SSE. SE I SJW. S. S. S. by E. A "MONITOR" FOR THE DELAWARE RIVER.—We understand that a movement is on foot, among some of our patriotic and public spirited citizens, to inquire into the feasibility of constructing an improved iron-clad floating battery, upon the new model of Captain Ericsson for such vessels, for the protection of the harbor of Philadelphia, and to assist our river forts in case of any future attack by a foreign fleet. The citizens of Boston recently held a meeting, and after canvassing the subject thoroughly, determined to raise a subscription sufficient to build a new Monitor, for the defence of the harbor of that city. The sum required for an improved vessel of this class was set down at two hundred thousand dollars. This, of course, is an estimate for a small vessel, but, nevertheless, one which would be very useful. Should our merchants decide to procure a Monitor for the Delaware river, we have no doubt that machinery could be attached so as to render the vessel an excellent ice-boat, and would thus keep our river free of ice in the winter, and clear of a most powerful enemy, should any Power be so desperate as to invade our nobis Delaware. Altogether, we think the idea an excellent one, and we hope that our merchants will not be slow to

In addition to all that we have said, we have no doubt that the Government would encourage the movement, possibly employ the vessel for some time in aiding to suppress the rebellion, and in times of peace hire it for revenue service, allowing the privilege to the owners of vessel to the National Government at any time. It is just as important that every one of our large seaport cities should have its iron-clad floating battery as it is that every city, seaport or inland, should have its institute or semina y for the instruction of its youth in the science and practice of the art of war. Let us have our fron-clad battery as soon as possible, by all means.

AN "EXEMPT" HOME GUARD.—In consequence of numerous enlistments from the ranks of the old Home Guard of this city, and from numerous oth causes, that organization has become almost extinct. This is a matter to be regretted, as the importance of such an organization for the defence of our city cannot be denied. Indeed, we notice among a portion of our population a sincere desire to have something in the way of a substitute for the Home Guard, and an esteemed correspondent favors us with the following plan of an organization, which we think would be competent to fulfil all the functions designed, and he a pride to the city, if properly formed and kept up in the spirit of a generous public enterprise. Our friend proposes that a real sent of infanter he raised, under the new regulations of our regular army, to consist of four battalions, numbering 2,200 men, to be well armed and equipped in the manner prescribed in the regulations of the army of the United States—each batregulations of the army of the United States—each bat-tailon to be commended by a major, and the whole by a senior major or lieutenant colonel. In addition to this, a battery of light artillery should be organized, to consist of six pieces, and one hundred aid eighty men, together with a squadron of cavalry—all equipped in good style, and forming a light origade, intended for active service at any moment. This brigade should be composed of persons exempt from drafting—such as young stan, from persons exempt from drafting—such as young men from 15 to 18 years of age, and those over 45 ; ears—who may be able bodied and capable to perform such military duty as may belong to a lieme Guard of this character. The ole to be well drilled together as a prigade, with word of mouth and bugle orders, so as to become thoroughly versed in military duty of every description. Whilst this brigade, being small, could be kept at all times full, it would at once become a sort of institution in the city, to which every one of our public-spirited citizens would be proud to belong, as much as the sitizens of Boston are proud to belong to the Ancient and Honorable Artif. lery of that city. The whole brigade could be under command of a colonel acting as brigadier general.

The force would also be sufficient in case of a riot to place an aimed scloier upon every square of our city, whits the artitle actid power and a scholar city. whilst the artillery could command all the leading avenues, and the cavalry would be ample to patrol not only

the city, but the rural districts. Again, should we be so unfortunate as to have the enemy, by any accident or disaster to our armies, threatin the city, this well-or ganized, well-disciplined Home Guard Brigade, would be of more service in repelling an attack than 10,000 undisciplined men. LIFE IN A REBEL PRISON.—Lieut. LIFE IN A REBEL PRISON.—Lieut.
Frank Parker, a Philadelphian, who was taken prisoner by the rebels, and released a short time since, gives a most distressing account of the barbarity to which he and other Union soldiers were subjected. All hands were confined at Salisbury, N. O., in a cotton mill, to which was attached six brick tenement houses, a frame barn, and three leg houses, the whole surrounded by a board fence of ten feet in height. Here were also about one thousand prisoners, Northern Union soldiers and Southern Union citizens, from Kentucky, Maryland, Virginia, Tennessee, and North Carolina. The main building contained nine hundred souls, being an average of one man to every three feet of space, eight of whom only were allowed to be out at one time for all purposes. The commandant of the post offered to allow the officers to parade the grounds attached to the buildings under a double guard, the officers giving their parole not to attempt to escape, or aid other Union prisoners in escaping, which offer was rejected by Lieut. Parker and five others.

Lieut. P. and the five who rejected the liberal offer, offer was rejected by Lieut. Parker and five others.
Lieut. P. and the five who rejected the liberal offer, were then placed in a close room, ten feet by twenty, where they were subjected to many indignities, especially at the hands of Lieut. Bradford, son of Gov. Bradford, of Maryland, who has disavowed his disloyal son. This treatment they endured until the commandant of the post was changed, A. O. Godwin, formerly a California gambler and black-leg, taking charge, who brought from Biobmond over two hundred Union prisoners, who were confined in this "black hole." Instead of their sufferings being ameliorated by the change, the tyranny was more hashfer ale than ever. This monstor, Godwin, cut down the before scant rations to six endoes of musty. down the before scant rations to six eunces of musty, maggoty pork, and fourteen ounces of sour flour, which produced the death, from actual starvation, of some of the prisoners, after which, the officers were compelled not only to feed themselves, but to furnish rations to the prisoners at their own expense. Godwin would not allow the officers to send outside for food, but started a sutler's store in the prison enclosure, and charged them for hundred per cent. more than than they could have pur-chased the same articles outside. On the 2d of July, Lieut. Spencer died of typhoid fe-ver, and the officers having requested Godwin to allow ver, and the officers having requested Godwin to allow them to give him a decent interment, were met with a flat refusal, he ordering a colored man to take him off in a cart and bory him in a tanyard, saying, a "negro slave was all the guard of honor a Northern invader deserved." On the 23d of July, the glad news was received of the cartel being signed. Godwin, after delaying their daparture as long as possible, dumped them into cattle cars and sent them to Aiken's Landing, where the steamer Star was awaiting their arrival. They were then taken to Fortress Monroe and sent North. In describing the sensations experienced in their trip down the James river, Lieut. Parker states that when they passed the United States gunboats, the crews of which cheered them justily. States gunboats, the crews of which cheered them Instily

RAILROAD MATTERS.—Among the many recenting rovements on the Pennsylvania Railroad is the construction of large reservoir at Kittaning Point, forty feet in dismeter and ten feet deep, to supply mountain engines with water. On the Ebenaburg and Gresson branch, at Blensburg, an engine house is nearly completed, twenty by sixty feet, built of wood at a cost of \$15,000. At Cenemaugh station a large coal way has been built, two hundred feet long, sixty feet wide, and sixteen feet high, with coal tipples, built of great strength, frem which engines will be supplied with coal. At Johnskown, a freight depot is being erected by S M. Ooinell, one hundred feet long and thirty-eight feet wide, and sixteen feet high, built of brick, at a cost of about \$3,000. At Homsewood, a small passenger station has been built sixteen by thirty-three feet. It is built of wood, at a cost of about \$1,000. At the outer depot, Pittsburg, a brick building, sixty by seventy feet, for a smithshop, has been erected.

It has been intimated to the directors of the Camden and Amboy what a convenience it would be to Staten Islanders if the at amboat Richard Stockton would call at one of the docks on the north side of the island, when-RAILROAD MATTERS.—Among the at one of the docks on the north side of the island, w ever a signal was made that there were passengers in waiting, or when there were passengers from South who desire to be lauded. This arrangement, costing but little treuble to the boat, and a delay of not over five minutes, would be a great accommodation. By the present arrangement, if the itockton is a few moments over the regular time in the evening, those who may desire to go to are prevented, and some fourteen miles must be travelled to enable passengers to reach home that eye-

SERENADE OF COLONEL BERRY.—On Tuesday evening, Birgfield's Brigate Band, under the auspices of a committee of merchants, serenaied Colonel Berry, the Speaker of the Maryland Legislature, who was stopping at the Continental Hotel In response to the call of the large crowd gathered in front of the hotel, Col. Berry made a speech, in which he searred his hearers that Maryland was sound in the assured his hearers that Maryland was sound in the faith, and a stronger percentage of unfluching, unswerving, undying Union men in that State than in Pennsylvania. It cost something to be a Union man in Maryland. They had some, and he was sorry to say he found in Philadelphia some, "weak backs," but in Maryland they had tight-twisted Union men, and he could assure his hearers that there could be no more nineteenths of April. They had found in Maryland, and they were beginning to find out in Philadelphia, that they must be continued to the other. We must either be for our country or against that country. Pennsylvanians and Paila. try or against that country. Pennsylvanians and Paila-delphians must get rid of the dissensions and divisions which be was sorry to find among them. They must throw aside all politics. They must lay aside all politi-cal affinities, and talk of their country, and nothing else; and when our country is restored, as restored it will be, then they can resume their former political predilections.

[Applanes.] In Maryland the Union men knew nothing of these dissensions of these political parties. They were for George B. McClellan, down to the amallest man in the lowest ronks. [Applanes.] They had come to that conclusion, and allowed to a horse forware who is a traditional control of the control of t clusion, and allowed no abuse of any one who is standing up for his country, and the quicker those in Philadelphia

come to that determination the more firmly united will we be to crush the rebellion. The speaker continued at some length, and his remarks were well received and loudly applauded. FIFTH STREET HOSPITAL.—At this hospital, yesterday morning, a meeting was held by the convalescents, and addressed by the Rev. Mr. Thomas, previous to their departure to another hospital, in the suburbs of the city. After the address by the chaplain, the following vote of thanks, by those about to leave, was torned:

"The ladies also have our beat wishes and sincere thanks for their kindness to us."

The convalescents also passed a resolution that the article published in a Sunday paper last week was false, and a gross libel on the institution. PASSING TROOPS-GENERAL CORCO-BAN AGAIN IN PHILADELPHIA.—Yesterday morning the femous New York 69th, with General Corcoran, reached this city on their return home, where they will be fully recruited, and with other regiments form a brigade. The arrival yesterday, although not generally known, was the cause of bringing an immense flock of people to the refreshment ssloons. There was a happy meeting of officers at the Cooper Shop Saloon, as follows: General Corcoran, Colonel John K. Murphy, Colonel Tippen, Colonel Heenen, and a number of captains and lieutenants. They were warmly welcomed by Dr. A. N. binger on behalf of the committee.

Beiors the 69th had taken their departure, a squad of 230 men from different States, en route for the old regiments, passed through, and almost at the same time the 9th New Hampshire arrived. The troops were passing through during the whole of Tuesday night, and the cry is "still they come." A number of regiments from New York and the East are under marching orders, and the two refreshment saloons will now be taxed to their utmot to meet the heavy pressure that will be made upon them. Our citizens should not forget that contributions of all kinds are very acceptable to those institutions just now. BAN AGAIN IN PHILADELPHIA,—Yesterday morn-

FORFEITURE OF COTTON AND WORST-ED GOODS.—In the United States District Court, before Judge Cadwalader, the following case is now progressing: United States vs. Five pieces of cotton hose, five pieces manuactured cotton and worsted, and eleven cases of cotton hose. This action is brought for the purpose of enforcing the forfeiture of the above goods, alleged to enforcing the forfeiture of the above goods, alleged to have been invoiced at a less price than the gross cost of the goods at Bremen. The goods reached this port December 1, 1860, and the time of making the entry at the custom house, three invoices were presented, and upon the face of these it appeared that a discount of three per cent. had been deducted from the gross amount. The custom house officers believing that the discount had not been actually allowed by the manufacturer; the goods were selzed, and proceedings were instituted in this court to enforce the forfeiture. o enforce the forfeiture.

A CASE OF SYMPATHY.—A Union widow lady recently arrived in this city from the shores of the Potomac, having been obliged to abandon hor home in Virginia, on account of having had what little effects she pessested stolen and destroyed by the robels. She brought with her six children, four girls and two boys. Through the justrumentality of a clergyman of this city the girls have been provided with good homes, but the boys are an unprovided for. The mother appeals to any patilotic citizen who is willing to take charge of either of the boys, learn them a trade, and bring them up in a Christian like manner. The boys are aged, respectively, thirteen and sixteen years, and would do credit to any position in which they may be placed. The mother, who has received a fine education, and seen much better days, is also willing to accept any employment that may be profered. Information as to their whereabouts may be had at this office. NATIONAL UNION CONVENTIONS.-The delegates elected on Tuesday evening to the National Union Convention will meet to-day for the purpose of making general nominations. The City Convention will assemble at Sausom street Hall this morning at 10 o'clock. The First Congressional Convention will meet at the County Court-house; the Second at Broad and Loubbard streets; the Third at Third and Willow streets, and the Fourth at Spring Garden Hall. The Legislative and Senatorial Conventions assemble at specified places in their respective districts. All, with the exception of the City Convention, convene in the evening.

DONATIONS FROM THE JUNIATA.—The people of Lewistown, in the central part of our State, bave not been unmindful of the wants of our sick and wounded volunteers. The children of a Sabbath-school near Cove Mills, acting on the suggestion of their super-interdent, J. P. Blymyr, devoted a portion of their time during the berry season to gathering and drying berries of various kinds for the use of the soldiers. In this way they collected two hundred and thirty quarts, or bushels. The school contains about one hundred children, mostly Dunkards.

BASE BALL.—Decidedly the most interesting of the series of games played between the bintual Club, of New York, and the Philadelphia Clubs, will be that which is to take place to day (Thursday), at Camac's Woods, between the Mutual and Athletic Clubs. This is the last chunce the Philadelphians will have to re-trieve the errors of the two previous games, and we hope to see a closely-contested game. Play will begin at 2½ P. M. Admittance free. Ledies invited.

LARCENIES.—Yesterday morning Mar-DARCENIES.—I ESTETIALY MOTHING MATgaret Rinder had a hearing before Alderman White,
churged i I he he larcony of \$100, the property of a women who bearded in the same house with her. She was
held in \$1,000 bail to answer.

On Tuesday night a accidier was enticed into a house in
the neighborhood of Water and Spruce atreets, and relieved of a sum of money amounting to \$200. A woman
named Mary Conney was arrested upon the charge, and
committed in default of bail to answer

FAIR FOR THE BENEFIT OF SOLDIERS. —To day and to-morrow there will be a fancy fair at Girard Hall corner of Sixth street and Girard avenue, Girard Hell corner of Sixth street and Girard avenue, the proceeds of which will be appropriated to the benefit of sick and wounded soldiers. Mary Boyer and Mary White two little misses up town, are the projectors of the fair. A hope is indulged that the will meet with the success their patriotism entitles them to.

RECEUITING.—Col. Chapman Biddle having received authority to recruit his regiment from Gor, Curtin Company K wish to obtain a few recruits Lieut. Wm Dorr, con of the Rev. Dr. Dorr, of Christ Church in this city is attached to the company, and an inductment offers in extra bounty of \$10 to each recult. Lieut. Dorr's office is at N > 405 Walnut street. THE GERMANTOWN HOSPITAL .- The the pital at Germantown is now completed and ready for the reception of sick and wounded soldiers. Dr. Darrach is the surgeon in charge of the hospital, and Dr. John Moire Liedom and Dr. Dunton attending surgeons. Centributions of money, or donations of 'fruits, jellies, &c., may be sent to the above-named gentlemen.

THE DEMOCRATIC CITY CONVENTION. This Convention resseembled yesterday morning, at n o'clock, in the National Guards' armory. Upon becen of occurs, in the National Grards' armory. Upon being called to order, the president enj-sined upon members of the body the necessity of maintaining better order than had been observed on the previous day, when the noise and confusion were most decreditable and annoying. The husbuss, immediately before the Convention being the selection of a candidate for the office of City Commissioner, the first in order on the list of Grass' Commissioner, the first in order on the list of offices, came forward and deposited twenty-five cents as his con-tribution to the fund for liquidating the expenses of the Convention. eral misunderstanding prevails among certain portions i the people of this Commonwealth, with regard to the seesors and their duties, and in some instances the seesors meet with very uncivil treatment while in the assessors meet with curve, and in some instances the assessors meet with very uncivil treatment while in the discharge of those cuties. These people should bear in mind that the assessors themselves, if between the ages of 18 and 45 years, are liable to be drafted the same as any other citizen not exempt by law; and for the benefit of all concerned, we desire to state that any attempt to interfere with or intimidate the deputy marshals in making the enrollment will be punished by the most severe penalties, and the assessors have the power to arrest such offenders. The heads of families are required to give the names of all the male members of their households between the ages of 18 and 45 years, and to answer promptly and truthfully all questions that may be asked. The assessors in a number of instances are greeted with indignant frowins, and receive surly and insolent replies to the questions asked. This should not be the case. The enrollment of the militia is one of the laws of the State, and although it has not been put into force for several years past, yet all good citizens will be governed by the law in such cases made and provided, and they should endeavor to sid the assessors by informing en those persons who may have escaped receiving their notice of excellment by misattements on attentive. should endeavor to sid the assessors by informing of those persons who may have escaped receiving their no

THE CASE OF CHARLES INGERSOLL THE CASE OF CHARLES INGERSOLL—HIS COMMITTAL—Yesterday, at noon, Charles Ingersoll, Esq., was to have appeared before Alderman Beitler to answer the charge of having preached treason at the mass meeting held in Independence Square on Saturday evening last, as preferred in the affidavit of Mr. Willard. The provost marshal of the city had, however, received orders from Washington that a new affidavit was necessary, inasmuch as the marshal had not held him under the first one, but had taken bonds fer his appearance and allowed him to depart. A new affidavit was accordisgly found necessary, and, as The Press had published the only correct report of Mr. Ingersoll's speech, as delivered, the reporter of this paper, who was present at the meeting, was summoned before the marshal. He there testified that the speech as phonographically reported by him, was correct to the letter. Upon the strength of this new affidavit Mr. Ingersoll was arrested and lodged in Moyamenaing prison. No legal proceedings will probably be taken until Mr. Ingersoll is transferred to Washington city.

MEDICINAL. WONDERFUL SCIENTIFIC DIS-WV COVERY OF PROF. O. H. BOLLES, 1220 WALNUT STREET, PHILADELPHIA. BEAD THE FOLLOWING CAREFULLY. The difference between fact and fiction, of permanently curing the sick and suffering of their diseases, or advertising to cure, and showing but little or no evidence of cures, can be well appreciated by the anxious inquirers after health, upon attentively reading the following synopsis of certificates from some of the most reliable gentlemen in Philadelphia, who were permanently cured by Prof. BOLLES. 1220 WALNUT street, and after they hed been given up as incurable by the most eminent medical men of this city;

be following is a statement of facts in reference to my The following is a statement of facts in reference to my condition and astonishing cure of Epilepsy:

For five years previous to my knowledge of Prof. C.

H. Bollee discovery of the therapeutic administration of Galvanism, Magnetism, and other modifications of Electricity for the cure of all acute and chronic diseases, I had been severely affliced with Eulepie Fits of the most obstinate character, and had abandoned all hopes of ever being cured, as I had for years tried the treatment and received the coursel of the most eminant Madiment and received the counsel of the most eminent Medi ment and received the counsel of the most ominent Medi-cal Men of the State, with, a view of obtaining relief if any could be found among the Old Schools; but all my efforts were unavailing, and, therefore, all hopes were abandoned, as I then know of no greater skill for the cure of obstinate cases than in the Old Schools. About six

of obstinate cases than in the Old Schools. About six months ago my mind was turned to investigate the new discovery of Prof. C. H. Bolles, 1220 Walnut street, and, after noticing several certificates of cures which were published, and some from persons with whom I was acquainted and knew them to be reliable, men, I was induced to call on the Professor and obtain his opinion of my case. After he had examined me about ten minutes, he frankly informed me that he could cure me, and offered to give me a written warrantee of a complete cure, and, in case of a failure, to charge me nothing. This at first seemed an impossibility; but the frankness and earnestness of the Professor convinced me of his scientific accuracy in the diagnosis of my case. He dis and carnestness of the Professor convinced me of his solentific accuracy in the diagnosis of my case. He dis closed all my sufferings and as mptoms for five years past as well as I knew them myself. I will here state, for the good of humanity, and especially those suffering as I was, that I am perfectly cured. I further would state that mere then four months have elapsed since my cure, and I have had no symptoms, and, therefore, feel condident that I am cured. I shall take pleasure in being referred of at any time by any one suffering as I was, and any information of my condition previous to my cure will be freely given to any one at 1542 North Thirteenth street, Philadelphia.

GLUTEN CAPSULES PURE COD-LIVER OIL.

The repugnance of most patients to COD-LIVER OIL. The repugnance of most patients to COD-LIVER OIL, and the inability of many to take it at all, has induced various forms of disguise for its administration that are familiar to the Medical Profession. Some of them answer in special cases, but more often the vehicle neutralizes the usual effect of the Oil, proving quite as unpalatable and of less therapeutic value. The repugnance, nausea, &c., to invalids, induced by disgust of the Oil, is entirely obviated by the use of our CAPSULES. COD-LIVER OIL CAPSULES have been much used lately in Europe, the experience there of the good results from their use in both hospital and private practice, aside from the naturally suggested advantages, are sufficient to warrant our claiming the virtues we do for them, feeling assured their use will result in benefit and deserved favor.
