FURNISHING SUPPLIES TO OUR TROOPS -INOREASED ACTIVITY, -Now that 600,000 additional troops are to be placed in the field, at short notice, the great activity at present manifested at the United. States Arsenal, on Gray's Ferry road, the branch arsenals, and the Deputy Quartermaster General's Department, of this city, will be increased ten fold. Not only will the new quota have to be supplied with clothing, camp equipage, &c., but those already in the fild will also have to be cared and provided for. This will place at the hands of the working population of Philadelphia a large amount of work. Hundreds of sewing women must necessarily be employed in making up garments, & c., for the soldiers. The Government expects much of Philadelphis, it being the main depot from which all supplies for the army are received. The Department In this city, however, has for some time back been crippled in its operations, and could not furnish goods, &c , as fast as the service demanded. In but few inoco, as last as the Service temandor. In Out town its ances has the Deputy Quartermaster General of this city been showed the privilege of having more of any particular kind of stock on hand than what was actually needed. Orders have often been made upon the department for a certain kind of article, to be furnished immentations. ment for a certain kind of article, to be furnished immediately, when no such articles were is store. Advertisements for proposals for furnishing the same must then be published, and several days chapse before the contract is awarded, and weeks are occupied by the contractor in to warding the supplies required, during which time the army may be suffering. Often it is inexpedient to advertise for certain articles, as it causes the market price to run up to a high figure because certain parties buy up the material wanter, whereas by purchasing quietly bargains could, in many cases, be secued. As an instance of this, we can mention that shortly after the breaking of the rebellion, Deputy Quantermairer General Crombau made a large purchase, at private sale, of au immense

rebellion. Deputy Quartermaster General Orosinal made a large purchase, at private sale, of an immense stock of cotton goods. In a few days after the price of cotton advanced to exorbitant rates, and there came in from all quarters a great demand for this kind of goods. There being a large let in store, the Government was thus saved thousands of dollars. And so it is with everything else needed by the Government: they should be purchased in quantities at times wheather count between the most reasonable prices. In this manner all delays would be avoided and money saved.

Doubtless it is desirable that the Government should be supplied with every needed arricle at the lowest price, and in a large open market this object can be buter attained by private inquiry than by poblic competition. When the United States and State authorities are in the market at the same time, and large quantities of materials are advertised for, often he excess of the supply, the tendency has been to stimulate prices beyond actual tendency hat been to stimulate prices beyond actual values, and induce speculative movements on the part of holders of such goods. Inquisitive people, who seek to secretain the actual casualities of battles may gain the desired information from quartermaster's proposals, free from all the penalties of the military censor. The discerning can often predict the locality of stirring events, by carefully noting the columns of the daily press, containing the records of poverty in the quartermaster's and commissary's departments. endency has been to stimulate prices beyond actu many regiments in the study of the regionic nave the privilege of inscribing upon their standards—"Too late." All the supplies needed at the branch arsenals in other cities are obtained from the department here, which will now be taxed to its utmost, and should have full powers to purchase at pleasure. There should be no restrictions to purchase at pleasure. There should be no restrictions that will act as a drawback, especial y when we have at the head of this department a man wno has been well tried, and served in this particular capacity so faithfully. By conferring the seme powers upon Polladelphia as are possessed by New York, Boston, and other cities, the working classes will reap the bone fit. The paironage beatowed will be on the relatives of these who are now enrolled in defence of the Government. Attempts have been made by other cities, at various times, to rob us of that patronage to which we are justly entitled; but th ough the exertions of cur Gorgressional Representatives this will be prevented. When the war first broke out, and for some time after, thousands of women from all parts of the city ime after, thousands of wom-n from all parts of the city locked to the Schuyikili arsenal and its various branches So great has this evil become, that the sewing women-contemplate calling a mass meeting, where a committee

RECRUITING FOR THE OLD AND NEW BEGIMENTS.—There was not much of a change in the recruiting business jesterday, although affairs around the different military headquarters were quite lively. The new regiments are doing well, but matters have come to a dead halt, so lar as the old regiments are concerned. The great drawback is said to be sending the men to hardward instanced directly to the sent of first to income. Harriaburg justems of directly to the seat of war to join the regiment for which they enlist. This difficulty will the regiment for which they enlist. This difficulty will soon be removed, however, and the old regiments will then be in a condition se compete successfully with the new organizations. The War Department has decided to send a mustering officer, a surgeon, and a diebursing officer to Philadelphia to assist in the work of filling up the old regiments. Barracks will be erected near Philadelphia, into which recruits will be sent instead of going to Harrishurg, and squads will go South direct from here. The bounty will be paid at once.

Col. Elimaker, of the Gray Reserve Begiment, has received mustering orders, which makes the five rostments tree passadelphia. They are as follows: Ool. Hecenal's, 116th; the Scott Legion, Oolonel Tippen; Zousves d'Afrique, Col Collis; Corn Exchange Regiment, Col Prevest; and Col. Elimaker's regiment. Collar regiment still takes the lead in the number of men lis' regiment still takes the lead in the number of men enrolled, and it is expected to be filled this week. The Scott Legion have about 500 men, and Heenan's regi-ment about the same number. Col. Prevost has nearly 300 men in camp, and upwards of a bundred additional names enrolled Col. Elimaker's regiment is progressing finely, and will go into camp as soon as the necessary arrangements can be made. The Keystone Artillery, P. H. G. Capt. Hastings, is to be must-red in this morning. The nine months regiments are meeting with only fair success. The McClellan Régiment, originally organized for nine months, offered to go into the Bucktail gauized for nine months, offered to go into the Bucktail
Brigade, but received an answer that the regiment could
not be accepted, but that four companies would be taken.
The subject of the draft is still the theme of coverastion among all classes. The draft upon the millitia of the
several States will call into the field the Philadelphia
Home Guards, as the act of May, 1861, organizing the
Bome Guards, provides in section 4, "That the Home
Guards hereby catablished shall be part of the militia of this Commonwealth;" siso in the act of May 15, 1861, ore genizing the Reserves, enacts section 5, "Nothing in this act thall be construed as exempting the members of the Beserve Brigade, between the eges of 18 and 45 from eing dratted into the service of the State." THE WAR-SPIRIT AMONG THE LADIES. -Ever since the breaking out of the rebellion, the loyal ladies of our notic Commonwealth have come out in a tre majesty of their womanhood and entered heart and soul into the work of taking care of the sick and wound of soul into the work of taking care of the sick and wound, divolunteers who are now bying in the hospitals in our nidst on beds of sickness, or who are suffering from wounds received in the recent engagements with the enemy. Not only do they encourage the weary, wayworn, and wounded soldier in this manner, but by their winning ways and fascinating powers the young man is influenced to lay saide the pen or the hammer and soulder the musket in this the hour of our country's next. At Crescentrille, in the Twenty assemble ward the prill. At Crescentville, in the Twenty-second ward, the it dies have been mainly instrumental in propuring the culisiment of ten able bedied young men, who joined Cillis' Zonayes yesterday morning, and considerable excitement was manifested amorg them in consequence of a young man who resides there refusing to enlist when called upon by them for that purpose.

What a vast amount of good might be accomplished, if the ladies of the country would encourage all their male friends to swell the grand army of the Union! Their influence will tend in a great measure to fill up the ranks of our brethren who are already in the field. When we refer to the days of the Revolution—to the gloomy days of Seventy-six, when our soldiers suffered innumerable in rdships—we find that the women of that age entered heart and soul into the great work, and buckled on the swords and cartridge-boxes on their sons, husbands and brothers, and bid them God speed.

How sublime the picture of a tender mother urging her son to go forth to the field of carnage, and battle for his country is honor! How beautifut to witness the young wife leaning fondly on the shoulder of her husband, clad in the uniform of his country, and bidding him God spied on his glorious mission! ril. At Crescentville, in the Twenty-second ward, the spied on his glorious mission ! These things are of every-day occurrence, and volumes might be filled with the heroic words of foud mothers, wives and daughters who have consecrated their loved ones on the alter of freedom.

NAVAL AFFAIRS .- There is at pre-Sent great activity shown in the different departments at our navy yard. The total force engaged is about 2,200 men. The vessels now at the yard undergoing repairs, &c. are as follows:

Wissahtekon.—This vessel is still lying in the stream, below the yard. During the bombardment of Grand Wissahickon.—This vessel is still lying in the stream, below the yard. During the bombardment of Grand Gulf, Miss, her boats, rigging, decks, &c., were much cut up with shot. Captain De Camp, who is an invelid, is stopping at the Washington House.

The New Tronsides—This vessel is being rapidly pushed to completion, and may possibly be ready for sea in two weeks. A portion of her armament has been placed on board. She is ugly enough to frighten the rebels ut of their propriety without firing a gun.

Mohican, guabost, is on the sectional dock for new planking and copper.

Paramese (Brazilian corvette), at the lower pier. The only repairs needed to this vessel are a good washing and fundgation, but if that were accomplished she would no longer be recognized as a Brazilian vessel no lo ger be recognized as a Brazilian vessel

Jamestown, salling corvette, is yet in the stream,

REPUBLICAN CITY CONVENTION. A nective of the Republican City Convention was held last evening, at Sixth and Sansom streets, William J. Wainwright, president, in the chair. The attendance was large. \$
The President stated that he had called the Convention together to take action on the following preamble and resolutions, which had been adopted by the Executive Committee at a previous meeting:

Committee at a previous meeting:

Whereas, In the present deplorable condition of our country, it is important to know how every man stands, whether he is opposed or in favor of the exercise of United States authorities in restoring peace to our country, particularly such as may be selected to administer the sifiant of the Government, either national, State, or mucispal;

And whereas. Much has transpired since the adoption of the rules by the Republican City Convention to make it desirable that the citizens of Philadelphia should learn, at as carly a day as possible, the kind and character of men they are to have presented to them for thoir suffrages at the coming election: therefore bo it Resolved, That the president of the Republican City Convention on Rules is beroby requested to reassemble said Convention, on Wednesday, the 6th inst, at 8 o'dlook P. M., to take into consideration the modification of the rules, with a view to an early nomination of candidates for the respective city and county offices to be filled at the ensuing election.

On motion of E. D. Southward, the Convention went into a committee of the whole, N. B. Harris, Esq., in the chair.

Mr. Southward, then offered the following sunnlement.

heir. Mr. Southward then offered the following supplemenary rules: Provided, That rules Nos 2 and 3, and all other rules inconsistent with this provise, shall not apply to the election of delegates to the City Convention for the nomination of city and county officers for the election of October, 1862, and that the Republicans of each ward shall meet at a convenient place in each ward, on the 8th day of August, 1862, at 8 o'clock P. M., and select three delegates to a City and County Convention to nominate city and county officers; and said City Convention shall most at the County Court House, on Saturday, August 9, 1862, at 3 o'clock P. M.; and all vacancies shall be filled by the Which the vacancies occur.

Resolved, further, That as many of the wards have
not elected a General Committee of Superintendence, and
as a consequence trouble and confusion has ensued, all
rules relating to the said Committee shall not apply for ruies relating to the said Committee shall not apply for the ensuing year, and that this Convention shall now proceed to select a General Committee of Superintend-ence of one member from each ward, who may or may not be a member of this Convention, and the Committee thus selected shall be the only regularly authorized Gene-ral Committee of Superintendence or it regularly and county of Philadelphia or the analysis and the county of

THE REMAINS OF A GALLANT OFFI-OER.—The remains of Capt. Thomas E. Turner, of the 4th United States Infantry, were brought to this city on Tuesday, by his father, Capt. Thomas Turner, U.S. N. The diceased was a gallant young officer, who, after going safely through the battles before Bichmond, was seized with the typhoid fever, and died at Newport, thode Island, last week. His remains were privately buried at Laurel Hill.

ARRIVAL FROM NEW ORLEANS .-The bark Isaac R. Davis, under command of Captain Hand, has arrived at this port with a large cargo from New Orleans. She has on board 250 barrels of rosin, 100 barrels of molasses, and 636 hogsheads of sugar. This arrival may be taken as an index of the revival of trade with that port, and it will go a great way towards lowering the high prices of sugar and molasses which the people have been compelled to submit to since the closing of this port. the closing of this port.

Mrs. Gen. Franz Sigel and Mrs. Gen. Carl Schurz have arrived in the city. WORTHY OF IMITATION.—We learn that Mr. George Stockberger, beef butcher, who stands in the Girard-avenue market, at the corner of Lewis street, has agreed to furnish, once a week, a sufficient quantity of meat to feed at least twenty families whose beeds may have volunteered. This is quite commendable,

CONVALESCENT PATIENTS. - During the last two or three days the provost guard has seat about two bundred convalescent patients from the diffe-rent hospitals in the city to their respective regiments in the army, and a considerable number are still at the guard-house, waiting to be forwarded to the several commands to which they belong.

THE PRIZE BRIG MASSIER.—The British brig Massier, of Nova Scotis, which was captured by the U.S. ateamer Mount Vernon on the 20th ult., off Wilmington, North Carolina, has arrived at this port. She is under the charge of Acting Master Grislow and a prize crew. She halls from Turk's Island, and has a rge cargo of salt on board.

Mr. Kimmell, of Indiana county, reported the expenditures for the month to have been \$722 21. This was disbursed mostly in small atums of one or two dollars, for the purchase of articles of immediate necessity or use. One hundred dollars of the association's money had been expended on the 'Peninsula by Mrs. James Harlan, who had also distributed there a large and valuable box of food and clothing. The money she used for the purchase of bread, onions, butter, &c.

The association sent on last Saturday week, two agents—Messrs James Kare and J. D. Nichols—with a stock of supplies to Harrison's Landing, to be distributed stock of supplies to Harrison's Landing, to be distributed to the sick, wounded, and suffering Pennsylvania selders in the Army of the Potomac. They took eight large boxes of goods, to which was added \$151.91 worth of groceries, tea, picklee, spices) onions, etc., burchased by the Executive Committee here. These agents have not yet reported. A new supply of goods will be sent there within a few days. The Executive Committee also reported the following articles as distributed in the hospitals here, at Annapolis, and at Alexandria and viciaity: 341 shirts, 220 pairs drawers, 221 towels, 51 bottes of wine, 171 cams of preserved fruit, 590 books, 110 pairs of slippers, 61 dressing gowns, 140 bis of butter, 490 pairs cotton socks, 410 hdtfs, 160 shirts, 800 pkgs lint, bandages, etc., 120 compresses, 11 blankets, 120 sacks of dried fruits, 36 pairs of weelen socks, and a vast number of minor articles too numerous to mention. The greatest aid and assistance have been extended to the committee by the co-operation of loyal and benevolent women resident or sojourning in this city. The committee cannot mention all by name, and to single out any world be invisions. Generally in their ministrations, all the visiting committees of the association have been colidally received and welcomed by the physicians in charge of hospitals. Where in one or two instances this was not the case, the Burgeon General, Wm. A. Hammond, very effectually caused all such obstacles to speedily disappear. Dr. Hammond is a man at the same time that he is a faithful officer to the Government. The Hon. E. M. Stanton, Secretary of War, has been very kind in giving, countenance and aid in all proper ways to the efforts of the association. Such is substant.

And I will here remark that most of his patients were sillicted. with long standing complaints, considered incurable all other known remedies. H. G. KIRBY, M. D. CINCINNATI, Ohio.

DAVID THURSTYN, M. D.:
I believe your discovery to be a reliable therapeutic agent, and feel it my duty to recommend it. Since I have received instruction from you I have applied it in cases of Aphony, Bronchitis, Chores, Amenorrhea, Asthma, and Congestion, and find that I have the same success that yeu had when I was under your instruction. I invariably recommend medical men to avail themselves of an operaturity of becoming according with vorty new an opportunity of becoming acquainted with your new method of applying Electricity. MARVIN GODDARD, M. D.:

Prof. Bolles: A great revolution in my mind and practice has taken place since I became acquainted with your new discovery of applying Galvanism, Magnetism, and other modifications of Electricity as a qurative agent. I have found by many experiments that Electricity is a safe therapentic agent in all acute and chronic cases when applied according to your discovery. I desire that medical man should become conversant with your discovery. al men should become conversant with your discovery, OLEVELAND, Ohio. MARVIN GODDARD, M. D.

ROOHESTER, N. Y., Sept. 10, 1859.

Prof. BOLLES—DMAR SIR: The more I investigate this system of practice, the more confident I am that it is all-powerful to meet the ten thousand diseases to which flesh is beir.

You, who first discovered Electricity to be a reliable therapeutic seent, should be considered a great benefactor of the race, for it is the only reliable system of cure for the woes and ills of suffering humanity. It is strange that physicians have become so wedded to their several systems, brought up from the darkness of past ages, that they will close their eyes against the light now beam ing forth through this system of practice. All other systems I regard as the morning star to the rising sun.

P. SHEDD, M. D. Prof. BOLLES:

The nearer I conform to your system of application the more successful I am, and as I have examined all the guides and works published upon the subject, and see nothing in reference to your theory. I do not healtate say I believe it to be original with you, and the only reliable system extent for curing disease.

TARRANT'S EFFERVESCENT SELTZER APERIENT. This valuable and popular Medicine has universally received the most favorable recommendations of the MEDICAL PROFESSION and the Public as the most EFFICIEST AND AGREEABLE

SALINE APERIENT. It may be used with the best effect in Bilieus and Febrile Diseases, Costiveness, Siol Headache, Nausea, Loss of Appetite, Indiges-tion, Acidity of the Stomach, Torpidity of the Liver, Gout, Rheumatic Affections, Gravel, Piles, AND ALL COMPLAINTS WHERE GENTLE AND COOLING APERIENT OR PUS GATIVE IS REQUIRED.

GATIVE IS REQUIRED.

It is particularly adapted to the wants of Travellers by Sea and Land, Residents in Hot Climatos, Persons of Sedentary Habits, Invalids, and Convalescents; Captains of Vessels and Planters will find it a valuable addition to their Medicine Chests. It is in the form of a Powder, carefully put up in bottles to keep in any climate, and merely requires water poured upon it to produce a de-lightful effervescing beverage.

Numerous testimonials, from professional and other gentlemen of the highest standing throughout the country, and its steadily increasing popularity for a series of years, strongly guaranty its efficacy and valuable character, and commend it to the tavorable notice of an intelligent public.

PURE COD-LIVER OIL The repugnance of most patients to OOD-LIVER OIL, and the inability of many to take it at all, has induced various forms of disguise for its administration that are familiar to the Medical Profession. Some of them answer in special cases, but more often the webticle neutralizes the usual effect of the Oil, proving quite as impalatable and of less therapeutic value. The repugnance, nauses, &c., to invalids, induced by disgust of the Oil, is entirely obviated by the use of our CAPSULES. OOD-LIVER OIL OAPSULES have been much used lately in Europe, the experience there of the good results from their use in both hospital and private practice, saide from the naturally suggested advantages, are sufficient to warrant, our claiming the virtues we do for them, feeling assured their use will result in benefit and deserved favor.
