability is a good ground of exemption, and should, in all cases of doubt, be established to the satisshould notice the party; I made the usual arrangements with my chief clerk; the letter was called for; that is the letter I delivered to the young man on this order; faction of the enrolling officer by a physician's certificare, as well as the affidavit of the party. to-day, when this order marked "F" was presented, I delivered to him this letter, addressed to "Jacob Helmer, Esq., No. 1317 South Philadelphia, Philadelphia, Pa.;"jwhen I called him to the office I detained him till an officer arrived; I had a conversation with the son of the defendant about this order; he said a friend gave it to him, and requested him to get the letter on it; declined telling me wno his friend was; first he said he had carried it some time; he said he did not know Mr. Helmer; had never seen him; he said Mr. Helmer was not in the city, and had not been for some weeks; after being closely questioned, he admitted that his friend signed and wrote this order, and that his friend was his father; he said if the letter was rightly directed it will be directed to 1317 South street, Philadelphia, where my father lives; he keeps a shoe store; at my request the officer then accompanied the young man from the office -day, when this order marked "F" was bility: Wounds of the head, which impair the faculties, or cause convulsions; serious impairment of hearing, speech, or vision; anchylosis, or active disease of any of the larger joints; the presence of pulmonary disease, or organic disease of the heart; irreducible hernia; fistula in ano; large hemorrhoids; large and painful variscell or varicose veins which extend above the knee; the loss of a limb, or the thumb and forefinger on the right hand, or of any two fingers on either hand; the loss of the great toe; any marked physical imperfections which Altogether, the order for a draft has proved quite beneficial. Cross-symmed.—I never saw defendant to recognize him before the 7th of July; think it was in the fore part of the day; I stood near the defendant; there was not a man at the window at the time; the clerk told the chief elerk that Mr. Moneypenny was coming round; I have not had any conversation except at that time.

George W. Hogg, of the reserve corps, sworn.—I have seen Mr. Armstrong before; saw him on the 7th of last month, corner of Carter's alley and Third street; I saw Mr. Walborn and the defendant; they were about twelve feet apart; Mr. Walborn said he wanted me to lone the feet apart; Mr. Walborn said he wanted me to lone in I followed him; he went down Carter's alley to Second, up Second to Market, out Market to Eighth, down Eighth to Chestnut, out Chestnut to Thirteenth, down Thirteenth to Spruce, and went in the second door from the corner on Spruce, and went in the second door from the corner on Spruce, and went in the second out; I am sure this is the man.

Detective Samuel Henderson sworn—I accompanied sion as to whether the call was for 609,000 or 300,000 men. Many of the timid contended that only the three to officers, have cau.ed considerable flutter amongst the numerous captains and lieutenants now besieging the Goyernor for commissions, because they have raised the necessary number of men. The people generally are anxious to hear further orders from Washington respecthis is the man.

Detective Samuel Henderson sworn —I accompanied ing the draft, and all loyal citizens have fully made up their minds that this is the wisest and best policy of the DISCOURAGING ENLISTMENTS.—There are in our midst a class of traitors who have been exceedingly busy, since the call of the President for 300,000 more men, in doing all that lay in their power to prevent the callstment of volunteers. In order to accomplish their base purpose, they have resorted to all expedients, and so successful have they been in a number of esses as to prevent the enrollment of many names. The main pretext of these soundrels is that the war is a "Black Republican" one, and that it is mainly for the benefit of the negri. We have just heard of a case which happened in the upper part of the city, in which an alderman, a sworn officer of the Commonwealth, was engaged in this business. A woman whose husband had enlisted, and who had been sworn into the service of the United States by this alderman, called on the latter relative to the master. She inquired if he had mustered her husband into the service, when he replied, "Yes, I swore him in to go and fight for the nigger." This individual carried the interpretation of the service, when he replied, "Yes, I swore him in to go and fight for the nigger." She inquired if he had mustered her bushand into the service, when he replied, "Yes, I swore him in to go and fight for the nigger." This individual also used other abusive language to the wife of him who had just pledged his life in defence of the Government. Such things as these should not be tolerated. They have gone far enough, and it is time that they should be stopped. Another case in point was that of an individual who advised some acquaintances who were about enlisting to pay a visit to any of our Government hospitals, and there they would see sights which would "knock all the military spirit out of them." Numerous other instances have also come to our notice. sen, with an intention to defraud the States, and also for transmitting another like writing purporting to be a claim of Jacob Helmer, for bounty land, with an intention to defraud the United States.

to defraud the United States

The defendant was then fully committed to answer the GAS EXPLOSION - A NUMBER OF PERSONS INJURED, Between 11 and 12 o'clock on which would "knock all the military spirit out of them."
Numerous other instances have also come to our notice,
in which prominent individuals, of strong Secession proclivities, have been engaged in thus crippling the Monday night an explosion of gas occurred at the residence of Mrs. Fenner, in Filbert street, below Sixth, which resulted in the serious injury of several persons. It appears that Mrs. Fenner, during the evening, was much acrossed by the strong smell of gas, and thinking there might be a leak, Lieut. Joseph Patton, of the Sixth Police district, was supmoned to make an experiment. An order should be issued to arrest every man found An order should be issued to arrest every man found discouraging colletments, and incercente him in Fort Latayette. We have traitors in our midst. They are but few in number, and, if the proper exertions are used, can easily be defected. Recently, these individuals have become so obnoxious by their tressonable acts, that, we understand, a committee of respectable and loyal citizens have taken the matter in band, with a view of bringing them to justice. There is no reason why treason should not be crushed at home, as well as abroad. A correspondent sends us, a very sensible communication, relative to administering the oath of allegiance to the Government. He wishes to know whether the oath will also be administered to the employees, of the navy yard, Police district, was summoned to make an examination. He found that the pipe in one of the rooms had never had a burner attached to it, but was fastened with had a burner attached to it, but was fastened with sealing wax, as is usual in such cases. The wax had come off during the evening, and there being a full head of gas on, the room soen became filled.

Lieutenant Patton cautioned those present not to take a light into the room, but, notwithstanding this fact, a man named John Ohestnut rushed into the apartment with a lighted lamp. Of course, an explosion followed. The report was very loud, and every pane of glass in the house was broken by the concussion. Lieut. Patton was blown a distance of four or five feet, and was quite severely burned about the head, face, and arms. Mrs. Fenner was also badly burned about the face and hands. Her two daughters escaped with some slight burns. Mrs. also be administered to the employees of the navy yard, in this city, the same as it was at the Brooklyn navy also be administered to the employees of the navy yard, in this city, the same as it was at the Brookiyn navy yard. Be also urges the necessity of administering the oath to city officials and any suspected persons in our midst. By this means, we will be enabled to learn who are the traitors, and to treat them accordingly. By this means, loy alty may have an opportunity of being rewarded, and treason disgraced. By this means, we will be enabled to meet grim-visaged war with a smiling aspect, resting assured that there is no enemy in our rear—to tear down the stronghold of loyalty by working underground and sapping its foundations. Let traitors Her two daughters escaped with some slight burns. Mr. Chesinut was also somewhat injured. The explosion caused considerable excitement in the neighborhood. BARN STRUCK BY LIGHTNING-TWO

Let traitors everywhere feel the atrong arm of the law, and meet a traitor's reward on the scatfold. Let the skulking cowards who prate of the horrors of the war, of Black Republicanism, of Abolitionism, and of State Rights, under the guise of Constitutional Unionism, be compelled to flee from the just indignation of a people that they have thus far trampled upon and abused in the most scurrilous manner, and find a home in the domain of Secession, where of right they ought to be. being paralyzed.

The second company, Captain Litzenberg, will be mustered in to-day, and both companies will leave for camp, at Harrisburg, on Saturday next. This is the proper spirit and is worthy of example. proper spirit and is worthy of example.

PROBABLE HOMICIDE.—About midnight on Monday, a disgraceful row occurred at Twenty-sixth, and South streets, during which a man named Lewis Dubrey was stabbed in several places, in the leins

day morning James Burk was arraigned before Alderman Carter, upon the charge of having assaulted a boy, the son of officer Cromley, at the residence of the latter, near Twenty-first and Lombard streets. It seems that Mr. Cromley had arrested one of the companions of Burk for disorderly conduct. Burk then went to the house of Cromley, and not only beat the boy, but threatened to kill the father, and when taken into custody he drew a huffe and attempted to execute his there. knife and attempted to execute his threat. He was com

ARREST OF DISORDERLIES .- Yesterday morning a motley group of eight persons, blacks and whites, men and women, arrested in a disorderly crib, at Spafford and Saker streets, were arraigned before Alderman Modullin, and committed to prison. The proprietor of the place, Primeus Ludlow, colored, was committed to answer at court the charge of keeping a disorderly house. KUM.—Herman Bokum, the refugee frem Bast Tennessee, since his departure from this city has been addressing large meetings of the loyal people of New Jorsey on the condition of East Tennessee. Addresses were delivered at Persippany, Boonton, Morristown, and other places Through his exertions a large number of recruits have been induced to enter the army, and a loyal feeling has prung up in the hearts of many citizens. It is he sprung up in the hearts of many citizens. It is to be hoped that his labors in the cause of the Union will meet THE BOUNTY FUND AND THE UNITED

STATES ARSENAL.—At the suggestion of Deputy Quartermaster General Crosman, a subscription to the Volunter Bounty Fund has been started among the areansl employees. The amount subscribed will reach near \$2,000, including the subscription made by Colonel Crosman and his clerks. This department of the Government has always taken an active part in moves of this kind. Some time size they contributed a large amount kind. Some time size they contributed a large amount kind. Some time since they contributed a large amount to each of the Volunteer Befreshment Saloons. PARDON GRANTED.—Governor Curtin

has granted a pardon to Lawrence Kelley, who was sen-tenced to five years' imprisonment on the 22d of October, 1857, for the murder of "York Bill," at Fourth and Shippen streets. PRESENTATION .- Col. Philip S. White, the Prothonotary of the District Court, has been presented with a handsome cane, the gift of Mr. Wm. Heaton. Extracts of Letters from medical men, after having fully tested the di-covery of Prof. BOLLES:

W. R. WELLS, M. D., Buffalo, N. Y., after a year's practice, writes to Prof. B. as follows:

I think my faith fully comprehends the fact that Electricity, correctly applied, according to your discovery, is abundantly competent to cure all curable diseases. My experience and success, after extensive practice, fully warrant this assertion. Were I sick with a fatal disease, I would far sooner trust my life in the hands of a skilful Electrician than all the "pathies" on earth besides

BUFFALO, N. Y. W. R. WELLS, M. D.

D. McCABTHY, M. D.:

I am fully satisfied that Electricity, when understood according to its polarities and their relations to the fixed laws of the vitel economy, as taught by you, is the most powerful, manageable, and efficient agent known to man for the relief of pain and cure of disease. I would further state that I have for the past few weeks used Electricity in tricity in my practice, to the exclusion of nearly all other remedies, and have been eminently successful, and consider it a universal therapeutic.

DAYTON, Ohio.

D. MOCABTHY, M. D.

P. W. MANSFIELD, M. D.: For the last nine months I have made Electricity a specialty, and my faith is daily increasing in its therapeutic effects, and I believe, when applied according to your discovery, it will cure all curable diseases, among which Burralo, N. Y. P. W. MANSFIELD, M. D.

AMOS GRAY, M. D.:

I would recommend my brethren in the medical profession to avail themselves of an opportunity of becoming acquainted with Prof. Bolles' new method of applying Electricity, which I think is not known to medical men, except those who have availed themselves of bis instruction, for I am very confident that much injury must be the result of a wrong, unskilful application of so powerful an agent.

AMOS GRAY, M. D.:

I would recommend the medical professional professio DETROIT, Michigan.

H. G. KIRBY, MED.:
What I have now to say is from actual observation, as I have spent most of my time for the last two months with Prof. Bolles, and have witnessed the effects of the Electrical agent on from fifteen to twenty five patients a day, suffering from almost every form of chronic disease; and, as atrange as it may appear, in a majority of cases, a perfect ours was effected in from five to fifteen days. And I will have remark that most of his patients were afflicted with long standing complaints, considered incurable by all other known remedies.

H. G. KIRBY, M. D.
CINCINNATI, Ohlo.

DAVID THURSTON, M. D.:

I believe your discovery to be a reliable therapeutic agent, and feel it my duty to recommend it. Since I have received instruction from you I have applied it in cases of Aphony, Bronchitis, Chorea, Amenorrhea, Asthma, and Congestion, and find that I have the same success that you had when I was under your instruction. I invariably recommend medical men to avail themselves of an onverting the theorems acquainted with ways are an opportunity of becoming acquainted with your new method of applying Electricity.

DETROIT, Michigan DAVID, THURSTON, M. D.

Prof. Bolles: A great revolution in my miad and practice has taken place since I became acquainted with your new discovery of applying Galvanism, Magnetism, and other modifications of Electricity as a curative agent. I have found by many experiments that Electricity is a safe therapeutic agent in all acute and chronic cases when applied according to your discovery. I desire that the resisting the control of applied according to your discovery. I desire that med OLEVELAND, Ohio. MARVIN GODDARD, M. D.

ROCHESTER, N. Y., Sept. 10, 1359.
Prof. BOLLES—DEAR SIR: The more I investigate this system of practice, the more confident I am that it is all-powerful to meet the ten thousand diseases to which fiesh is helr.
You, who first discovered Electricity to be a reliable therapeutic agent, should be considered a great benefactor of the race, for it is the only reliable system of cure for the woes and ills of suffering humanity. It is strange that physicians have become so wedded, to their several systems, brought up from the darkness of past ages, that they will close their eyes against the light now beam ing ferth through this system of practice. All other systems I regard as the morning star to the rising sun.

P. SHEDD, M. D.

Prof. BOLLES: Prof. BOLLES:

The nearer I conform to your system of application, the more successful I am, and as I have examined all the guides and works published upon the subject, and seen nothing in reference to your theory, I do not hesitate to say I believe it to be original with you, and the only religious professional states and the same of the s able system extant for curing disease. TORONTO. TORONTO.

OHAS, BANDALL, M. D.

The opinion of a medical man, after thirty years' practice, fifteen in Allopathy and fifteen in Homeopathy:

Prof. Bolles—Dran Sir: I never have, since you gave meinstruction in your new discovery of applying Electricity, and God forgive me if I in the future ever do, practice either Homecopathy or Allopathy. I have been strictly governed by the philosophy you laid down, and for the best of reasons—namely: That I am generally successful, and I frankly say to you that I am done with medicine forever.

My success has been great since I have been in Newark, N. J. JAMES P. GREVES, M. D., 206 Pine street, Philadelphia.

The repugnance of most patients to OOD-LIVER OIL, and the inability of many to take it at all, has induced various forms of disguise for its administration that are familiar to the Medical Profession. Some of them answer in special cases, but more often the vehicle neutralizes the usual effect of the Oil, proving quite as unpaistable and of less therapeutic value. The repugnance, nausea, &c., to invalids, induced by disgust of the Oil, is entirely obviated by the use of our CAPSULES. OOD-LIVER OIL OAPSULES have been much used lately in Europe, the experience there of the good results from their use in both hospital and private practice, aside from the naturally suggested advantages, are sufaside from the naturally suggested advantages, are suf-ficient to warrant our claiming the virtues we do for them, feeling assured, their use will result in benefit and deserved favor.
