The supply of winreses for yesterday was finally exhausted—there being some ten or twelve who, as usual, were not present. Judge Thompson then stated that the respondent's case must be concluded by Saturday, as enough time had been occupied in the examination of witnesses. The court then adjourned. As nothing of importance has been elicited in this tedious examination, and as the Supreme Court has declared the army vote unconstitutional, it is now generally conceded that Alderman John Thompson will take the place of the present

That if the Government of the United States desire the services of the colored people, and will give assurances of those rights accorded to other men, we will be found as loyal and as patriotic as were our tathers in the Bevolution and in 1812. RECRUITING FOR THE NAVY AND MA-RINE CORPS — The average daily muster of recruits for the navy during the past week has not equalled the usual segregate for some time previous. The enlitements per day no longer range among the teens, nor will they be likely to attain a very high figure while the fear of a draft remains among the things that were The recent large accessions to the naval recruiting list, in view of the existing circumstances, has demonsterated the fact of a decided preference among many of our community for the navy over the army service. Doubtless the advent of the 15th inst. (the period fixed for the draft) will create another commotion about the office of the shipping agent. At present the fever for getting about ship appears to be simmering down, but, we trust, only to be more than ever thoroughly revived. By the report of D. S. Connel, medical steward and doctor, we find that during the past week about ten recruits daily have passed a surgical examination. Of this number nearly The order lately is ned by the Navy Department, di-

recting the discontinuance of greg rations, goes into effect during the present week. Like all other reforms in our naval system, the order finds many carnest opponents among those mostly interested. It is argued, in behalf of the new regulation, that as the hardships of esmen on beard steamers are not comparable with what they were on salling vessels, there is no longer the need of stimulants that formerly existed. Recruiting for the marine service continues brisk as usual; from seven to nide recruits are mustered in daily at the office of Captain M. K. Kintzine, No. 311 South Front street. An inspection of the registry of names Front street. An inspection of the registry of names and occupations of those accepted for the month of August shows a general preponderance of mechanics, farmers, and clerks, the total being 194 names. Upon being mustered in, the recruit is immediately despatched to the navy yard, where he is furnished with guitable clothing, and from thence forwarded to Washington, where he is instructed and drilled for the performance of the duties to be required of him. From Washington, the recruits are detailed on whatever vessels may be fitting out for sea. Every facility is afforded by the recruiting officer to those desirous of enlisting in this particular service, provision is made for the paymeat of travelling expenses of recruits from the country, as also travelling expenses of recruits from the country, as also for the incidental expenses attending the enliatment of recruits generally. The bounty of \$100, awarded by the Government, is raid to each man at the expiration of two years. The prover authority is also empowered to pay out, periodically, as it becomes due, one-half of each month's pay (amounting to \$7.50) to the family of any recruit so desiring. Enlistments are made for a term not exceeding four years, but upon returning from a cruise, at the expiration of two and a half or three

years, a discharge may be obtained if applied for

Rolles, who was killed at the late eather of Bull Run while acting as brigadier general, command-ing First Brigade of General Steinwehr's division, will probably arrive in this city to day. The angel of death is reaping a rich harvest in the valley of Virginia, and thousands of our country's brightest jewels have been sacrificed in the sifort of crushing this gigo-nic robelilon. CURIOUS STATISTICS OF INSANITY. UURIOUS STATISTIOS OF INSANITY.—
In times of war, and during periods of great political excitement, when 1 coplement with sudden pecuniary reverses and undramed of changes are made in families, the mental diseas. in a community is greatly increased. From the last report of Dr. Kirkbride, superintendent of the Penne ivania Asylum for the Iusane, we gather some remarkable facts. It appears, from carefully-prepared statistics of that institution, that out of 1,902 male patients who have been received from its opening in 1841 to the present time, the larger proportion have come from the ranks of the merchants, farmers, and laborers. The figures are as follows: Farmers, 237, merchants, 192; laborers, 152. A similar proportion is observable among the female patients, for out of a total of 1,761 women in the Asylum 255 were wives and daughters of farmers. the Asylum 255 were wives and daughters of farmers, 200 wives and daughters of merchants, and 124 wives and 200 wives and daughters of merchants, and 124 wives and daughters of laborers.

This large per centage shows that professional men are less subject to insanity than those who have more physical exercise and less tension of the brain than they. Of lawyers, there were in the Fennsylvania Asylum but 34 out of 1,992 patients; of clergymen, but 25; of artists, 17; and of physicians, 39. Among the students, however, 66 out of 1,992 were insane.

Eighteen printers were admitted into the Asylum in twenty wears, loggither with one hairdresser, one potter Mighteen printers were admitted into the Asylum in twenty years, together with one hairdresser, one potter, one author, one waiter, six hatters, eight confectioners, twenty-nine planters, and forty-six seaman. The whole number of males and females admitted was 3,763, and the greatest number of cares were caused, first, by ill-health of various kinds, next by intemperance, third by mental auxiety, fourth by grief, and fifth by loss of prosserity. From these five causes 1,414 out of 3,763 persons became insane. These facts are curious and interesting.

BECKIVED AT INDEPENDENCE HALL. Total to close of Tuesday.....\$459,776

Within a few weeks, and during the "holidays," some children living in the lower part of the city conceived the idea of xetting up a "fair" in aid of the sick and wounded soldiers. It was not long before the idea was put in motion by little heads and little hands, prompted by the generous impulses of little hearts, and soon resulted in a goodly collection of useful and beautiful articles. The school-room of the cld Swedes' Church was obtained to display and dispose or the articles thus furnished. The net proceeds realized over seventy-five dollars, which amount was handed over to the managers of the "Hemcopathic Hespital," for the use of that institution, now about going into operation, on Outhbert street, west of Eleventh. Here seemed to be the crowning pleasure of all their youthful efforts. The bright smiles which lit up their faces told unmistakably of the inmost satisfaction which it afforded them to contribute thus to the wants of those who, for their country's good, went forth from kind friends to endure the privations of camp life and the dangers of the battle-field. May their good example be imitated by others.

A fair was also held by children, a few days since, at 905 Lombard street, and the sum of \$10 60 was realized. The money will be devoted to the hospitals.

The "Ladies' Aid Society," of Bristol, hold weekly meetings, at which large amounts of hospitals stores are made and sent to our brave boys in Virginia. Last Friday a fair was beld for the benefit of the society, by six little girls, between the ages of seven and fourtern, who, with patriotic hearts, shought that while fathers and brothers were fighting their hands should not be idle. The proceeds-exceeded their utmost expectations, amounting to \$103.75. The money was paid over to the GOOD WORK OF THE LITTLE ONES -

THE COLORED PROPLE AND THE WAR.—A called meeting of the male members and congregation of the African Methodist Episcopal Church, in this city, was held at the Bethel Meeting House, a few days since, for the be upose of taking some action as regards their connection with the present robellion.

On motion, the Bev. Jabez Campbell was called to the chair, and Lewis R. Seymour was appointed secretary. The president, on taking the chair, stated that the opisions and sentiments of their position in the present crisis, and to countered any impressions that may be made, by persons who profess to represent the opisions and sentiments of the colored people in the city and State.

EHAM SICKNESS OF VOLUNTEERS.-The fame of the hospitals attached to our Volunteer Re-freshment Saloons, having gone abroad in the land, has induced certain volunteers to feign sickness for the pur-pose of receiving other than ordinary soldiers fare and treatment. Within a few days, we are informed that it was observed by Dr. Ward, that seven men of one com-pany from New York were all afflicted with one and the same pulmonary complaint, by their own words, but the usual symptoms of such disease were in every case wanting. These men were taken to the hospital, and after a short stay six of them were sent forward. The seventh sor, being wiser than the rest, remained in his bed and so completely blinded the kind ladies in charge that they so completely blinded the kind ladies in charge that they believed him to be dying; read the Scriptures to him; took down his last message to his wife. About this time Dr. Ward came in, and dismissing the ladies under some pretext, approached the dying (1) man and gave him a sovere pitch in the arm. No response was elicited, but the soldier winced a little. Satisfied with the experiment the Doctor gave him another pinch, at the sametime saying, "This thing is about played out; you must get up and go with your company." In an instant our soldier was all life, and exclaimed; "I'll be — if I go, I want to stay here." The result was that the soldier's dreams of good hospital fare were dispelled at once and he was sent southward to the army.

sent southward to the army. THE ENROLLMENT.—According to a ectice, issued by Marshal Millward, the deputy marshals engaged in taking the enrollment were to have reported at moon yesterday. At that time two hundred and one of the assessors had reported, leaving thirteen yet to be heard from. This notice only applied to those engaged in enrolling the citizens of the county of Philadelphia, which contains two hundred and fourteen precincts. After the assessors hand in their returns, a vast amount of labor will yet remain to be perfermed. Fome of them have enrolled the names of all the male inhabitants of certain precincts ever eighteen. The consequence is that the returns contain the names of many individuals over forty-five years of ago. Besides this, the names of those who are now serving in the ranks will also have to be sleeted, and the list forwarded to Harrisburg. By means of this information, the quots of Philadelphia will be determined. The assessors that failed to report yesterday have been notified to do so to day wittout fail.

We learn that the total number of enrolled men in Chester county is 13,367. The number of men in this enrollment who are already in the field is not yet made out. It is estimated at from 2,500 to 3,000. engaged in taking the enrollment were to have reported out. It is estimated at from 2,500 to 3,000,

The Corn Exchange Regiment and the Zenaves d'Afrique left on Monday morning. The Scott Legion left on Monday evening, and the Gray Reserves left about 4 o'clo.k yesterday merning. —From information received in this city from the provost marshal of Beltimore, a man, named James Haslem, was arrested by Detective Bartholomew, upon the ckarge of being a rebel mail-carrier. It is alleged that the prisoner was seen to cross the Potomac and return with numerous letters. No evidences of his profession were found on him when arrested, except eighteen counterfeit bank notes, on the Union Bank of Pennsylvania; Southpot Bank of Connecticut; and Bank of Commerce of New York. He was committed, in default of \$5,000 bell, for a further hearing. EFFECTS OF RUM. - Yesterday afternoon a man, named John McGlithery, was before Alderman Beitler upon the charge of breaking a window glass worth forty dollars. It seems that McGlithery was drupk, and while postling with another man pushed him through the window. The prisoner, at the time of the hearing, had not fully recovered from the stupefying (ffects of the liquor, and did not seem to understand for what he had been arrested. When informed by the alderman that he would have to give bail in the sum of \$400 to answer the charge, he raphed that that was a very high price for a wane of class. very high price for a pane of glass.

OUR VOLUNTEER REFRESHMENT SA-OUR VOLUNTEER REFRESHMENT SA-LOONS.—During the past three days, the noble band of lacies and gentlemen connected with the Volunteer Re-freebment Saloens have had arduous duties to perform. Regiments, companies, and equads are constantly arfi-ving, and receive a good supply of edibles. The large crowd always assembled at the saloens to see the troops as riously inferiers with the operations of the committees. The soldiers from the East look forward with considera-ble interest to their arrival in this city, as they know fall well the hearty welcome that awaits them. A similar return of thanks was also extended to the Union Volunteer Refreshment Committee.
Our clitzens should bear in mind the number of regiments that pass through, and the soldiers that are fed daily, and contribute as liberally as possible to the support of these noble organizations. THE QUAKERS AND THE DRAFT. Considerable discussion, is going on at the present time relative to Quakers, or members of the Society of Friends, being exempt from draft. They have thus far aided materially in the good work of crushing out the rebellion. By referring to the bounty lists published from day to day, we find the names of a number of persons connected with this class of our community who, have subscribed liberally, and we also know of a number of young men, belonging to respectable Quaker families in this city, who have shouldered the musket and marched to the defence of their beleaguered country. A Card. PHILADELPHIA, September 1, 1862. To the Editor of The Press: Sin: I do not suppose for a moment your reporter wishes to do any injustice to the Republican Convention, or any of its members. Nevertheless, when he reports that I said in the Convention, on Saturday, "Don't talk to me about the distracted state of the country, when the Republicans are Sir: I do not suppose for a moment v called upon to support such nominations," he puts into my mouth words I never used, nor thought of using.
I love my country as much as any one, and no

man ever heard me speak lightly of her distresses.

Please do me the kindness to make this correc-Yours respectfully, WILLIAM GREGG. We, the undersigned, members of the Convention, heard no such remark as that above quoted made by Dr. Gregg. Edw. H. WILLIAMSON, JOHN W. FRAZIER, C. W. McCLINTOCK, JRO. C. SNOWDON.

GERMANTOWN, August 29, 1862. To the Editor of The Press: Sir. At 81 hours last evening a member of my family called attention to a brilliant comet in the northwestern sky. At 8h, 50m, the head was almost midway b tween the stars phi Brotis and mu Coronee Borealis, and so large and bright as to hide those stars from the unassisted eye. It is moving rapidly to the southward, and this evening will be near or within the circle of stars forming the band of the northern crown. The length of the tail is about ten degrees, with a decided shortening of the eastern side, about three or four degrees from the head. I am, sir, respectfully yours, G.D.

MEDICINAL. WONDERFUL SCIENTIFIC DIS-WONDERFUL SCIENTIFIC DISCOVERY OF PROF. O. H. ROLLES. 1220
WALNUT STREET, PHILADELPHIA.

BEAD THE FILLOWING CAREFULLY.

The difference between fact and fiction, of permanently curing the sick and suffering of their diseases, or advertising to cure, and showing but little or no oridence of cures, can be well appreciated by the anxious inquirers after health, upon attentively reading the following synopsis of certificates from some of the most reliable gentlemen in Philadelphia, who were permanently cured by Prof. BOLLES, 1220 WALNUT street, and after they had been given up as incurable by the most eminent medical men of this city:

The following is a statement of facts in reference to my condition and astonishing cure of Epilepsy:

For five years previous to my knowledge of Prof. C.

H. Bolles' discovery of the therapeutic administration of Galvanism, Magnetism, and other medifications of Electricity for the cure of all acute and chronic diseases, I had been severely affliced with Epilep'ic Fits of the most obstinate character, and had abandoned all hopes of ever being cured, as I had for years tried the treatment and received the counsel of the most eminent Medical Manney of the State, with a view of obstainter relief if Classical, and Military Day and Boarding—will reopen "THE SAUNDERS CADETS" will,

of ever being cured, as I had for years tried the treatment and received the counsel of the most eminent Medical Men of the State, with a view of obtaining relief if any could be found among the Old Schools; but all my efforts were unavailing, and, therefore, all hopes were abandoned, as I then knew of no greater skill for the ourse of obstinate cases than in the Old Schools. About six months ago my mind was turned to investigate the new discovery of Prof. C. H. Bolles, 1230 Walnut street, and, after noticing several sertificates of cures which were published, and some from persons with whom I was acqueinted and knew them to be reliable men, I was induced to call on the Professor and obtain his opinion of my case. After he had examined me about ten minutes, he frankly informed me that he could cure me, and offered to give me a written warrantee of a complete cure, and, in case of a failure, to charge me nothing. This at first seemed an impossibility; but the frankness and earnestness of the Professor convinced me of his scientific accuracy in the diagnosis of my case. He disclosed all my sufferings and symptoms for five years past as well as I knew them myself. I will here state, for the good of humanity, and especially those suffering as I was, that I am parfactly cured. I further would state that good of humanity, and especially those suffering as I was, that I am perfectly cured. I further would state that mere than four months have elapsed since my cure, and I have had no symptoms, and, therefore, feel confident that I am cured. I shall take pleasure in being referred of at any time by any one suffering as I was, and any information of my condition previous to my cure will be treely given to any one at 1542 North Thirteenth street, Philadelphia. Please take notice that Prof. B. does not advertise any certificates of curse, except those cured in this city.

GLUTEN CAPSULES PURE COD-LIVER OIL. The repugnance of most patients to UOD-LIVER OIL, and the inability of many to take it at all, has in-OIL, and the inability of many to take it at all, has induced various forms of disguise for its administration that are familiar to the Medical Profession. Some of them answer in special cases, but more often the vehicle neutralizes the usual effect of the Oil, proving quite as unpalatable and of less therapoutic value. The repugnance, nauses, &c., to invalids, induced by disgust of the Oil, is entirely obviated by the use of our OAPSULES. OOD-LIVER OIL CAPSULES have been much used lately in Europe, the experience there of the good results from their use in both hospital and private practice, seide from the naturally suggested advantages, are sufficient to warrant our claiming the virtues we do for them, feeling assured their use will result in benefit and ling assured their use will result in benefit and favor.
