A GREAT DAY AMONG THE MILITARY. -Yesterday was indeed an exciting time among our different military organizations, some of whom unexpectedly left for the scat of war, while the remainder are awaiting marching orders at any moment. The painful anxiety of our citizens to hear additional particulars from the seat of war, together with the great stir and busile at the several military headquarters, kept the city during the whole day in a great state of excitement. The during the whole day in a great state of excitement. The various rendezvous were surrounded with the friends and relatives of the soldiers who were on the point of and relatives of the soldiers who were on the point of taking their ceparture. Many affecting and heart-rending scenes were witnessed.

Olonels Prevost and Collis' regiments left for the seat of war at an *arly hour yesterday morning. Their departure was so tudden and unexpected, that quite a number of men who had furloughs were left behind. Corporals' guards were busy during the entire day in hunting up the stranglers, whe will be forwarded at ones. Yesterday the Ballimore road was engaged exclusively in the transportation of troops. Colonel Biddle is still recruiting, having received special authority to raise his regiment to the maximum number. He has now the minimum number by the addition of Octonel Davis' man. All the cash Equities and advance may are received by minimum number by the suduction of Colonic Davis man. All the cash counties and advance pay are received by the recruits joining this regiment.

A busy scene is presented at the new barracks. The amount of labor involved in uniforming and selecting the men for the different regiments is very tedious. The following are the regiments to which the new recruits are the best excepted. to be attached, and the number enlisted for each that 2d Ponnsylvania Reserves, Outone automatices. 201st, Colonel Gregory. 10

The arrival and departure of troops from a distance, at the foot of Washington avenue, tends materially to increase the futore in our midst. The present week has furnished one more epoch in the history of the Befreshment Saloons, the arrival of regiments at that noted place of regiments at that noted place. leave to-night. I resort being slinest continuous. The committees of he Refreshment Saloous have had their hands full, without a doubt. Owing to the systematic manner in which they have divided their labors, a whole regiment can easily be furnished with a meal in less than two hours. The slow pr gress of a railroad train thoroughly fatigues many of our brave volunteers, but, after partaking of the hospitalities of our Refreshment Saloons, they appear sufficiently refreshed to continue their journey. We will not pretend to measure the good done to the cause of the Union by the self-sacrificing labors of these com-mittees, but unto them will eyer be extended the coveted salutation, "Well done, good and faithful servants."
Since Saturday morning last, four regiments have
passed through our city. Their titles are as follows:
The 106th New York, Ool. S. F. Judgo. 1,040 men the 115th New York, Col. Sammons, 1,125 men; the 13th New Jeriey, Col. Cerman, 880 men, and 125th Now York. Various squads, some of them amounting to 500 men, have also pessed through, en route to join the old The regiment of Col. Tippen left last evening for the standard, the deficiency of men having been made up by an addition of a portion of Col Johnson's command. The regiment of Col. Elimaker was expected to leave lest evening, but the unpleasant state of the weather may have interfered with this intention. The regiment will, because leave this morning.

lest evening, but the unpleasant state of the weather may have interfered with this intention. The regiment will, however, leave this morning.

The number of recruits mustered into the old regiments, yesterday, though not fermidable, was nevertheless respectable, proportionately considered. Sixty nine additions were made to the veteren corps so ably representing our city on the battle-ground of the nation. That the present daily accessions may be multiplied, and remultiplied, is the earnest prayer of every patriot, and, that the promised help and succor may come right speedily, we add a most earnest amen.

THE REPUBLICAN CITY CONVENTION

—ADDRESS OF THE PRESIDENT.—We present the following report of the address delivered to the Republican City Convention by its President, Dr. Gregg, on Saturday last:

In and Sloan. Contributions in money, shirts, draw-ers, horpital stores in general, and the names of any who have it in their power to lave, may be sent to George H. Stuart, Esq., Chairman of Christian Commission: I have instructions from the War Department regarding parties going to aid the wounded of the site by the I will order all tickets by you for this object to be recognized without pay, by parties holding, and will arrange the same with the Government. I have just returned from Washington, and am satisfied that a large number can accomplish great good by labor among the wounded, if promptly present.

About 360 recently appointed surgeons took their department from Broad and Prime streets on Sunday night. Some of them resided in this city, and others were from the country. More are expected to follow immediately. Saturday last GENTLEMEN: I regret exceedingly the circumstances and condition of things under which we have met this I had hoped those who have been string to us. "save

our profess for Union, and recognizing us and our principles. The Republican party is not only the national sarty, but it is the loval party of the nation, and they have a right to demand recognition here in Philadelphia. I think there is not a sentleman in this Convention who will not agree with me. There ought to be but one ticket put in the field in this city against the Democracy; and I feel certain such is the desire of all who favor the present National Administration, and who wish to see this atroctous rebellion speedily ended, and I think the people will hold to a fearful account any party, or body of men, who, for the sake or securing to themselves a few offices in this city, shall throw obstacles in the way of a united and harmonious ticket. Now, how is it with the Espublicans? Are they innocent or guilty of this offence? In the first place, is it principle or office for which they are contending? If I understand this contest, it is that our principles shall be recognized by those who wish to use us for their own aggrandizement. And as a proof of use us (or their own aggrandizement. And as a proof of such recognition, we asked to have placed upon the ticket some of those in whom we have confidence; men who acknowledge themselves to be of us, and who openly avow themselves in favor of our principles. Is there anything wrong in that? Are we to be compelled to supanything wrong in that? Are we'to be compelled is sup-port men who ignore and repudiate us, merely because we have the honesty to declare ourselves of the Republican parly?—the great party of the nation—the party that is now administering the affairs of the National Govern-ment—the party that is in power in almost every free and loyal State in the Union. Shall we be made the mere hewers of wood and drawers of water to these men, because they assume to themselves greater numerical. because they assume to themselves greater numerical strength than the Republicans in this single locality, while throughout the State and the country they been no comparison in point of numbers? Several times we have been requested by the People's party to unite with them in forming a ticket in opposition to those in our midst who sympath'z with the rebels, and on every such occa-tion, we have done all we could to harmonize these two elements, but failed; and I leave it to these scramblers for "office to answer to the people for the failure; for to

for "onics to answer to the people for the lattice; for to them it belongs, and not to us.

It now rests with this Convention to decide what course it is best for us to pursue. Under ordinary circumstances there would be very little difficulty in deciding the question. But in these critical times, when our country is bledding at every pore; when we are struggling for our right; and liberties, and for the very life of the nature than the question becomes a most momentum same. gling for our right: and liberties, and for the very life of the nation, the question becomes a most momentous one. We are called disorgarisers, but it is only because we asked the privilege of naming some of the men for whom we are asked to yote. The opinion seems to have gene abroad that the Republicans have no business to exercise any political rights here in Philadelphia, except to yote as we are bid. If we do, we are immediately pursued with the senseless cry of disorganizers. The same charge might have been, and, I think, was brought against us in 1855 and '56, when the Republican party was first organized. And I think, gentlemen, it would not be amiss to Icok back for a moment to that period.

The Republican party began to loom up as a mere spech above the political horizon, in 1854 and '55, and, in 1856, heade and the fact and, in the month of June, of that year, was permanently erganized, and from that

Rese, became a fixed fact; and, in the month of June, of that year, was permanently erganized, and from that moment grew as no political party ever grew in this country before. Ard why? Why did the Bepublican party arrive at such gigantic proportions in such an unprecedentedly short time? Because they fearlessly declared their determined hostility to the spread of that blighting curse of the land—slavery—giving an undisquised preference for freedom and free institutions. That it was, containing that favorable at the month of the land. ference for freedom and free institutions. That it was, gentlemen, that gave such a talismanic cherm to the Bepublican party, and caused it to become the dominant party of the country. The idea of freedom, of liberty, has a powerful effect upon the minds of men. Every man prefers it for himself, at all times and under all circumstances, and would desire every other minist enjoy the blessed born, if the moral sentiment has not been blotted from his soul by crine or selfishness.

Gentlemen, if the Republican party of this city had not turned aside from that great and holy, principle with which they set sail in 1856, to unite with others who had no feeling in common with us, I think we would to day feeling in common with us, I think we would to day have been much stronger than we are.

I repeat, gentlemen, this for you to say, whether in the present condition of our country, when every man is bound to come to the rescue, with all the strength, means, and influence he possesses, you vill. lay aside your principles, and again fraternize with those who are unwilling to acknowledge you as equals, and place un-reliable men in power in this city, or if you will now pro-seed to complete the work for which you were elected, and present to the voters of Philadelphia a ticket com-

posed of men about whose principles there can be no doubt; men who are not only now, but have been from the first, firm supporters of the Administration of Abraam Lincoln. and who will have none others around ham Lincoln, and who will have none others around them; and who believe in "Liberty and Union, now and forever."

I feel constrained, gentlemen, to detain you a mounent longer, while I notice a card issued a few cays ago by our caudidate (that was) for Mayor. Mr. Briggs, in speaking of the Mayoralty, says: "The popular voice has already indicated who the candidate will be. And I can only add," he goes on to say, "that I will give to him and the collegare or the ticket a hearty surgert. I him and his colleagues on the ticket a hearty support. I will work for them, speak for them during the campaign, and finally vote for them."

Mr. Briggs further says: "During the present distracted condition of our country, I feel it my duty to forego party considerations, and to contribute my efforts, humble as they are, in a pport of the National Administration, in the her culean laber to crush the rebellion. This I cannot do by adhering to the nomination conterred upon cannot do by adhering to the nomination conterred upon me. Its tendency would be to distract and divide those who should be friends and colaborers, and probably result in the defeat of the adherents of the National Administration. A calamity," says Mr. Briggs, "the consequences of which none can foretell." Now, gentlemen, you see no met the made in Mr. Briggs' letter of acceptance published but a few days ago, of any of these calamities of which he now seems to have so much dread. What has opened the gentleman's eyes so suddenly? Was it the offer which he told a member of this Convention had been made to him by the People's party to give him a position upon their ticket if he would deeline the ilm a position upon their ticket if he would desline the Did Mr. Briggs not know that the present incumbent was the popular candidate of the People's party when he

Did Mr. Briggs not know that the present incumbent was the popular candidate of the People's party when he selicited, and worked so hard to secure, the nomination for Mayor from the Republican party? Did he not know our country was in a distracted condition when he said Mayor Henry must be defeated at all hazards, which he has said over and over again within the last few weeks? Did Mr Briggs think he would forego party considerations that he might contribute his humble efforts and support to the National Administration when he said he would not suffer his name taken from the Republican ticket, even did he not get five votes in all the city? Did he not think adhering to the Republican nomination would have a tendency to distract the National Administration when he said, "I will" "play Samson, and pull down upon them the gates of Gasa?" Now, gentiemen, I think it should be known, not only to all Republicans, but every one who has read Mr Briggs letter deciloing our nomination, that he has done as much as any other man to encourage the Republicans to do just what they, have done, and that he used all his influence to obtain a position on their ticket. And now, after having secured to himself the nomination for the highest office in the gift of the citizens of Philadelphia, he turns and rejects it, as though it had been thrust upon him without his wish or consent, and by his language would seem to cast a doubt upon the loyalty and patriotism of the Republican party. I will take the liberty of saying to Mr. Briggs, if the Republican party is not loyal, then it will take something more than the patriotism of the would be Solicitor of Philadelphia to save.us.

Save.us.

Had Mr. Briggs had the good fortune to obtain the nomination for City Solicitor, for which he bid so high. I do not it ink a single true Republican, who is so from principle and love of country, and not love of office, would have cast their vote for him at the coming election. THE CASE OF CHARLES INGERSOLL. THE CASE OF CHARLES INGERSOLL.

HIR BELEASE BY ORDER OF THE WAB DEPARTMENT.—The third hearing in the case of Charles
Ingersoll, charged with using language calculated to
discourage enlistments, took place yesterday morning.
The proceedings commenced at 11 o'clock, 'ex. Judge
Knox appearing as counsel for the Marshal.

United States District Attorney Coffey stated to the
court that on Saturday an order had been received from
Secretary of War Stanton discharging. Mr. Ingersoll,
and therefore he, as counsel for the United States, had
nothing further to do with the case. He referred to
Judge Knox as representing the Marshal individually.

Judge Cadwalader said he would like to have either a
return to the writ, or a statement from the counsel for
the prisoner that the writ had been withdrawn. The
case had been somewhat delayed for the purpose of
saffording time and opportunity to the officers of the law, and he now desired an understanding as to whether the with had been withdrawn.
Judge Knox stated he had understood that the counsel for the prisoner, in view of his unconditional discharge, had withdrawn the writ. If this was incorrect, however, and the counsel for Mr. Ingersoil did not agree to an arrangement, then the Marshal would be required to make return.

to an arrangement, then the marsan would be required to make return.

After the lapse of a short time, Judge Knox handed to the court the following return:

To the Hom. John Cadwalader, Judge of the District.

Court of the United States.

Sir: 1, William Millward, Marshal of the United States for the Eastern District of Pennsylvania, do certify before the coming of this writ of habeas corpus the within named Charles Ingersoil was delivered into mycustody by William H. Kern, the Provost Marshal of this city, fir. the United States, accompanied by an affidavit, uren which the said Charles Ingersoil was arrested by the Provost Marshal, which affidavit, together with a report of the arrest, was sent by me to Major L. C. Turner, Judge Advocate, Washington, D. C., in pursuance of a general order from the War Department, and that on Saturday, the 30th August last past, a telegraphic despatch was received by me from the said L. C. Turner, Judge Advocate, directing me, by order of the Secretary

despatch was received by me from the said L. O. Turner,
Judge Advocate, directing me, by order of the Secretary
of War, to release the said Charles Ingersoll from custcdy, of which he has been notified and released in pursuance of said order, and is not restrained from his
liberty.

PHILADBLPHIA, Sept. 1, 1862.
After receiving the return Judge Cadwalader said:
The purpose of the proceedings under arrest of habeas
corpus is accomplished when the party, whose personal
liberty has been restrained, is effectually discharged from
confinement. Its purpose is not to obtain redress or indemnity for the imprisonment, if it has been unlawful.
The present return, therefore, appears to me to terminate the proceedings. As the petitioner is not now under
any restraint of his personal freedom, an expression by
me of an opinion as to the sufficiency of the reasons alleged for the original imprisonment and detention would, me of an opinion as to the sufficiency of the reasons alleged for the original imprisonment and detention would. I think, be out of place. The official character of the rersons to whom the writ is directed might possibly have made this case an exception from the general truth of the last remark, if the case had been argued before me, so as to warrant the expression of an opinion. But there has not been any such argument.

I therefore, inasmuch as the marshal returns that the petitioner is not under restraint, inform him that he is at liberty to depart, and go whither he may please.

When the decision was announced there was some slight applause in the court-room. It was promptly stopped by the judge.

THE SHERIFF CONTESTED-ELECTION CASE.—Yesterday morning, in the Quarter Sessions, Judges Thompson and Ludlow, the hearing of this case, which has already occupied sufficient time, was resumed. The court met in the Common Pleas room, which, during the recess, has been entirely renovated.

James Sharkey was the first witness. He was offered to prove that there were no scratched tickets for sheriff yound in the third precinct of the Twenty-first ward at the last election. the last election.

Peter J. Ward was the next witness. He testified that he was inspector in the third division, Twenty-first ward, at the last election, and that he voted the abort county ticket, containing the name of Robert Ewing for sheriff; the long county ticket had John Thompson's name on it; William Malone voted in that precinct on election day for Robert Ewing; witness gave him the ticket.

Numerous other witnesses were examined, some of whom did not even know for whom they voted for sheriff. The examination is both tedious and slow, and promises to smount to about the same as the evidence elicited before the adjournment of the court.

NURSES AND SURGEONS FOR WASH-NURSES AND CURGEONS FOR WASH-INGTON.—Our patriotic citizens have nobly responded to the call for nurses and aurgeons, whose services are so much needed at present. In addition to the deputation from the Christian Commission which started down to Washington on Saturday evening, another committee left at noon pesterday, upon the reception of a despatch from the President of the Baltimore and Ohio Bailroad. Among the committee were Rev. Meggrs. Bringhurst, Yele, and Sloan. Contributions in money, shirts, drawgrs, hornital stores in general, and the names of any who

in making up hospital garments. SHOCKING DEATH.—On Sunday night the friends of Robert Hennessey, a private in Col. Prevost's regiment, presented him with a seven-shooter pistol, at the house of his brother-in-law, in Anita street, near Tenth and Prime streets. Hennessey was to leave yesterday with his regiment, and the presentation on Sunday night was, therefore, necessary. After it had been presented to him, a young man in the room named Frank Rodgers took it in his hand to examine it. Unfortunately, the pistol was loaded, and as Rodgers pulled the trigger, unwittingly, a ball shot out, nigroing through fortunately, the place that the trigger unwittingly, a ball shot out, piercing through the eye of James O'F eill, who was instantly lilled. "THE SAUNDERS CADETS" will, DR. WISHART'S PINE TREE TAR CORDIAL. as heretofore, receive the best of Military Instruction one hour daily. Address pau30-im. Prof. E. D. SAUNDERS. NATURE'S GREAT REMEDY FOR ALL DISEASES OF THE THROAT AND LUNGS.

> Have you a Cough? Have you Sore Throat? Have you any of the premonitory symptoms of that most fatal disease. Consumption ? Those who should be warned by these symptoms gene rally think lightly of them until it is too late. From this fact, perhaps more than any other, arises the sad prevalence and fatality of a disease which sweeps to the

graye at least one-sixth of Death's victims.

What are its symptoms?

It usually begins with a short, dry cough, which soon ecomes habitual, but for some time nothing is raised except a frothy mucus. The breathing is somewhat difficult, and upon slight exercise much hurried. A sensef tightness and oppression at the chess is often felt. As afflicted with loss of appetite, great languor, indolence, and dejection of spirits; and may continue in this state for a considerable length of time, but is very readily affected by slight exposure or fatigue. If these occur, the cough becomes more troublesome, and is attended with xpectoration, which is most copious and free very early n the morning. It is sometimes streaked with blocd. At this stage night-sweats usually set in, and in some ases a profuse bleeding of the lungs may also occur. Pain in some part of the chest is felt, and often a diffioulty of lying upon one or the other side, without severe fits of coughing or a sense of fullness or suffication, is experienced. The pulse becomes full, hard, and frequent, the hectic flush tinges the cheeks, and the dire malady is

You now ask, "Is there a cure?" Consumption has been and can be cured by the use of by Tar Cordial, even in apparently hopeless cases. This from men and women of unquestionable worth and reputation. I have had a number of these certificates printed in circular form, which I will send you free on application. Whether you now determine to try the medicine or not, send for the circular. After years of study and experiment, I offer this medicine, believing it to be the best emedy for all pulmonary and bronchial diseases. If on cannot be benefited by the use of the Tar Cordial, I believe you are beyond all earthly aid. Yet if there are better curative agents, I carneally advice their use. The best remedies, the best care, are needed by those afflicted with this disease. Because I believe this to be the best, I

Many, not only of the people, but physicians of every school and practice, are daily asking me, "What is the principle or cause of your great success in the treatment ef Pulmonary Consumption?" My answer is this: The invigoration of the digestive organs—the strengthening of the debilitated system—the purification and encorruption which scrofuls breeds. While this is effected by the powerful alterative (changing from disease to health) properties of the Tar Cordial, its healing and renovating principle is also acting upon the irritated surand restoring a healthful tendency. Let this two-fold power, the healing and the strengthening, continue to act n conjunction with Nature's constant recuperative tenlency, and the patient is saved, if he has not too long de-

aved a resort to the means of cure. The Pine Tree Tar Cordial will cure Coughs, Sore Phroat and Breast, Bronchitis, Asthma, Croup, Hooping Cough, Diptheria, and is also an excellent remedy for diseases of the kidneys, and female complaints. Sold wholesale and retail at my Medicinal Depot, N.

A POSITIVE CURE FOR DYSPEPSIA

THE GREAT AMERICAN DYSPEPSIA PILL.

A Cure warranted for \$1, or the money re-WHAT IS DYSPEPSIA?

Dyspensia has the following symptoms: 1st. A constant pain or uneasiness at the pit of the stomach, which is caused by a permanent contraction of the stomach upon undigested food. It generally begins immediately, or a short time after eating; is often very severe and obstinate. 2d. Flatulence and Acidity. These symptoms arise from the indigention of food, which ferments instead of digesting.

3d. Costiveness and Loss of Appetite .- These symptoms are the effects of the unnatural condition of food in the stomach, and the want of pure bile and gastric juice. The stomach is often painfully distended by wind: the appetite is sometimes voracious. 4th. Gloom and Depression of Spirits.-This state

unfits many for the enjoyment of life, and is caused by the impure blood furnished by imperfect digestion. In this stage of the disease many persons commit suicide. There is a constant foreboding of evil, and an indifference and positive inability to perform the offices of life. 5th. Diarrhea - After being at first costive, the sufferer is afflicted with diarrhoss, which is owing to a diseased condition of the bowels, produced by the undigested food, which is evacuated in the same condition as when esten, and, of course, gives no strength to the

6th. Pains in all parts of the system arise from the action of impure blood upon the nerves. They are felt chiefly in the head, sides, and breast, and in the extremities. In many cases there is an uneasiness in the throat, with a sense of choking or suffocation. The mouth is often clammy, with a bad taste and furred tongue. 7th. Consumptive Symptoms and Palpitation of the Heart.-Many persons pronounced as having these

diseases have, in fact, nothing but Dyspepsia, the lung and heart disease being only symptoms. 8th. Cough.—This is a very frequent symptom of Dyspepsis, and leads very often into confirmed consump-

It is impossible for us to give all the symptoms of Dyspersia in so small a space, but the above are conidered sufficient—if we add that the patient loses his memory and attention to surrounding objects, and frequently becomes morose and sour in disposition. Wa should say, however, that pains in the joints and stiffness of the limbs, which go by the name of rheumatism and neuralgia, are very often produced by Dyspensia. MEDICINAL. WONDERFUL SCIENTIFIC DIS-

WONDERFUL SCIENTIFIC DISCOVERY OF PROF. C. H. BOLLES. 1220
WALNUT STREET, PHILADELPHIA.

READ THE FOLLOWING OAREFULLY.

The difference between fact and fiction, of permanently curing the sick and suffering of their diseases, or advertising to cure, and showing but little or no evidence of cures, can be well appreciated by the anxious inquirors after health, upon attentively reading the following synopsis of certificates from some of the most reliable gentlemen in Philadelphia, who were permanently oured by Prof. BOLLES; 1220 WALNUT street, and after they had been gives up as incurable by the most eminent medical men of this city:

The following is a statement of facts in reference to my condition and astonishing cure of Epilopsy:

For five years previous to my knowledge of Prof. C.

H. Bolics' discovery of the therapeutic administration of Galvanism, Magnetism, and other modifications of Electricity for the cure of all acute and chronic diseases, I had been severely afflicted with Epilop'ic Fits of the most obstinate character, and had abandoned all hopes of ever being cured, as I had for years tried the treatment and received the counsel of the most eminent Medicel Men of the State, with a view of obtaining reliaf if any capild be found among the Old Schools; but all my efforts were unavailing, and, therefore, all hopes were abandoned, as I then knew of no greater skill for the oure of obstinate cases than in the Old Schools. About six months agon my mind was turned to investigate the new abandoned, as I then knew of no greater skill for the oure of obstinate cases than in the Old Schools. About six months ago my mind was turned to investigate the new discovery of Prof. C. H. Bolles, 1220 Walnut street, and, after noticing several sertificates of cures which were published, and some from persons with whom I was acquainted and knew them to be reliable men, I was induced to call on the Professor and obtain his opinion of my case. After he had examined me about ten minutes, he frankly informed me that he could cure me, and offered to give me a written warrantee of a complete cure, and, in case of a failure, to charge me nothing. This at first seemed an impossibility; but the frankness and earnestness of the Professor convinced me of his scientific accuracy in the disposis of my case. He dis scientific accuracy in the diagnosis of my case. He discolosed all my sufferings and symptoms for five years past as well as I knew them myself. I will here state, for the

as well as I knew them myself. I will here state, for the good of humanity, and especially those suffering as I was, that I am perfectly cured. I further would state that mere than four months have elapsed since my cure, and I have had no symptoms, and, therefore, feel confident that I am cured. I shall take pleasure in being referred of at any time by any one suffering as I was, and any information of my condition previous to my cure will be freely given to any one at 1542 North Thirteenth street, Philadelphia.

N. B.—In addition to the above cases cured, Prof. C.

H. BOLLES has cured two thousand Chronic and Acute cases within less than three years in Philadelphia, all of which cases had resisted the treatment of the most emigrant medical men. ent medical men.
Please take notice that Prof. B. does not advertise any ertificates of cures, except those cured in this city.

Prof. B. has established himself for life in this city, and his success in treatifg the sick is a sufficient guaranty that he claims nothing but scientific facts in his discevery in the use of Electricity as a reliable therapeutic

agent.
N. B.—It will be well for the diseased to recollect that N. B.—It will be well for the diseased to recollect that Prof. B. has given a wordfol caution in his pamphlet, to guard them against trusting their health in the hands of those in this city claiming to treat diseases according to his discovery. This caution may seem severe on those using Electricity at hazard, but it is the severity of truth, and designed for the good of humanity. See advertisement in another column.

The repugnance of most patients to OOD-LIVER OIL, and the inability of many to take it at all, has induced various forms of diaguise for its administration that are familiar to the Medical Profession. Some of them answer in special cases, but more often the vehicle neutralizes the usual effect of the Oil, proving quite as unpalatable and of less therapoutic value. The repugnance, nauses, &c., to invalide, induced by disgust of the Oil, is entirely obviated by the use of our CAPSULES. COD-LIVER OIL CAPSULES have been much used lately in Europe, the experience there of the good results from their use in both hospital and private practice, saide from the naturally suggested advantages, are sufficient to warrant our claiming the virtues we do for them, feeling assured their use will result in benefit and deserved favor.
